Ke střetu mezi White Hats a příslušníky ozbrojených sil věrnými zločinnému Bidenovu režimu došlo v pondělí pozdě v noci jižně od Colorado Springs, podél Interstate 25, kde námořní pěchota Spojených států pod velením generála Davida H. Bergera plánovala chytit do pasti 18kolový vůz podezřelý z držení. další zásilka střelných zbraní určená pro IZS.

Rozvědky, zdroje sdělily Real Raw News, naznačovaly, že vůz se bude hemžit bednami s pobočnými zbraněmi, puškami a municí. Zdroj neupřesnil, odkud generál Berger informace získal, ale řekl, že „vypadalo to dostatečně věrohodně, aby se podle toho mohlo jednat“.

Generál Berger „aktivoval“ četnu průzkumu námořní pěchoty – asi 25 mužů –, aby zachytila nákladňák a zmocnila se munice nalezené uvnitř. Mariňáci údajně měli značku a model návěsu, stejně jako SPZ a plánovanou trasu. Generál Berger prozkoumal očekávanou trasu přepravy vozidla a rozhodl, že mariňáci, jedoucí na civilních SUV, by ho měli přepadnout zepředu i zezadu.

V 23:30 mariňáci nastražili past: tři SUV se odlepila před přívěsem tahače, zatímco další dvě, ukrytá v hustě zalesněném výklenku vedle dálnice, vyjely zezadu a v podstatě uvěznily nákladňák.

V 1:00 mariňáci, vybavení tepelnou optikou a podle našeho zdroje „moderní technikou, kterou veřejnost nezná“, spatřili jejich lom, jak se k nim křížuje. Měl pouze dva obyvatele, z nichž oba vypadali jako civilisté. Mariňáci zahrnuli na dálnici a skřípli nákladňák mezi přední a zadní část. Šest mariňáků sesedlo s tasanými zbraněmi, přistoupilo ke kabině a nařídilo pasažérům vystoupit se zdviženýma rukama. Řidič a cestující vyhověli a vypadali šokovaně, řekl náš zdroj. Mariňáci poté prozkoumali manifest, který neobsahoval žádnou zmínku o zbraních. Místo toho uvedl náklad jako 250 beden obličejových masek N-95.

Když mariňák, který měl na starosti operaci, druhý poručík, požádal o klíč k visacímu zámku, který zajišťoval dveře přívěsu, řidič pokrčil rameny a řekl, že klíč má pouze příjemce nákladu. Náš zdroj řekl, že mariňáci se neobtěžovali s hledáním klíče, protože si přinesli nůžky na závory, které použili k zaklapnutí zámku.

Sotva dva mariňáci otevřeli dveře, vybuchla z přívěsu falanga brutální střelby. Šest uniformovaných vojáků, tři na břicho a tři stojící, spustilo na mariňáky krupobití olova. Jeden mariňák byl zasažen třikrát, dvakrát do hrudníku, jednou do krku, a téměř okamžitě zemřel. Další mariňák ho střelil do ramene a do obličeje a silně krvácel, když ho jeden z jeho postřelených bratrů vytáhl z palebné linie, zatímco ostatní mariňáci se schovali za svými vozidly a opětovali palbu, přičemž vyprázdnili několik zásobníků na obou. nákladňák a zrádní vojáci uvnitř. Všech šest bylo KIA.

Mariňáci vyhodnotili svou situaci: Jeden muž mrtvý, jeden blízko smrti, několik povrchových zranění, poškozená, ale říditelná vozidla a šest mrtvých vojáků americké armády, kteří se pokusili přepadnout ze zálohy. Mariňáci zatklí řidiče a pasažéra, kteří si „čůrali kalhoty“, a zabavili nákladňák, který nedržel žádný náklad.

„Je to velká eskalace,“ řekl náš zdroj, „a tragédie. Nemluvíme o boji mezi Bílými klobouky a zkorumpovanými federály. Tohle je armáda na armádu. Generál Berger je z toho všeho smutný.“

Odznaky na uniformách padlých vojáků ukazovaly, že patří ke 4. ^{pěší} divizi z Fort Carson v Coloradu.

"Samozřejmě došlo k úniku informací a dostali jsme špatné informace." Generál Berger tomu přijde na kloub,“ řekl náš zdroj.

Aktualizace: Šest zesnulých US Army nosilo psí známky. White Hats se pokusí zkontrolovat zubní záznamy, aby potvrdili nebo vyvrátili, zda to byli vojáci nebo podvodníci.

Real Raw News is about to hit its 2nd Birthday. In November, we averaged 54,000 unique visitors and 175,000 page views/day, our highest count of any month. So far in December, we're on track to exceed that. Thank you to our supporters and readers.

I, for one, appreciate all you do, especially in the name of real journalism. While i understand that sometimes it may be necessary to deflect dark forces with articles, i believe you are with the right people, the best of the best, whom love God, country, & humanity.

Congrats and thank you Michael. This is consistently one of my most important news sources appreciate it.

Thank you Michael! Our family has been following you since December 2020. I don't think we've missed any of your articles.

You've been truly a blessing!
Happy Anniversary

Just curious what everyone thinks of Ye. Especially when he said, "We gotta stop dissin' Nazis all the time" and "Net N' Yoo Hoo" puppet show. I really haven't stopped laughing. Wish you had intel on that lol.

How much longer will it take to get our nation back on track? Balanced energy would be nice to experience, again. Were the military people inside the truck mercenaries?

Absolutely it will. The enemy may be much fewer, much weaker, yet they are thoroughly entrenched & still have monetary flow. Far more tentacles than perhaps what was known in the beginning of all this. I recall one military source comparing it to "whack-a-mole" ~ plenty of loser humans willing to play for pay, not realizing they are beyond disposable to those who hire them. Every bit of exposure is critical, & every action carries risk. We cannot begin to grasp all involved in these operations, but we can surely offer support in any & every form available. Pretty sure that "balanced energy" is the last thing most of those on the front lines are seeking right yet. Not to disrespect the comment or thought behind it, just reminding (myself included) that we are still very much in the thick of it, so to speak. Peace comes at a price, & this is decades in the planning & execution for that very reason it seems~ to keep casualties & mayhem to a minimum, whatever that may entail or end up being. #Ephesians5:11

Truer words were never spoken. We certainly don't want to quit before the miracle happens, especially with forces coming at us all trying to divide and conquer. Hang in there. Here we go, all.....

Probably, US Army 4th div. soldiers does not sound correct at all. They were dressed in army BDU's and unit patches, but the army would not put their own soldiers in that kind of situation. I spent 6 years in the army special ops and they don't do things like that.....

The uniforms and patches can be bought at any army base exchange, as well as many other places.

I remember being in the military, although years ago, 60's. We had a saying "you're just a number". I can see it happening.

Most definitely in US Army BDU's. Army special forces do not operate like that or wear unit patches to blow their cover. World wars usually last 4 years and the white hats have another 2-4 years to go...

Sounds more like Austin sacrifices! He sent 6 army soldiers against a battalion of Marines with new tactical gear...oh ok. All because Austin doesn't like the fact that DJT is showing him up. Go give Austin a Poseidon aircraft ride to Cuba.

I do believe I'd have been more careful and had the driver cut the lock to th truck doors.

This is horrible news.... I believe our nation is falling to the ccp and the only one's fighting are the likes of Kari Lake, not DJT.... He walked away from a stolen election and left his base in jail.... I am finding it harder and harder to believe T was ever a white hat.... I know my view is not popular here, and I mean no ill will, but T walked away from 2020; Lake has not walked away from 2022.

They all had to see. If they attempted to correct this in 2020 we would have had a civil war.

Right now people are starting to realize (finally). One of my favorite current posts going around Twitter shows that they are starting to realize...

"I am in absolute shock right now.

The main body of the Q drops resolved around a grand conspiracy, known as the Deep State, compromised of the top seats in the DNC, the media, the DOJ/FBI/Intel Community, Big Tech, Big Pharma, Academia, etc.

The #Twitterfiles lay out a paper trail which confirms there was malevolent coordination from these entities to carry out operations that assist the DNC in elections.

The TwitterFiles confirm Q's main narrative.

Baenciaga confirms the rest"

a civil war would be absolutely fantastic as compared to the last few years. How specifically do you think the millions of satanists are gonna go away if not killed by non satanists. it always had to be this way. should have started january 6th 2021 but drump wanted to remain peaceful and murder a few billion folk with his death jab.

Well you will find out soon now how wrong u r! Trump has not walked away dumb!!

Go back and read article where Berger called Trump about the Constitution. Trump did walk away

I am with you all the way. My allegiance is with the King of kings and Lord of lords. Trust no man especially here and now.

We know who has all control and he never loses, He always wins. His name is Jesus Christ my Lord and Savior. So put your trust and faith in him and you will be a real winners!

Your Lord and Savior sure didn't save the kids that were tortured and sacrificed and eaten. He also didn't do much regarding the kids that were part of "royals/elites hunting games". And did he save all the people who have died from the jabs and other illnesses courtesy of Big Pharma?

Yes there was a 13 year old came through our hospital today; father found her unresponsive, in bed, having seizures, he began CPR. She was in bad shape.. no doubt she got recently boosted, we were so swamped I don't know what happened but we got no more blood gases on her so she either died or was flown elsewhere.. hard to believe these people can be so clueless.

It baffles me (or maybe not with some) that whenever evil is done on the earth that God is immediately blamed – NEVER the devil and his minions – always God. Death is certain no matter WHO it is. I can guarantee that **anyone** who has touched and harmed a kid, they just made their bed in hell, cabal or no cabal! Also, any of those children that were harmed are back in heaven with Him – yes even the aborted ones. Stop blaming God for 'allowing' all the evil things happen on the earth. The devil is roaming the earth like a roaring lion killing ANYONE in his path.

God gave us free will, remember that. Not to be insensitive to those who've suffered vaccine injuries, it's tragic it really is. But all is of the devil's doing and whoever took the vax did so of their

own free will; it was an experimental drug and didn't go through proper protocols of testing. You can't blame that on anyone else but the people who rolled up their sleeves. Put the blame where it belongs.

We have been waiting on pins and needles for him to take his place as President! People in prison? People starving to death? People in a panic and he sits in his posh home in FL only to find out he has decided to go for another election.

It doesn't work that way. This is a long term infestation.. it's not a stolen election or two. They are being put down for good... you sound like controlled opposition.

It's people like you who will stuff up the 'PLAN'. President Trump has proven to have been loyal to the Country and its People for over 7 years. He's had numerous attempts on his life, but still he continues to fight. Just because you don't understand his reasoning, doesn't give you the right to judge. But more importantly, you are putting doubt in the minds of others who are as fickle as yourself.

We see too much suffering when he could easily take his place as President.

As you say I have no right to judge, you judge me as fickle! Get over yourself, ma'am as I have just as much right to my thoughts as you do!

loyal to the jews and big pharma dont you mean.? how loyal was he to the January 6th folks? or the billions dead from his death jab? fuck you and him both.

I'm sure Trump is still operating but in the shadows. He hasn't given up by a long shot.

I hope so as I love our country, but the j6ers are still in the can as Kushner's dad was pardoned for his criminality!

I understand you. I feel you. I'm not happy with his decision to leave so many people in jail and so many of us starving to death. HOW CAN HE! He needs to get his ass in gear!

.....and you need to THINK a bit more and realize that none of us know what is going on behind the scenes. You are painfully naive, I'm sorry to say.....

you dont know either... so how can u call someone naive when they are in the exact same situation as you? you gotta be vaccine injured to be that stupid.

Lorinda, if you and yours are starving, get help at the food bank or other services. All of us are upset about the people in jail. He isn't ignoring the problems, but sometimes you have to play the hand you were given until you get a new one. In the mean time, ask for help.

You are starving, really? You mean, first world starving, right? Meaning you're only about 40 pounds overweight I would guess..

I agree Lorinda. I, for one, would never be able to complete one single game of golf while children were being hurt on my watch and because of my inaction. Kids are being sodomized, tortured, beaten, cut up, eaten, and drained of adrenochrome from their terrorized blood. They die horrible, unimaginable deaths....The more horrible it is the more adrenochrome is produced for Satan's minions..And there are other things, other things that are too terrible to mention. Even more terrible than what I just said. Now Trump needs to do his job and personally I think something

needs to be done about him this very minute before one more child dies. I could give one shit about treason in comparison to this atrocity committed by Satanic abberants. The real Trump better come forward and do his job or it will have to be done for him

Last edited 1 hour ago by Windtalker

Trump didn't walk away from anything. After everything that he has been through, he continues to fight. He simply needed to change tactics.

Bob, Trump has been working like a one armed paper hanger. He has been busy as we sit here and complain.

What you refer to as complaining, I view as concerned. My remarks are not intended to make me the center, but rather realistically point toward the future of our nation, as there is an entire 2-3 generations of - homo kids who are going to make sure we keep our thoughts to ourselves as in Orwell's 1984.... We will have to contend with them as 80 year olds! The pain is just beginning.....

The old CCP just collapsed with their Rothchild controlled leader; Jiang Zemin, who had a "heart attack", somehow and Xi Jenping was installed by the "White Dragon Society", who secretly control China and China is introducing a new "Yuan Dollar" to deal in petroleum. The US fiat "Petro Dollar" is DOA....

and the backstabbing military has turned a blind eye to countless stolen and rigged elections because they are controlled by same people that rig elections.

thanks mike. this story gave me cancer. jfc the dumbest thing i've read all day

And yet here you are again day after day, lapping up whatever you can find on here and spewing your BS all over the place. You're not fooling anyone, troll-turd DF.

Anything you post is invariably the dumbest thing I'll read all day.

And please keep thinking I'm MB. It just underscores how much I'm living rent-free inside your very spacious head...

brought alllllll the sock accounts for this one.

Imaooo

ban this ip again and i'll reappear. tell heidi i said hi (lol)

Ok, let channels on Biden's, O'Connell, Schumer, Clinton's, pelosi, rino assrats, Cheney, AOC, Obama, names etc and you're ok with that? All should've be in jail/executions for treason, corruptions, seditious but like you only read about trump?!

And so what begins? There is nothing positive about this alleged encounter at all. The Dark Side might as well be mounting a Tet Offensive.

Yes, anytime we lose good soldiers, it's a negative event. Recently we've had a lot of negative events because of poor planning and putting our soldiers in the line of fire when they should be standing back and blowing open the doors with explosives instead of being human Shields every time.

The timetable had to accelerate as the dark side has pushed it to that. They do not realize that it will be a bigger detriment to them than to those they wish to harm. We are all being forced through the funnel and I do not know one person who isn't feeling the effects of it right now.

Exactly. Sad that many are feeling the effects of this but yet are still got the blindfolds on (in many cases willingly).

Nevertheless, it's only a matter of time before the hammer drops.

I can't ignore the following;

==> Whistle Blower

===> Information War

==> Disinformation War

Someone is feeding these information and doesn't mean the entirety is factual.

I know how a Whistle Blower can be used to feed information in order to bring further a broader agenda... especially Military Whistle Blowers...

Keep in mind Sun Tzu

There is thing reported by the WB who are factual, the timeline might not.

We are just reader, watcher, critical thinker.

Even Micheal Baxter knows he may be just a part in which information and disinfornation are told as part of the operation against the Deep State

This website is accessible to anyone, VPN are easy to use and who did not hear Mr. Baxter says once, the website was under attack following a reporting... meaning DS as well as Patriots are watching.

I believe Patriots to be much smarter and several steps ahead.

Only time will tell if I'm right or wrong about that.

But this website is without a shadow of a doubt a tool used to feed precise informations to get a reaction from the other side.

All isn't black or White

Lot of greyish we do not know because we are not in the inner circle.

Also, not because someone is wearing "X" uniform that means that person is part of that group... I heard often criminal disguised to make the other side believe it comes from that group while it has nothing to do with them... So, I guess NCIS or a deeper look will determine who these KIA guys were in fact.

Keep in mind the Antifa POS disguised as Trump supporters on January 6th 2021 as easy reminder...

Closer to the end higher the stress will be.

I do expect a very happy ending unless you are DS or a sympathizer

DS, communist or traitor are interchangeable term !

Grey is a color of significance. If not everything is black and white then that is when we utilize our "grey matter" to think more critically and analyze that which is being put before us. The hour of critical thought and discernment is upon us.

Think of this scum as (((Bolsheviks))) because that's exactly what they are. Trotsky, Uritsky, Yagoda, Zinoviev, Kaganovich even Stalin all (((Bolsheviks))) and the biggest mass-murderers of ALL time. (Far worse, 10x or so, than what Hitler was even ALLEGED to have done...) And not

accidentally, nearly all from (((Ukraine))) – waging endless war on Christian Russia next door. This current war against Russia is just the latest in a LONG operation, to eliminate Christ and literally take over the world, the basic goal of Zionism.

I truly hope Christ sends this scum to Hell, soon..... but we better be prepared to do the job ourselves, because.....

“Even the angels in Heaven will not know the exact time and place of My return....”

Maybe, just maybe this will finally lead the White Hats to step in publicly. When will enough be enough?

I was going to say the same thing! Enough is enough. When our soldiers start getting ambushed it is time to call in the big guns. Our Military needs to step in, now!

I feel certain the actual soldiers and generals know best how to fight this war.

There *also* was a leak with the helicopter sabotage which we never got any follow up about.

Just like complaining about election fraud and not doing anything until the next election where fraud happens again, not doing anything about leaks only encourages more of them in the future.

Find the mole(s) and make examples.

Not likely they are going to publicize their finding to track down the leaker. This is the first counter-attack from a leak for many months. Given the amount of actual activity with busting the DS a holes, the previous leak must have been plugged.

You are wrong, there have been many leaks and many deaths of soldiers because of the leaks. Case in hand, the Federal Reserve building recently where Biden’s people were printing tons of Fiat money and our soldiers went in and got shot to pieces.

Military on Military....who would have ever thought...I know lots of people in the military, I wonder if they know....

This is all fake. There is nothing to know. The military backed the coup and stolen election and there are no “white hats.”

It’s a dopey fairy tale.

The nation fell, the elections are fake and that’s it.

just take drums death vax and be quiet sir. the white hats are coming.. 2 weeks.

Peel back the onion layers on the comms and figure out the rat’s name. The officer at Ft Carson is probably never going to have a good nights sleep ever again. Give him a dirt nap for good measure.

“Insignia on the fallen soldiers’ uniforms showed they belonged to the 4th Infantry Division, out of Fort Carson, Colorado.

“Obviously there was a leak, and we got fed bad intel. General Berger will get to the bottom of this,” our source said.”

This is horrible. God protect and comfort the families. **HELP IUS FIGHT BACK THIS HEINOUS EVEIL ON OURLAND. FOR CHIDLREN.**

Thank you, Michael. We must all fight back against evil. No compromise.

Xena the six dead US Army Soldiers have yet to be positively identified , they might NOT be US Army. Do you comprehend what you read? So slow down , read and think before you react.

Well since we're talking about comprehending what we're reading, has anyone thought through the fact that these "marines" were outfitted with tech not yet known to the public but didn't have anything capable of letting them see the 6 armed guys on the inside of the trailer? Seems like having some ancient thermal optic devices would have been able to do that...

WE do not know what technology these Marines had with them, possibly the soldiers in the trailer waiting to ambush the Marines had some technology that mitigated whatever the Marines had with them, the soldiers waiting in the trailer were obviously tipped off, so they may have known what the Marines had with them as well. The problem is folks at these websites like this one are quibbling over shit , making judgements , commentary , criticism of these operations and what these soldiers should or should not have done and we , these folks have no idea of what is going on, nor the danger and complexity of these operations. The discussion is not right nor appropriate and people do not understand this. YES we have freedom of speech, no denying this and nothing should take this away but these discussions are NOT HELPING and MB made a point of stating this when he prefaced some of his more recent stories talking about these very realities and no one seems to have listened or acknowledged what MB was talking about. PEOPLE craved information, MB is providing what he can, yet the discussion devolves into this. As things heat up, and I would count on that, MB may very well have to stop reporting altogether , And this is not meant to be a threat , this is reality of WAR, it is just that simple. People have been conditioned by the msm , movies etc. thinking this is how things should be or this is what they should have done, and this shit does not work that way. This is not a football or baseball game. This is not meant for armchair quarter backing after the game so – to – speak. Take Care Guy

Precisely. With all the suppressed technologies that the military is privy to, you'd think they'd be better equipped.

Assuming that this incident actually happened. I'm not saying MB is purposely posting disinformation but the fact remains that we have no proof other than blindly believing what he says. In the world we're living in right now, that might not be good enough. We are surrounded by lies. Until we see concrete evidence, it's not unreasonable to question.

Humanity got into this mess by blindly believing everything we were fed. Just sayin'..

What were they told about the attack? If the soldiers had known that it was fellow soldiers, they might not have attacked them.

If they were real Army, very sad for them too. God only knows what crazy stories they were told and were only following orders.

My son used to be stationed at this base, infantry. My heart cries for all of these soldiers. Couldn't we just take out, kill, the snakes giving these orders and spare our soldiers???

Sorry, but the soldiers have brains and they decide which side they are on. Either they are extremely stupid or ultimately corrupt. Neither should be forgiven. We need smart non-compromising soldiers not corruptible non-discerning dipshits. Just following orders doesn't cut it, period.

Last edited 7 hours ago by Johnny Lunchbucket

You have no idea what those soldiers were told. They were following orders. You sir, are a fucking idiot.

Sincerely, Army Mom

people that blindly follow orders get what they deserve. our military has been 100 percent deep state for 100 years at least...all wars are banker jew wars whether youre smart enough to realize it or not.

Coming on the heels of the previous post, I'm saddened but not too surprised to see something like this. There's going to be a lot of nasty stuff happening in the days ahead. I hope the source of the "intel" will be dealt with in an appropriate manner, as it was an obvious setup. SHTF Day is here.

How did the traitors know they were going to be intercepted, White Hat look for traitors within

Last edited 9 hours ago by ken

I think but I do not know. I think communications are being intercepted , covertly. In these times there is so much technology out there available to various parties , government, private contractors and criminal actors so the idea of having completely secure communications is very difficult and in some cases maybe impossible , having said this, there very well may be no leak , no spy , no corrupt party in the ranks or chain of communication. This could all be about hacked , corrupted or compromised communications networks and not about individual bad actors. In fact it is so difficult to achieve secure communications these days that in many instances , the only way to secure absolute secure communication between parties is to meet in what is referred to as a SCIF, I will not talk any further on this issue.

The White Hats are working from the bottom up. Time to go after the top and work their way down. Lloyd Austin would be a great place to start.

They need to stop screwing around and just arrest the people in charge already Lloyd, Milley, Biden, Obama and Harris and end all these stupid antics they have been playing for the last 2 years.

The bad guys know What the White Hats are doing and are just strengthening their defenses. They would never have expected an all out arrest in the start of all this.

Biden, Lloyd and the rest would never have been in charge and the IRS would never have been made bigger.

Now they have poisoned half of Berger's troops with the vaccines and are just waiting for them to die already without a bullet fired. They all ready know their are traitors on both sides making the stuff just stupid at this point.

Civil war 2 ??? 6 people died, it has already been way more than that with all the Jab deaths.

There are times I wish I was still in serving with my brothers in arms, but I would have been discharged by this time for telling people higher up to "take you dump or get of the toilet" saying that politely.

At this point they are just wasting time and lives. If they had taken the leap to start all this stuff happening now would not have been happening, since Fauci and the whole gang in the White House wouldn't have been their mucking up the world.

I'm just wasting my time typing this since it matters none.

God Bless everyone...Happy Holidays....

Bad intel? Yeah no SHIT! If they want war then activate the public! This is our country! The military is inept. We are not.

lmao.. they wont even speak one real truth to the public in 6 years. you think they are gonna activate them to kill the deep state?

I doubt if the six Army guys had much of an idea what they were doing. Probably thought they were just ambushing some truck hijackers. I hope they catch the SOB who set them up and planned this op.

Spot on. Also these army soldiers would stand zero chance of survival in the back of a semi. when confronted with organized opposition.

Yep, and don't you have to wonder if the dudes in the back of the truck were actual US soldiers or if they were impersonating same.

That's being looked into. Dental records will show if they were real soldiers or not.

Mr. Baxter, the Marines had thermal imaging equipment with them so they would have seen the six inside before bolt cutters. Just want you to know that these stories do me lot of good.

I can't explain why they didn't.

I've done some research on how thermals work. They don't work, for example, if a truck is lined with polish metal, aluminum, or lead.

I'm not saying that's the case— I don't know. All I know is what's written in the article.

I doubt, though, that they'll do a meteorological analysis of the truck. Gah, I meant metallurgical

COUNTER MEASURES AND OTHER TECH THAT CAN MITIGATE WEAPON SYSTEMS are developed as fast as new tech and weapons are created and developed, this is what the military – industrial – intelligence complex is all about.

Most trailer wall these days are aluminum I believe so you maybe correct on this point.

It may not work w/more modern thermal technology, but I recall learning from a border agent that panes of glass, those silver "space" blankets, & even wool blankets can contain a heat signature & fool detection for varying amounts of time. Rudimentary, at best, I would think~ yet much we've seen from the opposition to date has been just that.

Michael, please let us know if you learn if they were real or not. Thank you.

EXACTLY , these Army soldiers have yet to be positively identified, they could very well have been illegal immigrants or INSURGENTS that recently crossed over the Southern Border and were higered for this operation and planned ambush. But we will have to wait for further info and most probably we will never get the answer. That is just how it goes , WE ARE AT WAR.

we are at war... and 7 years in drump still hasnt actually told folks " hey we are war" might wanta protect yourselves.

Yes, the soldiers in the trailer were on a suicide operation, whether they were aware of this , we will never know.

The dudes in the trailer didn't make it. However, the driver and passenger had a front seat view of all of this from the moment the truck first moved. There's where the intel info will come from. Most trucks are outfitted with onboard GPS for insurance purposes so it should be too hard to tell where this truck came from.

That GPS could have been disabled or compromised, but there is NO DOUBT that issue we be explored. And there is a work – around for that too.

Flag upside down means EAS any time soon....

Let the cleanout begin. Support the Constitutionals in your mind and heart.

Hey Gen. Berger-meister! You have a mole within your operation! This isn't the first time you got baited w false intel either!

It's been about a year since something like that happened, and although it's sad, given the amount of activity by the WH's since the last leak, they're batting about .900.

This is getting pretty scary now. Why do we have to wait any longer? Austin, the strong-arm, is showing his true colors and has had Marines suffer for his treasonous behavior. Let's get 'em!

I have no idea if they tried to use thermal to see inside the truck, or if for some reason that didn't work. I'm reporting what I know. If I get additional details, I'll share them.

Great Question. Even I thought... this could be an ambush – when the driver seemed so non-chalant and remembering what happened at the FBI... It would have to occur to someone that the odds of there being armed military in the truck would be rather high... even without the thermal optics working or not. Why not just leave the truck locked and transport it to where the White Hats have an advantage in any conflict?

It could have been armed INSURGENTS in this trailer. These Illegals , invaders may have recently crossed over the Southern Border, were hired on the spot for what would be a suicide operation. And no doubt there will be more of this shit with well over 5 MILLION of these people having crossed over the border since Pedo-joe Biden came to office.

A simple bolt cutter or portable grinder is more expedient and safer. You do not know exactly what is in the trailer, the Marines were possibly expecting arms, weapons and ammunition. The C4 would have made this a fucking disaster if ammunition and explosives were in this trailer. What if this trailer was being used for human/child trafficking, what then owd?

or lined with any polished metal, lead, or aluminum foil. I doubt a metallurgical analysis will be done on the truck.

Why not just blow the truck to shit and then see what remained! Why are you being so surgical? Also, what idiot would cut the bolt off a door and just stick "your head in"! Hell, use a javelin missile to open the door; then knock! We are being too damn civilized with these people. If they were military, why are they riding around the country in the back of a truck full of contraband weapons?! Seems like they wound tail in their own SUV's?! This makes no sense, or we should be concerned with the way our "specialists" approach targets of value! This was a polish plan!!

Before this operation I would have asked the question: if this truck were an ambush how many enemies do I have to be prepared for – ie.how many combatants might I have to fight if this isn't arms but the truck is hiding enemies? I'd also have a plan to fly the prisoners to the nearest white-hat JAG base. It also wouldn't hurt to have two mini-guns aimed at the doors as they opened.

Rob , you are brilliant , a VIRTUAL BRAIN TRUST. Just what the fuck is the Corps doing without you. You should enlist in the Corps IMMEDIATELY. LIKE RIGHT FUCKING NOW. MOVE IT , MOVE IT , MOVE IT

The rat who is leaking information to the enemy needs to be found immediately. I am sure they have an idea who did this. It is sad to lose our men. It is disheartening to know that you have sent your men into a trap. However, it didn't turn out exactly like the DS intended it to. The soldiers out of Colorado, thought they were trying to stop the bad guys I am sure and they all ended up dead.

The demons in charge of this need to be taken out. Lord be with our military and help them to be discerning and know when to battle. I can't wait for all the demons to be eradicated. God bless the White Hats and President Trump.

They stopped somebody that did or was doing something secret or 6 military wouldn't have been ready to kill in the back of the truck. N95 masks is out of the truth because it's a cover for some other cargo. I figure a guess, they got the transporters coming from where they already dropped off the cargo. Someone wanted these guys in the truck dead after the job.

This Comment has nothing to do with BAX1 or RRN ~ it has to do with something else..

Any trained military personnel would have used a heat sensory activated gun to sense heat or occupants inside the cargo area. They are not students. The glitch here is they were ambushed from the interior without checking.

That is a big problem with our side. They're either fucking stupid as rocks or the shoe doesn't fit, so I must acquit...

Nonsense people, owd is no rocket scientist but really folks – don't give me a snow job and not swallow!

If there was no weight on board, the suspension position should have alerted everyone of a possible problem. And yes, you can tell.

The freight on board was supposedly crates of N95 masks which probably don't weigh very much. 6 men at 200 each is 1,200 pounds, barely enough to notice on a semi trailer

You're telling me there were no civilian vehicles on Interstate 25 coming or going when all this went down? What are the odds!

“General Berger had scrutinized the vehicle's expected route of transit and decided that the Marines, driving civilian SUVs, should ambush it from fore and aft.”

I am not intentionally trying to be a pain in the ass today.

I know there was nothing mention. That's why it doesn't make sense. I never known a busy major Interstate of not having any civilian cars at certain parts of the highway at any given time. All this had to take time. You had shootings and dead bodies and wounded to take care of, vehicles to move out and clean up the scene and all this went down in the middle of the highway and to do this before any car comes along on this major busy Interstate before anyone can witnesses it. That's kind of hard to believe. That's something you only see in the movies.

I-25 is a pretty busy road, even at night; somebody must have been driving by and seen or heard some of the action. and, of course, people have cell phones wired into their cars now. i would imagine a passerby would have at least called 911 if they heard gunfire. perhaps the Denver Post will have a story in the morning!

Sounds like there are black hats imbedded with the white hats and they need to be found out ASAP, this was a obvious set up.

Come on Gen Berger. You learned your lesson from the Federal Reserve Incident right? Never underestimate your opponent.

We desperately need our Commander-in-Chief to step back in to assist Berger! Sending prayers and love to the families of the fallen military! What a tragedy!

What do they call that, a decoy? No, that's not it. When they're given false info while their real target makes their escape and their destination?

I think Austin needs a ride to GITMO... Since he or Congress are LEGAL.... Time to take over the MEDIA and PUBLISH THE PROOF THAT the BIDan is not A REAL PERSON or REAL PRESIDENT... THIS HAS GONE ON LONG ENOUGH...

Come on- even I knew that was going to happen. You're telling me the Marines just walked into that and got themselves shot up? Not a chance.

Tell us about your dream, some times God reveals to us through dreams. Many years ago I had a vision, I was looking at the ocean and in this vision I was told that there was a enemy submarine deep in the sea and then I heard the word Ballistic. At the time I had never heard of this word and I looked it up and I knew then what it meant. Don't be surprise of a sneak attack on a big city near the coast.

I'm sorry to hear that troops from the 4th Inf have joined the Black Hats. I spent a lot of time on the Ft. Carson base, and was treated well by the men of the 4th. Of course, that was a long time ago. At the time, the Base Commander was Maj. Gen/ Autrey Maroun, who commanded the 5th Inf. Mech. He passed in 2005. He was succeeded as Base Commander in 1966 by another, but I don't remember the name. Obviously, not all the men at the base work with the Black Hats, but there is apparently a faction there. Six less, at this time.

Or they were sent in to be shooting at their own compadres!!!

Was there actual weapons in the trailer? This has the feel of spilling over into civil war. We need the real truth to come out NOW. White hats will win. Guaranteed. !!!! MAGA let freedom ring. Free people's minds and take back America from these Nazi Pedos

Oh I missed the fact the cargo was a decoy. Worse even.

exit stage left SnagglePuss.

All mighty Lord have mercy of our Nation. Help the white hats against all evil. This country has many, many, many people who have not kneel to Baal. I ask in Yeshuas the Mashiah's Name. Amen.

What did you think was gonna happen, by letting the traitors stay, 'in charge?' How are the 'optics' looking now? You want to wake people up, but you keep letting the weasels broadcast their lies? Great, 'plan.'

there is no plan and there are no white hats. If we are truly relying on the stupid as fuck vax pimp there is no hope for humanity.
