Agitovaný aktivista proti očkování Scott Adams říká, že Čína stojí za „téměř všemi našimi největšími národními problémy“

Scott Adams byl před volbami v roce 2016 docela dobrý. Byl jednou z prvních osobností veřejného života, která řekla, že Donald Trump vyhraje, což byl působivý výkon.

Ukázalo se však, že to byla náhoda. Po volbách Adams pokračoval v komentování politiky a událostí a stal se z něj vakcína.

## How it started:

VS

## How it's going:

Má o sobě představu, která je založena na přesvědčení, že má ve všem pravdu, takže poté, co se v tom vaxu naprosto mýlil (způsobem, který stál lidi životy), nedokázal to nechat jít a prostě pokračoval. tvrdit, že měl ve skutečnosti pravdu, protože se řídil vědou a není to jeho chyba, že se věda mýlila.

If your worldview on Covid is that all of the early data showing the shots were beneficial were not credible, but the newer ones that agree with your worst suspicious are credible, how'd that happen?

Did science improve recently?

— Scott Adams (@ScottAdamsSays) [January 7, 2023](#)

Tento týden zvýšil důraz na praštěné retardované nesmysly a začal propagovat válku proti Číňanům, aby odvedl pozornost od akcí lidí ve Washingtonu.

Nearly all of our biggest national problems are either caused by China or exacerbated by their actions.

— Scott Adams (@ScottAdamsSays) [January 7, 2023](#)

Je prostě nemožné dostat se do hlav těchto lidí.

Co přesně Čína udělala?

Pokud se jich zeptáte, začnou mluvit o TikToku!

Za prvé, pokud by Čína používala TikTok ke špehování lidí, neznamenaloby to „všechny naše největší národní problémy“. Za druhé, TikTok neshromažďuje více dat než jakákoli jiná aplikace. Zjevně jsme v pořádku s vládou USA a všemi těmito společnostmi, které shromažďují tato data.

Samozřejmě, důsledek těchto neokonzervativců jako Marco Rubio a Tucker Carlson je, že TikTok shromažďuje více dat než tyto jiné aplikace. To by samozřejmě nebylo možné bez spolupráce Applu. Tyto aplikace musí odeslat svůj kód, aby se dostaly do obchodu Apple. Pokud je obvinění, že Apple, jedna z největších amerických společností, je zapojena do špionážního spiknutí s nepřátelským

státem, je to mnohem větší zpráva než čínské špehování náhodných teenagerů. Bylo by také mnohem jednodušší se s tím vypořádat – Apple by měl být obviněn z velezrady.

Ale konverzace s těmito lidmi nikdy nedosáhne takové úrovně. To vše je propaganda nízkého rasového strachu.

Mám rád různé (dobré) vietnamské válečné filmy. Apocalypse Now je daleko nad tím nejlepším, ale Full Metal Jacket je také velmi dobrý. Platoon a zbytek filmů Olivera Stonea jsou zajímavé. Všechny tyto filmy však Číňany vykreslovaly jako jakési bezduché hmyzí lidi náchylné k pobuřujícímu násilí. Myslím, že z uměleckého hlediska je to naprosto přijatelné, protože jsem si jistý, že to tak cítili američtí vojáci a cílem filmů bylo spíše vylíčit zkušenosti těchto vojáků, než férově zatřást šmejdy. Zdá se však, že tento obraz Vietnamců (jižních Číňanů) přetrvává v kulturní paměti Američanů extrémním způsobem, a to až do bodu, kdy vláda/média mohou fungovat na základě předpokladu, že Číňané jsou od přírody zlí a musí něco vymýšlet – ať už je to cokoliv.

Osobně mě Čína vůbec nezajímá. Je pro mě relevantní pouze ve vztahu k Americe. Problém, který s touto posedlostí Čínou беру, je ten, že je vždy, vždy, vždy používána jako způsob, jak lidé ve Washingtonu – kteří jsou lidmi ve skutečnosti zodpovědní za všechny problémy Ameriky – říct „hej – podívej se tamhle!“

Mimo židovskou neokonzervativní agendu světové nadvlády mají demokraté i republikáni velký prospěch z toho, že mohou tvrdit, že problémy, které způsobili, jsou ve skutečnosti nějakým způsobem vinou podivných lidí na druhé straně planety.

Mluvit o Číně jako o velké hrozbě je vždy odvádění pozornosti a vždy součástí agendy lidí, kteří tuto zemi ve skutečnosti ničí. Je to prostě nepřijatelné. Je to vlastně velmi v souladu s šilinkem smrtící vakcína proti lidem, kteří vám důvěřují.

Scott Adams is a very clever and intelligent man but completely lacking in principles (just like Elon), and so, he is forever carried by the winds to supporting whatever he thinks is going to be the most popular and moderate thing, which is oft wrong entirely.

I'm no virologist, nor a vaccinologist, but a vaccine that is purported to be 100% effective and with no safety concerns already sounds as real as a Skittle®-shitting Unicorn without getting into its storability. Adams is a midwit who is convinced he is a genius based on his powers of everyday observation, which is kind of funny, because Ben Garrison out-Adams Adams himself in his own genre.

As for Chinese and our data, sure, I don't want the gooks hoovering up all my data, but they can't do much with it. It is my own governments that can use it to clean out my bank accounts, take my property, and put me in jail by misusing my data that they surreptitiously gather via back doors they insist are left in Western-origin hardware and software.

Here's a John Lennon Imagine Mind Game everyone can play. Make a list of all the problems facing the US. In order of importance.

Now, imagine that all the Chinese in the world were suddenly gone. Would that fix America's problems—the ones on your list?

Other than 'cheap stuff from China' my guess is that most if not all of your list's problems would remain. [Of course if you are a woman, it might fix your 'American men prefer slim Asian beauties to fat tatted American girls' problem.]

Now, do the same for black folk. Then Mexicans. Jews. Count up each of the problems that would be 'solved' with each group of absentees. Compare your list with others, and make conclusions. Rank your results.

I'd like add women to the group of those making problems, but you need women for kids, so it's not practical to imagine them away. However, with discipline, most problems women create can be fairly well controlled.

China is not my friend, and China has many problems. Still, after the communist party moved away from Mao's disastrous pro-natalist "strength through numbers policy," and shifted from orthodox Stalinist economic principles to something more like Lenin's New Economic Policy, they lifted over a billion people out of dire poverty, and surely that's something of note.

Capitalist India can't say the same ('work like a dog for a multinational corporation for a subsistence level wage or go hungry' is surely capitalism at its purest).

But while China may well be a rival power worthy of consideration, my enemy is not China. It's the US (western) elites. They have opened the border to unlimited third-world migration, a vicious amoral policy designed to drive wages and living standards down for the many and rents and profits up for the few. It is the US elites that shipped our industrial base to China – China just took what was offered freely. And then there are the tens of trillions of dollars in subsidies and bailouts to the super rich, and all those trillions wasted on endless pointless foreign wars, while our own border is unguarded.

My enemy is not China, it's Soros and Zuckerberg and Gates and Bezos and the CEOs of the big Wall Street banks, etc. And my enemy is winning.

People like Adams can never in a million years say it's the jews because they know how fast the jews will destroy their lives.

Anyone with sufficient intelligence should be able to see that jews run the government, Hollywood, media, etc. So instead they have to project it on China or Muslims or anything but the jew.

| What did China do, exactly?

Good question. American companies couldn't move fast enough to ditch their workers and move overseas. That's the fault of the Chinese, one supposes. They "stole" the jobs is how some deluded people put it. What we have is different people have different targets and scapegoats. Some prefer Russia, others China, Iran for others and so on down the line.

Adams writes comics. He's a comedian.

Comedian tells a joke. It's kinda funny because he's pretending it's not a joke, see?

Adams blames China for the death of his adopted son, instead of a) having his own damn children and instead of b) blaming the parents for raising a druggie, i.e. himself. As always, just lying, kto kogo, venal motives. He probably didn't even love the kid – he's just mad that the brat's failure makes him look bad. Anyway Adams is just some degenerate egalitarian, let's talk about something else.

Chinks really are kind of soulless and hive-minded. Though I'm talking about Han. The Cantonese are kind of different – very noticeable if you're a local. I don't know enough to characterize the Cantonese yet.

Like many Asian races the Han have a superb visual sense and their aural taste is hardly bad. Recently China has been attempting to compete with Japan's anime and manga industry...the results, by and large, have been laughable. They make excellent opening art pieces and then drop the ball for the rest of the 20 minutes.

10/10 people would prefer to live in Asian architecture than anything the West has produced in like the last 200 years.

However, China has apparently three stories in the entire nation, they were written hundreds of years ago, and they're mid.

Fictionalized history, barely even trying to be original. Confucius say: be boring as shit.

The question: what has Westernized Japan? Korea's crap is crap too, which is perhaps a hopeful sign. Primarily cultural, rather than a flaw in the blood. It can be fixed by locating and discarding the relevant delusions. Sadly this means they would have to start studying Socrates, who is no ancestor of theirs, and didn't write in hanzi...

Take what you know to be the Jews doing it. Specific Jews at that. Names, schools, CEOs of companies, with real addresses and early life spelled out in Wikipedia pages. Then blame the Chinese, CIA, Illuminati, Nazis, City of London, KGB, etc.

It's the common thread between Lyndon LaRouche, Alex Jones and now Scott Adams.

Talking about China as a major threat is always a distraction, and always part of an agenda of the people who are actually destroying this country.

And there has been plenty of Chinadiditry on this website since 2020. John Derbyshire, Michelle Malkin, and Ilana Mercer are three Exceptional! propagandists who come immediately to mind.

“Nearly all”? That is an exaggeration.

However, the threat to American workers is very real: (1)

The Chinese Communist Party’s (CCP) rise to illegitimate prosperity is one of the greatest threats to the American way of life, and it’s been fueled by the theft and abuse of information at every turn, from intellectual-property theft to unfair trade practices to the spread of propaganda that obscures the CCP’s intentions and covers its tracks.

...

Under the direction of top officials in the CCP’s Office of Overseas Propaganda, China has established a network of 50 so-called Confucius Institutes at American educational institutions. In 2009, Li Changchun, then head of agitprop for the CCP, called these outposts “an important part of China’s overseas propaganda set-up.”

When IP moves overseas, jobs go with it.

Is China the only trade and IP predator out there? Of course not. Gradual decoupling needs to apply to other nations as well.

---

What does America need most? Good jobs at good wages.

Remember when you could have children and a good life on one parent’s salary. Reindustrialization is an American necessity. Part of that is making sure that U.S. intellectual property that supports manufacturing stays in America.

American national security requires extraction of raw materials and making critical goods here at home. Ending Not-The-President Biden’s green boondoggles and restoring America to “Energy Independence” needs to be a top priority.

PEACE

Exactly right. China is a distraction. You would think people who realize the covid mania was a lie, that the vax is a lie, that Jan. 6 is a lie, etc., etc. can not make the connection that the same people are the ones telling them how awful the Chinese are, without making the obvious inference that these are liars, so ... maybe they are lying?

Anyone of sufficient intelligence can clearly see da joos aren't in charge of shit.

They're employed to implement the system precisely as a trap for midwits like you. The more you focus on the activities of da joos the less you look for where the orders are coming from. The constitution bans the Thousand Emperors from giving themselves privileges, so they give privileges to their gofers and secretaries instead. As it turns out, aristocrats should have always done this. Ablative armour.

Of course if you had a habit of minding your own business instead of being a meddling busybody, you would realize it doesn't matter in the first place. Don't send your kid to school. Don't take the vaccine. All of a sudden, it doesn't matter whether Pfizer paid off the FDA or not. It doesn't matter if they teach gay transexualism in schools or not, because it has nothing to do you with you.

America is a free country, you're just not a free person.

Of course, this is by design. You're well aware da joos can't do shit. You know damn fine where the problem is – you have to obsess precisely because it takes that much effort to avoid having to admit it.

Adams beclowned himself, and then he doubled down by claiming that those of us who were correct right from the start, got there by accident. Now he's **tripled** down by claiming that he never said what he said.

That dog won't hunt. We on the right side of this issue are the sort of people who keep the receipts.

FWIW I agree with Adams that being right for the wrong reason is as bad as being wrong – as far as future reliability is concerned.

Thing is though: there is abundant evidence that those of us who were correct, were correct for the right reasons. Adams was wrong because he trusted Pfizer and the government public health bureaucracy – which makes him historically ignorant – and ignored the publicly-available data that started to emerge in March 2020 that showed that you had to be an diabetic octagenarian with bung kidneys to be at non-trivial mortality risk.

Vox Day has a favourite clip of Adams giving a mouthful of *Her Majesty's Finest* to a woman[1] who called him out on his 'jersey change' on the jabs. He should save himself further humiliation and self-beclowning, and **an hero** immediately.

[1] It might not have been a woman, but had a woman's name as its handle. The internet has been dumbed down beyond recognition since the mid-00's, so we can no longer simply assume that there are no women on the internet.

Exactly right. China is a distraction. You would think people who realize the covid mania was a lie, that the vax is a lie, that Jan. 6 is a lie, etc., etc. can not make the connection that the same people are the ones telling them how awful the Chinese are, without making the obvious inference that these are liars, so ... maybe they are lying?

Covid-19 might've come from Bakhmut not Wuhan.

The Bakhmut salt mines are hiding something. Ukies are fighting like mad and frantically throwing more and more hohol troops into the meat grinder there. Is there some bioweapon lab they're protecting there??

A former CIA officer asks the right questions.

Yes. His analysis of Trump's political successes was likewise based on just-so explanations all leading back to Trump's skills of persuasion. The thinking seems related. As a sort-of-grift it works very well by virtue of its circular logic until the star to which it's hitched falls off, for whatever reason.

Some of the most articulate and outspoken voices against the Covid narrative were and are Jews. Alex Berenson, Dr. Simone Gold, Dr. Scott Atlas, et al.

Some of the most articulate and outspoken voices against the Ukraine narrative are Jews. Max Blumenthal, Aaron Mate, Michael Savage, et al.

The most-dogged reporter on the January 6th farce has been a Jew, Darren Beattie.

The world and human beings are complex. Stupid people look for facile explanations.

The first several dozen Dilbert strips were screamingly funny if, and only if, you were selling your most precious time to a corporation back in the beginning. The art was always pitiful. The jokes soon became repetitive.

So he thought Donald Trump was an NLP genius and went to bat for him?

1. Donald Trump is not an NLP genius. That is a retarded take.

2. (Almost) all other observers wildly underestimated the hatred for Hillary Clinton. In hindsight this is the weirdest thing which I would be interested in seeing a good explanation for.

The Vince Foster dope might be the very best part in Whitney Webb's new Epstein book. Hillary Clinton sure seems to deserve all the megawatts of hate at her.

This is the horrific thing about social media. If one is an idiot (as Scott Adams seems to be), then by documenting your idiocy in real time you create an inarguable case that 1) you are an idiot and 2) you should be ignored.

Wisdom comes with time. First impressions are sometimes right, particularly when one is not an idiot.

Exactly right. Further, is Antony Blinken Chinese? Is Victoria Nuland Chinese? Is Jake Sullivan Chinese? Is Janet Yellen Chinese? Are Israel's crimes being covered up by Chinese in the Western corporate media? Wolf Blitzer? Jake Tapper? Is Hollywood controlled by the Chinese? Wall Street? The City of London?

Democrats are told Russia is the bogymen and Republicans are told China is the bogymen. Both are patsies for the stealth Zionist Empire that has taken control of Western banking, media, and politicians (by bribery, blackmail, and assassination).

I notice that Steve Bannon constantly harps on the Chinese and completely ignores the Zionists. Either he is a Zionist shill draining off patriots' energy, or he is a patriot waiting for the right moment to turn on the Jewish Mafia. Same for Trump.

If they are patriots maybe they are waiting until they figure out a way to deal with the "Christian" Zionist dupes, who form a big chunk of the Republican base.

– Agitated Vaccine Activist Scott Adams Says China Is Behind  
“Nearly All of Our Biggest National Problems”

Regardless Adams being wrong on other, should question, who or what is china, and situation here, really. The labels on what people ‘consume’, made in china, by who, who are the large corporations, electronics, computer, fones, washer dyers. Schemers from this territory. Personaly don’t see china as separate. It’s not some dictator letting large corporations, imo is the same group with a chinese face as front, who also put on govmt state front and other farces here.

Supposed china wasn’t important to anyone here before corporations put mass jobs/manufacturing there, same time flooding in-migration here, including from mexico, china, india, etc. And put millions of cameras everywhere, here same as there. People should open eyes, while they have them. Think more becoming aware now but fail to share focus.

A purged failure of a cubicle rat appears to have delusions of influence. In deciding to consent to suspect treatment, no one listens to a cartoonist who instantly apes the groupthink he mocks in his 3rd-rate corporate tailspin.

This specimen is perhaps indicative of mass indoctrination, but his thought process is of no importance. This is a loser fleeing the mildest meritocracy in the OECD.

Outside of the Jewish neocon world domination agenda, both Democrats and Republicans benefit a whole lot from being able to claim that the problems that they caused are actually the fault of strange people on the other side of the planet somehow.

The Chinese didn't force capitalist fat-cats to ship away our jobs, nor did it force our government to install those cameras. China simply took advantage of our nation's endemic corruption and power lust. I don't blame them in the slightest.

No they bribed them.

Ultimately, the solution is the same... Jobs that American citizens need are in China. Reindustrialization and gradual decoupling are how the jobs are brought back to America from China ***\*AND other countries\****.

If you do not like this option — Do you offer any other course of action that will generate *Good Jobs at Good Wages for American Citizens*? Jobs are not going to flow out of a unicorn's butt on a skittles diarrhea rainbow.
