Miliardářské elity využívají svou moc nad médii, politickou třídou a veřejným míněním, aby přinutily Joea Bidena k vyslání amerických vojáků na Ukrajinu, aby zabránily ruskému vítězství. Idiotní konzervativci si myslí, že média pro jednou dělají svou práci tím, že přesně informují o údajných Bidenových prohřešcích. Ale faktem je, že média prostě ukazují, že mohou kdykoli změnit strany, aby prosazovali elitářskou agendu.

Nikoho by nemělo překvapit, že „problém s utajovanými dokumenty“ Joea Bidena se objevil ve stejnou dobu, kdy ruské jednotky osvobodily klíčové město na Ukrajině (Soledar). Všechny nedávné zprávy z frontových linií naznačují, že ruská armáda neustále obsazuje další území ve východní části země, přičemž způsobuje těžké ztráty přehnaným ukrajinským silám. Stručně řečeno, **ukrajinská armáda je těžce bita, což nutí**

americké válečné plánovače přehodnotit svůj přístup. Co musí USA udělat, aby zvítězily ve své zástupné válce s Ruskem, je získat koalici národů (USA, Polsko, Rumunsko a Spojené království), které jsou ochotné vyslat bojové jednotky do konfliktu s tichým pochopením, že NATO se přímo neúčastní žádné pozemní války s Ruskem. Biden dříve odmítl myšlenku vyslání vojáků na Ukrajinu a uznal, že by se to rovnalo zahájení třetí světové války. Ale jak skandál s „utajovanými dokumenty“ nabírá na síle, poddajný prezident pravděpodobně zapadne a udělá vše, co od něj jestřábí zahraničněpolitický establishment požaduje. Stručně řečeno, klapku na dokumenty využívají zákulisní zprostředkovatelé moci, kteří vydírají prezidenta, aby sledovali své vlastní úzké zájmy. Mají Brandona přes barel.

Většina čtenářů si jistě vzpomene, že notebook Huntera Bidena obsahuje množství informací souvisejících s rozsáhlým vlivem rodiny Bidenových. Všechny tyto informace byly v mainstreamových médiích záměrně potlačeny, aby připravily cestu pro Bidenovo vítězství v prezidentských volbách v roce 2020. **Proč se tedy –**

divíme se – stal tento nový skandál hlavní zprávou, zatímco příběh o notebooku byl zcela pohřben? A proč nejvíce jestřábí neokonzervativci v senátu, jako Lindsey Graham, volají po „zvláštním poradci“, když se nijak nesnažili odhalit ohavné detaily notebooku? Toto je z článku na Zero Hedge:

Senátor Lindsey Graham (R.S.C.), vysoký člen soudního výboru Senátu, ve středu vyzval generálního prokurátora Merricka Garlanda, aby jmenoval zvláštního právníka, který by vyšetřoval nakládání s utajovanými dokumenty prezidentem Bidenem v době, kdy působil jako viceprezident...

„Myslím, že pokud se domníváte, že k ujištění veřejnosti o nakládání s utajovanými dokumenty ze strany Donalda Trumpa je nezbytný zvláštní právní zástupce, měli byste použít zvláštního právního zástupce na nesprávné zacházení s utajovanými dokumenty ze strany prezidenta Bidena, když byl viceprezidentem,“ řekl Graham během rozhovor s Marthou MacCallum na Fox News...

„Garlande, jestli posloucháš, jestli sis myslel, že je nutné jmenovat zvláštního poradce ohledně prezidenta Trumpa, pak musíš udělat přesně to samé ohledně prezidenta Bidena, pokud jde o zacházení s utajovanými informacemi,“ řekl Graham. („Sen. Graham požaduje zvláštní právní poradce, když Biden přerušil mlčení kvůli utajovaným dokumentům“, *Zero Hedge*)

Takže teď je Lindsey Graham zastáncem pravdy a transparentnosti? Nerozesměj mě.

Ujišťuji vás, že pokud Biden zítra oznámil rozmístění amerických bojových jednotek na Ukrajinu, Graham by okamžitě stáhl svou žádost o zvláštního poradce. **Jde o Ukrajinu, nikoli o utajované dokumenty nebo potenciálně nezákonné prezidentské chování. A – ať už si o Bidenovi myslíte cokoliv – nechce být prezidentem, který zahájí 3. světovou válku. Bohužel elity, které ovládají média, politiky a většinu národního bohatství, jsou odhodlány konflikt rozšířit, a proto se vyprávění v médiích za poslední týden dramaticky změnilo. Podívejte se na tento krátký klip z článku na CNN, který – až dosud – propagoval mem „Ukrajina vítězí“ nepřetržitě posledních 11 měsíců.**

"Situace je kritická. Obtížný. Držíme se toho posledního," řekl voják.

Voják pochází ze 46. letecké mobilní brigády, která vede ukrajinský boj o udržení Soledaru tváří v tvář masivnímu útoku ruských jednotek a Wagnerových žoldáků... Voják řekl, že věří, že ukrajinskí vojenští vůdci nakonec boj o Soledar vzdají, a ptal se, proč to ještě neudělali.

„Každý chápe, že město bude opuštěné. Všichni tomu rozumí,“ řekl. „Chci jen porozumět tomu, jaký smysl má [v boji dům od domu]. Proč umírat, když to stejně dnes nebo zítra necháme?“... „Nikdo vám neřekne, kolik je mrtvých a zraněných. Protože to nikdo neví jistě. Ani jeden člověk,“ řekl. "Ne v ústředí." Nikde ne. Pozice jsou zaujímány a znovu zaujímány neustále. To, co bylo dnes naším domem, se příští den stane Wagnerovým."

"V Soledaru nikdo nepočítá mrtvé," dodal. "Situace je kritická. Obtížný. Držíme se toho posledního," řekl voják. („Situace ve východním ukrajinském městě je kritická“ , CNN)

Vidíte rozdíl v pokrytí? Už žádné historky o tom, jak „šťastliví“ Ukrajinci porazí ďábelské ruské skřety. Ne. Místo toho je to chladná hořká pravda: **Ukrajina prohrává a těžce prohrává.** Ale jak si vysvětlíme tento náhlý „narativní posun“? A proč Washington Post poskytl platformu pro dva válečné jestřáby z administrativy George W. Bushe, aby mohli vášnivě prosit o nouzovou vojenskou podporu k odvrácení ruské zimní ofenzívy. Zde je **bývalá ministryně zahraničí Condoleezza Riceová a bývalý ministr obrany Robert Gates, kteří zoufale a do poslední chvíle prosili o okamžitou pomoc, která by zabránila kolapsu ukrajinských sil na Donbasu :**

„Pokud jde o válku na Ukrajině, jedinou věcí, která je v tuto chvíli jistá, je to, že boje a ničení budou pokračovat... i když reakce Ukrajiny na invazi byla hrdinská a její armáda si vedla skvěle, **ekonomika země je ve špatném stavu. troskách, miliony jejích lidí uprchly, její infrastruktura je zničena a velká část jejího nerostného bohatství, průmyslové kapacity a značné zemědělské půdy jsou pod ruskou kontrolou.**

Vojenské schopnosti a ekonomika Ukrajiny jsou nyní téměř zcela závislé na záchranných lanech ze Západu – především ze Spojených států. .. Za současných okolností by jakékoli vyjednané příměří ponechalo ruské síly v silné pozici pro obnovení invaze, kdykoli budou připraveny. To je nepřijatelné.

Jediným způsobem, jak se vyhnout takovému scénáři, je, **že Spojené státy a jejich spojenci urychleně poskytnou Ukrajině dramatický nárůst vojenských zásob a schopností – dostatečné k odstrašení obnovené ruské ofenzívy** a umožní Ukrajině zatlačit ruské síly na východě a jižní....

Členové NATO by také měli Ukrajincům poskytnout rakety delšího doletu, pokročilé bezpilotní letouny, značné zásoby munice (včetně dělostřeleckých granátů), větší průzkumné a sledovací schopnosti a další vybavení. **Tyto schopnosti jsou potřeba během týdnů, ne měsíců...** Způsobem, jak se v budoucnu vyhnout konfrontaci s Ruskem, je pomoci Ukrajině zatlačit vetřelce už teď.“ („Čas není na straně Ukrajiny“, Condoleezza Riceová a Robert Gates, *WVNews*)

Normálně jsou starší členové politického establishmentu ve svých prohlášeních zdrženlivější, ale ne zde. **Tohle je čisté, nestoudné zoufalství. Rice a Gates jasně prohlašují, že Ukrajina je v zoufalé situaci,** její ekonomika a infrastruktura jsou v troskách, miliony lidí uprchly ze země a většina přírodního bohatství země je pod kontrolou Ruska. Je to katastrofa; **a je to katastrofa, kterou chtějí Gates a Rice řešit napumpováním dalších zbraní do zhrouceného státu, který má nulové vyhlídky na vítězství ve válce.** Dává to smysl?

Zatímco mluvíme, ukrajinské frontové linie se hroutí, stejně jako se hroutí iluze, že války jsou určovány zdatností vlastních propagandistických služeb. Co zbývá, je rýsující se vyhlídka, že Rusové jsou v podstatě na pokraji převahy v nejkrvavějším a nejzávažnějším požáru této války, Bakhmutu, východním dopravním uzlu, který bude pravděpodobně bodem obratu v širší kampani. Když Bakhmut padne, Ukrajinci budou nuceni ustoupit na svou třetí a čtvrtou linii obrany a tlačit válku stále blíže k Dněpru a poté ke Kyjevu. Šachovnicová vlajka se postupně dostává na dohled. Ale

neberte mě za slovo; tady je to z koňské tlamy. Toto je úryvek z rozhovoru s **Generál Valerij Zalužnyj, který je vrchním velitelem ozbrojených sil Ukrajiny:**

„Ruská mobilizace zafungovala,“ říká generál Zalužnyj... „Nepřítele bychom neměli podceňovat. Nejsou slabí...a mají velký potenciál, pokud jde o pracovní sílu.“ ...

Mobilizace také Rusku umožnila střídat své síly na a mimo frontové linie častěji, říká, což jim umožňuje odpočívat a zotavovat se. "V tomto ohledu mají výhodu."

Vše tedy skutečně závisí na množství zásob a to v mnoha případech rozhoduje o úspěchu bitvy.“ Generál Zalužnyj, který buduje nový armádní sbor, stočí seznam přání. „Vím, že tohoto nepřítele dokážu porazit,“ říká. "Ale **potřebuji zdroje. " Potřebuji 300 tanků, 600-700 IFV [bojových vozidel pěchoty], 500 houfnic.“ Přírůstkový arzenál, o který usiluje, je větší než celkové obrněné síly většiny evropských armád....**

V soukromí však ukrajinští a západní představitelé připouštějí, že mohou být i jiné výsledky. "Můžeme a měli bychom zabrat mnohem více území," trvá na svém generál Zalužnyj.

Nenápadně ale **připouští možnost, že by se ruské zálohy mohly ukázat silnější, než se očekávalo, nebo ukrajinské slabší...**

"Zdá se mi, že jsme na hraně," varuje generál Zalužnyj ... "Nepochybuji, že budou mít další cestu v Kyjevě." děti začnou mrznout,“ říká. „**V jaké náladě budou bojovníci? Bez vody, světla a tepla, můžeme mluvit o přípravě rezerv, abychom mohli pokračovat v boji?**“ (, Volodymyr Zelenskij a jeho generálové vysvětlují, proč válka visí na vlásku“, *The Economist*)

Zní to jako generál, který věří ve své vyhlídky na úspěch, nebo jako vojenský vůdce, který je fatalisticky rezignovaný na porážku?

Zalužnyj říká, že potřebuje zcela novou armádu, aby vůbec mohl konkurovat Rusům. („Potřebuji zdroje. Potřebuji 300 tanků, 600-700 IFV, 500 houfnic.“) A i když budou jeho požadavky splněny, ukrajinský lid zůstane „zmrznout“ ve tmě „bez vody, světla a tepla.“ To je důvod, proč – podle Úřadu vysokého komisaře OSN pro uprchlíky (UNHCR) – již 8 milionů Ukrajinců uprchlo do Evropy, zatímco další 3 miliony uprchly do Ruska. (Tass)

Washingtonská válka proti Rusku proměnila zemi v neobyvatelnou pouštinu podporovanou výhradně zahraniční charitou výměnou za rozhodný závazek vůči globalistické agendě. Ve skutečnosti „stojím za Ukrajinou“ znamená „podporuji souhrnné vyhlazení prosperující civilizace, aby Washington mohl dosáhnout svých zhoubných ambicí“. To je to, co to opravdu znamená.

It is NOT a war crime to destroy power stations wiping out electricity affecting civilians, when the destruction achieves a military purpose, significantly limiting your enemy's ability to wage war against you. Power stations have been standard military targets for nearly a century.

"Electric power stations are generally recognized to be of sufficient importance to a State's capacity to meet its wartime needs of communication, transport, and industry, so as usually to qualify as military objectives during armed conflicts."

**- US Department of Defense,
Law of War Manual § 5.6.8.5**

Nekritizujeme Zalužného, který jen dělá svou práci. Kritizujeme americké warhawky a neocony, kteří vyprovokovali tuto válku, ale nikdy nepředpokládali katastrofu, kterou způsobili. Nikdy nečekali, že přijde den, kdy nejvyšší ukrajinský důstojník bude požadovat zcela novou armádu, aby porazil Rusy. Nikdy nečekali, že nejkompexnější ekonomické sankce, jaké kdy byly uvaleny na nějakou zemi, se vrátí zpět a poškodí pouze naše nejbližší spojence v Evropě. Nikdy neočekávali, že stejné sankce poslouží k obohacení Ruska a posílení jeho vazeb se zeměmi, které jsou strategickými rivaly Spojených států. Nikdy nečekali, že Čína a Indie budou ohrnovat nos nad americkými sankcemi a plně využijí výhod ruského levného plynu a ropy k růstu svých ekonomik a nechají Evropu chřadnout v trvalém propadu způsobeném jejich iracionální vazbou na Spojené státy. Nikdy neočekávali žádnou z těchto věcí, což nás vede k závěru, že ukrajinský gambit je pravděpodobně tím nejhůře naplánovaným zahraničněpolitickým debaklem všech dob, který vedl k největší strategické katastrofě v americké historii.

Pro lidi, kteří pozorně sledovali události na Ukrajině, se mnohé z toho, co říkám, bude zdát samozřejmé. Pro ty, kteří věří zprávám médií, myslíme si, že budou nadcházejícími událostmi velmi překvapeni. O výsledku pozemních válek kombinovaných zbraní nerozhodují spisovatelé beletrie v New York Times. Válka na Ukrajině skončí ve prospěch strany, která je nejmocnější; tolik je

jisté. Podívejte se na toto krátké shrnutí od bojového veterána amerického podplukovníka Alexe Vershinina, který pracoval jako modelovací a simulační důstojník ve vývoji a experimentování konceptů NATO a armády USA:

Opotřebovací války se vyhrávají pečlivým hospodařením s vlastními zdroji a zároveň ničením nepřátelských. **Rusko vstoupilo do války s obrovskou materiální převahou a větší průmyslovou základnou, aby udrželo a nahradilo ztráty. Pečlivě uchovávali své zdroje a stahovali se pokaždé, když se taktická situace obrátila proti nim .** Ukrajina zahájila válku s menší zásobou zdrojů a spoléhala na západní koalici, aby udržela své válečné úsilí. Tato závislost přinutila Ukrajinu k sérii takticky úspěšných ofenziv, které spotřebovaly strategické zdroje, které bude podle mého názoru Ukrajina jen těžko nahrazovat. **Skutečnou otázkou není, zda Ukrajina může získat zpět celé své území, ale zda může způsobit dostatečné ztráty ruským mobilizovaným záložníkům, aby podkopali domácí jednotu Ruska a přinutili je k jednacímu stolu za ukrajinských podmínek, nebo zda bude ruská strategie opotřebování fungovat na anektování. ještě větší část Ukrajiny.**" („Co nás čeká ve válce na Ukrajině“, Alex Vershini, na *Rusku záleží*)

Otázka, zda Rusko udělalo chyby na začátku své vojenské operace, pomáhá utvářet naše chápání toho, co se nyní děje. Přemýšlejte o tom. **Putin v září povolal dalších 300 000 záložníků. To je přiznání, že špatně spočítal, kolik bojových jednotek potřebuje ke splnění mise. Nyní však tuto chybu napravil.** Proč by jinak povolal 300 000 záložníků a pozastavil válku, dokud se nepřipojí ke svým jednotkám a nebudou připraveni k útočným operacím?

Pointa, kterou se snažíme udělat, je jednoduchá: Putin nyní shromáždil armádu, kterou potřebuje k dokončení práce pomocí vojenské síly. Zjednodušeně řečeno, je připraven se rozjet. Jeho armáda už ve skutečnosti dělá významný pokrok na východě, kde bylo v úterý osvobozeno klíčové město. (Soledar) Očekáváme, že tato regionální vítězství budou pokračovat přes zimu a do jara.

Nemyslíme si, že poskytnutí tanků, obrněných vozidel, oštěpů, Patriotů nebo jiných zbraňových systémů bude mít zásadní vliv na výsledek války. **Jediný způsob, jak může Washington zabránit potupné porážce na Ukrajině, je vést koalici zemí, které jsou ochotny nasadit bojové jednotky a letectvo do boje s**

ruskou armádou. Jinými slovy, rychle se blížíme k „okamžiku pravdy“, který mnozí očekávali od samého počátku; přímý střet mezi USA a Ruskem.

Toto je válka, kterou fanatičtí neoconi chtějí, a proto používají „utajované dokumenty“, aby si vynutili Bidenovu podporu. Je to vydírání.

The whole involvement of America in this Ukraine debacle is a conflict of interest for the Biden family (and the presidency). I am sure the American involvement is nothing but blackmail payback.

The Biden (Joe) involvement in all this is a national security disaster (so obvious for the United States) being totally ignored by the media, Democrats, AND even Republicans.

Hunter Biden was on the board of directors of Burisma, a Ukrainian natural gas company-where he was paid millions. The Ukrainian intelligence service had to have operatives on the Burisma board, and also supplied female intelligence agents and beautiful prostitutes to fall all over Hunter Biden.

No self-respecting intelligence service would let such an opportunity get away. A chance to blackmail the son and through him the (at that time) vice president of the United States Joe Biden is too great of an opportunity to let get away. Joe Biden probably has unknown grandchildren running all over Kyiv-from Hunter's sexual activities furnished by the Ukrainian intelligence service. I'm sure they also had a hand in making Hunter and his dad wealthy. But none of that seems to matter to the major media, Democrats, Republicans, or government investigators.

What is important now is to send billions of American dollars to Ukraine to pay them back for all they have done for the Biden's and insure that Zelensky has enough money to buy mansions across the world and stuff his bank account in Switzerland. Biden is taking his orders from Zelensky very well (because of the blackmail cited above).

Oh, yes, and also Biden and the Democrats can provoke a nuclear war with Russian to destroy the USA- something the leftist Democrats are trying to do (with strong media help).

As to who is winning in Ukraine I have no idea. Certainly the western press is totally dishonest, maybe the Ukrainians really are running out of steam – but certainly the Ukrainians have been giving the Russian army fits. Maybe it really is Russia that is losing. We will see.

But I disagree that Biden is being blackmailed into sending US troops to Ukraine. Biden has a roughly half-century track record of being a total lickspittle sock-puppet corporate whore. Biden will reliably do whatever he is told to do. In my humble opinion, this classified documents thing is just a circus to distract populists from the ongoing third-world invasion that the rich are using to drive wages and living standards down for the many, and rents and profits up for the few. Biden will not get thrown out of office and this show will go in circles making a lot of noise and sucking the oxygen out of actual more important issues – just like the classified document thing with Trump did, yes?

I expect a huge public pressure campaign directed at young men in the United States, specifically white men.

Don't be surprised if, as Homeland Security has lately warned (called their shot?) about a possible terrorist event happening (staged) here to be blamed on Muslims to herd the American cattle into the military, only to find that they are shipped to Eastern Europe instead. In fact, the attack could be blamed on "radicalized" Muslims from Europe or Assad's Syria, or even Iran. It's dishonesty of the kind you can expect from the neocons. They know young men in the United States are not fired up to go to the Ukraine or the Taiwanese Strait.

In Australia, as has been reported by VoxDay, a big recruitment effort in the media is about to take place in the form of a psyop. Phase 1 was nonstop Ukraine news. Phase 2 will be bragging how super awesome our new weapons are. Phase 3 will be reality shows with competitions between special forces berets and Navy Seal types on who can survive this or that or win some pseudo-combat competitions. Phase 4 will be a propaganda offensive on women to brag about how desirable military men are vs. men who simply are employed in the civilian economy. You might expect some hulu/netflix/amazon/paramount streaming shows to pop up over the next few months featuring hot military romances with attractive actors. Remember young people, you will be shipped to a real war zone against peer competitors who have real air forces, submarines, battle ships, drones, kamikaze bomb drones, satellite info, massive artillery, nuclear weapons, thousands of tanks, anti-aircraft batteries, and military leadership that had been to actual war colleges to study war, not Iraqi forces with very outdated weapons or Afghanis going on bravery, roadside bombs, and machine guns.

Let's not have WW3, and even if we do, YOU, young man, don't have to die for it on foreign soil. They aren't trying to invade America, and it's not worth your life.

An alternative explanation might be that the string-pullers have decided to cut Biden loose, and create an opening for pinning the blame on him in the case of defeat. Perhaps they are beginning to think that the prospects of Ukraine winning this war are so slim that they would rather have a scape-goat ready?

Then they could roll out his and his sons corrupt business dealings, and “suddenly discover” that Ukraine was corrupt all along, and that Zelensky had not been honest with them. They also have the Azov-Brigade and assorted extreme nationalists to pin some blame on.

Pre-positioned damage control?

One thing that seems certain – the people who can make a mess like this will throw *anyone* to the wolves to save themselves, including Biden and Zelensky.

after having ground through the ukrainazis and all the dirtiest, nastiest, mercenaries that nato could find, now they're going to throw the 101st screaming eagles into the russians meat grinder. these troops will have never seen combat in a situation like ukraine, with a battle harden russians army, with vastly superior equipment and troop positioning. as soon as the u.s. enters the the fray directly, all gloves will come off, all nato aew&c will be shot down along with any satellites linked to targeting russian troops. it won't be pretty and i highly doubt they will be so stupid but with that said they have surprised me before.

The reality is neither side is winning. Despite all the increasingly desperate flowery language by Whitney he's been claiming that Ukraine is "collapsing" since the start.

Ukraine aren't doing as well as the Western media are implying, but they're doing a lot better than the almost daily cope by Whitney about how Russia is about to have a massive breakthrough

I categorically reject that **Biden** is being blackmailed. The man is a freaking vegetable. Even when he was at himself, Biden was a corporate whore openly for sale. Team Biden? Hell yeah, they are being blackmailed. It may be over something else, but the blackmail certainly is happening. If it is over something else (not running again, whatever), all setbacks in the Ukraine will be placed at his feet. If it is over not committing troops, yeah, the ratchet will get cranked harder until he relents or is removed.

The grim visage of “Merrick Garland,” who has the face of every Chetnik who smashed a rifle butt into a little Orthodox girl’s skull, tells us the Big Boss has greenlighted the coercion. It’s going to get nastier.

No country will commit their own troops to this, only to have them incinerated almost upon arrival. The idea is to run through as many Ukrainians as possible until they're bled dry. Use and discard. Insofar as the document thing goes it might even be the Dems themselves doing it so as to dissuade the current moron from running again and making a mess of them trying to transition to someone else. American foreign policy personalities are exposed as incompetent blowhards. The anti-Russian project has been derailed. The Russians knew what it was all about from the beginning and took action. They didn't just roll over and play dead as the Americans fantasized they would.

I've seen another conspiracy theory about the Biden Classified Papers which seems more plausible to me.

Biden is a very feeble old man, and failing fast. Whoever it was with the theory (I forget) suggested that the discovery of multiple stashes of classified documents was part of a process to ease Biden out of office.

Possibility #1: the document finds are real. Any loyal hacks would have quietly burned them in the nearest fireplace or barbecue grill. *That did not happen!*

Possibility #2: some/all of the documents were recently planted by "somebody" who wants to replace Biden with another 2024 candidate.

If the Remove Biden notion is correct, expect to see more things happening to pile on with the project.

Why everything turns around Russia and Ukraine. I think Biden have been framed by the zionist Jews because the Jewish Mafia wants him to stage a military attack on Iran where this is not US policy but the Jewish policy. Biden is not willing to do that, and Israel cannot attack Iran alone, everyone knows that. Don't read what these criminals are writing or saying? Well done Mike. We are seeing a replay of ww1 and the entry of the US into the war due to a similar influence. WW1 was not really a world war (only 8 countries were involved) while in Ukraine we already have 30 countries involved.

What the US needs to do to prevail in its proxy-war with Russia, is to enlist a coalition of nations (US, Poland, Romania, and UK) that are willing to commit combat troops to the conflict with the tacit understanding that NATO will not directly participate in any ground war with Russia.

So it's time for Serafimko, CM and Another to Polish their boots.

@Thomas Faber

Agree.

Ask the following question: “Without Biden as the blameworthy scapegoat who will take the most heat for a US failure in Ukraine?”

Apart from a long list of powerful well connected neo-cons (the same group that brought “democracy” to Iraq) the culpable parties are the members of the US National Intelligence community whose duty it is to provide a realistic appraisal of both Russian and Ukrainian capabilities, force levels, armament inventory, and rate of production. A rational assessment of the outcome would predict not Ukrainian/NATO victory but a massive defeat of the West resulting in shock waves similar to those which followed the Japanese defeat of the Russian fleet at the battle of Tsushima.

The entire intelligence community failed. Their 2022 budget appropriation was \$89.8 billion which is likely an underestimate due to “black” programs. The failure includes both National Intelligence agencies and a multitude of military intelligence agencies.

All these agency personnel, and the neo-cons, will suddenly discover the contents of Hunter Biden’s laptop and the fact the “Big guy” was raking 10% off the top. Add in the likely reverse flow of funds from Ukraine to Biden and the Dems via the FFX flow of funds and you have the makings of a national scandal which will push the fall of Soledar, Sivers’k, Kharkiv and Kiev off the front pages to the point no one will notice the repeat of the Afghanistan debacle.

Biden doesn't know what he's doing since day 1 in office. They're most likely setting him up as a patsy to take all the blame once things finally go South in Z-country.

Now, the establishment is certainly testing the waters for boots on the ground in Uka and a nuclear confrontation with Russia. But that's mostly the lunatics in politics and not those who will pull the trigger from the military. And they're not so sure if such a conflict can be won. They may also try to push Poland and the rest of the European Yankee poodles into this conflict but that's the same issue in the end, so maybe these useful idiots will get a stop from Washington in time.

Alternatively, in desperation the Deep State may want to bench Biden and put in Kamala. She is a rickety puppet who may be even more compliant about Zionist war than Biden.

I agree the Jewish Mafia is panicking. Their arrogance has led to this catastrophe. Certainly their efforts to hide the Twitter revelations cannot be sustained. Nor the Ray Epps story. Nor the mRNA vaccine data. Nor the litany of FBI crimes.

Throwing American citizens into the Russian meat grinder is their Hail Mary pass. They already orchestrated two World Wars. World War Three is an acceptable option for them.

The Wolfowitz Doctrine of global hegemony is a Talmudist agenda – the allegedly “Chosen ” ruing the world from Jerusalem. It is the exact *opposite* of the foreign policy advocated by American president George Washington, and more recently by Russian president Vladimir Putin.

The Zionist Empire is using the US as a proxy to attack Russia. It is America’s *most dangerous* enemy because it has infiltrated America and taken over its central nervous system – the mainstream media and Congress. Americans need to join with the Russians to destroy this common enemy decisively.

I hope the new Church Committee 2.0 in the House will follow the river of corrupt money to its source, and surgically remove this parasite completely. If they haven’t yet, I recommend they take a look at *War Profiteers and Israel’s Bank*

This article is giving too much ‘volition’ to Biden. At this stage in his cognitive degeneration, Biden is little more than a talking mannequin even in his increasingly infrequent moments of lucidity. Thus the Deep State currently is doing whatever it wants and has already placed US troops in Ukraine and will escalate as it pleases. Biden’s intransigence toward this end is as scripted as Obama, another Deep State puppet, campaigning to end the wars in Iraq and Afghanistan yet continuing them once he was in office.

Yeah, they’re going after Biden to probably remove him from office, but not because he’s standing in their way. Instead it’s a matter of optics. A doddering ghost is not exactly the figurehead that you want to have appearing to be running a war effort. Neither, of course, is Kamala. I expect her presidency to be short-lived, if she even has one.

Third in line is the Speaker of the House. Get ready for President McCarthy. We’ve all seen that photo of him with a Ukrainian flag pin on his lapel and a Ukrainian-flag hanky in his front pocket; think of that as color-coded foreshadowing.

Good critique by Mike. Is it true that “Ukraine started the war with a smaller resource pool...”? It doesn’t sound like true.

Ukraine had eight years to assemble a strong army with vast resources and weapons to defeat Russia.

Recently, former German Chancellor Merkel and former French president Hollande admitted that the aim of the Minsk Accord was to give Ukraine enough time (8 years) to build its army to defeat Russia. In short, Ukraine and the US-NATO were prepared for war with Russia. In contrast, Russia was unprepared for war. In addition, recent events show that Russia’s Intel was not up to standard and had costed Russia dearly.

Since Biden is already known to be the most corrupt President in U.S. history, can he be blackmailed by additional revelations that would turn the Democrats against him?

The Republicans already have sufficient evidence of Biden's crimes to impeach him, but they need to persuade about twenty Democrats and Independents to join them in the Senate.

There is only one thing certain – all sides are, one way or another, losing. Russia is losing with this protracted conflict. Europe is losing big time. Only the US and its kleptocrats are winning, somehow.

But the biggest loser is the country of the Ukraine. Millions of women left and will not come back. The country was already in a depopulation spiral, so I do not see how that helps. The young men are forced to fight and dying in droves in a stupid fratricidal and needless war. There's billions in debt, there's wholesale destruction of entire regions.

There is no way that the Ukraine “wins” anything, even if it wins. What does a Ukrainian “win” mean, anyway? Keeping the Donbass? Retaking Crimea? And pray tell, who is going to repopulate the Donbass and Crimea? Are they going to bring back the refugees (good luck with that)? Or are they going to force the 90% of Russian-speakers in the region to speak only in Ukrainian?

This whole war is a scam. The Ukraine is being destroyed, depopulated, just to “stick it to Putin”. There was no need for any of that.

The Ukraine doesn't “win”, even if it wins (a Pyrrhic victory). But then again, this isn't about the Ukraine, it's about Russia, and NATO, and the US hegemony.

NATO already won, even if Ukraine loses. Russia won't sell energy to Europe even if the war ends, the sanctions will stay in places, tens of thousands of Russians died and hundreds of thousands left the country and won't return, NATO will upgrade their militaries and put rockets in Finland. All of this cost less than a quarter of just Americas military budget.

It's also clear he knows nothing about what he's ranting about. If NATO entered the war, the entire Russian military in Ukraine would cease to exist within weeks simply due to the difference in air power. NATO crushes Russia at every step on the escalation ladder which is why Russia tried not to escalate their illegal invasion.

If they are correct, then the only way the US can win is to use nukes. Then nobody wins. Forget Biden, he's not running things, he is in the throes of dementia. Wars are not won by occupying territory, wars are won by destroying enemy armies. Ukraine's manpower is dwindling. Russia's isn't. If Russia suffered as many casualties as Western propaganda pretends, allegedly over 100,000 in ten months of war, or 10,000 per month or 300 per day, the West and Ukraine wouldn't have gone in trance over 89 Russians reservists killed in the strike on the night of the New Year.

The West can throw whatever hardware it wants, you need manpower to man hardware. The West can throw in NATO troops if it wants, as long as the war is fought on Russia's terms, they will be slaughtered. At this point, I think the Russians would be elated if they were given the opportunity to turn troops from NATO countries into minced meat en masse. I know I would if I were Russian.

Frustration is the word to describe the West's behaviour right now and frustration is not a war-winning strategy. The question has never been who'll win this war, the question has always been how many Ukrainians the West is willing to sacrifice. The answer seems to be to the last one.

If goyim are stupid enough to die to the last one to relieve Jews' frustration, there's no fix for stupid, apart from death.

And let's not forget China (<https://nypost.com/article/hunter-biden-china-timeline-business-ties/>). China is also (at least in its own eyes) a strategic opponent to the US, and a loss in Ukraine would weaken the US drastically. Could China possibly be reinforcing the billionaires who have assets in China?

There is some mystery about who runs Biden. The obvious answer is the Black coalition, with Obama being the head of that coalition and the Democratic Party. But maybe not. Perhaps successful blackmail of the entire senior Democratic leadership? Senior Democratic leadership is a senile bunch from another age, who would (like VP Biden) have thought that the US could create its own “political reality”, and that they would never be caught in the covert deals that were characteristic of the US Imperial Age

The US Imperial Age lasted from the ~1970 to Obama's time in office. By that time, when things started to go obviously sour and Obama ended up as unofficial Presidential dictator. That's long enough for politicians to think that the US Imperial Age would last for their lifetimes, and that they could safely take bribes or commit espionage without risk of discovery or important destabilization of US dominance. It is plausible that intel agencies could capture most or all of Democratic leadership under those conditions. For that matter, they could capture Republican leadership, although it isn't clear why they would bother with the “me too” party.

It is interesting that they have removed mandatory vaccination for Covid from DOD requirements. Eventually they may try to flip it around: make Covid Vaxx mandatory for all young men EXCEPT those that go into the military.

I think the idea of creating a “woke” military where young men are sodomized and indoctrinated into woke-queer androgynous movement may turn into a massive failure like their proxy war in Ukraine. Eventually they will figure out that the kind of person attracted to the woke army is precisely the kind of person they don’t want.

@Notsofast

At one point in the 1800s, a British official asked Bismark what he would do if Britain landed the British Army in northern Germany. Bismark's reply: "I would have them arrested."

The 101st Airborne is a good outfit, or at least was several years ago. They are also light infantry, intended to seize lightly held terrain from an enemy that has deployed few troops in the assaulted terrain. The 101st, like all paratroopers, depends on

- 1) Surprise against a similar light infantry or (if luck holds) against logistics tail troops.

- 2) Rapid relief by friendly forces, which will fend off the enemy's reaction forces. In practice, airborne units can hold out against standard infantry or even armored forces, but not for long, maybe a few days at the cost of most or all of their force.

The Russians tried taking an airport near Kiev last year (2022), the relief forces didn't arrive, and the entire airborne unit was destroyed.

I would imagine that Russian forces would attempt to isolate the 101st and induce its surrender, but they might just destroy it instead.

Wouldn't be the first time idiot politicians destroyed excellent military units.

In truth, “I Stand with Ukraine” means ‘I support the summary obliteration of a thriving civilization so that Judea can achieve its pernicious ambitions and create a new homeland for millions of persecuted and downtrodden Jews’.

FIFY.

Short of a Neutron Bomb or Biowarfare attack, Putin is handling this war the best way possible for all those Jews rubbing their hands together while they dream of Heavenly Jerusalem becoming part of Eretz Israel.

By shutting down the power grid and making Ukraine uninhabitable so that all the various flavors of Slavs are forced to evacuate, Putin is doing the dirty ethnic cleansing work on ZOG’s behalf.

How could a peace settlement look? How about a neutralized western Judeo-Ukraine and a neutralized southern and eastern Judeo-Donbas, both to be unified into a big country known as Khazaria at some future date. Russia would be allowed to hang on to Crimea despite earlier ZOG insistence that she had to give it up, and despite Stalin having promised it to Judea in exchange for Lend Lease. Of course all of Christianity would be forced to pay reparations for the war in Ukraine in order to restore Ukraine for its new Jewish owners.

This would be a real victory for Judea, and what is good for Judea is also good for the slaves of Judea. Ukrainians made themselves slaves by tolerating lying Jewish presidents and by allowing WWII to be fought on the land that they pretend to care about.

The same kind of blackmailed-by-USA-and-NATO perception, applies to the other top Western warmonger leader, President of the EU Commission Ursula von der Leyen.

In a report filed at NGO Transparency, EU chief Von der Leyen is described as having entered into a corruption-trading partnership with Belgium, which has criminal jurisdiction over EU offices in Brussels. Von der Leyen's husband is in the 'covid vaccine platform' business, and Von der Leyen is widely perceived to have used her office to enrich her husband with some millions of the tens of billions of 'covid vaccine' money she has personally distributed ... the USA and NATO obviously have all the data and surveillance on Von der Leyen, Pfizer, etc.

And by 'buying off' Belgian government ministers involved in corruption themselves, Von der Leyen seems able to ensure Belgian authorities don't prosecute her ... versus the Belgian actions in the 'Qatari bribery of EU Parliament members' case – which itself seems to have been a NATO operation to discredit the many anti-war, anti-corruption voices in the Parliament: <https://southfront.org/german-elites-eu-crimes-to-promote-war-on-russia-wreck-eu/>

The Belgian government seems to be running a bribery-extortion scheme over basic EU citizen rights, illegally demanding bribes from some EU citizens before enrolling them in the Belgian health care system, violating EU Court Order C-535/19. Von der Leyen sponsors EU Commissioner for Justice – Belgian Didier Reynders, ha! – in helping his Belgian friends run this scheme out of EU Commission offices, and in mounting attacks on a Polish citizen whistle-blower who exposed this EU-Commisison-Belgium corruption network. From the report at the Transparency NGO:

With her corruption so well known to world governments, Von der Leyen is seen by Commission staff as likely under blackmail by foreign interests (USA). Ursula von der Leyen doubtless likes how her posturing about Ukraine war, deflects from her personal corruption ... but it is clear she doesn't truly care about the war dead, given Von der Leyen has personally given the order, to try to murder a Polish citizen by depriving him of his EU Citizen Health Care rights, after he exposed her small-minded corruption.

Ursula & Heiko von der Leyen

Ursula von der Leyen is now President of the EU Commission, negotiating tens of billions of COVID-19 VACCINE contracts

- Contracts with hidden clauses
- Negotiating texts have gone 'missing'

Ursula's husband of many years, Heiko von der Leyen, is now Medical Director of Orgenesis Inc a 'Cell & Gene Therapy' enterprise announcing, per LabBulletin.com

- A cell-based VACCINE platform

“That is an admission that he miscalculated how many combat troops he needed to fulfill the mission.”

No, in the first few weeks Russia committed some 40,00 – 50,000 troops and the mission was to stop the 300,000 Ukrainian troops from destroying the Russian speaking population of the Donbass. A treaty was reached that Ukraine would meet all the Russian pre-conditions and Russia would not move beyond the Donbass. In April at UK pressure, after Russia had already withdrawn their Northern troops from Kyiv, Ukraine broke the agreement and attacked Russian troops. They then started the “Not one inch” and “Retake Crimea” nonsense. The West poured into the Ukraine, more weapons by value than the whole Russian defence budget and thousands of western troops.

Russia has now changed the purpose of the conflict, instead of protecting the Russian mainland from missiles, and the Donbass from aggression, it is to defeat Ukraine and demonstrate that Russia will not allow anyone to threaten or attack Russia.

The Ukrainian refugees that went to Russia have told of what has been happening. The people of Russia are demanding from Putin that Ukraine be destroyed. Totally annihilated. They want revenge for the Ukrainian atrocities of the last 8 years. Every member of Azov and the nazis of the Ukrainian government are identified, they must be hunted down and hanged.

There was a call-up of the trained military reserve, but in addition thousands of Russian males volunteered to go and fight. The mission has changed.

The west are idiots.

Putin put a General in charge to hold the Ukrainian territory and to prepare the troops for a large offensive. That has been completed, he now appointed the Russian Chief of Staff to take

control, as the battles will require full all services co-ordination. The ground is frozen allowing tracked vehicles to manoeuvre off the main roads and by-pass the Ukrainian defensive positions. Expect Russia to take all territory to the EU border, including Moldova where the people of Moldova are begging for Russia to it take into the Federation.

Airpower? LOL. S400, S500 and airpower would “cease to exist” too.

British Army = 62000

Polish Army = 61000

Romanian Army = 43000

US Army = 457000

Ukraine Army July 2022 = 700,000

British Army has no ammunition or equipment

So it will have to be US military in Killing Zone

Russia (and China) are waiting expecting US to enter and be destroyed

Simultaneously N Korea will deal with Japan and South Korea

US overrates itself and lets Chickenhawks and Dopefiends indulge in wet dreams

Moldova joining Russia could be a stretch, but Transnistria the Russian speaking breakaway from Moldova would join a larger Russia. All things taken into account it looks like hammer time. The Ukrainians are miserable enough they may accept joining Russia if it meant their towns and homes would be rebuilt. It'd be a great way to avoid financial slavery by the IMF and the BlackRock hedge fund, which pledged to “rebuild” Ukraine after the war.

@TG

TG,

If you are trying to figure out who is winning in Ukraine – remember that the Russians are quite good at “learning on the job” – they sure did that with Hitler – losing at first; then holding them off; and finally rolling them back.

I am sure that you will figure it out – you surely have figured out what is going on in America – the rich run America and the working class needs to throw them out.

That sounds good, but Zelensky could blackmail Emperor Poopypants with what he has in hand. Being more cynical than you I attribute the request for a special counsel as a means to get it out of the hands of the deplorable 20 and preclude them from taking any action.

That sounds like the Lindsey I know.

@24th Alabama

Democrats are using Republicans to remove Joe Biden or a guy who plays Joe Biden (just look at his right ear loop, face bone structure, etc) . Biden is either dead or in basement not knowing what is going on. It is time for Jews to take over fight for Ukraine. Years before the war it was plan to move Israel on Ukraine territory. The Plan was called Creation of Heavenly Jerusalem. This is why Zelensky wants to “fight to last Ukrainian” because if there are no Ukrainian nazis they will not have the same problem as they have with Palestinians.

@One-off

I categorically reject that Biden is being blackmailed. The man is a freaking vegetable. Even when he was at himself, Biden was a corporate whore openly for sale.

Most likely, the Deep State wants to change puppets. The Deep State is in a position of almost absolute power over this country. As I have said many times, Republicans and Democrats are merely pawns for those in power...they are used for positioning and psychological manipulation. The most excellent staged play ever is underway.

think of how many russian speaking ukrainians have now become russian citizens. imo after this war is settled in russia's favor they will be in an incredibly strong economic position and will incentivize russian family growth through tax incentives, encouraging stay at home moms (or dads) and traditional family structure. for all those worried about the survival of the "white race", look to russia.

Mike Whitney's hypothesis that Biden is being blackmailed into sending troops to the Ukraine is just another lousy attempt at justifying the unjustifiable: the Jew-led US Empire's historic thirst for blood, conquest and domination. What he is implying is that, were it not for the "blackmail" of a US president, the United States would not be in its current warmongering state. This is a ridiculous, preposterous hypothesis. The US is a criminal bloodthirsty Empire and it has nothing to do with blackmailing this or that president: it is in the DNA of the nation itself.

A better hypothesis than the one Whitney presents is this: a US president could be blackmailed in the exact opposite direction — that is, blackmailed in order to prevent a war — and the US would obviously continue on its forever war path. The US is a berserker war nation and will continue waging war to hold on to its status as the sole domineering world superpower. Nothing will prevent the US from continuing its criminal proxy wars. Nothing, that is, until it is forced to yield under a greater power — which is why next up in line for proxy war disruption is China.

So, Mr. Whitney, when the next inevitable proxy war breaks out against China what excuses are you going to present us with? Are you going to argue that the next president, whoever he or she is, is being blackmailed into going to war against China? Please don't. Give us a break and refrain from these childish hypotheses that only undermine your arguments and insult your readers' intelligence.
