Bude rok 2023 horší než rok 2022?

Je Joe Biden ochoten zničit svět, aby „oslabil Rusko“?

I když je člověk zvyklý vidět vládu Spojených států chovat se iracionálně v epickém měřítku, aniž by se staral o to, co se stane průměrnému občanovi, který není členem žádného z divných volebních obvodů Demokratické strany, je stále možné být překvapen nebo dokonce šokován. Krátce před koncem roku 2022 se v mainstreamových médiích [objevil článek](#) a byl poměrně široce rozšířen. Titulek, pod kterým byl uveden v původní verzi *Business Insider*, zněl: „Jaderný útok by s největší pravděpodobností zamířil

na jedno z těchto 6 amerických měst – ale expert tvrdí, že žádné z nich není připraveno. Města byla New York, Washington DC, Los Angeles, Chicago, Houston a San Francisco.

The article seeks to provide information and tips that would allow one to survive a nuclear attack, repeating commentary from several “experts” in emergency management and “public health” suggesting that a nuclear war would be catastrophic but not necessarily the end of the world. One should be prepared. It observes that “those cities would struggle to provide emergency services to the wounded. The cities also no longer have designated fallout shelters to protect people from radiation.” It is full of sage advice and off-the-cuff observations, including “Can you imagine a public official keeping buildings intact for fallout shelters when the real-estate market is so tight?” Or even better the advice from the Federal Emergency Management Agency (FEMA)’s “nuclear detonation planning guide” that for everyday citizens in a city that has been nuked: “Get inside, stay inside, and stay tuned.” Dr. Ron Paul asks “Are they insane? They act as if a nuclear attack on the United States is just another inconvenience to plan for, like an ice storm or a hurricane.”

The article argues that the six cities would be prime targets as they are centers for vital infrastructure. The bomb blasts would kill hundreds of thousands or even millions of Americans with many more deaths to follow from radiation poisoning, but the article makes no attempt to explain why Russia, with a relatively sane leadership, would want to start a nuclear war that would potentially destroy the planet. Also, the targeting list of the cities provided by the “experts” is itself a bit odd. Surely Russia would attack military and government targets as a first priority to limit the possible retaliation while also crippling the ability of the White House and Pentagon to command and control the situation. Such targets would include both San Diego and Norfolk where the US Atlantic and Pacific fleets are based as well as the various Strategic Air Command bases and the underground federal government evacuation site in Mount Weather Virginia.

Reading the article, one is reminded of the early years of the Cold War that sought to reassure the public that nuclear war was somehow manageable. It was a time when we elementary school children were drilled in hiding under our desks when the air raid alarm went off. Herman Kahn was, at that time, the most famous advocate of the school of thought that the United States could survive the “unthinkable,” i.e. a nuclear war. An American physicist by training, Kahn became a founding member of the beyond neocon nationalist Hudson Institute, which is still unfortunately around. Kahn, who served in the US Army during the Second World War as a non-combat telephone lineman, started his career as a military strategist at the RAND Corporation. Kahn endorsed a policy of deterrence and argued that if the Soviet Union believed that the United States had a devastating second-strike capability then Moscow would not initiate hostilities, which he explained in his paper titled “The Nature and Feasibility of War and Deterrence”. The Russians had to believe that even a perfectly coordinated massive attack would guarantee a measure of retaliation that would leave them devastated as well. Kahn also posited his idea of a “winnable” nuclear exchange in his 1960 book *On Thermonuclear War* for which he is often cited as one of the inspirations for the title character of Stanley Kubrick’s classic film *Dr. Strangelove*.

The appearance of the *Business Insider* article dealing with a cool discussion of the survivability from a nuclear war suggests that the nutcases are again escaping from the psychiatric hospital here in the US and are obtaining top jobs in government and the media. While one continues to hope that somehow someone will wake up in the White House and realize that the deep dark hole that we the American people find ourselves in mandates a change of course and a genuine reset, there is little daylight visible in the darkness.

My particular concern relates to the entangling relationships that have kept our country permanently at war in spite of the fact that since the Cold War ended in 1991 no potential adversary has actually threatened the United States. Now, the federal government appears

to be in the business of cultivating dangerous relationships to justify defense spending and placing the nation on the brink of what might prove to be catastrophic. The current US mission to “weaken Russia” and eventually also China in order to maintain its own “rules based international order” includes such hypocritical and utterly illegal under international law anomalies as the continued military occupation of part of Syria to deny that country’s leaders’ access to their oil fields and best agricultural land. A recent UN humanitarian agency investigation determined that the Syrian people are suffering and even starving as a result of that and US imposed sanctions that the Biden Administration maintains against all reason and humanity. At the present time, however, the most entangling of all relationships, even more than with Israel, has to be the engagement of the US in the proxy war being fought against Russia on behalf of Ukraine, which is exactly what threatens to turn nuclear if someone blinks at the wrong time. Billions of dollars in direct aid as well as billions more in the form of weapons stripped from arsenals in Europe and the US have been given to the corrupt regime of President Volodymyr Zelensky while Zelensky continues to work assiduously to milk the situation and draw Washington into a deeper war directly confronting Moscow.

In fact, by some reckonings the war has already begun, with the US and its allies clearly dedicated to crippling the Russian economy while also getting rid of President Vladimir Putin. The 101<sup>st</sup> Airborne is now in place in Romania next to Ukraine to “warn” the Kremlin while the Pentagon has recently admitted that some American military personnel are already in Ukraine, contrary to the denials by White House spokesmen. The British have also revealed that some of their elite Special Ops personnel are on the ground. And there are reports that more American soldiers will soon be on the way, ostensibly to “track the weapons” being provided to Zelensky, which will include US-made, Patriot Missile batteries some of which might even be placed in NATO member Poland to provide air cover over Western Ukraine, a definite act of war as seen by Russia, which has

warned that such a move would mean that the US and its allies had “effectively become a party” to the war in Ukraine and there will be “consequences.” “Consequences” means escalation.

The soldier-“trackers” mission may be in response to reports that weapons provided by NATO have been corruptly sold or given to third countries by the Ukrainians. The several US initiatives taken together could produce a rapid escalation of the conflict complete with dead Americans coming home in body bags and an inevitable direct US involvement in combat roles that could lead anywhere, but at this point it is the Russians who are acting with restraint by not targeting the NATO and US “advisers” who are already active in Ukraine.

Suspicion is also growing that the United States “green-lighted” in advance recent cruise missile attacks carried out by Ukraine against military targets deep inside Russia. Since the attacks, the White House has declared that Ukraine has “permission” to attack Russia and has basically conceded to the unbalanced Zelensky the right to make all the decisions and run the war that the US is largely funding, which is a formula for disaster. It is already known that Ukraine is receiving top level intelligence provided both by the US and also other NATO states. The precision attacks on Russia suggest that the Ukrainian army was given the coordinates of possible active targets, something that the US would be capable of providing but which would have been beyond the abilities of Ukraine, which possesses no satellite surveillance capability. If it is true that the White House was involved in escalating the conflict it would be a very dangerous move, inviting retaliation by Moscow.

To be sure, some idiots in Washington, mostly of the neocon variety, continue to see war against Russia as something like a crusade for world freedom. Rick Newman, Yahoo’s top Finance Columnist, observes how “Budget hawks in Congress are worried about granting President Biden’s request for an additional \$38 billion in aid for

Ukraine to help defeat the invading Russians.” He concludes “They’re right. Thirty-eight billion isn’t enough. Make it \$50 billion. Or even \$100 billion. The more, the better, until the job is done.”

Apparently, the bellicose Rick does not quite get that Russia has made clear that if it is about to be defeated by *force majeure* it will go nuclear. And Congress and the White House don’t seem to get it either, with both the Republican and Democratic parties oblivious to the real danger that confronts the American people. Nuclear war? Sure! Just hide in your basement, if you have one, and tune in.

Fronted by the Wagner group, Russian forces appear to have completely surrounded the city of Soledar. Remnants of the Ukie army who did not manage to escape the cauldron may now be bottled up in a huge underground salt mine.

Meanwhile less than 20 miles away the other key to the Ukrainian occupation of Donbass, the city of Bakhmut, will, at present developments likely be surrounded and in the bag within a week. The loss of those cities will reverberate down through the rest of the Donbass agglomeration of cities and urban satellites and shake the entire front.

The Neocons and the Department of \$tate, both elements of the Talmudist world domination scheme are becoming extremely nervous. Between the CIA and the Pentagon there may be some cooler heads who full well understand that if the U\$\$A resorts to a nuclear first-strike, the Russian response would oblige most Americans, particularly those in major metros to kiss their kiesters goodby.

Let us all pray to whatever deity or force of spiritual power to which we adhere. May the cooler heads prevail. What we face is not some Hollywood extravaganza. It's REAL.

I share Mr. Girardi's concerns about articles telling how "survivable" a nuclear war might be. Two clueless young women feature as their main interview subject a Pollyannaish "specialist" who may have read some upbeat survivalist books.

Suspicion is also growing that the United States "green-lighted" in advance recent cruise missile attacks carried out by Ukraine against military targets deep inside Russia.

It's my personal fear that the situation was far worse than "giving permission" to Ukraine.

"Somebody" rebuilt the antique jet drones, fitting them with the latest in guidance technology. Air Forces try to avoid radar stations when making intrusions, and until I learn otherwise I'm going to say that satellite images were manipulated by giant computers to allow the Ukrainian drones to locate and fly very low through paths of subtle ground radar shadows in order to avoid being detected during most or all of the flight. In each case news reports say the drones made it all the way to the targets, where point defenses destroyed them.

The Russians obviously need to take a close look at such vulnerabilities of all their important targets, or they might be caught with their pants down from attacks by far more destructive weapons. High towers? Drone-mounted AWACS? Or just a few more radar stations.

Repeating what I've said previously, our Zionist Overlords are directing a feeble old warmonger to keep cranking things up. Given the incredible stakes, this is an unimaginably dangerous game.

Nothing in the way of conventional weapons is going to turn the situation around in Ukraine. Not if we send them every Bradley Fighting Vehicle we have. Every Patriot Missile we have. The former is just another way to quickly kill Ukrainian soldiers. NATO is either going nuclear or it isn't. It's another fear of mine they're crazy enough to think they can get away with it.

Hopefully the Russians will have had the time to compose a suitable reply which doesn't include ICBMs.

V jaderné válce jsou upřednostňovány cíle. Prvními cíli, které zasáhnou, jsou vojenské základny, ponorky, letiště, odkud může nepřítel podniknout protiútok. Pokud nepřítelům neodstraníte strategické bombardéry, ICBM a ponorky, máte husu uvařenou.

Existuje teorie, že Rusko odpálí bombu tsunami u východního pobřeží a přílivová vlna odstraní města a přístavy na východním pobřeží, takže schopnost Ameriky vést válku z východního pobřeží je anulována. Vzhledem k tomu, že to vyžaduje pouze jednu bombu, ruský jaderný arzenál by byl stále nedotčený, ale vojenská průmyslová infrastruktura národů byla zbavena hlavy.

Rusko nemá problém s průměrným americkým otrokem, oni mají problém s válečnými štváči v DC. Problém Ruska s námi by vyřešila bomba tsunami na východním pobřeží, které má mělký terén ve vnitrozemí.

Mitchell Henderson, a regular on Jeff Rense radio, says Russia will choose to attack us on their schedule, it will not be announced, when you least expect it, and it will be a full all out attack, and nothing will be spared. (You can listen to any of the interviews by going to [rense.com](http://rense.com), and scrolling down the left side until you find the interview postings.)

If even one major city was hit with a nuke it would be catastrophic for the world. If NYC was hit all the big banks would fail, and Wall Street would be gone, the New York Stock exchange would be gone, and all the derivatives and debts would blow up. The capitalist system would be gone.

If DC was hit then the Federal Reserve would be gone along with the value of the paper notes in your pocket. The economic devastation of a nuclear attack on any major financial hub would make the 1929 crash seem like a picnic. But if Putin really wanted to take out the west, and the Jew bankers, and end them for good, then he should hit all the major banking centers like the City of London, and NYC, which would also end the Masonic control of the world.

If Putin wants to end the Zionists, (who are also the Neocons) then he needs to take out London and Rothschild, Tel Aviv, NYC, and D.C. Those cities are the real axis of evil in the world.

Trump said what good are nuclear weapons if you can't use them? I think Israel is using them, like the harbor in Beirut. Small nuclear weapons can be used so long as you provide a good cover story like Ammonium Nitrate, or in the case of 9-11-2001 Arab terrorists and airplanes.

### Video Link

Then we have the Samson Option, and Israel's potential ability to black mail the world with hidden nuclear bombs in major cities. So the Mossad could detonate a bomb in NYC, blame Russia, so Amerika and Russia would go at it destroying themselves leaving Israel victorious and paving the way for the end times Jew World Order and Greater Israel.

“Once we squeeze all we can out of the United States, it can dry up and blow away.”

—Netanyahu, the prime minister of “Israel” to Jonathan Pollard upon exiting Pollard's jail cell.

And what Bibi wants, Bibi gets.

So Phil, I second your notion, 2023 could be much worse.

Bahmut (i.e. Artemovsk) was the capital of Slaveno-Serbia, one of the two areas founded by settled Serbs in 1750. The second area was New Serbia. The Serbs had separate military units and commanders and defended Russia against the Turks. They produced several generals of the imperial army who distinguished themselves in the battles against Napoleon. There are perhaps more than a million of their descendants today. They were assimilated throughout history and now probably fight on both sides of the war. However, most of them for 8 years have been fighting as part of the Donbas Army against the Ukronazi Army.

Weaken Russia? You mean the noose's getting tightened around the taxcattle's neck. The US-led terrorists and RU/China may go to war, but, as usual thruout history, any price in treasure and blood will by paid by people, though some will do so happily because they see Putin, Xi, Trump, etc., as some sort of saviors; clueless thick-skulled partisans and cultists aren't scarce among the cannon fodder stock.

War here and there sounds like great accompaniment to the Plandemic, Inc. LLC joint venture, in which US-led bloc and the RU/China bloc are equal stakeholders, killing many birds with all kinds of shots as geopolitics is Great-Reset-ed to "multipolarity".

In 2023 finally Russians will comprehend what happened in 2014. The Anglo-Zionist zone committed horrendous international crime by removing the pro-Russian elected president of Ukraine. The Russian priority in Ukraine from the beginning should have been to remedy this despicable foreign interference that crossed the well communicated Russian red line (similar to Cuban red line), being the Ukrainian west border.

Finally, in 2023 Russia will concentrate on removing the Anglo-Zionist puppet from Kiev by force. Restore the Christian parliament and Christian opposition parties as well as independent media. That would appear morally right to any sensible observer. This should have been done long time ago and many lives and destruction would have been spared. The Russian velvet approach is insane, you must go first after the regime leadership as it was done by Anglo-Zionist warmongers “successfully” in Iraq or Libya, they tried that in Syria as well by Russians stop them there.

The US cannot stop the Zircon missiles and Russian nuclear submarines could be anywhere off of either coast, Russia has active and effective ABM systems protecting her cities.

It looks to me like the Russians ended up with the best German scientists after the Allies raped and murdered all of Germany in 1945. Both sides stripped out industrial plant and enslaved German scientists and engineers under threat of execution for their “crimes”, but by all appearances the Russians got the better ones.

Just consider the Space program. Even with Werner von Braun, All the US could give the planet was fake moon landings.

Or consider fighter jets. Russia stole the better Aerospace technology and plant from Germany.

“Trump said what good are nuclear weapons if you can’t use them?”

I’d like to know where in the hell you found proof that Trump made this kind of mentally insane comment. I have a lot of criticisms of Trump, but the one thing that I have seen from him that has been consistent ever since he decided to get involved in politics is his often stated opposition to these endless, illegal, unnecessary, and belligerent wars that the jewish neocons and their treasonous gentile accomplices have been lying America into for the last 20 or more years.

Trump has repeatedly criticized Biden and for his recklessness and dangerously provocative meddling in the Ukraine and has warned that this dementia ridden psychopath could wind up igniting a World War 3 that would involve use of nuclear weapons that could destroy life on this entire planet.

That comment sounds to me like something that would come out of the mouth of someone like Max Boot or John Bolton or Madeline Albright.

Provide proof that Trump ever mouthed such an irresponsible, lackadaisical and clearly psychopathic, unhinged statement like that – or else you owe the guy an apology.

Oh, and just to be clear. I have been a hard core critic of Trump and have not hesitated to rip him a new one when he deserves it. But, claiming Trump is somehow pro-Nuclear War and Nuclear Armageddon sounds like you’ve got a serious case of Trump Derangement Syndrome.

All this media hype of US cities coming under nuke attacks are just US projecting their aims.

The US, and the UK, are the criminally inclined entities with form when it comes to bombing cities in to oblivion.

Russia and China will nuke, or use conventional missiles and bombs, on military targets only. They will not obliterate a city as punishment or to just prove a point. Unless they have it done to them first.

The Germans refrained from bombing civilian centres in England, but Churchill kept bombing German cities and finally the Luftwaffe retaliated – as Churchill wanted.

Awaiting Yukon Jack's reply, I just spent a couple minutes researching the purported Trump statement.

It appears to have first been reported, citing an anonymous source who claimed to have briefed Trump, by MSNBC's Joe Scarborough during the 2016 election campaign, and then typically amplified by other Establishment media.

Why? To scare people away from voting for him. That was then, Ukraine and Taiwan are now. (Remember Kamala Harris questioning the hastiness of Trump's Operation Warp Speed during the 2020 "debates"?)

So Tucker's apparently fallen for a stale lie. But the larger truth is that none of these Red+Blue people — including Trump — or their stenographer "journalists" will hesitate to say or suppress anything if it helps them obtain or maintain power. Shamelessly unprincipled hypocrites who couldn't care less about the sheep voting for more of the same.

“Billions of dollars in direct aid as well as billions more in the form of weapons stripped from arsenals in Europe and the US have been given to the corrupt regime of President Volodymyr Zelensky while Zelensky continues to work assiduously to milk the situation and draw Washington into a deeper war directly confronting Moscow”.

This kind of language will never let you understand what is really going on. “Europe”, “the US[A]”, “Washington”, “Moscow”, etc. are all high-level abstractions with very little meaning in the context of such discussions.

The reality is that many individual human beings are pursuing what they consider to be their own interests, both severally and jointly, directly and indirectly. So many individuals have been betraying their own countries and citizens for so long that it is hardly noticeable any more. Arguably it first plumbed the depths in Washington DC where, as many astute observers have pointed out, literally everything is for sale at a price. It’s not a capital city or a government as much as a simple market.

References to “the corrupt regime of President Volodymyr Zelensky” should be expanded to make it clear that the Washington, London, Paris, Berlin, Rome, etc. regimes are every bit as corrupt as that which squats so profitably in Kiev. The American, British, French, German, Italian and Ukrainian peoples don’t come into the picture at all – except perhaps as useful tools.

In the meantime the “Ukraine war” has taken the covid document dumps off the front pages. How CONVENIENT. Millions of lives ruined but we should worry about whether or not Zelensky is upset. Please. On a brighter note, financial insolvency and famine are on the horizen. To paraphrase a vietnam era song, and its one two three... wait a minute...what ARE we fighting for?

All of this helps Russia to detect and plug the gaps in its defences. Meanwhile the USA benefits from no such process of immunisation.

This is one of the ways in which the often misquoted remark of Nietzsche, “Whatever does not kill me makes me stronger” fits the bill precisely.

I wouldn't be in the least surprised if this whole topic was foreseen and planned for by the Russians long before the SMO began. There may not be many people left who actually lived through the Great Patriotic War, but wise societies remember vividly whatever touches on their survival. Immense losses were suffered, but in the end the USSR won – and emerged as the world's leading military power.

Because it had to.

The American strategy against its enemies remains focused on economic war, so I don't see any reason they would want to escalate to nuclear war. In the Ukraine, they want to maintain the fighting at relative stalemate in order to drain Russian resources. Economically, the American strategy now is to create a global economic depression (see fed rate hikes). They believe that China and Russia will be harmed more than the USA will be by this. It will also have the benefit of increasing unemployment, so that employers will have the upper hand against labor and they will be able to reduce wages.

The USA is in the phase of its empire now that it cannot dominate its enemies outright, so instead it has chosen to inflict harm on everyone, including itself, with the expectation that the USA will come out in a relatively stronger position in the end.

The Russian Question could have been solved quite easily in 1941, by leaving people to solve it for the US instead of doing this:

“The first convoys with American goods were already being sent to the USSR by August 1941. Shortly afterwards the Germans found out about the convoy routes, and the allies suffered great losses. During the war Nazi submarines and torpedoes sank about 80 cargo ships destined for the USSR.

More than 14,000 U.S. airplanes, 8,000 of which came from Alaska, were given to the Soviet Union in the course of the war. The USSR received a total of 44,000 American jeeps, 375,883 cargo trucks, 8,071 tractors and 12,700 tanks. Additionally, 1,541,590 blankets, 331,066 liters of alcohol, 15,417,000 pairs of army boots, 106,893 tons of cotton, 2,670,000 tons of petroleum products and 4,478,000 tons of food supplies made their way into the Soviet Union.”

Great article and comments, lots of food for thought. Our leaders may be insane but they are not crazy. The media they control have over a century's experience in narrative control. Distraction is a main objective, and deception is its tool. As Goering commented in enemy captivity, to ensure obedience tell your people they are in mortal danger from a ruthless foreign enemy. Our system is crumbling, strangled at every level by greed and corruption. Add to this both parties' longtime policy of dividing us against one another; that has worked too well, so that we are again rapidly becoming ungovernable. FDR clearly provoked WWII in order to suppress widespread dissent and unite angry Depression-battered Americans behind a government that cared for nothing as much as global domination, then as now. Trump seems to have been the catalyst for this phase, which may have been why he was allowed to gain the presidency in the first place. The question is how clumsily State will play its hand and how skilfully Russia will separate policy from bluster. Those who howl for regime change in the RF would do well to remember that Putin and his All-Russia Party are the moderates.

Hulkamania,

You are right – capitalism has already died in America and left a stinking corpse. It needs to be replaced by a national socialism – like China is doing. A socialism will lift the American working class and sink those who inherited their money and positions – both very good things.

I take your point, but of course no one is dying for “open borders, gay marriage and drag queen story hour”.

Whether they know it or not, they are dying to add to the colossal fortunes of the world’s wealthiest people, and to protect – in the view of those people – their privileges.

Which is even worse.

I suspect the problem is one of mental rigidity. Classical capitalism may or may not have been a suitable system at certain times and places – all of them in the past now.

It isn't any longer. But those who profit from it will do everything in their power to maintain the illusion that it is “the best of all possible worlds”.

In Russia heroism and stoical acceptance of pain and sacrifice is common and in hard times is routine. Lives are considered expendables and death is accepted better than in the west. Hundreds of thousands or even millions of lives lost are already in the count of the great confrontantion that lies ahead . Everybody understand that Russia is facing a crucial fight fir life or death , and russians will not back down . The russians know it and they know what their duty is. This is the big difference beetween the Great Mother Russia and the whore countries that the western citizens belong to . Nobody in the west want to die for his country, first because the country is not his or her anymore and also because they feel that the Russians do not want anything from them that is other than acceptance and respect. The problem is that the citizens , in these democratic countries, they do not matter any longer since a global elite and their local sichopants are pursueding a new world order in which the populations are just wortheless masses of deracinated individuals. This cosmoplitans are actually in total control of all the international institutions and most of the western nations. The Russians are governed by the siloviki who are russians and care for the russians while the west is run by a cosmopolitan elite who doesn' t give a damn about the hapeless population who are kept in stupor by psy ops and propaganda. This superclass is eager to do whatever it takes to stay in the top of the world , even sacrifice millions of citizens in a nuclear war. There is not way out.

Agree, if I recall, during the Obama reign of terrorism, there was a shake down in the US Military Nuclear Personnel Dept. { in Colorado ?} and it was blamed on their incompetence. I believe during this time the US Military was forced to add some classified private management specialists to the Nuclear Defense/Offense installations, which would go along with your post that – it matters little about Biden, other than he would be blamed. My big question , who really is behind the silo triggers, the targets, and if they are Tribal members. The Tribe and their Partners own everything else in America – why wouldn't they have the access to the codes? It's a scary thought, but remember – America got Bought Out.

I don't see a way back home and with each passing moment, all paths will eventually lead to one.

They do not listen to us, they do not represent the majority will of the people, they are unresponsive, they do not care for the welfare of the people; they openly lie, brazenly loot and are wanton murderers of the highest order;

they impose collective trauma, and always in the name of safety or "national security" they rape the Law at great cost to the people, they are treasonous and the enemy of the people; As such,

Run this algo:

Nothing less than full decapitation; 535 +9 plus their staffs and families – this is a minimum.

Then, burn the National Security Council, the DOD, the executive office of the president of the united states, DEA, ATF, FBI, CIA, FDA, CDC, IRS, DOJ, SEC; The Federal Reserve and all its branches(especially the NY FED) and all of its board members, any registered foreign agent; organizations such as AIPAC or the Chamber of Commerce or FINRA, all holders of dual or multiple nationality should be given one chance to pick one nationality, basically all of it is rotten to the core and needs to come down.

We offer amnesty and reconciliation to the rest if they swear an oath not to act as traitors to the country and the people.

I know its not pretty, it has very bad slippery slope french revolution potential, but this is where we are, I'm tired of being constantly lied to and treated as an enemy at worst and as a cow

to be milked at best. There are millions of Americans in various forms of consciousness that feel the same way as I do.

Its too late, we cant go home, we have to decapitate and start over and rebuild with what is left. The looting and Lies have to stop and there must be consequences for past wrongs done to the people and the country.

Never forget CONgress and the white house excused themselves from obamacare, they gave themselves and exemptions from taking the pfizer death shot, pelosi gave all staff a \$40,000 raise on her way out, of all them get lifetime peleton memberships, all while people are dying and getting evicted.

People are tired of being traumatized and looted, not by foreign agents and enemies, but by their own representatives and government.

This blatant abuse and trauma imposed on us by the US congress and the white house and US institutions is beyond anything acceptable, this society is sick, precisely due to the action of the elites doing the “leading”. Enough.

The looting and Lying must stop.

Somewhat alarmist. US 10st Airborne is a fig-leaf for Romania and impotent in a serious war zone like Ukraine – it lacks any support or logistics and would be eradicated.

British SAS is 900 strong and was not quite so impressive in Iraq or in Afghanistan – even though it deployed Reservist units because it is manpower constrained.

Fighting a war on Russia's borders has never been very successful and Adolf Hitler deployed enough soldiers to have 6.9 million casualties – half of them immediately KIA.

As for eradication of US cities that is the response to US Wet Dreams of limiting nuclear war to Europe – just as under Reagan – he changed his tune after Able Archer 83 and the revelations of Soviet active response to a simulated NATO attack.

US is chaotic – it cannot even run a Smart Electrical Grid, lacks proper rail infrastructure, has no robust banking system, and lacks an integrated health care system – NYC could not even deal with the Covid scenario and killed off its senior population in error

Američané mají iluze – nejsou odolní vůči odvetě – a na každém kontinentu budují svou vlastní pohřební hranici.

| Vzhled článku Business Insider . . .

Klíčovým slovem je „vzhled“. Myslím, že to byly problémy s autorskými právy, které vedly k nahrazení obrázku v článku Business Insider, ale stojí za to ho vidět a titulek. Obrázek článků je realističtější, a tím více vyvolává strach.

Článek se pak snaží zmírnit to, co má jasně navodit slovy : „*Ale počkejte, dobrá zpráva je, že můžeme a měli bychom utrácet peníze na civilní připravenost. . . .*“

Đábel rozhodně není v detailech. Navenek je *hmatatelně* , ne-li surově, zkonstruován tak, že čím více znalý a přemýšlivý čtenář to odmítne jako neseriózní, ne-li dětinsky šílené.

Co nám zbývá je, že je to signalizace. Publikum je ruská vláda, primárně, ale cokoli, ale výhradně. Stručně řečeno, neberte krizi legitimacy americké vlády a zuřící frakční války v DC jako náznak toho, že mocnosti nebudou riskovat úder Ruska na americké město jako odvetu.

Pamatujte, že všechny jaderné mocnosti mají dobře propracované doktríny pro použití těchto zbraní. Ponechte stranou všechny ty nesčetné další faktory, které se zabývají hodnocením, zda je hrozba, v tomto případě omezené výměny a riziko armagedonu, důvěryhodná.

Stačí říci, že to byla snadná práce pro americké plánovače během studené války vůči Sovětskému svazu za Stalina a Číně za Maa. Věřte mi, nebylo mnoho placených, aby si představili nepředstavitelné tehdy, kdo si kladl otázku, zda by některý z nich obětoval jedno ze svých měst pro podporu suverénních cílů.

Ještě snazší bylo zhodnotit, zda se USA zapojí do omezeného jaderného úderu, protože tak učinily, jeden na Hirošimu a druhý na Nagasaki. Mise splněna, důvěryhodnost!

Svět čelí něčemu, co v „prezidentu Joe Bidenovi“ a „Bidenově“ administrativě nemá obdoby. Nikdo, zahraniční ani domácí, se vážně neobával, že by předchůdce POTUS v jaderném věku mohl načmárat svůj podpis na rozkaz zahajující akce, které by mohly vyústit v odvetný jaderný útok na americké město.

Ted' musíme všichni.

The future of Washington DC is looking none too bright either in the 1976 US Bicentennial movie (ie *Logan's Run*) clip below. I couldn't care less about Trump and certainly don't have Trump derangement syndrome, but he did say what I wrote, and I still remember it clearly as it was broadcast repeatedly. Trump had extreme bellicose rhetoric about the carefree use of nukes.

This is a good article but it is all over the place. Russia is not going to collapse nor will it be defeated in the Ukraine ...their own back yard. Secondly you brushed over Israel and the Ukraine and Russia. The Ukraine is a Jewish story...cut to the chase and the Jabs ...Jews around Biden are right there. As an aside, as you know Phil, Israel has had nuclear weapons for over half a century and it is certain they would use them as a last option if the Muslim hordes were about to crack the walls of the Castle. Nothing is more certain than that. Lastly, as a possibility and not a probability I could easily imagine Putin firing a small tactical nuclear weapon at a somewhat isolated Yuki military site containing imported Nato weapons...and sitting back and saying to Joe and all the Jews that elected him and financed him...now what big guys?

Nuclear Russia v. Nuclear USA suggest a “counter party mutual destruction” situation in which remainder nation China, Israel, Britain, Brazil, or another could become ruler of the remaining depopulated world?

Adopting for purpose of analysis, such a scenario allows to entertain possible scenarios to attempt to explain why the USA allowed America to be de-industrialized? We already know copyright and patent monopolies attained by RULE OF LAW passed and enforced by the USA and made international by treaty and trade agreements were the agents of change that allowed American businesses, American research expertise, and global corporations with factories in America, etc. to be relocated. Why did the USA allow American capital to go overseas?

This relocation all happened without loss of income to the owners of the moved industries and without loss of monopoly exclusive ownership rights to the owners [same owners-same monopoly powers relocated to different places]. The monopolies which denied all others from using the important processes and designs vital to keeping those relocated industries and enterprises profitably running in their new places were persevered by the RULE OF LAW in the form of copyrights, patents and exclusive government contracts?

Finding a rational that provides a logic that would induce the USA to look the other way for relocation of American capital and American industries to non American places has always been important and never adequately explained?

Better environmental laws or lower wages do not balance the offsetting loss to American interest in keeping these enterprises? What about the American jobs lost? What about the defensive security loss when those productive enterprises are no longer in America? What about the competitive advantage Americans had over the rest of the world in its developed bodies of knowledge and in its highly experienced work forces: the work forces needed to keep these enterprises running? What about the loss benefit of having these industries available domestically so that up and coming Americans can use these enterprises, not only for jobs, but also to train, to learn and to develop industry skills: relocation of these industries denied Americans, and actually sent jobs, skills, expertise and know-how elsewhere so foreigners could have those benefits?

Biden is a zionist puppet just like Trump and the zionists want a nuclear war with Russia , that they believe they can survive in their DUMBs, deep underground military bases, while the rest of us get incinerated, this will be a win win for the zionists as they are trying to depopulate the world through the covid-19 scam and psyop via the genocide MRNA clot shots, so 2023 will be depopulation on steroids, thanks to the zionists.

Then we have the Samson Option, and Israel's potential ability to black mail the world with hidden nuclear bombs in major cities. So the Mossad could detonate a bomb in NYC, blame Russia, so Amerika and Russia would go at it destroying themselves leaving Israel victorious and paving the way for the end times Jew World Order and Greater Israel.

“Once we squeeze all we can out of the United States, it can dry up and blow away.”

**Biden** should rethink this crazy US first strike nuclear attack policy.

Russia has nuclear tipped **hypersonic missiles** that travel ten times faster than US missiles! This is a no-win situation for the US, and assured suicide for Americans.

In addition, Russia has **unmanned, deep-diving, nuclear submarine drones** that when exploded will cause tidal waves, wiping out the east and west coasts.

The US doesn't have either of these Russian advanced weapons, which are war game changers.

**Vladimir Putin** has put Russia's nuclear arsenal on high alert, and has said, "**This is not a bluff.**" **Unlike Americans, Russian do not bluff.**

Russia has the largest stockpile of strategic nuclear weapons that produces killing explosions, thermal effects, and radiation. Nuclear bombs today are about 20-to-30 times more powerful than the nuclear bombs dropped during WWII on Hiroshima and Nagasaki, Japan.

**If Russia and the US launched all their nuclear bombs—it would be the end of the world, PERIOD.**

Yeah, it's war, and the Langley regime is gonna lose. Again. It's no big deal if the beltway gets nuked. One 100 MT airburst over Langley? Do us a world of good.

As you know, though, CIA has fanned out to the fusion centers to destroy civil society and use us all as human shields. So probably a lot of you chumps got to kiss your ass goodbye.

The one auspicious sign is that, as in the 70s, international pressure might have emboldened the eunuchs of Congress to look at the underlying cancer of CIA impunity.

<https://docs.house.gov/billsthisweek/20230109/BILLS-118HResPIH-Fed-Gov-comv2.pdf>

If everything goes right, this might avert general nuclear war. If not, it will be useful preparation for the postwar tribunal in Khabarovsk, where the whole fucking SIS gets the six-inch drop and wiggles around more-or-less live on Rumble for an hour, and we cheer it like beach volleyball and pound beers.

But when the next poor bastard goes around to inventory CIA's family jewels, he has to include new specific cases:

- Decisions in which national security is not interpreted in conformity with the UN Charter;
- Criminality within the scope of UNTOC;
- Universal jurisdiction crimes listed in Rome Statute Article 8;
- Breaches of BWTC Article 1
- Ultra vires internationally wrongful acts.

Poor bastard's going to wind up like Schlesinger, with all the apparatchiks horking on his portrait, even if he gets lucky and his canoe don't sink. And his thankless job will come to nothing

without four crucial legislative actions:

- Ratify the Rome Statute;
- Ratify the ICESCR;
- Ratify the optional protocols of the CAT and ICCPR;
- Withdraw reservations on the CAT and ICCPR.

You can call it the government, so they don't whack you. But the Russians know who's in charge. They know who has the arbitrary power. Putin met with his opposite number Burns. Because Burns owns all the elements of US crimes of aggression.

it is not thought to have been decisive in the outcome in the East

This is an important article by Ph.G. which makes clear what is happening and what can happen. The other important recent article is the one by Ted Snider (see link below, the very small book by Benjamin Abelow can also be recommended, “How the West brought war to Ukraine”).

There was a conflict between the two sides during the cold war. But one of the aims of the people involved was to avoid a direct conflict between them, a war. This was difficult as there were fundamental ideological differences, an ideological dispute. Both sides had representants everywhere: political parties. There were times when the conflict escalated, but it went back to the normal levels because politicians knew they had to find a way to avoid a war. In fact, the Soviet Union acted mostly defensively and opportunistically. They never had the intention of invading Europe. They tried to finish the cold war very early already in the 60s, but the US wasn't interested (I heard this in a documentary about the Vietnam War). Both sides were open to the perspective of managing the conflict without war and of better relations.

In spite of that, the conflict lasted a long time and there were currents which wanted to prevail at any cost, and which created an ideology of militarism. Hermann Kahn might have played a role in the creation of this ideology. Today we have this same ideology, people who want wars. And contrary to the time of the cold war we have today a war that involves both sides. It's different than the Vietnam war because during the Vietnam war Russia had reasons to help a comunist regime while today no one is thinking of helping the Ukraine but rather of using the Ukraine to defeat Russia in a conflit that was provoked.

There is only one reason why the war in the Ukraine can't be ended with negotiations. It's because the war was desired and planned. The same people who wanted to escalate the cold war want today a war against Russia. I don't know where I read a comment saying that because people might begin to be tired of the war Anne Applebaum and Cohen Something (I have forgotten which one) started writing articles to tell how important the war is. In fact, this war is completely insane. We could finish it and have peace, if we wanted. The article by Ted Snider:

[https://original.antiwar.com/Ted\\_Snider/2023/01/09/why-russia-went-to-war-in-2022/](https://original.antiwar.com/Ted_Snider/2023/01/09/why-russia-went-to-war-in-2022/)

The post WW2 alliance between corporations and government that formed the basis of the military Keynesianism of the 1950s, the permanent war economy, where at the height of the Cold War, US taxpayers subsidized private capital with arms contracts, has been dubbed by heterodox economists as the ‘golden age’ who now who lament its replacement by “neoliberalism. But the real danger is not neo-liberalism, rather it is capture and co-optation of government by interests that cannot be denied due to some threat to ‘democracy” even if

The “Arsenal of Democracy” is nothing more than military keynesianism, shorn of any moral high ground even as it was wrapped in christian patriotism, where US taxpayers subsidize private capital and this has been dubbed the golden age in the 20th century history of the US – the 1950s the height of the cold war and thermonuclear war.

But nobody asks what use is democracy when the people are unengaged, decadent, constantly distracted and permanently experiencing stupefaction.

“...the congressional reforms of the mid-1970s paved the way for the Democratic Party’s turn against financial regulation. Prior to congressional reform, Democrats in Congress were especially parochial, and Southern populists dominated the House and Senate banking committees. These parochial and populist orientations complemented the radically decentralized banking system by New Deal financial regulations. The elimination of the seniority rule and other reforms reduced parochialism and strengthened Democratic leadership...

...the Depository Institutions Deregulation and Monetary Control Act of 1980 (DIDMCA) and the Garn–St. Germain Depository Institutions Act of 1982 (GSDIA) fundamentally upended the New Deal regulatory regime by removing interest rate restrictions, placing savings and loans (S&Ls) and commercial banks in direct competition, enabling greater consolidation in the industry and significantly eroding Glass–Steagall...

...I sofistikovanému pozorovateli americké politiky může být odpuštěno, že předpokládá, že republikáni byli hlavními strůjci finanční deregulace, ale není tomu tak. DIDMCA byla sponzorována Fernandem St. Germainem, brzkým demokratickým předsedou sněmovního výboru pro bankovníctví, finance a městské záležitosti, na slovo postoupili vůdci Demokratické strany v obou komorách, podporovaní drtivou většinou demokratů ve Sněmovně reprezentantů a Senátu na podlaze a podepsaný Jimmy Carterem. “

...27 z 28 spolusponzorů GSDIA byli demokraté, včetně budoucích stranických vůdců Chucka Schumera a Stenyho Hoyera, a návrh zákona podpořilo vedení strany a demokratické většiny v obou komorách. Demokraté neochotně nesouhlasili s republikánským plánem na deregulaci finančního průmyslu; spíše Demokratická strana zahájila finanční deregulaci.

when you think of 9/11 we must remember that the pentagon was hit directly in the office that was investigating the trillions of dollars that had vanished over the years of unaccounted military spending. the wtc building 7 (that had to be pulled, when the first planned demolition went wrong), held the backup documents for this case. coincidence upon coincidence and all the evidence disappears in a rather large puff of smoke.

Though senile Brandon has no power to act on his own accord, the president, for good or ill, is the face of the nation. He takes the blame as well as the adulations. That's what Mr. Giraldi means when he refers to Brandon's willingness to take the country to nuclear war.

Of greater concern is that no significant anti-war protests seem to be happening in the country over the prospect of nuclear annihilation. Or could it be that the media is not reporting it, just as they hide the massive protests in France and other NATO countries, the expanding war between the Mexican military and the Cartels, and the millions of illegals invading the country from as far away as darkest Africa?

Any such protests would doubtless be composed mostly of hated "White Supremacists." Could it be that, considering the ongoing J6 persecutions, they are cowed by the prospect of spending years in DC gulags for daring to protest against the Brandon regime's insane Russia hatred? The anti-war Left goes to sleep when democrats are in charge. You can bet they'd be out on the streets in the tens of thousands if Trump was still president and pursuing the same war policy as Brandon. Maybe things will change a little now that the Republicans have a slight majority in the House. But I wouldn't hold my breath.

Americká strategie proti svým nepřátelům zůstává zaměřena na ekonomickou válku, **takže nevidím důvod, proč by chtěli eskalovat k jaderné válce.** Na Ukrajině chtějí udržet boje v relativním patu, aby odčerpaly ruské zdroje.

Jedním z možných důvodů by mohlo být to, že „Ameriku“ provozuje kult ďábla uctívajících, demony posedlých, teistických satanistů (tj. šílenců), pro něž je neschopnost splnit jejich zlý imperiální program osud horší než jaderná válka. (A vypadá to, že všechny jejich snahy zničit své „nepřátele“ selhávají).

Poslední věc, kterou by někdo chtěl dělat, je poslouchat jakoukoli místní, státní nebo federální vládní agenturu, když přijde nouzová situace. Umím jmenovat události, ale už víme, že jedna je stejně nekompetentní jako druhá. Pak jsou tu místní zprávy, které si najímají bimbo, aby psali a četli bs, které vás měly informovat o nebezpečích, jen aby získali nulové podrobnosti a zmatené informace.

Vezměme si například CQ, v mém místním městečku na centrálním pobřeží uzavřeli hlavní dálnici (101), náhradní (154), uzavřeli letiště kvůli silnému dešti a několika kamenům padajícím po stranách silnice.

Takže teď nemáte přístup do práce ani z práce a jakýkoli pokus o útěk vás s největší pravděpodobností zatkne prasaty se zbraní a odznakem.

Pokud tohle není zneužití moci neschopnými kretény, tak co.

Američané vidí jaderné vydírání jen dalším krokem na žebříčku strategie extrémního nátlaku. Američané nevidí, že jaderné vydírání zničí svět, ve skutečnosti Američané vidí, že taktické jaderné bomby jsou neškodné. Američané vidí, že bez házení jaderných bomb na podporu jejich vydírání je zbytečné. A američtí politici se chtějí zapsat do dějin jako tragická hrdinové pušek, místo aby se vyhýbali armagedonským zbabělcům.

„Civilizační“ chorobný proces plýtvající planetou, nyní hluboko ve svých smrtelných bolestech, je smrtelně jistý, že zde bude probíhat přirozeně. To zahrnuje erupci do jejich virtuálního světa-o'-zranění všeho šílenství, degenerace, zmatku, teroru, rozkladu, dysfunkce, katastrofy atd., které dnes sužují domestikované národy... a mnohem více, co přijde docela rychle, vzhledem k jejich vyvolaným dosavadní neschopnost společně rozumně a organicky reagovat na cokoli z toho.

Ti, kteří se vydávají za vlastníky/provozovatele „globálního“ gulagu, si jsou dobře vědomi svého úplného nedostatku jakékoli skutečné „agentury“ v procesu dezintegrace zaplavujícího „civilizovaný svět“. Také se děsí pravděpodobných důsledků pro jejich vlastní ohromená „já“, pokud by se tento přirozený fakt dostal do povědomí obecné populace. Takže tito rádoby polobozi promrhají to málo, co zbylo z jejich vlastní zmenšující se kapacity, na bezmocné plány, jak rozptýlit zmatené masy vězňů strachem (a každým dalším druhem-)“porna“, v marném očekávání, že nějak uniknou svému nevyhnutelnému osudu. .

Tady v indické zemi jsme my, kteří přežili svobodné divoké národy všeho druhu, už dávno tím vším prošli. Nejsme uchvázeni hloupostmi ve stínovém světě, které stále vnímají naši zajatí Human Relations jako tak smrtelně vážné. Možná jim tedy můžeme nabídnout nějaká aktuální pozorování založená na naší skutečné prožité zkušenosti.

Pro některé například nebude novinkou, že se na ně absolutně „hraje“. Je to možná druhý nejstarší trik v Knize. Některé „samo“ vybrané kněžstvo se pokouší podtrhnout nějaký přirozený proces, který se stejně děje (jako je zatmění Slunce nebo cykly

oteplování a ochlazování klimatu), a přesvědčit pečlivě udržovanou a ignorantskou podtřídu, že to pro ně opravdu nevěstí nic špatného, pokud přijímají nějaký falešný „nápravný prostředek“ připravený jejich „sami“ vyvolenými lepšími. To vždy zahrnuje vzdání nepochybné poklony vytištěným profesionálním odborníkům du jour, bez ohledu na konkrétní pruh, čas od času a místo na místo. (Pro případ, že by to někoho zajímalo, nejstarší trik v Knize je: „Spí se mnou, zlato, a já z tebe udělám boha.“)

Cesta, jak se naše sestry a bratři vyvarovat pádu – do čehokoli dalšího a nakonec uniknout „z vězení“ svých vlastních předem naprogramovaných vjemů, není ve skutečnosti vůbec složitá... i když to sakra není V tomto pokročilém stádiu chorobného procesu to není snadné. Zaprvé je překonat organicky ochromující nemoc, která je jejich vlastním příliš drahým „já“.

Next step is to take their genuinely precious attention completely away from all the seductive imagery making-up the death cult delusion that is presently entrapping them with its paralyzing rule-of-fear. Then they'll be free once-more to pay all their undivided attention, respect, and unconditional affection to Earth's Whole Living Arrangement, which includes their own Kind, and where they are actually living-and-breathing every Day. That will restore their lost receptivity to the gifts Earth and All Our Relations have for us....when we are fulfilling consciously and conscientiously our Organic Function as a component of Her immune system.

What then? That's exactly what we are all going to see.

Anarchy is the Mother of all Warlords.

“and no angel born in Hell could break that Satan’s spell...”

commented Don McLean.

The London School of Economics educated Mick Jagger hired the Hell’s Angels to serve as security detail at the Altamont Speedway Concert. Because pampered baby-boomers believed the “Sunshine Daydream” that a world without codified laws was possible.

(The people who actually paid for their tickets to the Woodstock Music & Arts Fair were part of the “old world”).

Kdyby Americo šel za Donem Corleonem okamžitě poté, co byla jeho dcera napadena a zneuctěna, místo aby ztrácel čas v soudním systému, nepřerušil by Dona v „den svatby mé dcery“.

Anarchie vede zpět k Feudal Warlords. Rytíři jsou ponecháni, aby vymáhali smlouvy a dodávali hodnotu. Citliví bílí chlapi, kteří věří v sílu Zen & hippie družstevního podnikání, musí přehlédnout strukturu japonské společnosti. Kdo byli samurajové? Kdo je zaplatil?

„Rotary Bill Laughing Boy“, který se radostí při procházce Louvrem připíná a tetuje historickou analýzu s „LOL“, může sloužit jako dobrá longitudinální studie pro vystavení THC a Festival Jam Rock.

Proč nebyli Bobby & Phil & Mickey draftováni? (Jerry už sloužil.)

Protože Grateful Dead byli CIA, PsyOp navrhl a provedl, aby odpolitizoval boomery.

Většina zamotaných boomerských anarchistů čerpá inspiraci buď z Woodstocku, nebo z mistrovského Dead Tour z roku 1977. Jerry se zastal právníka a žaloval zmrzlinu Ben & Jerry's. Hudební průmysl je Talmudic Wizardry. A Krysař z Hamlinu žije dál.

Beru váš názor, ale samozřejmě nikdo neumírá na „otevřené hranice, sňatky gayů a hodinu příběhu drag queen“.

Whether they know it or not, they are dying to add to the colossal fortunes of the world's wealthiest people, and to protect – in the view of those people – their privileges.

Which is even worse.

I see it differently. After all that's happened I really don't believe that this warmongering madness – which risks planetary extinction – ultimately has anything to do with money. Money is just another tool in the Satanists' toolbox (like media control) used to influence/corrupt people.

I see his statement as a valid rhetorical trope – a synecdochial representation of the larger evil agenda at work here, i.e. the forceful imposition of the Satanic, messianic, judeo-communist new world order on all of humanity.

The people fighting against Russia in Ukraine are dying for the sake of the evil agenda of a Satanic cult.

Pokud by byl zasažen NYC, všechny velké banky by zkrachovaly a Wall Street by byla pryč, burza v New Yorku by byla pryč a všechny deriváty a dluhy by vybuchly.

Možná si vzpomínáte na 11. září a WTC a na skutečnost, že pod jednou z těch věží byl systém LINX, který byl jednou z hlavních telekomunikačních bran do širého světa, která se zhroutila a způsobila přetížení ostatních bran.....

<https://www.linx.net/about/network/>

Moderní telekomunikační systémy používají internetové protokoly pro směrování datového a hlasového provozu a dokonce i mobilní sítě jsou spojeny s IP sítěmi.

K vyřazení telekomunikačních/bankovních sítí není potřeba mnoho – myslím, že USA mají 7 klíčových bran – tak si vzpomeňte na Emergency Cash/gold Maple Leaf, jakmile se zhroutí internetové bankovníctví a zhroutí se dodavatelské řetězce a selže fakturace/fakturace/převod peněz

@Chuck Orloski

Krásné úterý Chucku!

Děkuji za ten článek; zajímavé, že to Macron rámuje jako větší bezpečnostní nezávislost EU/Francie na „hegemonii“ USA, ale myslím, že chce jen větší kus vojenského keynesiánského koláče.

z článku:

Součástí rozvíjení větší evropské autonomie v bezpečnostních záležitostech bude muset být odstranění rozdílů mezi evropskými státy.

Macronova strategie nebere v potaz zakořeněné postavení amerických investorů na globálních trzích založené na seignoraci dolarového systému nad EMU.

Macron dobře ví, že západoevropské podniky mají v rámci regionálních domén privilegované postavení, ale jsou plně podřízeny Transatlantickému řádu.

Podceňuje také strukturální sílu USA a míru, do jaké jsou přímé zahraniční investice USA sociálně integrovány do HMU a dokonce i samotné evropské společnosti přímým ovlivňováním sociální organizace výroby, přesouváním této výroby do segmentace trhu USA, transformující dříve vysoce inovativní národní systémy inovace a komodifikační instituce, které odrážely hluboce zakořeněné evropské třídní kompromisy (jako jsou penzijní fondy).

Zdá se, že Macron ignoruje, že snížení bezpečnostní závislosti EU není pouze funkcí snížení celkového přímého vlastnictví USA, ale způsobem, jakým se během období po druhé světové válce americký kapitál soustřeďoval a konsolidoval v určitých předních sektorech, standardizoval základní materiály, a proto se stal evropským kapitál závislý na těchto základních materiálech.

Macron se zdá být mužem, který unikl času; jeho strategie by možná fungovala před 20 nebo více lety, kdy po kolapsu Sovětů následovaly představy o „evropské výzvě“ a euro triumfalistů a otevřelo se malé okno příležitosti pro evropskou bezpečnostní nezávislost, ale po zhroutilí Bretton- Woodsův systém se objevil jakási minimalistická hegemonie USA nad Evropou, která nyní přerostla v maximalistickou hegemonii po výbuchu NS1 a NS2.

Po interregnu studené války, ale před návratem studené války 2, Pax Americana netrvala 100 let, ale jen asi deset let, od konce Sovětů do apoteózy Spojených států v 11. září (kde dokonce miliony Íránců pochodoval na podporu Ameriky), ale americké století se postaralo o zničení bezpečnostní nezávislosti EU upsáním EMU se strukturální finanční mocí USA.

Macron jako by zapomněl, že myšlenka „Spojených států evropských“, kterou zde zdánlivě prosazuje, neměla svůj původ v Paříži, Berlíně nebo Bruselu, ale ve Washingtonu.

Je Macron neznalý evropských dějin 20. století? Jistě ví, že Evropské obranné společenství se zrodilo jako přímá reakce amerického tlaku na přezbrojení Německa a jeho „selhání“ vedlo k aktivní americké konsolidaci a kontrole evropské obranné architektury (viz Bosna jako příklad dopředné strategie Clintonovy administrativy). Evropa). Píšu delší článek o vztahu a historii hegemonie USA visavis Europe a měl by být hotový za týden, možná to sem dám.

Ať už to ví nebo ne, Macron je jen francouzská verze žvatlajícího Yorkie a v případě, že dělá nějaké nenápadné kroky směrem k BRI/EAEU, tak mi to připadá velmi hloupé.

Doufám, že tvůj den je skvělý,

Pozdravy,

Je velký rozdíl mezi hippie sny o dřevěných lodích a anarchokapitalismem lidí jako Larkin Rose nebo Jeff Berwick.

Ale je to sporný bod, protože se nemůžeme dostat na žádné místo z místa, kde jsme nyní. Je spousta věcí, které by stejně smýšlející Evropané mohli dokázat, nebýt zhoubného vlivu samozvaných „Bohy vyvolených lidí“, ale v tomto bodě je to všechno stejně fantazijní jako Harry Potter.

Netrvalo dlouho a anarchista milující mír a svobodu stanovil zákon! Nabízí se jasný a přítomný projev autoritářství. A na jakou autoritu se hippies odvolávají? (Možná kodifikovat „právo nosit zbraně“ nebyl tak špatný nápad. Agentura je povolána. Bude ve „Sunshine Daydream“ existovat „habeas corpus“? I „Burning Man“ má kodex chování. Ale protože to není „vláda“, je autentický? Drogová špinavost je vrcholem lidské svobody? Pokud jde o daný problém, Spojené státy byly právně formulovány tak, aby zabránily „Crown & Cross“ převzít autoritu. Ale žádný takový firewall nebyl postaven, aby zabránil Židům a zednářům chopit se moci. No a ten den nastal. Jedna ruka myje druhou. Žid volí boj. Mason vyrábí zbraně, namydlí, opláchne, opakuje.

(A pak bylo mé právo na svobodu projevu podle prvního dodatku jednostranně pozastaveno anarchistou milujícím mír a svobodu. To je těžké, zvláště když v tomto hippie snění nemám žádnou kodifikovanou ochranu. Ale „osla“ se měří zdarma.)

(„Problém“ je řešeno v druhém odstavci)

Berkman, Luxemburg & Goldman byli nasazeni, aby rozvrátili vnitřní zásobovací linie z Berlína na západní frontu podněcováním nepokojů. To vedlo k příměří. Což nakonec prospělo degenerovaným válečným prasatům v Londýně založeným na kreditech. A tito „anarchisté“ pomohli dostat do popředí anglo-sionistickou ohavnost, která proměnila svět v násilné bordello.

Biden nemá žádnou moc ani sebeuvědomění; nic neřídí a nemá žádnou administrativu. Proč všichni autoři a komentátoři vůbec odkazují na Bidena?

Já to vidím jinak. Biden zasvětil celý svůj život konání zla pro své pány. Učinil vědomé rozhodnutí kandidovat na prezidenta, nejvyšší politickou funkci v zemi, za výslovným účelem předat moc úřadu některým lidem, kteří jsou možná těmi nejhoršími lidmi, kteří kdy po této zemi chodili. Dělal to vědomě, ochotně a zjevně nadšeně. Měl a stále má morální volbu přestat přijímat jejich rozkazy a přestat páchat zlo, kdykoli by si to přál, ale odmítá; takže v jistém smyslu má všechno pod kontrolou. Bez zrádných zmetek jako Biden a spol. by říše zla skončila. Úřad prezidenta (a potažmo zrádné spodiny, která ho dobrovolně obsazuje) je středobodem říše zla.

Statement by Martin Armstrong (paraphrased):

“Of all the presidents and prime ministers that I have met for the past forty years, Trump was the only one who told me at Mar a Lago that he is tired of sending letters of condolence to American families for soldiers who have fallen in Afghanistan. “Those people have been fighting for thousand of years over borders and our intervention will not change that.” Trump again.

When asked by his interviewer if the late Margaret Thatcher, Martin’s best friend, expressed any feelings of remorse for British soldiers who have fallen under her mandate, his answer was a straight “no.”

Trump has plenty of shortcomings but warmongering is definitely not one of them despite his blustering about having a bigger red nuclear button than North Korean president Kim Jong-Un. Trump tried on many occasions to pull American troops out of Syria but was sandbagged by the deep state. Trump represents the American oligarchy that benefits from prosperity driven by peace contrary to the American oligarchy that benefits from the spending of the MIC. History and experience show that it is the latter oligarchy that has the upper hand.

Všechny tyto komunikační orgány jsou řízeny Deep State. Předpokládat, že Amerika je zemí svobodných, je jako předpokládat, že Amerika nikdy nespáchala žádné válečné zločiny ani jiná zvěrstva. Anglo-sionistický Deep State je ta nejhorší parta, která kdy vládla nad jakoukoli významnou částí Západu.

@Greta Handel

(Is that what you did, Yukon Jack? And again in 2020?) They don't care which one you pick, as long as you do.

And what's this?

Read this and weep about your "savior" Trump

Who used the word "savior"?

No, I did not vote for Trump as I do not vote. If I did vote, I would not vote for any Ziowhore candidate like Biden or Trump. I think America should be first, and I think the politicians which make Israel first should be disqualified as treasonous bastards.

Trump, the Make America Great Again candidate, made Israel first. Trump bent over backward to give Israel everything they wanted, except he did not attack Iran, and Bibi had him flushed down the toilet. Trump gave Israel the Golan Heights (which he has no legal right to do) and he moved the US embassy to Jerusalem, which just further inflames the conflict in Palestine. Trump is a god damned slavish Jew whore and has no business being an American politician, in fact he should get the hell out the United States and go move to his Israel, his true love, outside of his daughter.

Trump said he was the King of Israel and all kinds of other completely insane Ziowhore statements that totally disgusted me and any other sane human. Israel did 911, and Trump kissing Israel's ass is disgusting, when the USA should be bombing Israel off the map for Jonathan Pollard, USS Liberty, 9-11, selling our secrets to China, etc. etc. Israel is the enemy of the United States, and in fact, because of Jewish influence and political power, Israel represents the #1 existential threat to the survival of the United States.

NEVER FORGET ISRAEL DID 911 BECAUSE ISRAEL WAS NOT PROSECUTED FOR THE ATTACK ON THE USS LIBERTY

Trump also loves Netanyahu, the very brainchild behind 911, and who promises to wipe out our nation as soon as the Jews are done using it like toilet paper. F-ck Donald Trump, he is a god damned traitor, and loyal to Israel. Same for Biden, and all the rest of the Ziowhores who refuse to hold Israel accountable for anything.

**I have had long conversations over the last two weeks with contacts at the Army War College and the headquarters, Marine Corps and I've made it absolutely clear in both cases that it is 100% certain that 9/11 was a Mossad operation Period**

**The Zionists are playing this as an all-or-nothing exercise**

**If they lose this one, they're done..**

**Alan Sabrosky**  
**US Army War College Retired**

I use the word “savior” because Trump is indeed viewed as a white savior, he is even referred to as the Emperor God King by his admirers. The commenter ‘Tucker’, was upset that I had said something he felt was slander toward his god king savior DJT. Sorry, I paid close attention to the things Trump said, and I do not like this gaslighting by his followers who deny he said those things. Trump made hundreds of inflammatory and incendiary remarks as president, including about using nuclear weapons first, including my first post that he said what good are nuclear weapons if you can’t use them. Yeah, he said it, and it was right in line with his management style to frighten his opponents like North Korea and Iran.

Let me repeat and be very clear about this Trump character, he made many very inflammatory remarks during his entire Presidential term. He made reckless statements about nuclear weapons, when in the diplomatic world, such rhetoric is considered very dangerous when nuclear powers are locked and loaded and nuclear tipped ICBMs are ready to go. Trump is a dangerous lunatic (as is Biden) and both need to be locked up in a nut house and kept away from doing any more damage.

2023 Will Be Same As It Ever Was, But The Ruling Class Manipulation Will Become More Open Use Of Force Rather Than Rancid Corporate Propaganda Apparatus Fraudulence.

Force or fraud is the choice for the ruling class.

Christopher Christie and Christopher Wray are fakers; just like Johnnie Ray.

It's all in the game for treasonous slobs such as Chris Christie and Chris Wray to attack the regular White Christian people of the USA. Politician whore pukes Christie and Wray attack the European Christian ancestral core of the USA because the White Christian American ancestral core of the USA is the only political force capable of politically decapitating the JEW/WASP Ruling Class of the American Empire. The deceased Baby Boomer Patriot Sam Francis wrote and said that Middle American Radicals — or regular White Christian Core Americans — are the one potential cohort that might produce a new ruling class to topple and displace the current globalizer, anti-White ruling class.

To say something nice about M & M consolidator and decent athlete when he wasn't so darn fat, Chris Christie, he at least was properly appalled at the behaviour of the Kushner people during some squalid Kushner business a while back.

As for Chris Wray, he does what he is told by the ruling class and he seems to have no integrity. I could be wrong. At least Chris Wray hasn't appeared in a dress like Fay Wray, but if a ruling class representative told him to do so, he'd do it.

Power. Must. Coordinate. <https://t.co/BhR8BBNFtT>

Well, i figure how ugly a year was by the number of children killed in the world violently.

–**2022**–

In the US for example, there were 6000 children killed or injured by firearms in 2022.

No joke.

When they don't kill each other, Americans go overseas to satisfy their blood thirst;

**MONGOLOID PRESIDENT BIDEN** killed 8 kids in Afghanistan in retaliation for the killing of 8 ...what was it **MONGOLOID EX-PRESIDENT DONALD TRUMP** called them? oh yeah, LOSERS AND SUCKERS (US marines).

THEN MONGOLOID PRESIDENT BIDEN went again and killed 8 more kids this time in Syria because, ready? They had to get rid of a “very dangerous” jihadist. I mean the LOSER/SUCKER who fired the drone into the house where the kids where couldn't wait for them to go out to play soccer then kill the guy.

What did MONGOLOID PRESIDENT BIDEN DO upon hearing the news? He smiled and went on looking for little girls to sniff their hair.

IT DOESNT LOOK LIKE THIS YEAR IS GONNA BE BETTER:

–**2023**-From Google;

1-Family of 5, including minors, found dead in North Carolina home ....

2-Family of 4 dead in Allegan County murder-suicide –

3-Father, son dead in Luling, murder-suicide following ...

Etc etc etc

And the one that still got my head rolling around 360 degrees:

“6-year-old student shoots teacher in Virginia classroom, police say.

— A 6-year-old student shot and wounded a teacher at his school in Virginia during an altercation inside a first-grade.....”

ANOTHER ONE;

“Tennessee cops, including married female officer, fired after repeated wild sex romps.”

This blond bitch had SEX and blowjob parties with six other policemen! The good news is that she is equal opportunity; the cops were black, white and Latino, baby!

A SIX YEARS OLD WAS “HAVING AN “ALTERCATION?

Unfortunately we have a whole bunch of Buck Turdigisons alive and kicking in Washington D.C. 2023. Among the worst are Mike Pompeo, a real war addicted nutcase...

In regards to Pompeo, from the time of it's very inception, in 1776, the United States has point by point closely paralleled ancient Rome in it's history.

Currently the United States is paralleling Rome in making a transition from a republic to a dictatorship. During this transition ancient Rome had a loose political alliance called the First Triumvirate which informally ruled Rome and would ultimately dissolve in a civil war, which consisted of Crassus, his political protégé Caesar, and the Roman General Pompey.

Pompeo, who is to decide in a few months if he will contest Trump's candidacy for the Republican presidential nomination, amongst other close parallels literally has the very same name as ancient Rome's Pompey, the latter simply being an Anglicized spelling of Pompeo. [See 'Pompeo and Pompey' excerpt and link below.]

Notice how young Putin is in those pictures.

He had zero money then.

Today (after ki\$\$ing that kosher ass) the man got close to 200 billion dollars.

“Putin claims he makes \$140,000 and has an 800-square foot apartment.”

But according to some experts, he may be the wealthiest man in the world with assets totaling up to \$200 billion.

“Apart from the Black Sea Mansion and 19 other houses and 700 cars, Putin supposedly has a collection of 58 aircraft and helicopters including a \$716 million dollar plane called “The Flying Kremlin” that has a toilet made of gold. Not surprising considering his taste for grandiose, neoclassical architecture.”

HE MADE IT.

But as usual it went to his head and lost it.

Sir, that is concise and correct! Douglas Reed wrote with the same exact intent some 70 years ago when he stated “The denouement will be extremely painful for all existing at that time”. Mr. Reed knew that in (anybody’s) estimation the ‘destructive principle’ of the Zionist Jew would not succeed BUT WOULD go all the way to fruition. As he stated “It has gone on for so long now there is...(my words) no alternative to their deceptive plan.

They are loosing and they know it. The world is sick and tired of Zionist Jew hegemony and the idiot Zionist Evangelical Christian Church that supports it (along with the ZOG of the US).

It’s true that not every Jew is a Zionist and that not every Zionist is a Jew. How do we ever rid our world of this extreme pestilence? The Nazi model was completely WRONG. In the US alone we have some 80 million brainwashed nullified heads that LOVE Israel and targeting Jews alone would do nothing to eliminate Zionist Christianity who swear allegiance to the Jewish state every minute of every day.

As the child of a Czechoslovak diplomat, ww2 found her in Belgrade. A Serbian family saved her from being sent to a concentration camp even though the German penalty for hiding Jews was death. Later, she even had a Montenegrin Serb as a boyfriend. It is unknown what caused her pathological hatred of Serbs (maybe because the boyfriend left her?), her constant support for the bombing of Serbia.

Later in her life, she had an Albanian terrorist, the leader of a mafia that traded drugs and human organs, as her lover. Swiss lawyer Dick Marty found that organs were taken from several hundred captured Serbian civilians while they were still alive. Later, this terrorist and a lover of M. Albright (she was 65, he 35) even became the president of the American narco-territory of Kosovo, which was stolen from Serbia. For her merits in seizing Kosovo from Serbia, she received a telecom company in Kosovo and later even a monument just like Bill Clinton.

I sense that the neocon jerks in Washington feel that this is a game of chicken and Russia will blink first. That Putin is far more sensible than to allow the war to progress to a nuclear conflict gives these Washington bastards the idea that, eventually, they can weaken Russia through economic attrition, causing Russia's capitulation.

However, most dumbshit Americans don't realize that Putin's Russia is the last stand from Americans becoming slaves to the NWO. The people running the American side of this nonsense are students of the Talmud. They have no concern for the lives that will be lost. Still, a safe bet is that they have a strategy for weathering whatever mess they create for the rest of us.

I sympathize with you, however, many people have fallen for this 'tsunami bomb myth. These devices are allegedly designed as a torpedo with a 100 megaton yield and is suppose to create a 1200 (!) foot tsunami that will wipe out HUGE swaths of land. This is complete BS; 100 megatons is way to SMALL for such an effect. The 2004 Sumatra earthquake had an estimated yield of several GIGATONS (Billions of tons of TNT) and it only created around a 30 meter tsunami which still caused a lot of damage and killed over 100,000 people or so, but WAY short of taking out an area the size of the US east coast! If the Russians attempted such a thing with one of their 100 Megaton (Maybe a 'tsunami around 2 meters or so) torpedo's off the east/west coasts of the US; all they would do is piss off the US government; who will then, retaliate with a full nuclear response against Russia (China as well?)

I suspect that these 100 megaton torpedo's where designed for use against the US Ohio class Nuclear missile carrying submarines and their hardened submarine pens off the coasts of both the Pacific and Atlantic coasts. They can also be used against the same subs on the high seas by detonating such a warhead with in several miles of the sub's moving location with an attempt to crush their hulls!

A several mile diameter, or so, asteroid hitting the earth (Ocean strike!) would be required for a 1200" tsunami! But, I digress

Best to you

@Reginald Elings

These devices are allegedly designed as a torpedo with a 100 megaton yield and is suppose to create a 1200 (!) foot tsunami that will wipe out HUGE swaths of land. This is complete BS; 100 megatons is way to SMALL for such an effect.

Suppose you're right. Both Russia and the US have computers which can run programs which would predict some sort of wave output, but they may be lying about that part. What about the other effects?

[https://en.wikipedia.org/wiki/Operation\\_Crossroads](https://en.wikipedia.org/wiki/Operation_Crossroads)

Consider the Crossroads Baker test. A mere 21 kiloton device detonated only 90 feet deep destroyed an entire fleet of old Navy ships. The ones which weren't wrecked were so contaminated that most had to be scuttled instead of scrapped. Next, the Castle Bravo surprise.

<https://nationalinterest.org/blog/reboot/castle-bravo-huge-nuke-changed-world-194339>

Scientists estimated the device would have a yield of about five megatons. They based many of their safety precautions—such as the location of various observation posts and ships, a safety “exclusion zone” in the Pacific Ocean surrounding Bikini and estimates of fallout dispersal—on a five-megaton yield.

Zero hour for Bravo was at 6:45 a.m. local time on March 1. From the moment the device detonated, many of the observers knew something had gone spectacularly wrong.

~~~~~

Battle-hardened men who had served in World War II went to their knees and prayed,” L. Douglas Keeney wrote in 15 Minutes: General Curtis LeMay and the Countdown to Nuclear Annihilation.

“We soon found ourselves under a large black and orange cloud that seemed to be dropping bright red balls of fire all over the ocean around us,” one sailor recounted. “I think many of us expected that we were witnessing the end of the world.”

Multiple the size of that explosion by a factor of 7, and plant it far down in the ocean. At a bare minimum, a deep explosion 5,000 times larger than the Baker shot will contaminate enormous areas. Wouldn't surprise me if *local* tidal waves weren't in the range of hundreds of meters, too.

The Russians wouldn't have gone to the trouble of making this super-bomb if they didn't think they'd get their money's worth. But even if the thing should turn out to be a worthless damp squib, their other weapons still make avoiding a nuclear war very much worthwhile.

Why could 2023 be the worst year in our lives? Because the war we are provoking in Ukraine, is pissing off Russia, which has a huge arsenal of nuclear weapons, and Putin is condemning us in the harshest of terms.

## Estimated global nuclear warhead arsenals

Includes warheads in stockpile as well as retired, but still intact

Source: Federation of American Scientists, July 2019

BBC

In fact, by some reckonings the war has already begun, with the US and its allies clearly dedicated to crippling the Russian economy while also getting rid of President Vladimir Putin. The 101st Airborne is now in place in Romania next to Ukraine to “warn” the Kremlin while the Pentagon has recently admitted that some American military personnel are already in Ukraine, contrary to the denials by White House spokesmen. The British have also revealed that some of their elite Special Ops personnel are on the ground.

What does Putin say about this war?

Vladimir Putin's speech to the world

**I'm tired today tired of everything. I want to speak to all sides of the world. What the hell is going on here? What evil plans do you dream of? You sacrifice the innocent soul and victims of your dirty politics in the world! You keep washing people's brains with your mainstreams, without the same and worldwide.**

**I know your satanic plans to reduce the population of the planet. You are truly evil to use the most vulnerable to your plans. If you think people are simply subjecting themselves to the thought of massacre, leave your position immediately!**

**If the USA and Europe don't stop their plans immediately, you will not only face God's wrath, but mine too.** Finish your plan right away. Long live God and the homeland and receive enemies with open arms of death.

Mitchell Henderson reads that speech on Jeff Rense radio last night, here is a link:

Putin speech on September 30, 2022

<http://en.kremlin.ru/events/president/news/69465>

Now, in order to free itself from the latest web of challenges, they need to dismantle Russia as well as other states that choose a sovereign path of development, at all costs, to be able to further plunder other nations' wealth and use it to patch their own holes. If this does not happen, I cannot rule out that they will try to trigger a collapse of the entire system, and blame everything on that, or, God forbid, decide to use the old formula of economic growth through war.

Russia is aware of its responsibility to the international community and will make every effort to ensure that cooler heads prevail.

The current neocolonial model is ultimately doomed; this much is obvious. But I repeat that its real masters will cling to it to the end. They simply have nothing to offer the world except to maintain the same system of plundering and racketeering.

**They do not give a damn about the natural right of billions of people, the majority of humanity, to freedom and justice, the right to determine their own future. They have already moved on to the radical denial of moral, religious, and family values.**

**Let's answer some very simple questions for ourselves. Now I would like to return to what I said and want to address also all citizens of the country – not just the colleagues that are in the hall – but all citizens of Russia: do we want to have here, in our country, in Russia, “parent number one, parent number two and parent number three” (they have completely lost it!) instead of mother and father? Do we want our schools to impose on our children, from their earliest days in school, perversions that lead to degradation and extinction? Do we want to drum into their heads the ideas that certain other genders exist along with women and men and to offer them gender reassignment surgery? Is that what we want for our country and our children? This is all unacceptable to us. We have a different future of our own.**

**Let me repeat that the dictatorship of the Western elites targets all societies, including the citizens of Western countries themselves. This is a challenge to all. This complete renunciation of what it means to be human, the overthrow of faith and traditional values, and the suppression of freedom are coming to resemble a “religion in reverse” – pure Satanism. Exposing false messiahs, Jesus Christ said in the Sermon on the Mount: “By their fruits ye shall know them.” These poisonous fruits are already obvious to people, and not only in our country but also in all countries, including many people in the West itself.**

Amid the Russia-Ukraine crisis, Donald Trump has made new claims. He stated that Putin did not attack the Eastern European nation in his tenure because he had threatened to bomb Moscow. In a recording of the phone conversation with pro-golfer John Daly on Friday, March 4, the former president said: "They're all saying oh he's a nuclear power, it's like they're afraid of him. You know, he was a friend of mine, I got along great with him. I say, Vladimir, if you do it, we're hitting Moscow. We're going to hit Moscow. Russia will use tactical nuclear weapons in Ukraine if necessary to avoid defeat. Acceptance of defeat by the Russians is not a viable option for them. They would become vassals of NATO—in other words, the United States.

The United States is not going to retaliate by using nuclear weapons against Russia because Russia would respond by using nuclear weapons against the United States. The United States is not going to commit suicide on behalf of Ukraine.

I understand the physics of what you say and I don't doubt it, thanks for pointing it out. Natural tsunamis generated in deep water have a very short wave amplitude, but very long wavelength, as they come ashore they slow down and the wave height increases dramatically. If you are fishing in deep water, a tsunami can pass under your boat without you even knowing it.

The tsunami bomb (myth or not) has been a “thing” on the internet for the last couple of years (and promoted by the MSM). I was speculating tongue and cheek what might happen, hopefully no nuclear war happens. Nuclear war would be the worst thing that could ever happen to a human being on this planet.

The even bigger joke than some two-bit politician wearing some stupid cap at some stupid wall for some stupid Jew religion to get Jew money and endorsement is THAT WALL IS NOT THE REAL WALL of the 1st century Jerusalem temple.

The Wailing Wall is not part of the foundation wall for the old Temple, it is the wall of the old Roman Antonia Fortress; which the Roman army left as a monument to their power, as it is all that remained after they desolated the rest of the city in 70 A.D.

It is my very good idea that we assemble all of the Jew whore politicians, traitors all, who love Israel, who whore themselves to Zion, to assemble them all in front of this fake wailing wall, along with the entire Knesset and most of all Bibi Satanyahu, and while they are all there kissing each other's asses we fire a volley of Hellfire missiles from Predator drones and send them all back to hell. Nazi Germany did not go after Zionism to disassemble any part of (it's) support structure. Such a move would never solve anything wrong here now in the US. Virtually all government, central banks, MSM, entertainment and publishing are Zionist Jew owned and operated. The goyim support of this is beyond enormous (US Military included). To end anything disabling logistics is key. The pre WWII German model simply degrades foreigners/Jews and anyone they didn't like. In the long run it accomplished nothing. Nuclear war is a real threat, but both sides want self preservation, thus nukes became the deterrent under the Mutual Assured Destruction (MAD) doctrine.

Wikipedia – Mutual assured destruction (MAD) is a doctrine of military strategy and national security policy which posits that a full-scale use of nuclear weapons by an attacker on a nuclear-armed defender with second-strike capabilities would cause the complete annihilation of both the attacker and the defender.[1]

But there is another huge threat, the climate lunatics are passing laws stopping gasoline car production and natural gas for heating and cooking. **California has outlawed gasoline engines by a 2035 and now California has outlawed natural gas by 2030.** But 86% of households in CA use it as a primary source of heating and cooking. And now Biden wants to take this law nationwide. This is beyond batshit crazy, these laws are intentionally trying to destroy our civilization, and it should be recognized as such.

**Net Zero Will Lead To The End Of Modern Civilisation, Says Top Scientist**

ZH: A damning indictment of the Net Zero political project has been made by one of the world's leading nuclear physicists.

In a recently published science paper, Dr. Wallace Manheimer said it would be the end of modern civilisation. Writing about wind and solar power he argued it would be especially tragic “when not only will this new infrastructure fail, but will cost trillions, trash large portions of the environment, and be entirely unnecessary”.

Anyone with a science background knows that ending natural gas and gasoline engines is impossible, as there is no electrical source to make up for the massive energy component of natural gas and gasoline. So what is really going on here? They are ending our civilization under the guise of fighting climate change. Now if you take that in context of the current vaxx genocide, what these Leftist climate lunatics are really doing is

culling the population by any means available – and that means the MAD doctrine may no longer apply – which means they may be actually trying to start a nuclear war with Russia because the WEF goals can only be met if our current civilization is destroyed.

| Harold, I'm less inclined to see a cult or conspiracy.

Even after JFK, 9/11 and the covid scam (especially when the serial treachery is considered collectively)?

| After all, people have always been greedy for power and money – which are to a great extent interchangeable.

The thing is, the people at the top of Western society pushing for WW3 e.g. George Soros, are already billionaires (or almost billionaires), many or most of whom are elderly, and they and their multi-millionaire puppet politicians essentially have total control of the U.S. “government.” So as we see they can and do print all the money they want for whatever projects they want to fund.

That these people who already have such enormous wealth, power and influence and who thus have access to the best of everything that Western society can offer, are willing to risk it all including their lives and the lives of their families – by flirting with planetary extinction for the sake of the obviously hopeless cause of destroying Russia – strongly suggests that there is something else motivating this behavior, doesn't it?

| I invoke Hanlon's Razor:

| “Never attribute to malice that which can be adequately explained by stupidity”.

The operative phrase here is “adequately explained.” I don't see how the well-coordinated and obviously self-destructive acts of the collective West can be “adequately explained” by “stupidity.”

| Adding to “stupidity” greed, selfishness, and lust for power. Which are all stupid, considering that human beings are intrinsically social animals.

You've just described many of the features of "evil" – which is certainly "stupid" – but you've ignored a few critically important ones: the planning and coordination which are characteristic of Satanic evil and the self-destructive bent of demon-possession.

I am not a fan pf war or nuclear war. And while the ongoing debate about US,NATO and EU involvement in Ukraine's revolution is ongoing, it should be noted that Russia had the inside trac and lost.

It should also be noted that Russia has claimed the right to use nuclear response to a considered existential threat. In like to like, Ukraine also has that right. And as her lands and her people are at risk both rhetorically (claims that Ukraine is not country) to an actual invasion. Then she has the right to defend herself in like manner as indicated by Russia. And should that include nuclear exchange, perhaps, the worst of all possible scenarios.

Russia would only herself to blame as she in motion the frame for the matter at hand.

California has outlawed gasoline engines by a 2035 and now California has outlawed natural gas by 2030...And now Biden wants to take this law nationwide. This is beyond batshit crazy, these laws are intentionally trying to destroy our civilization, and it should be recognized as such.

Yes, this 'breakdown of civilization' is hardly a naturally occurring event and is indeed a quite deliberate top/down affair. They've been psychologically preparing people for this for quite some time.

Golden Globes 2023: Zelenskyy says ‘there’ll be no WWIII, not a trilogy’

Ukrainian President Volodymyr Zelensky made a virtual appearance at the 80th Golden Globes awards ceremony, during which he said “there’ll be no third world war, it is not a trilogy”.

The President was introduced by actor-director Sean Penn, best known for his Academy Award-winning performances in 2003’s ‘Mystic River’ and 2008’s ‘Milk’.

If you think China has "outdone" the West it doesn't sound like you have ever been to China. Much of it is a third or second world craphole

This is even more true of the USA, except with much higher crime rates, worse transportation, worse public health, etc. China has poor and wealthy areas, like everywhere else on earth. But unlike the west, these places in China, poor or wealthy, are liveable. The USA is an unlivable shit hole across the board.

Guys like you claim to hate Jews so much, yet you never miss an opportunity to defend their Jewish shit hole countries (i.e. "the west"). Shouldn't you be thanking the Jews if you love their countries so much?

You made it a task for me to look up some old articles I read long ago. Her father was a Czech press attaché in Belgrade before the war. Ten days after the German conquest of the Czech Republic, her Jewish family fled from Prague by train to Belgrade. The director of the largest Politika newspaper arranged visas for them to the UK for her father as a correspondent for his newspaper. However, my claim about the temporary custody of a Jewish child from the Germans referred to a different case. After the war, they returned to Belgrade, where her father was ambassador. There she often met Tito, recited poems and even gave him Czech food during the Czechoslovakia Day celebration, which she described in her biography.

An unknown detail is that she was in Belgrade around 1954-1957, now an American. It is mentioned that she had a Montenegrin boyfriend but that in his absence, she had an affair with a couple of his acquaintances (their names are listed). It is even said that she may have been pregnant and married an American military attaché, but that marriage was short-lived. I don't know if it's true, but there were hints of a lawsuit due to the presentation of those details, but it didn't happen. In short, all this is irrelevant. She will go down in history that she went from being the greatest friend of the Serbs to become their greatest enemy who forced their bombing and that she thought 500K Iraqi children killed was worth the removal of Saddam Hussein (who wanted to stop selling oil in dollars).

Thx for the video-I knew I seen it before somewhere. The surface ships fairly survived, but the real effect would be under water and the effects on submarines could/would be devastating. It is my understanding, that the Russian 100MT war head torpedo's have an 'AI' installed, that allows them to enter ports where the US Ohio class subs are docked in their hardened pens and destroy them-just rumor, mind you.

Are you aware of the allegations that Nickola Tesla discovered something that is/was called 'scalar wave energy'? I understand that this technology would make it possible to create massive earthquakes which could, in theory be used on land as well as in the sea-if real; this would be a far more effective way to create tsunamis and earthquakes rather than from a 100MT 'firecracker'!! This weaponry may have already been deployed-we will never know for sure.

Wrong question. The right question is:

Is Putin willing to destroy his country in an attempt to realize his imperial ambitions?

As it stands, he has no chance of reaching his goals in Ukraine. All he can do is feed more untrained cannon fodder into the meat grinder. He's already having to run press gangs and scrape out his prisons for industrial labor and cannon fodder.

Putin has, once more, changed the guy in charge of rearranging the deck chairs on the Titanic. The poor guy has less to work with than his predecessor, and he will have even less success.

@Reginald Elings

The Russians have released a documentary describing the disaster that occurred in the early morning hours of June 30, 1908, in the forest next to the Podkamena Tunguska River, in an area larger than the Crimea, and linking it to Nikola Tesla's experiment. The explosion itself was heard up to 1,000 kilometers from the epicenter. Its energy was 20 times greater than the explosion of the bombs dropped on Hiroshima.

The Tungun phenomenon results from Tesla's experiment on the transmission of energy over long distances from the tower in New York.

The forest of 200,000 hectares was burned, burned for two days. The waves also knocked down trees. Eyewitnesses who lived in that sparsely populated place said they saw cosmically glowing balls as big as the sun in the sky. Some listed another 40 different forms.

The investigators managed to get to the epicenter only after 19 years. They looked for the remains of the meteor, which, of course, they never found. Very quickly, the investigation into this event came to a dead end after numerous theories. Over time, the Russians began to associate the mysterious explosion, as if from 2,000 bombs, with Tesla.

Astronomer Vitaly Romeyko states in the documentary that there was a massive glow in an area of 12 to 13 million square kilometers.

– It's a vast space. The night did not come in Italy, and the sky was brightly lit in Germany until midnight. The lighting was 8,000 times greater than, for example, on June 29, the day

before the explosion. So, the meteoric hypothesis cannot explain that – says Romeyko.

Russian geophysicist Andrey Olkhovatov estimated that the phenomenon that occurred in 1908 was not related to the fall of an asteroid or a comet but rather a complex geophysical phenomenon that was completely unreasonable.

Finally, the Russians realize that the Tunguan disaster was the work of one man, and they recall that Tesla himself announced in 1915 that he had built a wireless transmitter that could crash at a distance. In this regard, Academician Dmitry Strebkov, Doctor of Technical Sciences, explains how this is possible:

‘This is real. Tesla, with his generator, in the Wardencllyffe Tower, ignited the discharge in a large area, and the energy of the current ring, passing over New York, is transmitted to the Tunguska region.’

On Sunday, July 4, 1917, the US Army blew up the Wardencllyffe Tower.

Thinking locally... as far as fallout and prevailing winds goes, LA is a little bit close to us for comfort, and then there's always the major secondary target of Nellis Air Force Base to consider. And of course mourn the suffering and loss of life.

But all things considered, destruction of the stated targets could only improve the country in the long run. Might be the best thing for us.

Anything can be 'proven' on a computer, but that is still not the same as the real world, computers are a good tool, but have limitations; reality can only be observed in reality-I digress

I still say that the 100MT (allegedly) torpedo built by the Russians is too SMALL to create a 1200' tsunami in an attempt to flood the entire east/west coasts of the US! I am familiar with the video you sent (Thanks) but there is more; another 21kilo bomb later, was detonated 500 miles or so, from San Diego where under water containers simulating submarines had cameras on board that showed the instant crushing of their hulls from the detonation. The torpedo described above would far be better served, as a counterforce weapon against the US nuclear missile carrying subs of the US navy on the high seas or against their hardened sub pens' in San Diego, Norfolk Virginia etc.. etc..

The Sumatra quake of 2004 yielded an estimated 2 to 4 GIGATONS (Billions of tons of TNT) THAT still managed to kill 100,000+ people and cause billions in property damage from only a 30 to 50 foot tsunami. The 2011 Japanese quake was even larger with a generated tsunami of around 90 to 120 feet or so, but still caused a lot of damage-both were FAR short of creating a 1200' super wave that would have flooded both Sumatra and Japan and a lot more!

I think that this nonsense about a 1200+ tsunamis created by these Russian weapons was a psyop created by the MSM to make individual (Conspiracy!?) thinkers like ourselves, look stupid; like the peddling of the 'flat earth' nonsense.

We independent thinkers have to be careful what is disseminated in this world.

Best to you

No, a nuclear war among the Homo insipiens will not destroy the planet. It will destroy much of the paper economy, yes, a very large population of the Whites, yes, a very large population of the Chinese and Indians, yes again, but it will not shatter the planet into smithereens. Life will go on, some humans may survive, and may even slowly rebuild civilisation; rats may become the dominant species, insects may evolve into funnier shapes, but destruction of the planet, no. It won't even be comparable with the major mass extinctions. It is a mass extinction alright, but only for humans and dogs, not even for cats.

Just a short comment to perhaps clear things up a bit.

It appears that Yukon Jack hates the government and all politicians.

OK, that seems reasonable enough.

But it is likely to create an inconvenience. Hating government and politicians likely means that Jack is going to bad mouth everybody involved, and do so indiscriminately. Donald Trump, Joe Biden, everybody. Which means that anything that gets said — true, false, fabricated, misinterpreted — anything at all that is disparaging, will be believed and repeated by Yukon Jack. Which is not really good for Jack's overall credibility.

Take for instance the comment “Trump said what good are nuclear weapons if you can't use them?”

Greta reports, above:

“I just spent a couple minutes researching the purported Trump statement.

It appears to have first been reported, citing an anonymous source who claimed to have briefed Trump, by MSNBC's Joe Scarborough during the 2016 election campaign, ...”

Okay. Well first, Joe Scarborough is an MSNBC lying piece of shit, so there's that. And then there's the “anonymous source who claimed to have briefed Trump” who surely was a seditious, anti-Trump, insider weasel from the treasonous Deep State. So right off the bat you have two totally shit sources for the so-called Trump “quote”.

But even assuming the quote actually resembles something Trump said, considering the “sources” I would suspect some out-of-context spin to turn a rational and sensible comment into something evil sounding.

Try this for example.

“These nuclear weapons are monstrous. We each have thousands of them on hair trigger, ready to destroy the world. That’s crazy. Everyone agrees that we can’t go there ... that we can’t use them. Yet we continue to keep them around. We just do nothing but sit on them. Sitting on a time bomb just waiting for someone to screw up and blow up the world.

We can’t use them. We don’t dare use them. So tell me, what good are nuclear weapons if you can’t use them?”

That’s what I think Trump said, and the war-mongering, Trump-hating, intel traitor just turned it around. Then Joe Scarborough just ran with the lie.

Whatever.

You wouldn't know a 'top scientist' if it was surgically implanted into you. The REALITY is that continued fossil fuel use, particularly of methane, will lead to leaks, higher atmospheric methane levels, and, therefore, more energy trapped in the Earth system. Then climate and other chaos.

That you cannot, or will not, accept simple science and undeniable evidence from reality, leaves one to ponder whether you are very stupid, or something far worse. I began to suspect, after twenty or so years of increasingly fanatical and brainless denialism, that something more than intractable imbecility was at work with the death-cult.

I am now fully convinced that this is a battle between Good and Evil. Between those who want to save humanity from a climate destabilisation apocalypse, or creatures like you who either couldn't give a stuff, or so hate Life on Earth that they wish to see it destroyed. After years of study of human psychopathology I put the life-hating wickedness down to inheritance, very poor family life, lack of love in childhood and intense self-hatred projected onto humanity. Just which of these you suffer from only you know. I hope you escape the Hell of your twisted psyche some day, if only in case there is a 'just and vengeful God', in which case you'd be in deep shit. Of course you may simply be an alien reptile, looking forward to hotter times. PS Thanks for the bizarre prohibition of my reading and replying to your shite. I've not had such a laugh for ages.

The Business Insider article that lists cities targeted for thermonuclear war is based on outdated information. The initial attack unfolds with a large atomic detonation many miles above central USA. The resulting EMP burst would fry the electronics in every vehicle made after 1980, release an electromagnetic storm magnitudes stronger than the Carrington Event of 1859. All power generation plants would cease to function, ditto hospitals, manufacturing, service sector such as water pumping and yes, immobilize every plane on the ground or in the air- they'd fall right out of the sky.

There are indeed several cities of interest built into this scenario e.g., the deep warm water ports and or naval submarine/shipping yards like San Diego, Groton, Conn, Frisco Bay, LA as well as high tech centers, Seattle and Omaha, NE where all underground telephonic cables from the West converge and then fan out to the Eastern part of the country, destroying Offutt AFB (US Command HQ) too.

Washington DC has been a ghost town for several years now. The Politicians and top bureaucrats keep on the move, avoid full sessions or gatherings of Congresspersons, top CEO, COO's and the like. NYC metro area, will remain a hub for finance and business enterprise, maritime, the most wealthy thus will be an important target as well.

Surface transportation is gradually shifting to underground highways currently used by Walmart. These vehicles may avoid the EMP effect. Visit

and <https://strangesounds.org/2021/10/walmarts-secret-military-bases-linked-underground-tunnels.html> for additional details.

Of course the end users of these deliveries will either be the very rich , critical military or essential brain trust...the rest of us will be expected to roll up and die. Marijuana and narcotics will be freely available for the Terminals!! (us) but when the deliveries dry up, then what you xox#xx#x Effen lunatics!
