Když se ZOG stal ZioCorp a vnitřní chyby v kapitalismu

[Richard Solomon](#) • 24. ledna 2023

• 3 000 slov • [81 Comments](#) • [Odpovědět](#)

[Sdílejte s Gabem](#)

ZOG (Sionist Occupied Government) je zastaralý termín. Znamená to existenci správy národního státu. Dnešní USA jsou sloučením korporací a parazitických finančních institucí z velké části řízených Rothschildovými sionisty. Amerika není národ, je to korporátní impérium, přesněji ZioCorp.

Nejprve odmítnutí odpovědnosti. Když používám výrazy jako „ZOG“ nebo „ZioCorp“, nemám na mysli Židy „Šumař na střeše“ nebo Moe, Larry a Curly. Mám na mysli globální zločinecký bankovní syndikát v čele se satanskými lichvářskými Židy a jejich eugenikou posedlými Rockefellerovými zločineckými rodinnými příslušníky, kteří zaměstnávají Rothschildské sionisty a globalisty všech vrstev, aby podporovali obchodní model, který spočívá na pilířích dluhového otroctví, duchovní/fyzické destrukce, a planetárního znásilnění. Nechovám žádnou špatnou vůli vůči žádné rase, náboženství, etnické skupině, souhlasné orientaci dospělých nebo pohlaví. V Tao vnitřní přesahuje vnější.

Druhé vyloučení odpovědnosti (nebo upozornění). Někdy používám barvitý jazyk. Tento výrobek není vhodný pro jemné dámy a děti. Pokud jste to vy, přestaňte číst.

ZioCorp vlastní všechno. To zahrnuje finanční systém, bezpečnostní aparát, Pentagon, politiky, soudy, soudce, policii, školy, duševní vlastnictví, přírodní zdroje, veřejné služby, média, velké korporace, technologie a cokoli dalšího, co jsem opomněl zmínit. ZioCorp má nad svými subjekty dominanci v celém spektru.

Neoliberální kapitalismus umožnil ZioCorp komoditizovat vše – včetně lidských bytostí. Globální finance, které nejsou spokojeny s vlastnictvím každého zrnka písku a kapky vody, chtějí vlastnická práva na vaši DNA, vnitřní orgány, krevní a lymfatický systém a myšlenkové procesy. Změnili název personálního oddělení na personalistiku. To nebylo náhodou. Jste zdrojem sklizně.

ZioCorp není jako tradiční diktatura řízená kníratým silákem.

Rozhodnutí jsou přijímána v zasedacích místnostech lidmi, které nikdy neuvidíte ani neznáte. Politický filozof Sheldon Wolin to nazval „obrácenou totalitou“.

Věrní služebníci ZioCorp pocházejí ze všech ras, pohlaví a náboženství. Nemyslete si, že jste bílý nebo černý a dostanete bílého nebo černého soudce, on nebo ona vám půjde snáze. Je to jako rapová píseň NWA „F\*ck the Police“ říká: „Ale nenechte to být černobílé. Protože tě srazí až na vrchol ulice. Černá policie ukazuje na

bílého policistu." Smyslem písně je, že černý policista porazí černého zatčeného tvrději, aby získal souhlas od svého bílého partnera. Vaši rasoví bratři nakopnou vaši tvář dvakrát tak silně, aby dokázali svou loajalitu vůči ZioCorp. Viz Bill Clinton, Barack Obama atd.

Abychom porozuměli ZioCorp, musíme prozkoumat kapitalismus, a co je důležitější, jeho vlastní chyby, které umožnily současnou situaci. Někteří lidé šlí z jakékoli kritiky kapitalismu, protože ji považují za útok na americké vlastenectví. Amerika byla přece založena jako kapitalistická země

Někdo z reakční pravice to čte a říká si: „Kritizovat kapitalismus?! Ty Antifa pinko komunistický marxistický žid. Jen si chceš vzít moje peníze a dát je nějakému #BLM crack ho a jejím dětem. Do prdele s tebou a menorou, na které jsi jel.“ Klidný šerif. Abych citoval Patricka Batemana z American Psycho: „Zchlad'te to antisemitskými poznámkami.“ Předstírejte, že jste v jednom z těch 5hvězdičkových luxusních ášramů navštěvovaných bohatými bílými a Maharishi v čele třídy, kteří vám říkají, abyste šli ommmmm. Dýchej dítě, dýchej.

Watch Video At: <https://youtu.be/Zu3nu6ue2qU>

Uznávám, že kapitalismus obsahuje pozitivní aspekty. Může vzít sobectví a egoismus obsažené v lidské přirozenosti a nasměrovat tyto rysy do produktivních výsledků. Etičtí podnikatelé produkují úžasné

věci. Někteří lidé vyjadřují svou kreativitu prostřednictvím vlastnictví malých podniků. Protože se zaměřuje na „jednotlivce“, kapitalismus nám dal Listinu práv. Tisíce let nákupu a prodeje zakořenila tržní myšlení do lidské psychiky. Dokonce i netechnologické společnosti používají korálky a ptačí peří k provádění transakcí. Nenavrhují eliminovat peníze. Představte si, že byste si koupili auto na Craigslist, pokud byste se potřebovali ukázat se stádem ovcí a vzít si domů Camry.

Kapitalismus však také ničí „kolektiv“. Nekonrovaně požívá vše, co mu přijde do cesty. Požívá chudé, dělnickou třídu, střední třídu a nakonec i vyšší střední třídu. Ničí také životní prostředí a zanechává nám radioaktivní oceány a otrávené řeky. V konečné fázi kapitalismu oligarchové mezi sebou bojují o poslední plátek třešňového koláče, zatímco se masy topí v moři ekonomického a sociálního chaosu. Zní povědomě?

Zdá se, že ze všech národů je Čína nejochotnější experimentovat s různými ekonomickými paradigmaty. Mohou nakonec vést lidstvo k post-nedostatkové ekonomice Star Trek, kde lidé pracují pro svůj účel, nikoli pro výplatu. Zda uspějí nebo ne, není v tomto okamžiku jisté. Bankéři londýnské City plánují po kolapsu USA přeměnit Čínu na sídlo korporací. Globální finance mají působivou historii s národní infiltrací a převzetím. Nikdy nepodceňujte jejich schopnosti. Bývalá republika Spojených států, nyní Americká anglo-sionistická říše, je učebnicovým modelem pro převzetí bankéřů. Jak se to stalo? Pro stručnost dodám zrychlenou verzi Dr. Morell B12-kokain-amfetaminový elixír.

„Americký experiment“ otců zakladatelů se snažil nahradit monarchickou vládu vládou „neviditelné ruky kapitalismu“. Podle jejich guru Johna Locka se základním kamenem nové republiky stala ekonomika a soukromé vlastnictví. Být bohatými vlastníky půdy dávalo otcům zakladatelům obrovskou výhodu. Jejich ochota komoditizovat africké otroky, aby ušetřili na mzdových nákladech, dokazuje jejich náboženskou oddanost kapitalismu.

Aby hoi polloi přiměli bojovat za nový systém, slíbili jim noví plutokraté ústavní práva a tučné dotace na půdu. Proč by si jinak vojáci mrzli zadky ve Valley Forge? Zatímco průměrný bílý muž získal některé skvělé občanské svobody, otcové zakladatelé porušili pozemkové granty a další slíbené výhody. Rozdrcení farmářského „povstání whisky“ Georgem Washingtonem položilo základ policejnímu státu IRS a vládě oligarchů.

V roce 1800 francouzský politický filozof Alexis de Tocqueville poznamenal, že Američané byli posedlí zbohatnutím. Národ poháněný penězi se pro centrální bankéře stává snadnou značkou. Občanská válka v USA umožnila Rothschildům dostat svou neodolatelnou nohu do dveří bankovního trezoru.\* (\*Sarah EV Emery, „Sedm finančních spiknutí, které zotročily americký lid.“) Následoval protiústavní zákon Federálního rezervního systému z roku 1913, který předal tvorbu amerických peněz mezinárodním finančníkům. Krok, který měl za následek krádež stovek bilionů dolarů. Poté, co se USA staly centrálním centrem bankéřů, potřebovaly permanentní válečnou mašinerii, která by udržela globální grift v chodu. Ve svém prozíravém projevu na rozloučenou Eisenhower varoval před nebezpečím uprchlého vojenského průmyslového komplexu.

Velká deprese způsobená Wall Street téměř potopila kapitalismus. FDR zavedl bankovní reformy a sociální záchranné sítě, aby zachránil své kolegy plutokraty a mlátící systém. Ve své nenasytné chamtivosti začala třída bankéřů drtit politiku, která je zachránila a vytvořila stabilní střední třídu. Kousek po kousku se zastíněné prostory zaplňovaly firemním cementem.

Kapátko svatého Ronalda Reagana „ekonomika stékající dolů“ deregulovala banky a korporace a položila dokončovací nosníky korporativního dystopického mrakodrapu. Reaganovo vypálení stávkujících řídicích letového provozu zničilo organizovanou práci a životní úroveň, které se dříve těšila dělnická třída. Bill Clinton dokončil stavbu s NAFTA, zrušením Glass-Steagall bankovních pravidel, outsourcingem výrobní základny a steroidní deregulací společnosti Mr. Universe. Mnoho Američanů souhlasilo s těmito zásadami v naději, že zbohatnou natolik, aby získali pozvání na večírek ve vířivce Donald Trump-P Diddy-Miss America.

Velkým problémem při vydělávání peněz jako základního kamene společnosti je to, že populaci Ralpa Kramdena věčně přimějete hledat další informační obchodní schéma pro rychlé zbohatnutí „bez peněz“. Pokud to nefunguje, hrajte loterii. "Musíš být u toho, abys to vyhrál." Po zio-útoku z 11. září George W. Bush řekl Američanům, aby „šli nakupovat“.

Oligarchie držela nevolníky v kopytech visícími sny o záchodových mísách Trump z masivního zlata a megajachtách ropných šejků spolu se strachem ze smrti z dravého kapitalismu. Nicméně i oddaní ding dongové Rush Limbaugh si začínají uvědomovat, že hra je zmanipulovaná. Skleněný strop vzestupné mobility se změnil v olovo. Toto odhalení má tendenci lidi rozrušovat. Nejlépe to řekl Tyler Durden: „Všichni jsme byli vychováni v televizi, abychom věřili, že jednoho dne z nás budou milionáři, filmoví bohové a rockové hvězdy. Ale nebudeme. Tuto skutečnost se pomalu učíme. A jsme velmi naštvaní."

Zatraceně rovné b!tch. Dejte nám naše sh!t zdarma nebo spalte toho hajzla do základů. Lindsey Graham, Chuck Schumer a jejich firemní dárci kradou vše, co není přivařeno k podlaze. Pokud jste střední/dělnická třída, vezměte si od „vlády“ cokoli a všechno, co můžete, a použijte to k zásobení munice, lyofilizovaného jídla a Johnny Walker Blue Label. Bojujte o svůj podíl na kořisti dříve, než centrální bankéři nainstalují svou digitální měnu NWO. Poté se kohoutky dotáhnou superlepidlem. Mezitím lítej helikoptérou za peníze ty globalistický zmetku znásilňující děti. Vzbouřte se pro UBI nebo nechte starou dámu pracovat, abyste mohli zůstat doma a procvičit si úder tygřího drápu a úder průdušnice létajícím želvíím krunýřem. Čeká nás občanská válka a ekonomický krach. Nechte roboty obracet hamburgery. AI může obsluhovat call centra.

Zaměstnavatelé porušili společenskou smlouvu, když přinutili pracovníky, aby získali DARPA vax. Pokud jste podlehlí, protože neradi spíte na ulici, doufejme, že jste dostali svou dávku z kontrolní šarže nebo šarže s nízkou koncentrací. Pokud vás zranili nebo zničili DNA, o kterou vaši předkové bojovali šavlozubý tygři, museli byste se pořádně snažit, abyste to napravili. To by mohlo zahrnovat některé víkendy a svátky. I když to není snadné, vyrovnání této karmy by bylo lepší než sladký třešňový koláč Normy Jean.

Jako okrajová poznámka – nejsem žádný fanatik proti vaxu. Pokud si někdo chce vzít mRNA vakcínu, je to jeho věc. Jen to nenařizovat. A přestaňte na veřejnost vypouštět biologické zbraně se ziskem funkce. Zpátky k „sýrům pro státní správu zdarma“.

Zmiňme univerzální zdravotní péči, UBI nebo bezplatnou vysokou školu a ziotarista Ben Shapiro spustí svou automatickou odpověď „nemůžeme si to dovolit“. Nemůžeme si dovolit univerzální zdravotní péči, ale v roce 2008 byla záchranná akce pro bankéře ve výši 29 bilionů dolarů (CNBC Money) zcela proveditelná. A stejně tak irácká válka za 6 bilionů dolarů, kterou Shapiro prosadil. A ty stovky miliard firemních dotací. A biliony, které posíláme do Izraele buď přímo, nebo prostřednictvím vedení jejich válek. Podle ministerstva pro bydlení a rozvoj měst by ukončení bezdomovectví v USA vyžadovalo 20 miliard dolarů. To je polovina jedné splátky Ukrajinské války. V kapitalismu řízeného nedostatkem nechtějí skoncovat s bezdomovectvím. Bezdomovec hrabající láhve v odpadcích vám připomíná, že nikdy nemůžete skončit se svou špinavou prací – i když to znamená podřít se lékařským experimentům. Ziokapitalismus je podvod. Nejen, že bychom mohli mít univerzální zdravotní péči (lékařské účty jsou hlavní příčinou bankrotu v US-American Journal of Public Health), ale tato ukradená kořist by mohla poskytnout každému Američanovi 100 tisíc tisíc šeků a pozlacený Cadillac.

Není to tak, že by průměrnému Američanovi nevadilo utrhnout pár babek z výplaty, aby se Billy Orphan mohl léčit leukémií, ale jakmile peněženka trochu praskne, vláda nasadí zvedák pneumatik a klikou ho úplně roztáhne. Pak se chléb dostane do žlabu pro prase, kde do něj Bill, Hillary a Chelsea strčí čumáky. Nebo se to promění v bomby s duhovou vlajkou, které padají na děti ze Středního východu.

Velké korporace a miliardáři oligarchové neplatí daně. I když pár lidí někdy platí „za ukázkové daně“, tyto peníze se jim vrací zpět prostřednictvím centrálních bankéřů. Pokud si nemůžete dovolit

armádu daňových právníků a offshore korporací, zaplatíte. Pokud se dostanete do pastí při auditu IRS, mohli byste dostat tvrdší pěsti než švihnutí v gay pride průvodu S&M.

Zdanění je podvod ZioCorp. Díky pokroku v peněžní technologii je zdanění zastaralé. Veřejné bankovníctví, jak ho obhajují ekonomové jako Ellen Brownová, spolu s novými high-tech finančními nástroji by Billymu umožnily získat jeho lék na rakovinu a vy si držet chleba. ZioCorp udržuje IRS kolem, aby rozbil malé podniky a střední třídu. Zdanění je nástroj policejního státu, který umožňuje parazitům zbavit vás vašeho majetku a uvrhnout vás do vězení. Šlápni na trhlinu a IRS tě obviní z toho, že jsi tvé mámě zlomil záda.

Pokud nezvýšíme daně, znamená to, že by kartel Fedu měl vytisknout ještě více Ponzioho digitálních dolarů, aby zaplatil za sítě sociálního zabezpečení? Absolutně. Udávaný dluh USA je 30 bilionů. Podle Forbesu je skutečný dluh 200 bilionů. Nezáleží na tom, jestli to dosáhne 500 gazilionů. Je to k nezaplacení. Když to praskne, tak to praskne.

Z teoretického hlediska, pokud se společnost technologicky vyvíjí, roboti a AI (nebo strojové učení) nahrazují lidskou práci. Pokud jde o univerzální základní příjem nebo depopulaci Davosu, volím UBI. Aby to bylo možné, bude to vyžadovat několik skutečných týmů Jimmyho Hoffy UBI. Podle mého nevědeckého odhadu je 80 procent 'murikánských mužů buď slabé p\*ssy momma děvky, zipové mozky, nebo ve většině případů obojí. Asi 20 procent jsou pevné kočky a 1-5 procent z nich jsou psycho-válečníci. Těch 20 procent určuje, jak to dopadne.

Politická třída jsou zločinci. Chápu, že chcete peníze. To není podvrtné, jako žádat svobodu slova nebo ukončení zio-válek. Při správném nátlaku by se z vlastního zájmu mohli vykašlat na pár babek.

Hollywoodská celebrita „c\*ntessa“ s 50 miliony sledujících na Instagramu pro mě nic neznámá. Je to pracující muž (a žena), kdo mi posílá jídlo na stůl a nechává rozsvícená světla. Zaslouží si svůj řez. Stejně jako sirotek a vdova. Co se týče Hollywoodu, nech si Seana

Penna. I když jsem ho měl rád v "Sokolovi a sněhulákovi", Bill Gates napumpoval do zadku tolik mRNA, že mu to při záchvatu smíchu vystřelilo z nosu jako mléko. Myslím, že vysoký tlak způsobil poškození mozku.

Kapitalismus vytváří miliardáře. Miliardáři ničí občanskou společnost. Můžu žít s milionáři. Miliardáři kupují vaši vládu, např. Citizens United proti FEC. Je mi jedno, kolik „kontrol a protivah“ bude zavedeno, v určitém okamžiku podplatí vrátne. Myslím, že nejlepším řešením je zavést 5 milionů dolarů ročně na osobní bohatství. Pokud etický podnikatel vydělává víc, ať to svěří svým dětem (které mají stejný strop), znovu investuje do nových podniků nebo přebytek daruje sirotčinci sestry Mary. Žádné falešné filantropické nadace Billa Gatese, prosím. Pokud nemůžete žít dobrý život s ročním 5milionovým nezdánitelným platem, jste tím, čemu „Scarface“ říká „haza“ (chazzer). Co je to haza? Jak Tony Montana vysvětlil svému bývalému šefovi Franku Lopezovi, „Pamatuješ si, co je to Haza, Frank? Je to prase, které nelétá rovně.“ Parazit rentiérského kapitalismu FIRE ekonomika je haza systém.

Pokud jde o politické systémy koupené miliardáři, USA nemají soupeře. Divím se, že lidé stále volí. Dominion by měl ve svých zfalšovaných volebních místnostech nainstalovat sedadlo s

elektrickým robertkem pro dobytek. To by Američanům poskytlo autentičtější volební zážitek.

Pokračujte v doufání v porno a fotky Marjorie Taylor Greene.

Preferuji Alexandrii Ocasio-Cortez. Aby pomohly pokrýt zvýšení platů v Kongresu, mohly MTG a AOC hrát společně ve speciálním speciálu s dívkou na dívku. Highrollers si mohli rezervovat soukromé sezení. Caligula nechal manželky senátorů pracovat v císařském nevěstinci. Myslím, že ta sestra f\*cker na něco šla.

I když odstraníte zio z kapitalismu, obsahuje zásadní nedostatky.

Vezměte si Apple iPhone. Nevím, jak často Apple přichází s novým modelem, ale kvůli tomuto cvičení předstírejte, že je to jednou za rok.

Apple pravděpodobně má všechny „zvonky a píšťalky“, které se chystá nainstalovat v průběhu příštích deseti let. Pokud vám však Apple prodá nezničitelný iPhone s dalšími deseti lety zvonků a píšťalek, společnost přichází o peníze. Prodali by vám jeden iPhone místo deseti. Aby CIA maximalizovala zisky Applu a uspokojila spotřebitelskou poptávku, svrhla reformní vlády, aby udržela proudění lithia, a planeta se promění ve skládku toxického odpadu. Model nekonečného růstu/spotřeby HDP tvrdě padá. Globalističtí oligarchové, kteří problém vytvořili, přišli s řešením – a tím konečným.

Lidé jsou unavení z rapu Ayn Randové „Kapitalismus je Ježíš“. Já taky. Úplné odhalení – líbilo se mi „Atlas Shrugged“ a „The Fountainhead“. Pokud jde o Ježíše, jeho program byl mnohem bližší programu Bernieho Sanderse před rokem 2016 než programu Milтона Friedmana.

Ať už se díváte na kapitalismus, socialismus, rosekruciánství nebo fialové létající jednorožce jménem Mandy – na tom vlastně nezáleží. Vstoupili jsme do konečné fáze kapitalismu/velkého resetu/soužení, bez zpátečního autobusu do Mayberry. Společnost ZioCorp se rozhodla pro obchodní model s řízeným kolapsem. Zůstane nahoře, i když se karnevalový stan složí sám do sebe? Nevím. Jsem hloupý. Proto sleduji Tao.

There is no intrinsic fault with capitalism. It is probably the best system devised by humans. But what capitalism needs is good faith and good virtue which can only be found within some races (high trust people). I started a company in my land and was overwhelmed by the lack of character in other humans around me. No discipline, corrupt and greedy, lackadaisical and rooted in clan preference. The experience broke me, it shattered me.

When I was a student in Canada, immersed within the structures of white people I took things like payment on time, no fraudery for granted. Even though the then current (2010) stock of white Canadians was a far cry from the generations before, it was still a well run system. Here in my third world s\*\*\*\*ole my world turned upside down looking at how flawed the system was and how inherently greedy and short sighted my fellow countrymen were.....which again brings me to the subject of capitalism. Capitalism when done well and with virtue becomes the bloodline of a well run nation. It is a necessity.

Now before I go ahead firstly in my opinion the other alternatives cannot even be considered – a socialist/communist is a brain dead zombie and the fact that such ideas are even considered should tell you how fucked up we are as a species and how inherently weak many humans are.

Capitalism, when combined with a race of higher humans is an excellent system. Free market effects not only the economy but also the culture and well being of a nation. Small business let's a family or individual take pride in their work. One of the great virtues of the Japanese and Germans were (and still are to some extent) extreme pride in their work and product. Which is why they make such great products be it automobiles or electronics. But more importantly this system allows the community to

thrive and prosper. It brings in faith and solidarity. Actual physical work, physical contact and talks bring about a feeling of well being. Today none of this remains. Everyone is secluded, everyone is wanting to get their mini dopamine hits, everyone is toiling for an unknown overlord. We are all secluded, lonely as if in the final throes of a civilization about to end.

Most people don't realise how bad things have become with this digital system we live in today. It effects the mind and soul. Sitting in front of a computer dulls the body. It effects us physically. Look around you and tell me what product today is an improvement over their 60s and 70s versions?

Millennial and generation Z morons leave comments on YouTube like "can't believe this car from 1977 had such power" or "cannot believe this film camera had such good resolution and it is from 1965", not realising how inherently most products were better back then because the system was good and honesty was an admired trait which led to creativity and better productivity. In the same way in my film business no matter how good CGI gets, the look, tone and feel of a 35mm celluloid camera will not be equalled. Compare any film or any news segment from pre 2000 and you will see. Today it's all plastic, glossy, 4k-8k, like a video game. Again, just go on YouTube and watch anything from pre 2000s and you'll get my point.

Silicon valley nerds- defective human beings by birth, autistic and self centered(everyone from zuckerfuck to Musk to jack Dorsey is a reject sociopath) are running the world and look at the state of the world past decade or so. The Jew has ensured the hard working Anglo Saxon outsources everything from jumbo jets to a needle to 3rd world nations. And look at the state of things. Don't blame the capitalist system for the chaos.

I still fantasize. I fantasize of starting a film production company in middle America, run by efficient middle Americans. Great westerns and science fiction work.....I've even looked at plots of

land. And I know it will work. Because in the end honesty, perseverance and hard work will be rewarded. Trust is needed to thrive and trust is built on integrity.

But then I come on unz and see the state of America and the west and.....well, things are better in my fantasy.

@Dream

I say this as an Indian....Indians are far worse than Jews. Jews have a few good qualities. Indians pretty much none. Indians are one step above blacks on the totem pole. The world will see this soon enough. You've imported the worst people on earth. You'll see it yourself.

Bill Clinton completed the edifice with NAFTA, repeal of Glass-Steagall banking rules, outsourcing of the manufacturing base, and steroidal Mr. Universe corporate deregulation.

When financialization (Jewish -Globalist paper shuffling) displaced manufacturing in the US it created an intractable problem. Someone has to make all the low margin “stuff” and take on the hassles that don’t at all interest the Masters of the Universe.

Traders basically aren’t manufacturers.

In contrast, Asians are OK with manufacturing. They built the factories, trained the disciplined labour/specialists, learnt the technology and built the supply networks – so now US consumers are dependent on China/Asia. If that trade (NWO) breaks down then US retail has empty shelves and wild price inflation.

That seems to be the US elites’ difficult to fix problem. The Jewish Globalists were not able to extend their political control to China.

Damn, reading this was almost a spiritual experience, especially listening to some chill Aussie guitar driven jangle rock. Rolling Blackouts CF. Check em out. I like to listen to them in the morning with my coffee for some reason. The end of times as we know them are here. The problem with many people is they haven't moved on from America and Ziocorp. It's dying. Long live Russia, China and the brave new world! Z

The author claims that today's woke fascism is primarily a matter of out-of-control Zio-capitalism and that even if the Zio aspect were jettisoned, the system would be fatally flawed. According to the Fraser Institute, Switzerland is more capitalistic than the US. Is Switzerland a hopeless basket case with bankstas ripping up the culture and funding antifa and gay rallies complete with child porn and rainbow flags?

The Zio aspect is a central part of the corruption and cultural rot. Economic systems matter, but so do the types of people that populate the society.

Words like “capitalism” “socialism” “communism” have become a totally meaningless buzzwords in public discourses, as everyone uses the terms in entirely different meanings. Some people use the term “capitalism” to express a vaguely “free”(whatever it is) economy, while others use it to symbolize jewish usury and financial scams. Some people use the term “socialism” as some kind of “fair and prosperous”(whatever it is) economy, while others use it as a vague dystopia in which a tyrant controls everything. Not to mention the so-called “communism with Chinese characteristics”(lol).

“Capitalism” “socialism” “communism” are now as meaningless as “conservatism” “liberalism” or “right wing” “left wing”.

We don't have anything remotely approaching free market capitalism. About 85% of GDP is state controlled:

45% – Gov't Spending

10% – Utilities

10% – Health care ex-Medicare

7% – Banking

5% – Insurance

5% – Higher Education

Note – back in 1912; 6% of GDP was consumed by gov't.

@RJ Macready

Compare any film or any news segment from pre 2000 and you will see. Today it's all plastic, glossy, 4k-8k, like a video game. Again, just go on YouTube and watch anything from pre 2000s and you'll get my point.

Plastic, glossy, and like a video game now characterize the psychologically most sacred space: the home. Aesthetics and warmth have been banished from the home and yard because owners are too busy to provide the time required by their maintenance. People who prioritize in this manner are already the robots that their overlords prefer them to be. They willingly live inside a real video game.

The thing you're missing in your analysis is religion. Our loss of faith in a system built around family and moral values is one reason for the dishonesty. I'll admit that Christianity in various forms can take on cult like characteristics, but there is a practical societal value in Christianity if not taken to the extreme. Also, why all the focus on Anglo-Saxons? What about the other white Americans. Scandinavians in my case or Germans, etc. We deserve our moment in the sun. Many of the world's best stories and myths come from Scandinavia and there are loads of great Scandinavian Americans in the Midwest. Some of the best people on the earth. They're incredibly polite, very helpful and quite funny. Busch latte America. Haha. Otherwise, I agree with you.

**Global finance has an impressive track record with national infiltration and takeover.**

That's because every country wants a National Currency backed by nothing but violence. It's the phony currency that replaces honest money that allows for those that issue the currency to buy up the world and the amoral humans that do their bidding. There's nothing wrong with capitalism that honest money won't fix. As for the collective, it's the collective of voters that keep the shitshow going. It's the collective of all types that is just a mob of brain dead zealots that egg each other on into more and more stupidity.

**In individuals, insanity is rare; but in groups, parties, nations and epochs, it is the rule.**

**Friedrich Nietzsche**

'Organized labor', aka unions, are nothing but extortion sanctioned under law. Everyone wants to focus on the extra wages and benefits union members get by extorting their employer. No one wants to mention that it's a zero sum game where the non union person pays for those extra benefits in the price of whatever the union employee makes. Every dime the business has to provide labor has to come from the price of their product or service, so when wages and benefits go up, the prices must rise. It's the non union single mom that has to pay the union rates for a plumber or electrician. For the small minority of union members that benefit from the extortion, the vast majority of non union members get to pay for the non free market extortion.

The US labor rates were and are non competitive in the world markets and is why offshoring became a thing. US labor is high because all prices are high. The media tells you its those greedy corporation, when in fact, it's the gov't stealing so much of your currency for F35's and other crap that is the actual cause. US labor could be competitive if the various layers of gov't didn't steal so much with their euphemisms of taxes, fees and fines to continuously suck the average person or business dry.

Employers were forced to follow the 'law' when it came to the 'vax'. It was the gov't that produced that edict, not the employers, so put the blame where it belongs.

The rest of the piece wasn't worth reading with so much shallow thinking on display, so no further comment.

@RJ Macready

There is no intrinsic fault with **socialism**. It is probably the best system devised by humans. But what **socialism** needs is **good faith** and **good virtue** which can only be found within some races (high trust people).

You see, what you say of capitalism is what marxists say of socialism. The failures are always due to bad apples. The thing is, when a system fails systematically, perhaps the glitches aren't in individual routines, it hints strongly that there's a flaw in the design. Because the fact is that in both capitalism and socialism, people of bad faith and poor virtue end up being richest and most powerful.

Speaking of races, I spent three months on a contract in Oslo. Norway is a strange mixture of corporate capitalism and communism. It's filthy rich thanks to gas and oil. And it is corrupt. NATO's sec. gen. is the epitome of that corruption. Just as their neighbours are corrupt. Just as the UK, France, Germany are corrupt. Just as the USA is corrupt. Evidence that they are? One word: Covid.

So your claim about races of 'high trust people' just doesn't fly.

PS: I used to be a great fan of capitalism, in opposition to socialism, but when facts contradict my opinion, I revise my opinion. Both systems stink.

PS2: and no, I don't think that libertarianism is better, it's basically capitalism on steroids.

So, what is the plan, Richard? What. Is. The. Fuckin. Plan?

I see no options. Everything is bleak and utterly without hope. It's onward to the abattoir for humanity, save those few that the billionaires choose to protect. I see no options but let's look at a few.

My very best idea is for Putin to order that one of his hypersonic thingies drops its business card during the keynote address at the WEF annual meeting in Davos. Yes, it is true that such would be naught but dilatory achievement. A few more would have to visit other strategic locations, like "The" city of London. And the targeting would need to be ongoing and vigilant. So, yes, of dilatory value only but surely a good start. Question: What is the probability of this happening? Zero. Hopium. QED.

How about we have a few states secede from the malicious Union and for some honorable people to orchestrate a do-over? All the good people could move there. Unless there is a concerted effort (and the same kind of money and rigorous planning that has — literally for decades — gone into building the WEF into what it is today), that ain't gonna work. It won't even get off the ground. They will JFK you ab initio at first hint of organized insurrection. Cf., MLKjr. Cf., the fairly pathetic US turnout when RFKjr tried this in DC as compared to the Canadian trucker Freedom Convey turnout. And even the latter project got squelched in the bud. Horses were caused by their riders to trample people — and with impunity. Bank accounts got frozen in absence of either good cause or due process. People got jailed or fined for offering food or water or for brandishing a placard of support. So, secession and insurrection: a possible plan? No. More hopium. We are late to the gate. Plus, that

option was already tried and failed. Cf., the civil war. Cf., the indigenous. Cf., MX. The game of control over ALL of the land and assets has already been won. QED.

Already won? An infallible union? A Union that is immune to failure? Yes. Let's look at what DeSantis has recently done in FL. Smells like more hopium to me. But I have an open mind. I want to hear about the devil's playground: viz., the details. He just passed a law making vaccine passports illegal in FL. Hope or hopium? I see two problems that DeSantis does not address. The first is that all state law has to comport with federal law.

Question: How do you think that the 11th circuit would rule in response to a challenge to Ron's new law? QED. The second problem is the fact that the Fed's cbdc's are well into their process of being birthed. In southern CA UBI is already well into its test flight. And the remaining issue of superimposing a programmable social credit score and other malevolent disiderata on to this new digital currency is presently at an advanced stage. Soon the lights and internet will go down, all bank accounts will be transferred to the control of the Fed, and when the lights come on again, cdbc's will be in place. Question: What is DeSantis' "theory" for protecting Floridians from a vaccine passport that is superimposed on cbdc? Secession? Been there, done that, got the tee shirt. Implement a Florida currency that has value and meaning only within state lines? But the Fed has already seized the currency in your bank account(s) and has transmuted it into cbdc. How to convert it into Floridian "pesos." Fed ain't gonna allow it.

While we are on the topic of currency, take a look at the suggestion of CAFitts. She says: Use cash everywhere, no credit cards. Sometimes, quite frankly, she sounds like she is controlled opposition. Question: What is to stop the gov't from issuing a proclamation that people have, say, three months to turn in all currency denominations larger than a \$20 bill before it turns

into worthless monopoly money that is accepted in no location? I read they did this in England with 20 and 50- pound notes. CAF is saliently silent to the possibility that that once cbdc is about to be rolled out, a time limit will be placed on all people to turn in, to your bank, all coinage and paper currency held by you for cbdc credit to your account? And this mandate shall be on pain that post a certain date it SHALL be deemed worthless monopoly money not accepted anywhere. Will people hide their coins and paper dollars under their mattresses or will they turn it in? QED.

As a final comment, I point to all the preppers who brag that they are “[doors] locked and [rifles] loaded.” They believe they can live off their land in self-sufficient “intentional communities.” How plausible is this kind of thinking? Do you really believe in this day and age of biowarfare that Biden (or his replacement) is going to send thugs to duke it out at your front door? Nah, you gonna get an unexpected visit from a crop duster spraying your land with agent orange or lethal viruses. Your precious organic land will become a knacker’s yard. Think you will be able to leave the country? Well, think again. They are in the process of closing airports and how would you even buy a ticket with a frozen or gov’t-controlled cbdc account?

(Note that, as an asides, CAF also subscribes to this prepper view, going even further by saying one needs to support the local sheriff and make states “sovereign.” I address this above when looking at the DeSantis plan; so QED on this idea that state gov’t can override federal.)

So, Richard, I return to my question: What is the plan? I want to hear your “theory.”

@anyone with a brain

I am doing both: defending capitalism and attacking Jewish Supremacy. Jews and Swiss-Germans are not the same.

The Fraser Institute research did not have sufficient data to evaluate North Korea. Using multivariate regression analysis I have estimated that, from 1980-2018, on a scale from 0 to 10, the degree of capitalism in North Korea was 1.5 – 2. Pre-COVID, the Fraser Institute put Switzerland at about 8.5.

Americans live in a bubble and they project their own quirks and flaws onto the rest of the world.

The USSR considered Germany in 1941 to be a “Capitalist” country. The NSDAP had turned Weimar Germany into the industrial and IP powerhouse of the entire planet in less than a decade. Their credo was “Gemeinnutz geht vor Eigennutz” or “the welfare of the community has precedence over the welfare of the individual”.

This was the idea behind the famous Enabling Act that allowed the NSDAP to get all of Germany working together instead of quibbling and fighting among themselves. Lutherans, Calvinists, Catholics, Bavarians, Schwabe, and Friesen were all working first for the good of Germany before they focused on their own prosperity.

Of course the fact that they had thrown Jews out of the courts, education and government jobs played a major role in all of this. Convincing hundreds of thousands of Jews to sell their property in Germany and then emigrate to Palestine was a significant component of the social and economic transformation as well.

Multiculturalism, especially when run by Jews, or even when Jews are present, is incompatible with capitalism. This does not mean that capitalism doesn't work. It means that a strong, intelligent, moral, law abiding, monocultural and monoethnic society is a necessary precondition for a capitalist system that works for the people of a nation.

America has always been multicultural. Various Indian tribes, Negroes from the various black races of Africa, French, Spanish, Puritans, Anglicans, Catholics, Conversos and Jews were all

there struggling with each other from the countries inception. Freemasonry is basically Kabbalah for white people, and the majority of founding fathers were Freemasons. Therefore the majority of the founding fathers were in effect Jewish and from its conception the US was already highly Judaic. It is vastly more so now.

The US government lost its sovereignty in 1913, and its Judaification was completed by 1919. It is important to note that Franklin Rosenfeld (Roosevelt) had already stacked the most critical posts in the US government with Jews starting in 1933. The US was already a part of ZOG in 1933, and it was dragged into WWII by Jews and Judea. The defeat of Germany and European capitalism in 1945 lead directly to the conquest of the entire planet by Judeo capitalism. This is where the planet is now, with ZOG representing not just the US, but the entire “West”.

“International Corporation” is really just code for “Jewish Controlled Corporation run for the benefit of Jews. Jews are never really citizens of any country, they are always focused on Judea.

“However, capitalism also destroys the “collective.” Unchecked, it devours everything in its path. It eats the poor, working class, middle class, and eventually the upper middle class. It also destroys the environment, leaving us with radioactive oceans and poisoned rivers. In end-stage capitalism, oligarchs fight each other for the last slice of cherry pie while the masses drown in a sea of economic and social chaos. Sound familiar?”

So you are not talking about capitalism. Because capitalism does not advocate a system that is unchecked. There are three checks:

1. honest dealings
2. regularity measures intended to ensure fairness
3. the consequence of violating 1 and 2

it has been the shielding of the actors from the negative consequences of their bad conduct or the unwillingness to balance the act.

Wall Street’s conduct regarding packaging mortgages of negative and positive ratings as a positive package for sale. The current bailouts prevented the consequence of the actors, but punished the those doing the bailing. That is counter to the very foundation of capitalism.

Generally when critiquing capitalism the issues noted are not capitalism at all, but violations of the same. Capitalism does not gut the poor, bur rather provides opportunity. The type of competition to destroy competition is not capitalism. There is no search and destroy ethic in capitalism. And that which is espouses in the men who built america series — beating a

competitor to see who could reign at the top is not capitalism. Nothing so true as distorting a good concept so as to abuse its meaning.

What you are critiquing is a peculiar form of mercantilism, except in this case, the markets are controlling the mechanisms of government as opposed to the other way around. Correct, the wealthy influence the system to protect themselves. They establish mechanisms in which they make the laws. A perfect example, the business community tightening penalties for credit on consumers, while loosening the same on themselves.

Citizen's United to free speech.

Establishing rules of who can buy and sell to limit competition so as to create a cartel i.e. the cattle organizations in the upper Midwest by cattle baron's to control commerce and block access to the market of those they did not like.

none of those examples would meet Dr. Smith's standards of fair and honest dealings.

I whole heartedly agree that the use of skin color to impress

“the man” is very real as can be packaged in a cloak of fairness rhetoric all the while exacting and engaging in unjust conduct. Broken windows . . . . while others are ignored for financially burning out families, insurance corporate entities hiring a bundle of lawyers who seemingly act independently, but are in fact agents of the the industry.

That is not capitalism.

Environmental irresponsible conduct is not capitalist

@JimDandy

No, the headline does not tell the whole story, any more than the title War and Peace tells the whole story.

The article is well worth knowing, perhaps most because it can help some of the remaining Capitalism worshipers see the writing on the wall about their favorite system, the one they think will save them, which instead is now primed to make them slaves on the open market.

I think the key to grasping the full picture is to know that this thing we face today did not begin recently, not even in the 19th century. In a different form it is what animated the Semitic fertility cult world of Antiquity. It is, therefore, what Jews would return to en masse after they had chosen to reject the Christ, which was their purpose for being 'called out.'

It literally is the anti-Christ, Satanic system. And it always burbled around any form of paganism that had encountered Christianity and rejected it violently. So it was in nascent, but extremely violent, form in Germanic paganism well before the Germanic tribes destroyed the Western Roman Empire and thereby created the Dark Ages. It was attached to all Gnostic movements and would show its insatiable fangs any time any one of them would become large and wealthy- for example, the Cathars/Albigensians. It got a major new lease on life with various forms of The Reformation, easily the most important of which was the British Empire, which began turning to Jewish financiers in the late Cromwellian era and was inextricably bound up with Jewish bankers well before the dawn of the 18th century.

The most obvious early fruit of that alliance in corporate terms was the British East India Company, which as a corporation had GNP larger than that of but maybe 3 empires that then existed and had a larger standing military than all but perhaps 2 empires.

It should be known by all that the Stars and Stripes flag is just a starlight rip off the flag of the British East India Company. America was betrayed by Anglo-Zionizers right from its start. And their end game is some amalgamation of 1984, Brave New World, and Mordor.

Great to hear that you are against Jewish supremacy, the world needs more people like you.

Byt why defend capitalism at all, if it is the character of the dominating ethnicity of a state that matters?

I am opposed to capitalism because it is essentially parasitism. There is zero need to have a capitalist class. A good book to read is *Princes of the Yen* it explains Japan's high growth economy was due to elimination of the capitalist class (elimination by corporate and banking law). Capitalism creates a parasite class of special interest and strengthens their power. Capitalism always leads to crony-ism.

term if you disagree with me please please read *Princes of the Yen*

It can take the selfishness and egotism found within human nature and channel those traits into productive outcomes

I would dispute this and claim that cooperation is the real intrinsic and instinctive human nature, as shown in many primitive tribal societies closer to nature, while selfishness and egotism are artificially imposed by civilisation. Can you really see primitive man surviving against others and against the forces of nature if he didn't cooperate with others? Only in Tarzan stories I guess. If it was one against all there would be no survivors today.

I feel for you man being stuck there in Bombay, Bangawhore, Lawhore, or wherever you are in the subcontinent.

I agree with a lot of what you write but I think you have an idealised picture of capitalism and the West and believe some of their myths. Things must be changing there too and are you sure they are the same as when you used to live there or will be by whenever you get your projects going over there? Things are changing fast, especially with the influx of Third Worlders there. My own experience shows that the West is extremely corrupt but the corruption is mostly in high places and doesn't generally affect ordinary people, unlike the Third World where everyone has to participate in it. But there is corruption in high and low places everywhere and even in the West.

It is great to hear from an Indian who stands out from the vast majority of his countrymen.

Ah yes, that divinely ordained system of capitalism is indeed a wonder to behold until one realizes it's just a refurbished form of the divine right of kings that purportedly justified their power to rule that was supplanted by the divine right of property whereby its owners get to rule and dictate to those who lack it.

Now, since they are both divine rights, can you please identify the means by which these "divine rights" found their way from heaven to earth that would prompt any human being to genuflect before it?

“Millennial and generation Z morons leave comments on YouTube like “can’t believe this car from 1977 had such power” or “cannot believe this film camera had such good resolution and it is from 1965”, not realising how inherently most products were better back then . . .”

Just wait till they get to the music.

@RJ Macready

The “invisible” hand of capitalism has become the hand that is “goosing” the working class. The old time capitalists like Henry Ford or Andrew Carnegie understood that the working class had to have a stake in the system – a secure, good-paying job.

Today’s capitalist (mostly Jewish) understand that the working class can be treated like serfs and they won’t rebel – the ever f–king Clintons demonstrated that. The ever f–king Clintons hated the working class – they resented some truck driver making 50K\$/yr. , while the Clintons were teaching in grad school making much less. They figured – “why is that slob making better money than me when I am so much smarter than he is. When the Clintons moved-up to make a difference they put the screws to the well-paid high school graduate class.

Strangely enough, most of the working class never figured out who put their bent penis up their buttocks – it was Bill – but he never told the victims what he pulled on them. Bill and Hillary are farting through silk, while Joe Sixpack will soon be unemployed and broke.

Anyway, this is one 80 year old guy – still working as a serf in a big box store – who figured things out. I am a socialist and will stay one until capitalism goes back to guys like Ford and Carnegie – if it is going to be a Goldstein or Shapiro – I ain’t buying the patriotic baloney ever again.

No quibbles with this column's theme at all. Ok, one comment. John Galt's strike was definitely not an endorsement of unbridled capitalism as depicted in the article. Quite the opposite, actually. Ayn Rand was all about Individualism, and took "government money" and ZOG ( if you will) to task repeatedly throughout both books. You want a hero, look to Hank Reardon, not Bill Gates or the bald Amazon dude.

As an aside, since I seldom read anyone making this point: it's absolutely true that we could have drinkable water in the oceans, salinity plants up and down the coasts to solve water problems, clean air, and endless other things fixed for a fraction of Wall Streets net worth. So kudos to the author. I too, wonder why people vote for idiots who can't respond to issues like these, if only a knowing nod.

I recognize that capitalism contains positive aspects. It can take the selfishness and egotism found within human nature and channel those traits into productive outcomes. Ethical entrepreneurs produce amazing things. Some people express their creativity through small business ownership. Because it focuses on “the individual,” capitalism gave us the Bill of Rights. Millennia of buying and selling have ingrained market thinking into the human psyche. Even non-technological societies use beads and bird feathers to conduct transactions. I’m not suggesting eliminating money. Imagine buying a car on Craigslist if you needed to show up with a herd of sheep to take home a Camry.

However, capitalism also destroys the “collective.” Unchecked, it devours everything in its path. It eats the poor, working class, middle class, and eventually the upper middle class. It also destroys the environment, leaving us with radioactive oceans and poisoned rivers. In end-stage capitalism, oligarchs fight each other for the last slice of cherry pie while the masses drown in a sea of economic and social chaos. Sound familiar?

Excellent points. While capitalism has some benefits in small doses, it is a very dangerous drug it can lead to rapaciousness and megalomania. This can cause those afflicted to extremely threaten a civilized society. It is imperative to control capitalism significantly.

Of all the nations, China seems most willing to experiment with different economic paradigms. They may eventually lead humanity to a post-scarcity Star Trek economy where people work for their purpose rather than a paycheck.

China has the best chance of surviving its experimentation with Capitalism.

I've been watching for a little over 20 years now. We had plenty of opportunity to change the course but it was not done. Back in the mid 2000s, they passed that 2007 Homegrown Terrorist Act bill and I knew we were going to get screwed unless we did something quickly.

It never happened. There are still people who think the REAL perpetrators of 9/11 will be indicted – Obviously not. You can close that chapter now and just like Covid19 operation nobody will pay for these horrendous crimes against humanity. If you still think 19 hijackers with box cutters pulled off 9/11, I feel sorry for you, but I also hate you because YOU ARE one of the main reasons the monsters continually get away with their crimes; whether they are terrorist acts like 9/11 and Covid19 or Financial crimes like the pre-2008 collapse Banking crimes that were going on.

There's nothing wrong with capitalism. The real problem here is that a lot of capitalist wealthy nations are essentially rootless. Americans are rootless, just what is an American? A white person? Are Italians and anglos equally American? The same rootless problem lies with Britain since Anglos are not from Britain, likewise you have a mongrelization there even before the modern immigration age. The same rootless nature can be found in France. With other capitalist countries that aren't rootless like Japan or South Korea they don't have the JQ problem but the American occupation problem. It seems to me that a lot of problems in America and much of Europe has to do with the fact that being mongrels leads to being conquered by Jews. Jews almost conquered Europe several times but never managed to do it because of the jealous aristocracy. They managed to conquer England and that was enough to take over the world.

@RJ Macready

“What capitalism needs is good faith and good virtue.”

Furthermore, good faith and virtue only could come from a moral and Christian people.

For example, years ago, before America had fallen from its golden age of Christianity (away from repentance and gospel faith), in the year 1947, the community of Bremen, Kansas, had not witnessed a single arrest nor one court action in thirty years. Why? The community was made up almost entirely of Lutherans who believed in the gospel promise of Jesus Christ. In fact, their Christian day schools made public schools unnecessary. Just think how safe that community must have been! Think also of how low their taxes and their insurance rates must have been! In the same year Frankenmuth, Michigan, had never had a crime of violence in the 102 years of its existence. During the previous twenty-five years its jail had been entirely empty. Throughout the Great Depression in the 1930's not one person was on the public relief rolls. What would be the cause of this remarkable record? Frankenmuth was 95 per cent Lutheran.

Thus transform the people first, then the economic, the political, and the civil will be dealt with in good faith and virtue.

Indeed, any race could be transformed to behave morally when they would come under the influence of God's mighty power in his gospel pledges to them.

So how has this gospel-rejection played out today in this country and in Europe? The current mess into which we have descended is what life is like in any typical heathen, gospel-void society. Moreover, it is lacking the all-important favor of God.

One of the biggest lies that Jews have been able to foist on the world is: Business is Capitalism... No, business is business... and Capitalism is Jews. Marx seemed to have left that part out... and the greatest tragedy of that lie was communism. We are a close second, because we can't imagine another system because we confuse the most important facet of civilization with capitalism. I agree with much of what you have to say...

I can relate to to your criticism and frustration... But, if you really have the means and talent to start your own film production company... Then you need to focused that energy on criticizing this system and educating people about Jews.

@anyone with a brain

Like Marxism and Libertarianism, Capitalism can work well for a brief few years only as it is used to restructure earlier abuses. After that it will move steadily toward producing ever fewer elites who amass ever greater monopolies and use them to create a new kind of slavery. The Gilder Age Robber Barons were a far worse bunch of slave masters than actual plantation slave owners ever could have been. And that was a much better time for average Americans than now.

The devotees of each must deny Original Sin, must deny basic human nature, in order to keep promoting their favorite ideology as the one and only answer.

@phil

Correct me if I'm wrong, but capitalism works best in small self contained towns and cities with low population. The larger the population, the more regulation will be needed as politics come into play.

Imagine your country's border towns being given preferential trade deals by your neighbor to get them to subvert their loyalty? Switzerland operates like a small town. They have frequent referendums, all done on line and are satisfied by the outcomes. They never cry "Fraud".

USA, UK, India, etc., should go back to paper ballots as this makes fraud difficult. This will never happen because the ruling elites have a backdoor to manipulate the results.

Switzerland is a sinister country. First of all, it is the home of Protestantism, which is a completely Jewish construct conceived to create perfect Shabbos goyim who worship money like Jews, but who have been trained to save it rather than use it magically, as Jews do. Calvin = Cauvin = Cowan = Cohen. Second of all, it is the home of the BIS and the pharma industry. The “culture” in Switzerland is based on hoarding money, following rules, sanctimony, and snitching on your neighbors: Protestantism. Life there is absurdly expensive. The “regular citizens” are allowed to maintain a certain degree of prosperity because the bankers and international criminals who use the place as a hideout need things to function there. If they were to leave, the true, abject face of Switzerland would emerge very quickly.

@Gene Urtel

You have accurately listed the benefits of a homogenous society who believe the same code. However, the Lutheran church continues to die out in spite of those benefits. Why?

Go to any church today and you will see the same thing: gender imbalances and rampant repressed homosexuality. For all its many benefits, which you accurately describe, the Lutheran church stopped working as a fertility cult long ago, because it is based in Germany, a country with very different conditions.

America is a much larger country than any European nation and requires a different outlook, most of all with respect to the “fertility cult” aspect that all religions must address in order to survive.

The Mormon religion (with polygamy! Or else it's the same problem) could be the answer. The largest differences between fundamentalist LDS and the Lutheran church are around the “fertility cult” aspect of the faith, and these are precisely the areas that the Lutheran church doesn't address well. As for the Jewish and Hindu questions, only in Salt Lake City are Jews called “gentiles”

‘Advances in monetary technology make taxation obsolete. Public banking as advocated by economists like Ellen Brown along with new high-tech financial tools would allow Billy to get his cancer medicine and you to hold on to your bread.’ — Richard Solomon

This sounds a lot like the trillion-dollar platinum coin and Modern Monetary Theory advocated by lefty goofball Ellen Brown:

“The Green New Deal by Congresswoman Alexandria Ocasio Cortez does not actually mention Modern Monetary Theory, but ... the concept is good: abundance can be ours without worrying about taxes or debt, at least until we hit full productive capacity.” — Ellen Brown

<https://ellenbrown.com/2019/03/21/monetary-policy-takes-center-stage-mmt-qe-or-public-banks/>

That Richard Solomon endorses Ellen Brown’s proposal for limitless credit creation by public banks makes him just another articulate, entertaining enabler of ZioCorp, which rakes in most of the freshly-minted keystroke currency.

Solomon could at least request to be paid for his efforts. But he’s just a little too ‘out there’ to suit the tastes of his gray-suited cohorts at the Federal Reserve, though privately they relish his loopy rants demanding ‘More, please, kind sirs!’

@RJ Macready

I mentioned to a young millennial if he ever heard music on a HI-FI. He sneered at me and said: you mean Wi-Fi. I responded, no deckhand, Hi-Fi.

A few days later, my friend, a hardcore Hi-Fi (by now an expert who refuses to listen to mp3s) introduced him to the sweet spot between two 15" woofers towers and played on vinyl for him Elton John's extend version of Mad Man Across the Water. Then it was followed by Led Zeppelin's Whole Lotta Love and the trio was completed with Pink Floyd's Time. On the way back in the car, he put his iPods on and I thought, what a waste of my time, back so soon to iPods. A while later he took his iPods out and I asked him, what were you listening to? He said Pink Floyd's Time. I perked up and exclaimed, really! He said, I don't thing I will be able to listen to mp3s or my iPods anymore. I feel cheated.

Yes, the younger generations have been robbed of goodness. Everything has abandoned it's purpose and has shifted to money making. The sadest thing I see in young people today, is their disbelief that a good and happy America ever existed before the Powell Memo was ever written.

FORBES WORLD'S BILLIONAIRES LIST The Richest in 2022

War, pandemic and sluggish markets hit the world's billionaires this year. There are 2,668 of them on Forbes' 36th-annual ranking of the planet's richest people—87 fewer than a year ago. They're worth a collective \$12.7 trillion—\$400 billion less than in 2021. The most dramatic drops have occurred in Russia, where there are 34 fewer billionaires than last year following Vladimir Putin's invasion of Ukraine, and China, where a government crackdown on tech companies has led to 87 fewer Chinese billionaires on the list.

<https://www.forbes.com/billionaires/>

Billionaires got richer during Covid lockdown.

# American Billionaires

## GOT RICHER DURING COVID-19

COVID-19 has wreaked havoc across the nation, but not everyone has taken a hit financially. After the market crash in March, some of America's top billionaires have rebounded quickly. A majority have even gotten richer.

@Anonymous

I agree with you about Henry Ford, but not with Carnegie. Carnegie was a typical “robber baron”.

In 1883, Carnegie used a drop in steel prices to argue with the Knights of Labour and the Amalgamated Iron and Steel Workers at his Edgar Thompson Works in Braddock, Pennsylvania, for a 20% cut in wages.

The alternative was that the plant would be shut down and the men locked out. The workers capitulated. But three years later the plant was shut down by Carnegie 10 days before Christmas when he discovered one of his rivals had achieved a cut in wages of between 15% and 20%.

Carnegie had his plant manager post a notice that the works would close for an indefinite period and that 1,600 men would be put out of work with the stated reason being plant renovation. But Carnegie had resolved that the real purpose was to drive out the unions, only non-union men would be rehired when they reopened the plant.

By February of 1885, with the men facing starvation and freezing temperatures and no money to buy food or coal, they agreed to come back in under individual contracts, their wages decreased by up to 33%. The union was crushed forever at the plant.

As to Henry Ford, he resisted unions as his employees were already making an above average wage.

<https://rumble.com/v260j14-andrew-lawton-explains-the-badge-caste-system-of-the-2023-wef-meeting-in-da.html>

When Jews are in power, like they are in Davos, there exists a caste system. Cattle are the lowest class, but many Jews are little higher. Jews from the Shtetl were always considered to be lower quality garbage. This is why all the Jews in power across the west refused to allow the Jews from the Pale to “escape” the Nazis by emigrating into US, UK, Canada, etc. The reality is that the upper caste Jews wanted the Nazis to perform Eugenics on the Jewish rabble from the Shtetl, and they even worked with Hilter, for example the Havarra agreements, which rejected inferior Jews from emigration to Palestine.

@Irish Savant

To Irish re your [62]:

I know that Soloman is not offering a plan. I am trying to get him or the community to focus on creating a plan — to discuss solutions, to puzzle it out. I'm trying to get the discussion to be more pragmatic. I don't see much time left in which to figure out some plausible options that can be taken to undermine the dystopian future being imposed on humanity. I just don't see any. So can't we talk about it? Maybe someone has a good idea.

I'm looking for options, possible solutions, pathways that could be taken. Once the cbdc's are in place, I fear it is game over for us "useless eaters." So let's puzzle it out. Let's focus on possible solutions before it is too late. The window of time is closing. And it is a horrific future ahead unless we do something collectively. DeSantis has the right idea in trying to encode protection for his residents into law. But I just don't see how it is going to work. If every, EVERY state governor started following his lead, then we might have a chance. If nothing is done, then our future is that of the slaughterhouse.

We can talk, talk, talk about who they are and what they plan and why. And this is good because it educates. But doesn't there come a point when the talk about the lay of the land stops and solution-making begins?

Time is of the essence.

@Dr. Rock

Come on Dr Rock at [70].

Let's puzzle it out. Let's at least try to do so. You appear to be correct when you say:

“The world is on a crash course for the mother of all shit-storms, and while we can't do anything to stop it, we can at least warm our hands by the flames, share a drink, and have a hearty laugh.”

But can't we even explore options? Although neither you nor I (see mine at [27]) see any solutions, do we just give up without a fight, without even trying to be united in a resistance movement?
