Jedním z příznaků, že se země rozpadá, je to, že konzervativci zřejmě odepsali velká města.

Guvernér Texasu autobusy přepravuje migranty do New Yorku, kde způsobují tolik problémů, že podle starosty by mohli město zničit. San Francisco, Philadelphia a další města jsou konzervativní pointy. Mnoho liberálů se zvláště pyšní úpadkem, jako by to byl znak kulturní autenticity.

Mám dojem, že konzervativcům už nezáleží na tom, co se děje s městskými liberály, protože si sami přinesli zkázu. Liberálové se odmítají učit, protože přiznat, že se mýlili, by znamenalo přiznat, že máme pravdu. Konzervativce by to nemělo přestat zajímat, protože liberálové jsou stejně obětí jako pachatelé – i když stále dělají stejné chyby.

Snad nejtrapnější americké město je Baltimore. Město, které nám dalo Edgara Allana Poea, HL Menckena a státní hymnu, je troska. Je to krvácející populace po léta a její míra drogové závislosti a kriminality prudce stoupá. Před lety televizní seriál *The Wire* ukázal město jako nereformovatelné – sužované korupcí, kriminalitou a drogami. Je zvláštní, že když to prezident Donald Trump nazval „nechutným nepořádkem zamořeným krysami a hlodavci“, stěžoval si tvůrce *The Wire* David Simon:

"Kdyby tento podvodník v prázdném obleku, který nenáviděl rasy, musel na pět minut skutečně navštívit Západní Baltimore a setkat se s některým z amerických občanů, kteří tam přetrvávají, zmokl by se," řekl. "Znamená to, že když prezident vystoupil ze své limuzíny a zjistil, že je náhle rasovou menšinou, smočil by se jen na tomto základu."

Zdálo se, že pan Simon posiluje názor prezidenta Trumpa.

Black people aren't violent.
Do you have any idea how
racist that is?

I DARE you to say that to a
black person's face. They'd
beat the shit out of you.

Město je na tom nyní hůře, než když byl vysílán *The Wire* (2002–2008). Jedna postava, kroutí hlavou, říká, že město „jde do pekla“, protože by mohlo dosáhnout děsivého čísla 300 vražd. Nyní Baltimore překonal 300 vražd. Loni toto číslo překonalo v listopadu. Baltimore je však stále významným přístavem a pravděpodobně vždy bude nějakým městem. Jedním z jejích známějších podnikatelů byl Pava LaPere, zakladatel společnosti EcoMap Technologies. Vystudovala Johns Hopkins University, jednu z mála produktivních institucí stále v Baltimoru. Forbes ji zařadil na letošní seznam 30 pod 30 pro „sociální dopad“.

Slečna LaPereová byla v závodě velmi otevřená. Na svém účtu X, který je stále aktivní, si často stěžovala na rasismus, „dezinformace“ a zaujatost.

In April 2019, she gave a TED Talk on equity, claiming that the United States “misses out on 300 billion in income and nine million jobs from the 1.1 million jobs that do not exist because rates of entrepreneurship are not equal between white and minority populations.” This was an especially big problem in Baltimore, she said, which is majority black. She said that “thankfully, within entrepreneurial ecosystems, we don’t see too much disparate treatment [overt discrimination based on characteristics], there aren’t a ton of funding programs that say you can only apply if you have low melanin and high testosterone.”

Presumably, all the racial minority-focused programs she promoted in her own X feed don’t count. However, she said her business aimed to eliminate “disparate impact,” because funding standards for entrepreneurs often rule out low-income people who want to start businesses.

Miss LaPere is no longer with us. On September 22, her body was found on the rooftop of her apartment building with the cause of death listed as “blunt-force trauma” and strangulation. Jason Dean Billingsley, a 32-year-old black man, was arrested after a brief manhunt. He’s also the suspect in an attempted murder on September 19, in which he allegedly raped and tortured a woman after handcuffing her boyfriend.

Jason Dean Billingsley

The boyfriend was a black man; the girl has not been identified, presumably because it was a sex crime. Mr. Billingsly burned both alive but they survived.

Baltimore Acting Police Commissioner Richard Worley said the suspect knew the victims, but did not elaborate. The male victim is angry because Mr. Billingsly stole his phone and used it to make

calls. He points out that police could have used this incompetent theft to find and catch Mr. Billingsley before he killed LaPere. Jason Dean Billingsley appears to have done nothing but spread suffering his entire life. In 2009, when he was 18, he pled guilty to first-degree assault. He got probation, which he broke, and committed second-degree assault in 2011. In 2013, he was convicted of attempted rape and sentenced to 30 years. He was paroled in 2022 after serving 14. He was on “supervised probation” — which evidently did not supervise him very closely — when he killed LaPere.

Baltimore Mayor Brandon Scott, a black man, said, “We have to make sure that folks are held accountable in every single way because we are tired of talking about the same people, committing the same kind of crimes over and over and over again.”

However, Mayor Scott is a critic of policing. “We know what doesn’t work,” he said in a 2021 interview. “We know the years when they went out and arrested anybody who looked like you and I, who was breathing while Black, who was outside was arrested for anything. That didn’t make the city safer. We didn’t become a safer city.” He blamed out-of-state guns and called for “programs.”

Mayor Scott has also paid tribute to the memory of Freddie Gray, a 25-year-old black man who died after being arrested by Baltimore police in 2015, saying that “his name lives on.” I suppose it did, in the sense that Baltimore rioted after Mr. Gray’s death. The officers accused of causing his death, three of whom were black, were all acquitted later that year. Crime has been high in the city since those riots, but the mayor blames “systemic racism” as the “stem” of violence.

How did Mr. Billingsley meet LaPere? According to surveillance footage, he followed her home, though she didn’t seem to notice. After she entered her secure building, he motioned to her through the glass as though he had forgotten his keys. She let him in and rode the elevator up with him. Less than an hour later, he was leaving the building, wiping his hands.

At a vigil after her death, EcoMap employees wore shirts reading “equitable, accessible, ecosystems.” EcoMap co-founder Sherrod Davis said Miss LaPere saw a “new Baltimore, not one that was riddled with crime and destitution, but one that was a symbol for prosperity and innovation.” At the end of the vigil, her family and friends reportedly let out a “collective scream.”

This death didn’t just happen, nor will outpourings of grief prevent others. In one of her final posts, LaPere wondered why community involvement plummeted along with old-fashioned values such as patriotism and religion. The loss of community was a consistent theme of hers.

All of them make sense but the plummet in community involvement is shocking to me

And yet at the same time people are lamenting a “loss of community”

<https://t.co/nLVw3yejL1>

— Pava LaPere (@PavaLapere) May 7, 2023

If we don’t create & utilize more third places (locations to gather, meet people, be casually social) in the next few years, we’re going to see massive implications in the social fabric

Indeed we already have... the lack of community in the US is shocking and so unnecessary <https://t.co/YMfJTpogKd>

— Pava LaPere (@PavaLapere) March 29, 2023

Perhaps with her death, some may understand that such time-tested principles weren’t bigotry but common sense. The reason we don’t have “community” is because diversity kills it. People need public safety to live and work together, and that means stopping crime, not coddling criminals in the name of “equity.” Liberalism dynamites the foundations of the society she was trying to build.

Miss LaPere claimed sociology showed her how the world works.

I learned more in my 1 year as a sociology major than my prior 3 years in computer science

Sociology teaches you how the world works. Maybe they just regret knowing that.

<https://t.co/fbXxLMyaXi>

— Pava LaPere (@PavaLapere) November 15, 2022

Sociology gave her a false vision of the world. El Salvador's Nayib Bukele could solve Baltimore's crime problem more effectively than fantasies about equity. Following the advice from John Derbyshire's "The Talk" would have helped her more than a college education, because she wouldn't have fallen for a black man faking distress. Miss LaPere would still be alive if she had only been a "racist." She has paid the price for decades of our rulers' deluded thinking about race, as well as her own. Few will learn anything. Her story is over, but the unnecessary tragedy of Baltimore will continue. Rest in peace.

The city is worse now than when The Wire was on the air (2002–2008). One character, shaking his head, says the city is “going to hell” because it might reach the outrageous figure of 300 murders. Now, Baltimore surpasses 300 murders. Last year, it topped that figure by November.

What makes it better is that this was made during the period where crime in Baltimore (And much of the US) had reached what we now know to be it's nadir. (Which is probably why they did it, they conceived of the show in the afterglow of the more violent 90s) In the context of the show the scene takes place during a plot arc when the writers came up with an exciting fictional and farfetched sudden explosion of gang warfare feuds that was not considered normal even by the standards of The Wire. (Let alone the reality of the comparatively “peaceful” period of the early to late 2000s) And, indeed, is *still* farfetched with no abnormal dramatic WW1 style meltdown of gang feuding bringing it about but has been brought about by levels of violence simply finding a new normal.

Although tragic, this statement right here is the world we live in now, where a worthless violent NAPA that's clearly a menace to society and capable of anything in regards to violence, yet the Baltimore PD isn't interested in proactive policing with incidents where no one dies, they're just sitting back and waiting for these apes to hit a judiciary home run.. The old "murder death kill" to quote Demolition Man.

I've said before with these retarded White cunts, (and its usually women) that are of this mindset that if they are just kind enough to these things they'll spare your life. I wonder what her final thoughts were as this fucking maggot started caving in her empty head, I'm sure it was something along the line of, why me, I'm on your side.

And the setting on fire of the two that survived this piece of shit is a another terrifying MO of this race of violent shitheads that shows the clear need for the return of summary executions in incidents where brutality and torture were involved, and murder was the obvious end game.

@Sir Launcelot Canning

I don't even think "schadenfreude" covers it. Cities are historically where basic human decency goes to die.

The bigger the city, the more its inhabitants become polarized into de-evolved savagery and affluent bubble-dwellers, both of which tend to be characterized by a perverse pride in their cynicism, criminality, and disconnect from the natural world. Both populations are inimical to not just themselves but to everyone else, to a greater degree with the more influence the city has upon the rest of the world. It's a rare major city that produces enough benefits to justify its cancerous malignity, and even that is always a temporary condition.

So yeah, I'm happy to read that a city is failing. After a certain point, of size or density or whatever, they should all be razed to the ground and started anew.

The Ryan Carson knife attack video will be studied by police and used as a training tool.

Graduates of policing are well versed in how quickly an assailant with a knife can close the distance with another and strike a fatal blow.

It's why police are quick to draw and shoot when they see a weapon, and it's usually deemed a justified homicide. The rest of us are held to a different standard. We aren't allowed self defense with the same rights. If Ryan Carson had drawn a concealed firearm and used it, prosecutors would be reluctant to let him off Scott free.

Are you serious? Not only would he not get off scot-free, he'd be made an example of "white supremacy" in international headlines. Remember that the MSM aren't concerned with the details.

They won't care that it might have been self-defense. Any and every instance of white-on-black crime is always an instant cause célèbre. Partly because it's so rare, but mostly because everyone from the president on down can make so much social and cultural hay out of it.

Amen. I didn't click on the linked YouTube video of her TARD talk, or whatever it was supposed to be, but I could imagine the vocal fry and uptalk used to express her muddled, pretentious sub-midwit thoughts, That's what happens when girls are told continually that they are "princesses", even after they're "grown up."

It's sweet for a four year old girl to want to be a princess, and have a toy crown and all that, just like for a little boy to want to be a superhero or an astronaut at that age. But the difference is—if the superhero boy starts thinking it's literally true and carries on like that as an adolescent or even post adolescent, the world will disabuse him of his boo'schitt in no uncertain terms, whereas a whole lot of "princesses" keep on wearing that crown into "adulthood" these days.

Well, God rest her soul. She learned a harsh lesson.

Ryan Carson, Josh Kruger and Pava LaPere in one week. I know people are tempted to gloat and mock. When that happens then the families and friends of the victims just double down and forgive the killers and say 'society made them do it'.

What these incidents really need to be is a wake up call to well-meaning but misled leftists.

Under Armor is or at least used to be based in Baltimore. The company has been accused to being woke but no where near as much as Ms. LaPere.

Now,it was stated that she majored in CS for three years,the moved to,heh,sociology. I wonder if she had met a buck,some dumb,lazy professional negro student,and he saw he could game her into an affair.

When she had this ugly buck on top of her maybe she felt abused,violated and “dirty.”

She never had a whole lot of sex drive,but these feelings of being dirty and violated turned her on.

So she developed a stupid,birdbrained crush for an ape.

Perhaps he told her how the ancient knowledge was stolen by da white man. And decided she would be the savior,the Florence Nightengale,the Happy Hooker,for these put upon but noble Kangs.

Just one theory,I dk,but I’m glad she kept her date wiff Tyrone. Now,can we execute Tyrone?

This woman was the epitome of blind progressivism. She actually believed the DEI bullshit and actually supported the fraudulent BLM, obviously overlooking the corruption that forms its foundation. She actually believed blacks could turn around a city they destroyed if only given a chance-more money. Her anti-White male stance exposed the brainwashing she received in college. Her death was predictable, as she cluelessly befriended a negro who violently raped and killed her. A negro out of jail due to philosophies she espoused. One down, many more to go.

I actually agree.

Woke lunatics who took great pride in their wokism getting what they were excusing is Karmic, even if they didn't quite deserve to brutally die. If nothing else, better them than someone non-woke (including a law-abiding black person).

It is a far cry from legitimately innocent victims like :

Brianna Kupfer : cute girl, no woke virtue-signaling in her social media, murdered at her job in a furniture store {a regular, non-woke job}), or

Daniel Shaver : murdered by white police officers for no reason who were very deliberate and calculated in their pre-meditated decision to execute him, my making him fail a deadly game of 'Simon says'. He held out longer than they expected, which was making them even more frustrated.

Being a walking pedestrian is dangerous in cities.

We are safe driving in our cars to our jobs which have fenced-off employee-only parking areas that the general public cant get into. You don't get mugged, sucker-punched, or shot on the highway. You can get all three walking a sidewalk.

There aren't loiterers out in suburban subdivisions with no sidewalks to "hang out" near your house. You can pull your car in your garage to exit it in there in case anyone followed you home.

There is exactly one demographic that makes city living so unsafe.

These are some of the unspoken reasons people drive 15 minutes down the interstate to get away from city living.

The easy thing to do is laugh and gloat at this woman's death, first, because of her politics, and second, because if it had been you instead of her, she'd have an excuse for the killer all ready to go. So I understand the dislike for the victim.

But she's a victim in more ways than one. She was likely brought up in a school system that used psychology and behavioral analysis to train the students like animals, to mold their beliefs to accommodate the teachers and administrators in the district, rather than provide her with a real education.

Behavior analysis is nothing to kid around with. Adults who've used it on other adults, even with consent, have gone to prison in some cases; but it's used on children when their minds are developing and when they are most vulnerable, and no one cares.

I am on the Autism Spectrum and considered high-functioning, but was subjected to behavioral analysis and shock treatments from first grade all the way through middle school. I would have done anything for a gold star, because the gold star meant that you were allowed to have lunch, to play at recess, to use the restroom, and most importantly, it meant you wouldn't get a shock or struck with a riding crop. I existed to make these people happy, to tell them whatever they wanted to hear, whether I agreed with it or not, or even understood it.

The treatment used on me and countless others has been used on an entire generation, minus the shocks and threats of no bathroom breaks. Their gold star is to hate their race, their families, their communities, and anything the schools tell them to hate. If they complied, they got good grades. They got accepted to the nice schools, were given access to programs, activities,

and nice part time jobs in the community. Over time, they internalized the propaganda, because their brains associated the propaganda with those nice things.

Behavioral analysis in the schools warped this woman's mind and caused her death. She was in a cult without knowing she was in one. I wish her peace in the next life, and that God will protect her, and every other person in her situation, no matter their politics (because the politics aren't even hers to begin with).

Guess her Year studying Sociology didn't cover any Discourse on Criminology or Social Pathology...

Nature, Nurture, and Culture.

Sorry to share; but on a side note, read that Maryland Public Schools aren't "educating" well enough...

Last month, People were complaining when 13 Baltimore Schools Tested with "NO" – as in ZERO – Students as being Proficient in Mathematics.

Now, as the Investigations rolled onward – they're finding out that in TWO HUNDRED (200, in case I typo'd) Schools, less than FIVE PERCENT (5%, in case I typo'd – typing with a thumb on a phone with auto-completion) Scored as being Proficient in Mathematics...

<https://foxbaltimore.com/news/project-baltimore/at-more-than-200-maryland-schools-number-of-students-who-scored-proficient-in-math-is-5-percent-or-less>

For the Most Casual (Foreign) Observer – Maryland host roughly 55% of the Capitol Beltway (where Political Wonks and MICC/"Beltway Bandits" Live In/Commute To) which surround WashingtonDC.

FYI – Baltimore is roughly an hour (40 Miles) by Car from WashingtonDC...

A ClusterFrack of Epic Fails resulting in a Failed-State FUBAR...
Not even WashingtonDC and the "MICC Central Hub" can sustain the Local Communities...

...Those Suburbs btwn WashingtonDC and Baltimore probably are losing their value in Residential Real Estate (linking a Roadway Path straight up to Phila and NYC). Guess people are moving to the Capitol Ex-Urbs, with Private Schools/Home Schooling...

Libtards are indeed unbelievably stupid and indifferent to reality. And yes they play a central role in enforcing the purely evil ZOG produced and sanctioned cultural meme that black criminality is a myth and that blacks are victims of horrible white racism. This lie has for sure led to far too many people being murdered at the hands of these criminals because they have been brainwashed into believing that blacks are no more likely to commit a crime than your average white grandmother.

But what happened to this woman was horrible and even stupid people don't deserve to be murdered by psychopathic black monsters.

Jewish supremacist lies about black criminality and white racism has to stop and their hatred exposed.

And finally, the black community better wake up fast and realize that their tribe's criminal inclinations make them unwelcome to other tribes wherever they reside.

With the news that this young lady fell for a black man feigning distress and allowed him into the elevator with her, I am reminded of the terrible story of the Columbia university grad student who did the exact same thing about ten or fifteen years ago. She was aimes for life but at least she survived. (Will a gentle UR trader please be so kind as to go find that story pls ? The Columbia U. newspaper did a pretty good job of covering the trial of that fellow NAPA Otis traveler). .../... You know one reason the Columbia grad story hit me so hard at the time, is that it made headlines right around the same time a public service advert was airing on Tv with pretty big regulatory, my fellow UR readers might recall the commercial in question : it featured a white lady and a Black lady in an elevator (thank you auto-correct for capitalizing the race of the latter for me): right before the door closes, a Rasta-style gentleman enters the elevator car. The white lady clutches her purse, the black lady sees her friend reacting this way, frowns, then upon exiting the elevator after the departure of the Rastafarian who neither raped nor robs anyone in the shirt interval of ascent between floors, the black lady scalds her friend for being racist, the poor white last looks like she's about to cry for her automatic racism, the black lady walks away angry. I remember thinking : I wonder if the Columbia University grad student girl recalled this commercial when the black man tapped on the window, asking her to hold the door for him.

I can't bring myself to hate these dimwitted, wanton black killers. Their entire race is a misfit in white society, and the killers are simply bigger misfits.

I truly hate people like Pava. They use blacks for leverage in an argument against their fellow whites. Blacks are the cudgels with which to beat whites into submission.

I live and work among blacks. I am wary of them and steer clear of them but do not hate them. Blacks in America, for all their dysfunction, act more in accordance with their nature than opportunist whites who proffer absurd theories disdainful of common sense. Occasionally, idiots such as Pava are hoisted by their own petard, a fitting and satisfying outcome.

Blacks would do better under a Bukele. They require clear boundaries, strict accountability, swift and harsh punishment, and massive incarceration.

The blood of every White victim of Black violence is on the hands of international Jewry. This can't happen as often as it does if Jews in the legal field and media didn't criminalize the right of Whites to self-defense and didn't glorify Wakandan rape-fugees. Every rape, every murder, is the outcome of Jew anti-White actions behind the scenes. It's strange that the Jews can lecture Whitey on his racism, but can't acknowledge the humanity of Palestinians.

A long time ago someone said, “We are the victims of our phrases.” (I don’t remember who. I probably read it somewhere as a second hand quote.)

Anyway, that’s what Pava was, a victim of her phrases.

Well, not ‘her’ phrases really, but the phrases we’re all subjected to whenever we turn on the TV or go to the movies or read a newspaper or attend a high school or college (or pre-K or kindergarden or elementary school) class.

Words have magic power. They really do. Pava was mesmerized by them.

Reading her tweets (or whatever they were) is a surreal experience. She seemed unable to write (or presumably think) in anything other than slogans.

Certain words, even certain pieces of words, ‘eco’ for example, seemed to put her in a state of mental suspended animation.

Pava believed the phrases and not ‘her lying eyes.’

Blacks...

During the first half of my long life southerners understood them. Experience had taught them.

Over the course of the second half many southerners have been battered into the same state of unreason as northerners. (They’ve lost their accent, too.)

It’s not just IQ. It’s everything.

Even Lincoln knew. We cannot live together.

As someone commented the other day on this or some other site, “The experiment is over.”

When I was young my dad/uncles took me to many of the so called majestic regions of culture. Decades later I saw those same areas and they were just unbelievably dangerous, run down and filthy. When I lived in Europe, I worked for a think tank and travelled the world. I've been in Africa, etc. Wherever they are, it's always the same. It doesn't matter. Paris was once the city of lights now it's a sh-t hole. I use to love London and stopped going there for the obvious reasons.

I sincerely believe that America -if it doesn't break apart- might evolve into a new type of civilization. One will be unofficial official city states. The other will be where Whitey and also Asians reside. In our era of cancel culture we can thankful sites such as this still exist. May Unz live a hundred years.

No doubt, as the relatives of Channon Christian and Christopher Newsome read about this event, they will shake their heads and wonder just what it will take for idiot white liberals to wake up and see the truth.

Repeated verification = justifiable belief. It gets hot in the summer, break out the shorts, cold in the winter, break out the coats. There are exceptions, but in general the fuckin sky is blue.

Some Pit Bulls are nice, but you feel far more comfortable walking up and scratching behind the ears of a Golden Retriever.

This is NOT a mystery. DEMOCRATS could not acquire power without the black block vote and no matter how much FOX news wants you to believe that blacks are all of a sudden coonservatives, they are not and if there is an effort, by the police to regulate behavior in the hood, there will be cries of racism and injustice.

The violence is the glue that holds the DEMOCRAT party together and wins them elections.

Genetics count. As with Pit Bulls, the atavistic, impulsive propensity to violence is there at birth and only with very determined training can it be overcome.

The lion's share of blacks are born with the IQ of Sling Blade and will barely be able to put mustard on their taters (Hopefully they are not served cold.) as they go through life.

In school, they will learn that, if not for white people, they would be running General Electric.

Baltimore has 23 high schools and not one high school has one student that is “proficient” at math.

<https://dailycaller.com/2023/02/10/not-one-student-met-grade-level-expectations-for-math-in-23-baltimore-schools-report/>

I am going to make an educated guess, that “proficient” means you can make change from a 10 dollar bill at the counter in a card board hat when there is a purchase of a Big Mac.

There is NO fixing this and Scott Adams is right, get the fuck away from the sub human filth that is given carte blanche to destroy our country by idiots like this anencephalic white woman who got exactly what she deserved.

@chuck lowe

The main problem is it's getting to be impossible to get away from them. When I moved out to the suburbs over 20 years ago, they were invisible and the ones you'd run into acted almost White. Now, with all their affirmative action jobs and section 8 housing checks, they've begun following me out here. And, of course, the crime rates have gone up. Funny thing, everyone's Ring camera shows the race of the perps, but only ex-city boys like me are willing to point it out. Some of these soft-Whites are starting to wake up, but some, like this idiot woman who let her rapist-murderer into her house, it's taking too long.

The blood of every White victim of Black violence is on the hands of international Jewry.

Go ahead and play the blame game.

This is our responsibility because we are civilized.

Jews going to jew. Niggers going to nigger.

It's our responsibility that our fates intertwine with the shit of humanity at all.

It won't be this way forever – that's what I'm concerned about.

What's next? How do we ditch the jew?

How do we prepare for a future of our own?

I visited Baltimore nearly 40 years ago on a State Department sponsored tour of the U and I didn't notice anything amiss as a resident of a big city in Australia visiting one in the US. (I think Melbourne with more than 5 million people may have outstripped Baltimore which Wikipedia tells me is about half the size).

Perhaps what I didn't see should have helped me understand why so much on TUR seems still bewilderingly unreal. And maybe now it has to do with the fact that I live in a house on 80 acre Yarra Park less than a mile from the centre of the Melbourne CBD and can happily walk in the park at night knowing that Melbourne's homicide rate was about 2.2 in 100,000 when it seems still possible to exist in Baltimore which I learn has a rate of 57 in 100,000.

I wrote “Certain words, even certain pieces of words, ‘eco’ for example, seemed to put her in a state of mental suspended animation.”

“Mental suspended animation” isn’t quite right.

What certain phrases and pieces of words did to Pava was put her into a state of religious exaltation.

Her enthusiasm looks very much like the being “filled with the spirit” aspired to by some Christian groups.

Her enthusiasm is extreme. One could ridicule her by comparing her to the women (almost always) who are “felled by the spirit” in evangelistic meetings and fall backwards into the arms of the evangelist’s assistants.

A kinder comparison would be with Bernini’s phantasmagorical ‘Ecstasy of Saint Theresa.’

Wokeism is a new religion, a new Gospel. Pava was one of its most devoted adherents. One could say, one of its first martyrs.

But what happened to this woman was horrible and even stupid people don't deserve to be murdered by psychopathic black monsters.

I think it is the height of comedy. Just like mudsharks being beaten-up and killed by their pets. Play with fire and you get burned. Live with animals and they'll bite you. Associate with nogs and they'll stab you. It's just one of life's lessons, and it is absolutely gratifying to see White lefty cunts murdered by their own ignorance. Why?? Because other Whites, especially White males, have suffered under their sanctimonious moralizing for far too long.

I appreciate your words, but they're just that, words. If there were any divinity in this world people like this would be struck down for their deeds. Instead we let these animals out 21 years before their sentences are up and people lose their lives for it. I don't think anyone for the most part relishes in the deaths of idiots like this woman that clearly has animus against her own race, but you really do have to recognize the irony. The fact that these people either choose to be ignorant to the truth about their lopsided violent crime and murder against Whites, or they simply buy into the idea that criminal statistics are skewed due to systemic racism and that they're "just like us." When the so called "good blacks" start demanding severe mandatory sentencing guidelines for their problem children I might be able to get on board with the idea they're coming around to the idea of what has to happen for our society to heal and possibly coexist. But until that day comes the thing Whitey needs to understand is that these people are F'n dangerous and are being assisted now by a political party that sees them as a useful tool to instill fear, proven day in and day out by the joke plea deals they're getting more and more often coupled with no bail, no bond releases even in circumstances of violent acts and even homicides in some of the more progressive toilets in this country.

Christianity is a suicide cult. The Gospels are quite clear. Even a child understands that when he is first exposed to the 'turn the other cheek / go the extra mile' passage. I did.

One can accept Christianity. One can believe. But one mustn't blind himself to the implications of such passages.

It wasn't always interpreted as such. Popes called for crusades. Luther declared that being a soldier was compatible with being a Christian.

What a dilemma the West faces! Abandon Christianity? Abandon the whole vast apparatus of Western civilization?

I guess the option that first comes to mind is the Roman empire. It had a multitude of deities, but none of its cults was suicidal. Is that right?

I'm an old man now but back in the late 1950s our school english teachers would demand, from time to time, a book report from a book of our own choosing from the public library. My favorite book sections were history and science fiction. One of the books that I chose way back then was 1984. The most profound thing to me in that entire book was that people had to show that they were responsible and capable enough to create and properly raise children before they were allowed to do so!!

In these United States of America no one is ever held accountable for the monsters now preying on our decent citizens! Two parent families are going extinct, spanking children is now a crime! In states with restrictive gun laws the general public is defenseless against the criminals roaming the streets. People are mugged by the criminals in the streets and then the victims are mugged again in the court system where plea deals are made between lawyers!

Our jails are overflowing, there is nothing set up to keep violent juveniles locked up, our society is crumbling because no one dares to promote real solutions!!

Criminals kill people, and depending on the class of the victim, jail time is sentenced!! Poor black males killing poor black people are sentenced to 5 to 15 years in jail so black on black crime is rampant because real punishment does not exist!!

Solutions:

In the courts mandate that the victims name the punishment that the government administers to the criminal no matter what it is!! That would be real justice!! If the victim wants the death penalty the state should be bound to carry it out!! Crime will disappear!!

Stop subsidizing bad behavior! Females can get pregnant any time that they please but our society is then forced to support her and her children; that is not right!! She gets pregnant on her own; she should do everything on her own; other people should never be bothered with her decisions!!

Although it was not lawful back then; the men in the neighborhood would only warn boys once that there behavior was not allowed! A thug that raped someones daughter or mugged old people would just disappear into the dog catchers lime pit; problem solved forever!!

We should be dumping our human waste into the oceans instead of the plastic!! We need real leaders not grifting con artists!

It's simple, he's a black male. Don't be surprised if the son of a bitch gets released with an ankle bracelet as well.

Now close your eyes and imagine that this had been some ex-con, brute of a White male that brutalized this young black couple, raped the girl and set them both on fire. There would have been wall to wall 24/7 media coverage from the moment the story broke. The black race hustling lawyers would have been lined up demanding hate crime charges, no bail and federal justice system intervention.. Think the Satilla three debacle on steroids. Seems that their lives matter quite a bit less when the person doing the violence has the same hue to their skin. The dead White chick, she never even made the news on the liberal controlled networks, and nary a statue will be erected, nor will she be remembered by anyone other than her family and close friends, because nothing matters less in this country now than the life of a White person.

The violence is the glue that holds the DEMOCRAT party together and wins them elections.

It doesn't matter which party wins. The GOP is as much a loyal servant of the oligarchs as the Dems. They merely played the 'good cop' role to pacify and control the one-third of Americans who hold traditional conservative values. Once in 300 years you might get an outsider who hasn't been groomed by the Establishment who's able to make an end run around the system and win the presidency. But if you do that figure will be targeted 24/7 by the FBI, CIA, DOJ, military, media, Hollywood, their own party's establishment, et al., in perpetuity.

Here's the head of the GOP in the Senate:

Mitch McConnell Persuaded FTX CEO Sam Bankman-Fried to Donate Millions to Anti-Trump Republicans

Frank Bergman
October 2, 2023

Senate Minority Leader Mitch McConnell (R-KY) reportedly held secretive meetings with Sam Bankman-Fried and persuaded the disgraced former FTX CEO to donate millions of dollars to anti-Trump Republicans.

McConnell gave the Democrat megadonor a list of Republican candidates who were running against President Donald Trump's endorsements in the 2022 elections.

The meeting was revealed by Michael Lewis, the author of *The Big Short*, during an interview with "60 Minutes" on Sunday.

He appeared on the left-wing show to discuss his upcoming book "Going Infinite."

The book is about disgraced FTX founder Bankman-Fried.

Their (((agenda))) often means career advancement, money, popularity, having a book published aka John Grisham or that backwoods Maine hillbilly, Stephen King, etc. No one really believes that (((leftist horseshit))) because IF they did cities like Baltimore, St. Louis, Cleveland etc., would not have lost more than 40-50 % of their peak population numbers. In 1950 the population of Baltimore city was around 950 thousand making it the 5th largest city in America, even in 1970, Baltimore was ranked only behind NYC, LA, Chicago, Philly, and Detroit. Baltimore city and the metro could have been a great place to live, it was at one time. Perfect location, great food, super down to earth people, best pizza at Pizza Johns in nearby Essex, the Colts, the O's and even the old Bullets, steamed crabs, crabcakes, etc. It was a big city with small-town charm. Hence the nickname Charm City.

So, a *rich, white, man*, such as her father, who paid for her college education, is the problem? Maybe he made things a bit too easy for her.

I'll bet if a rich-white-man entered her building that evening instead of a poor, oppressed, downtrodden, black man, just yearning to be free, she would still be in Baltimore spouting off and warning the world about the roving gangs of white boys ruining American cities these days.

Young White women need to have the “*talk*” with their parents before they are “*sentenced*” to a life of degradation and misery.

This is the topic the “*talk*” should entail:

When you consort with blacks, THIS is the result in 99.99% of cases.

–You will get pregnant as black males will not use birth control. Impregnating a White woman is seen as a “*prize*”—getting one over on the White man.

–Your “*baby daddy*” will only come around to collect the welfare check or EBT card from you, the “*baby momma*”.

–Most black males keep a “*harem*” of sorts, impregnating as many “*baby mommas*” as they can. This results in quite a lucrative income for the black male as he “*collects*” his due from the many “*baby mommas*” that he has impregnated.

–You will not be the only one. Fidelity is unknown in the black community. It is normal for black men to “*sleep around*”. They have no guilt about doing so. It’s a part of their culture.

–Failure to come up with the money or EBT card will result in a beating or even death for you, the “*baby momma*”. If a jail or prison term is the result, parenting duties are taken over by others. When this happens, the black man’s grandmother or the state usually takes over parenting duties.

–This situation is considered normal behavior and is a common occurrence in the “*vibrant black community*”... In fact, a prison sentence is looked upon as a “*right of passage*” by virtually every black man. A prison sentence establishes “*street cred*”.

–If you consort with blacks, look forward to being disowned and shunned by your white family. This is important. It is vital that you avoid blacks. Be aware that blacks will attempt to “*guilt trip*” you by stating that “*you won’t date me because I’m black*”. Your proper response is “*that’s right, I don’t date outside my race*”.

This will immediately defuse the situation and render useless the black man's attempt to "*get a date*".

Don't fall for the false guilt trip. It's not worth it.

If, by chance you break away from the "*black culture*", your half-black offspring will make it nearly impossible to find a decent White man. You will be considered "*damaged goods*" for consorting with blacks.

If you insist on consorting with blacks, you WILL be disowned, shunned and disinherited by your family. YOU will have to live with the results.

I have had this talk with both my children and grandchildren. All of them are happily married to good White men.

America cities in the 19th century and first half of the 20th century were places where ethno centrism caused tens of millions to strictly observe the taboos and mores of their ethnicity. All of these ethnic values were distrusted by the US government which advocated an atheistic materialism. Hence the forced mass migration in post WWII USA to the American suburbs where the government MSM could socially engineer the old world values of family and religion out of these white ethnics and reduce them to alienated victims of usury and sexual liberation.

“Conservatives” are just as bad. Especially evangelicals. They’ll blame lack of Jesus in the lives of nogs, high taxes, crappy public schools and lack of school vouchers. Conservatives have fallen for the “they’re just like us” lie, and just have different suggestions for “solving the problem.” Conservatives practically wet themselves over so-called conservative blacks, hoping beyond hope such creatures can prove the “Democrats, who are the real racists,” are wrong.

Trump was a prime example. It was he who pushed sentencing reform for nogs, at the behest of that disgusting whore Kim Kardashian. The funny thing is, she ended up divorcing that nog Kanye West in the end. Sentencing reform is at the root of the current black crime wave, and it was probably why Trump lost some of the White vote. Trump, another false prophet for Whites.

It would be hilarious if it wasn’t so tragic.

She deserved EXACTLY what she got, in countless ways-

1) A sociology major? She didn't learn about crime rates by demographic? Because even if those cucks at her college blamed it on "poverty", it's still very real, obviously.

2) She was just as stupid as the low IQ mongrel that killed her, and in many ways, stupider. Even beyond all that BS tripe she was "taught" and believed, she was so dumb that she let a stranger into her building. That's just next level idiot stuff. Why do you think your building was secure to begin with? To keep out the Mormons trying to convert you to LDS? Nah, they're called "criminals", and in super black, super poor, Baltimore, even her dumb sociology degree should have taught her that there was a very high likelihood of a black male being a criminal, even if she was too brainwashed to know the real "why".

The low IQ mongrel was smart enough to target some soft brained pasty dumb bitch, that would let him into her building, which must have given him a chuckle "Dumb white bitch!", which means he was smarter than her- a dumb bitch that doesn't even follow the protocols of having a secured apartment building.

3) The best possible thing that can happen for us, is that low IQ mongrels kill as many people like her as possible, because it's her stripe of idiocy that has gotten us into this mess. Morons that think like her, act like her, and do "activism" like her, are the race traitors that are ruining this country. So, the more of these events, the better. I keep hoping it will eventually happen to a major celebrity, or high profile Leftist politician, and be caught on camera, and be as gruesome as imaginable! Maybe eventually some people will wake up and get tired of it. Maybe not, but we can dream...

4) She's a "textbook example" of EVERYTHING that is wrong in this country. She's the face of it, she's the voice of it, she represents their entire philosophy- She is the perfect paradigm!

5) For US, we should pray that something JUST LIKE THIS happens **EVERYDAY**, just like we witness blacks killing whites, every single day in this country!

No sympathy whatsoever- She got exactly, perfectly, ideally, everything that she deserved by every measure and by every count. This event is pure perfection!

@J Rebb

What these incidents really need to be is a wake up call to well-meaning but misled leftists.

You can't persuade these "well-meaning" people. They will never admit they are wrong. It was them that chose a side against us.

Under Armor is or at least used to be based in Baltimore. The company has been accused to being woke but no where near as much as Ms. LaPere.

I don't know about Under Armor being woke, but apparently the North Face is :

" America First Legal (AFL) filed a lawsuit on behalf of Johnathan Talbot alleging that Manoa AINUU, a sponsored athlete for The North Face, defamed Talbot by falsely accusing him of making a racist comment, resulting in Talbot being terminated from his job at Outdoor Research."

Jonathan's gofundme: <https://www.gofundme.com/f/help-john-talbot>

This AFL seems to be doing a lot of good work. I haven't donated yet, but I need to.

What he's reflecting is finally the response YT men are having to these "Liberal" Leftist kunts – you don't like that? They've been crapping on us for decades and we're tired of it. She hated YT men – wouldn't hire them, ridiculed them, and spit on them – and we're supposed to give a foook about her Negro "love making" at the end? She and her ilk have destroyed the USA – they are our enemies – we didn't make them that they did that....

The truth is from all she said on social media etc. – she finally met the man of her dreams and had the night of her life....

She wished ill for me because of my skin color and sex – fk her – hope she isn't burning in Hell but otherwise?

Liberal women = cancer – she wished evil on those who never did her harm and she loved the type who finally brutally raped her for an hour, beat the shit out of her, strangled her, and then finally took a brick and knocked her teeth out — (they were found on the ground along with her pants and shoes) – this is what she and you want for us – I got news for you – we aren't opening the door to let your stinky ass in like she did – her, you and your ilk will get a very different reception from traditional YT men — people are waking up...So he said that bc of this, because we're sick of these kunts – that's the reaction now for them, no tears – cry for enemies who want me genocided? Foook off!

@Goddard

Do you believe blacks are human?

Because if you do, you are part of this catastrophe if you feel pity for them.

Chew on this:

If any black person in the USA shows the barest, absolute minimum level of competence and manners, they are rocketed to the top of any arena- media, academics, law, medicine & corporations- then aggressively protected from any criticism, discomfort or advice.

Grants are showered on their heads like water. Plum gigs on corporate boards are provided, with access to all those goodies.

They are protected in a bubble of wealth, privilege, access and immunity. And this is for doing what millions of whites do everyday....without praise...without the goodies.

If you believe blacks are human- they have been given the largest bestowal of wealth, privilege, comfort and luxury on any human primate that has ever lived. And they shit all over it.

I have a notion that black culture is surprisingly very feminine in certain (bad) ways. This is obscured because many blacks are very aggressive which is usually associated with men.

My starting point is the famous observation that “Men want to control nature and women want to control men.” In many cases blacks do not control nature but simply adapt to it on an *ad hoc* basis. Also, the African-American culture has an excessively strong emphasis on image, which seems more similar to the cultural pattern for European women than men.

This may be old news, I don't know.

@lavoisier

But what happened to this woman was horrible and even stupid people don't deserve to be murdered by psychopathic black monsters.

the voice of decency, as usual lavoisier.

I don't know much about this woman, except for her platitudes about DEI and so forth.

But what if she applauded the sentences being handed out to those guys in Georgia, one of whose only "crime" was filming a prowler, who happened to get killed. And then he's convicted of murder?

Actually, he was convicted of being a white man, (racist) and given a murderer's sentence for it, to the cheers of leftists everywhere.

I also share your instinctive aversion to any harm coming to the fairer sex, but is there a point when our chivalry becomes a folly.

If a genie were to pop out of a bottle, and rather than give me three wishes, he instead offered three options.

'If you like, Hillary Clinton will be handed over to the people of Libya, to do with as they please,

or not'.

I know what I'd tell the genie.

'Victoria Nuland will be handed over to the people of Iraq, (or Donbass, as the case may be)..

or not'.

Ditto.

I don't know if Gina Haspel was ever directly responsible for the deaths of men, women and children, like the other two obviously were.

But insofar as she presided over the torture of innocent men, (the war on terror is a war on innocent nations and people, on behalf of ZOG), then I wonder what I'd say, if the genie said, 'if you like, Ms. Haspel will be given just the same treatments that she knowingly meted out to innocent men, and no more, and by the men whose torture she presided over.'

Actually, I know what I'd say.

I always feel bad for the kids who're victimized both by their parents, (and societies), SJW, wokeness insanity. And there was a time, when I would have felt that way about Chelsea Clinton, (for instance). And would have insisted that she's innocent and blameless, because she's a child.

But if Chelsea today, wanted to wage wars based on lies, or see white men savaged by the "judicial" system, and lynched, 'because they're all racists', then at some point Chelsea, (by now an adult) becomes accountable for her actions.

(I actually have no idea what Chelsea believes these days, but I just use her as an example of an innocent child, vs. an accountable adult).

My instincts for protecting the helpless and vulnerable has always been strong, but somehow they've managed to put cracks in it, and if Madonna were to get the shit beat out of her by some orc she was dating, or if AOC were to get mugged, or if Joy Behar was being pulled around by the hair and kicked on the sidewalk, by some diversity in NYC or Hollywood, (perhaps an illegal transgender black female), and a white couple saw it, and the man instinctively pulled the female orc off of Ms. Behar,

only to realize who he had just saved, and then said, 'Oops, sorry to intervene here with this celebration of diversity and inclusion', and then handed Ms. Behar back, and said 'by all means, carry on!'

Would I blame him?

MARCH 15, 2023 The Power of the Prosecutor in America: Abuse, Misconduct, Unaccountability, and Miscarriages of Justice

“The prosecutor has more control over life, liberty and reputation than any other person in America.” Robert Jackson, Former U.S. Attorney (1940)

To many people, prosecutors are viewed as the “Champion of the People.” Americans rightly expect those given such tremendous responsibility and incredible power will ensure that justice is done. They shall maintain the integrity of the criminal justice system and promote respect for the rule of law. To that end, the American prosecutor ought to be noble and honorable, committed to vindicating the law, and someone to whom the notion of success isn’t simply the number of convictions obtained at any cost.

Here’s an article in the WSJ about crime in D.C.

<https://www.wsj.com/us-news/violent-crime-is-surg-ing-in-d-c-this-year-we-just-stood-there-and-screamed-380f3c69>

It’s just stunning. In the entire article there is no mention of the race of the perps. Not one. Despite the fact that 99% of the crime problem in that city is the result of blacks. It’s just stunning the level of denial, not just in shitlibs, but in all Whites. The level of brainwashing is incredible.

@Female in FL

My deepest contrition. I supervised and commanded hundreds of engineering personnel in my career.

The few women who worked with me, were diligent, concrete, solid engineers, who NEVER whined, or embarrassed themselves with excuses and special treatment. In fact, a couple of them told me they wanted no special treatment. Period. No matter what. They would straighten it out. What ended up happening is that some of the most chauvinistic men you can imagine, helped them out and helped them in the way a man does to his daughter.

I did have one case of a male engineer that was denigrating one female. He was barely mediocre, and motivated obviously by a perceived more vulnerable person that was a better worker, plus just simply inadequate personality. I told my female engineer that I was aware of the situation and was going to talk to the schmuck. She implored me not to! My reply is that this is never tolerated in my department, no matter of sex, race, etc, etc. After a little visit in my office with the door closed, this never happened again. In fact, they got along quite well after that. Attribute the change in the male to identifying my edifying advice from a father figure, freeing him from the psychological bondage of a stupid upbringing or bad peer pressure.

People who know how to really supervise people are not too common. Creating or augmenting an interior change in the individual is the ultimate motivation.

On the other hand, women who worked as engineer officers aboard ocean ships are made out of different material than the workaday landlubber typical shambles of a shell of personality

that passes for “Modern Women”. I have read Christina Hof Summers, Helen Smith, Camile Paglia, and others. I admire Candace Owens.

I’ve had a couple of girlfriends that were executive types-one at IBM-that told me that they would much rather work for men than women, because men measure their performance OBJECTIVELY, where a woman boss interjects emotion, feeling, personal juice into their management of other women.

Any girl that grows up **without** a strong, real father figure, is highly likely to **NOT** turn out well. To compensate for no or weak father, the mother would have to be superhuman in the <2% category to compensate.

That is the most relevant and profound explanation of that travesty of justice I believe I've ever read. A more accurate incident that should have been charged as involuntary manslaughter I don't believe will ever again come to pass. The other two should have walked. But alas that isn't the world the White man is living in anymore. Everything up to and including prosecutors developing the ability to read minds was thrown at these three, and amazingly they were able to deduce that they went to the scene with a premeditated plan to kill this career shitstain, even though there wasn't a shred of evidence to prove that. And they had multiple opportunities to gun him down prior to the finally where he essentially committed suicide by grabbing the business end of a shotgun. Who the hell in their right mind, I don't give a shit what the circumstances are grabs the barrel of a long gun and pulls it toward their abdomen? There really needs to be a new word added to the dictionary that more accurately describes to the depths of dumb with munts.

Blacks are built differently. Their brains are wired differently than the other two races, in several behavioral aspects that are manifest. When Blacks emulated Whites, in behavior and decorum, and where church based, they were tolerable. Note the common thread: exterior influences and boundaries.

“Conservatives should not stop caring, because liberals are as much victims as perpetrators — even as they keep making the same mistakes.” Nope. Let’s make these Racist, Hate-filled Liberals actually LIVE in the areas they claim to care about. Let them be required to live the “dream” of “Diversity, Equity and Inclusion”. Let’s make them practice what they preach. Just recall when Illegals showed up at Martha’s Vineyard those sanctimonious Liberals called in the MA National Guard to oust those trespassing peasants. The underlying theme in all this is a deep, bitter HATRED of Whites. And these Liberals extolling the virtues of “Diversity, Equity and Inclusion” have the same level of fervor as the fanatical Nazis they imitate.

From TG:

So where's the money going?

Last year, Baltimore city schools received a record \$1.6 billion plus an additional \$799 million in COVID funds

The result? 0 students tested proficient in math in 40% of schools. 0 students.

The person in charge of Baltimore schools is Dr. Sonja Santelises. She earns over \$445k per year.

But wait, it gets worse...

At the top 5 schools in Baltimore, only 11% of students are proficient in math.

The. Top. Five. Schools.
