Doufáme, že Ukrajina to vyšetří a nezavrhne to jako Rusko, když jsme ve 3 zprávách a desítkách dalších o ruských zvěrstvech odhalili jejich použití protipěchotních min v různých částech Ukrajiny: <https://t.co/IKOQ3EbUUB> <https://t.co/M2xUZhf16w> <https://t.co/5Bbmr1ZUKI>

Použití protipěchotních min porušuje mezinárodní humanitární právo, protože nemůže rozlišovat mezi civilisty a bojovníky.

Je tak legrační, že po roce někdo nutí všechny tyto mezinárodní organizace pro lidská práva, aby vystoupily a hovořily o zvěrstvech, která se dějí na Ukrajině.

[RT](#) :

Ukrajinská armáda loni zranila desítky civilistů, když odpálila tisíce nelegálních min přes město Izium, tvrdí Human Rights Watch (HRW) . Míny, podobné těm, které údajně Ukrajina použila proti civilistům v Doněcku, byly nalezeny v blízkosti škol a školek. Míny byly odpáleny do města raketami, když bylo mezi dubnem a zářím loňského roku obsazeno ruskými silami, uvedla nevládní organizace ve zprávě zveřejněné v úterý. Míny PFM ze sovětské éry, které jsou rozptýleny po stovkách najednou, jsou zařízení ve tvaru výrazně motýla nebo okvětních lístků a jsou navrženy tak, aby spíše mrzačili, než zabíjeli ty, kteří mají tu smůlu, že na ně šlápnou nebo je zvednou.

Tým HRW vstoupil do města po stažení Ruska v polovině září a našel doly na devíti místech, včetně školy, školky a nemocnice.

Zdravotníci uvedli, že minami bylo zraněno více než 50 civilistů, včetně nejméně pěti dětí . Přibližně polovina zranění vedla k amputaci nohy nebo bérce. Bylo zaznamenáno nejméně jedno úmrtí, a to staršího muže, který sebral jedno ze zařízení na svém dvoře. Vyšetřovatelé však nemohli vyloučit další faktory mužovy smrti.

Některé z min byly vybaveny časovanými rozněcovači a explodovaly bez varování až tři dny poté, co byly rozptýleny.

Podle více než 100 obyvatel se ruské síly pokusily varovat místní obyvatele před nebezpečím, které představují ukrajinské doly, odstranily některé výbušniny a převezly oběti k ošetření do Ruska . Jakmile Rusové opustili Izium, odminovací povinnosti údajně prováděly ukrajinské jednotky.

Použití takových protipěchotních min je zakázáno Smlouvou o zákazu min z roku 1997, jejímž signatářem je Ukrajina. USA a Rusko nejsou stranami smlouvy.

Tak:

- Jsou to řadoví členové HRW, kteří byli nakonec schopni donutit vedení, aby uznalo zvěrstva?
- Nebo to vychází záměrně jako součást plánu na odvrácení této šílené války?

Není to jasné, ale zapadalo by to do představy, že USA se chystají zahájit velkou likvidaci.

Jsou zde nejrůznější pohyblivé části a různí lidé přicházejí s různými příběhy. Včera jsem slyšel Tuckera Carlsona, jak řekl, že třetí světová válka je definitivní, a slyšel jsem, že většina panelu na All-In souhlasí s tím, že se zdá, že USA manévrují k vyjednanému urovnání.

Co jsem řekl, je, že si myslím, že ukončení je pravděpodobně nejpravděpodobnější věcí – zvláště po té zprávě RAND , která říkala, že USA jen spalují zdroje, což je staví na horší místo, pokud jde o válku s Čínou.

Myslím, že množství odesílaných tanků a to, co se zdá být opravdu zmatečným programem jejich údržby, ukazuje kolísavé odhodlání. Mezitím mi příchod Borise Johnsona do Ameriky připadá jako akt zoufalství proválečných sil. Je stále oblíbený. Posílat ho je přesilová hra, která by byla nutná pouze v případě, že by se rozhořely vážné pochybnosti.

Upřímně řečeno, kdybych byl neocon, požadoval bych, abychom se otočili do Číny. RAND má pravdu, že pokračováním války s Ruskem nelze získat nulu. Vláda se nezhroutí. To bylo hlavní: „můžeme to udělat rychle s malými silami NATO a nějakými sankcemi a Putin bude zbaven úřadu“. Bylo logické vzdát se, když bylo jasné, že se to neděje. Ale dochází k plížení misí a extrémní židovské nenávisti k Rusům.

"Američané proti Rusku" hahahahaha

Pokud se dohodnou, mohou si nárokovat vítězství. Putin by pravděpodobně v tuto chvíli umožnil ukrajinskému státu vstoupit do NATO, pokud by dostal vše na východ od řeky (včetně pravděpodobně Charkova a Sumy). Američané jsou tak hloupí a tlustí, že budou věřit, že to bylo velké vítězství, a zdroje pak mohou jít do plánování této války s Čínou.

Válka s Čínou je skutečně populární. Tucker Carlson to podporuje. Minulý týden jsem ho slyšel říkat „no, ale ve skutečnosti nechceme válku s Čínou“, ale to byla odpověď na to, že jsem ho zavolaal. Má Marca Rubia, aby mluvil o Číně, absolutně podporuje válku s Čínou, celé křídlo Rona DeSantise podporuje válku s Čínou. Chtějí vrátit osmdesátá léta s Čínou místo s Ruskem. Ve skutečnosti mohou organizovat lidi kolem nenávisti k Číně, zatímco s Ruskem to nefunguje.

Ale znovu: to vše by předpokládalo, že tito lidé mohou jednat racionálně ve svém vlastním zájmu, což se dříve ukázalo jako špatné. Tak snad budou tlačit dál. Nevím a nedělám předpověď. Možná je to 60-40 ve prospěch pivota, ale v tuto chvíli čteme čajové lístky.

Poznáte to takto: pokud poslali stíhačky, stupňují se. Pokud s tím zaváhají, díváme se na návrat.

Vzrušující časy!

As has been said about Trump's presidency— that it forced the masks to drop and Deep State and their perfidious POS servants to expose themselves— same with this Ukraine conflict. We have seen not only why Ukraine must be ended but what pathetic foaming-at-the-mouth losers the UK, Poland, Latvia, Estonia, and Lithuania are. But especially the UK and Poland. All these countries need to be consigned to the ash-bin of history.

This will all be a revealing and helpful lesson to China for the future when they will need to decide which countries must be euthanized for the salvation of civilization.

It may or may not have something to do with:

“European officials are accusing the US of making war profits from the conflict, especially in the energy and defence sectors.

All the while, they say, Europe is suffering.”

“One senior official saying, “if you look soberly, the country most profiting from this war is the US because they are selling more [natural] gas at higher prices, and because they are selling more weapons.”

EU’s chief diplomat, Josep Borrell, has called on Washington to respond to Europe’s concerns and realise that public opinion is shifting in many EU countries.

French President Emmanuel Macron, frustrated at the way President Biden has ignored the impact of his domestic economic policies on NATO allies, has led the charge, arguing that high US gas prices – four times more than Americans pay at home.

Putin will never allow even a rump, landlocked Ukraine to join NATO. And in the light of the revelations by Angela Merkel and François Hollande that they entered into the Minsk Accords with their fingers crossed, the Russian leadership has no reason to have any confidence in a settlement negotiated with the West. The terms of the settlement will be dictated by Russia after victory on the battlefield.

War with China is more popular because it would be more of an air and naval campaign, but it is every bit as insane as the West's participation in the Ukraine war, and the stakes are, in some respects, larger. China would undoubtedly target U.S. carriers, and the capabilities of shore-based missiles are sufficient that there's a good chance that China could sink or severely damage a carrier. Such a loss would be a severe blow to American prestige. (The real coup for the Chinese would be to sink a nuclear fast attack submarine, thus forcing the U.S. to restrict any submarine campaign it contemplated.)

Something has gone horribly wrong with the leadership of the United States and its puppets in western Europe.

Interesting speculations. But I think a war over Taiwan will develop in the same manner as the war over the Ukraine: the Taiwanese will fight and die for some time, and the USA + attachments will limit themselves to provide spiritual (i.e. propaganda), financial and military support. The latter will happen by using the other side of the island, and the Chinese will refrain from sinking US ships as long as the US Navy limits itself to providing support. Half-hearted measures is the way of mediocre people and the most defining feature of Western leaders is mediocrity.

You are so totally right. No, Pooty Poot will not allow a rump Ukraine to join NATO. Even way back when, he was never opposed to them (a complete Ukraine) joining the EU, but not NATO. The possibility of Poland regaining Western Ukraine is interesting. A rump Ukraine will be even more of a basket case than the post-Soviet entity that came into being in the early 1990s. The only way it could be locally viable is as a province of Poland – as long as Poland is not destroyed in this current debacle. As far as Ukraine being thrown under the bus, I would say the process is only beginning. Lots of light bulbs are going off, but pride by some military and state department elements and a lot of Jewish chutzpah needs to be stamped out. Do you think people like Victoria Nuland want to see all her efforts go down the drain? The RAND report is amazingly informative in that it brings to light a very revealing mindset that just recently is being exposed. The sacrifice of Ukraine in order for the US to fight the Chinese is something that the political class – especially the neocons, have been very well aware of, but not the regular Joe. Whenever this Ukrainian steppe fire gets extinguished (hopefully soon) and Pooty Poot gets more or less what he wants, the pivot to China is going to take some time. Don't you think the Chinese have been preparing? The pivot to an Asian war (with the US much more directly involved militarily, not by proxy) is going to take time, unless some mad hatter decides to chimp out and start bombing Chinese ships off of Taiwan.

We're already in WW3, but most people are oblivious to it. WW2 started for the US well before December 1941, and precisely because of the sanctions and chicanery FDR played with the Japanese and Germans.

The biggest difference here is that the Russians are largely self-sufficient in strategic natural resources. I would liken the US here to Germany in 1939: Confident they can take their adversaries on despite having less industrial capacity and resource base to get the job done.

RAND is right that there is zero to gain from continuing the war on Russia. The government is not going to collapse. That was the pitch: “we can do this quick with a small NATO force and some sanctions and Putin will be run out of office.” It was logical to give up when it was made clear that wasn’t happening.

It’s the flip side of the early Russian attempt at a fast taking of Kiev in the hope of causing the Kiev regime to collapse within the framework of the original SMO. Once that failed the Russians pulled back and resorted to mobilization and the slow meat grinder approach, which will engulf Kiev and the western Borderlands in due time.

But it’s highly doubtful the neocons are rational enough to recognize a lost cause when they have such a rabid ideological and emotional investment in it.

Sanctions and no-fly zones imposed on sovereign countries used to be how the US got 'respect' in tha' hood. The US could boot countries from the Olympics, seize their property, threaten their borders, eliminate their leaders, or invade them with total disregard for international law.

When Syria didn't fall, the world took notice. When the US military ran from Afghanistan with their tails between their legs, the world took notice.

Then Biden said the Russian ruble would be rubble, and his bluff was called. Respect for the US died in a Ukrainian trench. The Nordstream crime sealed it.

US regime posturing just looks like the delusions of a lunatic now.

I'm trying to understand reasons Americans might want to go to war with China. So far, from reading the blogs and comments, I've come across the following, which certainly breaks it down in a way any true American can understand:

1) Junk from China is worthless. I got a fifty-year old hammer I bought from Sears, and it still works.

2) Serves 'em right for that there Chineese Virus that got away from them in Woo Han.

3) Those people eat dogs. How can anyone eat a dog? My dog eats at my dinner table, and is my best friend.

4) I'm tired of watching slim, petite, and modest Asian women with our men. They should appreciate an American woman's beauty. Why should I act feminine? That's sexism. So what if I want to get drunk, party down and screw blacks? My body, My choice. I'm proud of my tats, nose ring and slutty appearance. And you better not body shame me because I'm fat. Asian women are for pedophiles, anyway.

5) Chinese are stealing our jobs. They stole everything from us and it's time to get it back.

6) Tik Tok is spying on our kids. Do you want China spying on our kids?

7) Xiden is controlled by China.

8) Taiwan is our greatest ally. They've always been our greatest ally. Right after Israel, of course.

What caused the Saudis to let the US Army occupy their country since 1991? It was the US provoking Saddam Hussein to invade Kuwait. This same thing is being played out with Russia now playing the role of Iraq and Ukraine playing the role of Kuwait. Except the US is using Ukraine like it did Kuwait to build a huge weapons, narcotics and sex slave base bordering Russia

The main difference now is that the Jews, Niggers and Fags that write the media disinfo narratives here in 2023 actually kinda liked Saddam. They like Saddam because he badmouthed white guys in the US that they happened to hate also. They don't kinda like Putin. At all. Putin hates White supremacists even more than every Jew, Fag, Nigger lawyer, yet he still gets no love from them.

Putin appears to like them though. Likes them enough to not level every military production factory in the US. The brainwashing of Putin and the Chinese must be very powerful that they continue to abide by rules of engagement that allow hitting the tanks and sinking ships, but not the tiny few places in the west they are constructed.

Shitlib intersectional devil cultists better hope they never lose those legacy arms factories the White man built. Joe won't have any F-15s to bomb White people or F-16s to bomb Russia.

Russia will want to bring its historical center back under the flag. Kiev is Russia. Odessa is Russia. Lviv is Russia. Most of current Poland was long part of Russia. All efforts to re-unite the Russian homeland will continue, probably through this century.

This century will see the USA broken into about ten mini-homelands, ripe for reunification in the next century under nationalist authoritarian leadership.

The Biden crime family still wants to try to rescue Hunter et al's corrupt businesses in Ukraine, as without that money stream they have nothing. It's existential for them, so they're more than willing to spend every last dollar of your money to try to achieve this.

The rest of the American empire is either indifferent to the issue or actively hostile to the Bidens. I said early on it was started either due to lack of Biden crime family leadership or by their rivals deliberately goading them into making a mistake.

The rivals now believe the mistake has run its course and will allow it wind down. Possibly even impeach Biden and seize everything the Biden crime family used to have, less the Ukraine holdings.

Congratulations Germany, on getting absolutely wrecked due to petty American infighting.

I personally believe America doesn't have anything remotely resembling the balls necessary to start a kinetic spat with China. It won't even approach Russia except through a proxy. It will talk big, maybe do some sanctions here and there, then find a great excuse for dropping the issue.

{...these international human rights organizations....} [Anglin]

All these Western so-called “*human rights*” organizations are propaganda and disinformation outlets for NATO/US/GloboSorosa intelligence agencies.

They change their tune on orders from their paymasters.

To wit: how many times have these cretins publicized the war crimes by the GloboWest (KSA) against the Houthi ?

But you are right: the fact that the chorus is now ragging on the Ukis is bad news for LGBTQ++ Zelensky and his/her/they gang.

{If they do a negotiated settlement, they can claim victory. Putin would probably at this point allow the Ukraine rump state to join NATO, as long as he got everything east of the river (including presumably Kharkov and Sumy).} [Anglin]

Highly unlikely.

Both Col. Macgregor and Maj. Ritter say that at this stage, and with the publicity of Western leaders' treachery re Minks agreements, it is highly unlikely and irrational for Russians to accept anything short of total capitulation.

And according to many, Russian nationalists are quite unhappy with Putin's measured approach to Ukraine: they want a scorched earth attack all the way to the Polish border.

Any little piece of Ukraine that is left to join NATO will still be an existential threat to Russia. Don't know how they are going to solve that riddle, but they can't allow any NATO presence in whatever is left of Ukraine.

Business executives sometimes use management consultants, not to learn something they don't know, but to give cover for decisions they want to make, like saving costs by firing 5000 employees.

Similarly, the military brass use think tanks, like RAND, for cover by publishing papers whose outcomes the military brass in fact want. So, RAND is putting out there what they have been briefed to put out there.

HRW is also a well known shill and agent of the US deep state. Perhaps they have also been briefed from within the state apparatus to start the negative PR.

@Anon

Why would the Germans or Europeans sanction Russia in the interest of the US?

Why would Japan and South Korea arm themselves in a preparation showdown to contain China in the interest of the US?

Why would Taiwan be purchasing billions of dollars worth of weapons from the US? When the wisest decision would be to maintain the status quo and not waste money on armaments.

Why would the Ukrainians want to join a hostile and expensive military pact like NATO or had the coup in the interest of the US? When the wisest decision would be to remain neutral and trade / do business with everyone.

Notice everything being played out only benefits one country, and that's the US. NO one else benefits from this.

The answer in a nutshell? The leaders are dumb as heck and are easily bribed and bought for. The leaders do not have to suffer for their actions, only the underlings will suffer. Who's behind all of this pulling the strings? It's the US and the UK 101, divide and conquer. The US never fights peer rivals directly. They let the foreign minions do most of the fighting and dying.

US became a regional power in WW1 and the superpower in WW2 because the rest of the world were fighting and destroying each other while the US is safe and sound thousands of miles away where nothing is being destroyed.

Putin should impose another condition for ceasing of hostilities. Benjamin Netanyahu should be made to personally bring Victoria Nuland on a leash and in shackles to the center of the city of Donetsk. There he will present her to General Surovikin and the Russian authorities for trial as a war criminal.

Anthony Blinken, Boris Johnson, John Bolton, Linsey Graham, David Petraeus, the entire CNN management and most of FOX news management, the Rothchilds, Soros, Schwab and all of the other chicken hawks in and out of governments in the west who pushed this murderous course of action can either go with Nuland or commit suicide in public.

The list is not complete. A complete accounting will take a little time.

Russia will want to bring its historical center back under the flag. Kiev is Russia. Odessa is Russia. Lviv is Russia. Most of current Poland was long part of Russia. All efforts to re-unite the Russian homeland will continue, probably through this century.

I doubt they'd want to rule Poles again. But if the hohols persist in genociding themselves and leave even Galicia as empty space, the Russians ought to take it themselves and not let the Poles have it.

Of course the way things are going Poland is going to force the Russians to launch a military-technical operation there too. In that case the Russians would have to take control of them. The Baltics too.

This century will see the USA broken into about ten mini-homelands, ripe for reunification in the next century under nationalist authoritarian leadership.

Canada too. Some of those mini-homelands such as the Great Lakes region or the Pacific Northwest naturally, organically straddle the temporary international border.

Well, what you state as the Jewish control of the US is correct. They have controlled the international banking system and dominated it for the past 500 years starting with the Dutch empire (the Rothschild). The Federal Reserve Bank was created and owed by them. So the Jews control the money creation and supply of the collective west the past 500 years and if you control the money supply, you control these countries. SO yes, you are correct in that the US is dominated and ruled by Jews who want total global domination.

At some point Taiwan will be absorbed by China without a shot, so this is not the real reason for a war with China.

The entire Chinese miracle depends on unprecedented import and export flows which could shut down overnight in a real war. Because of this vulnerability, I imagine China is the most likely actor to use nuclear weapons, if only to demonstrate they are prickly. Even more likely than Israel or the USA.

Ukraine is beginning to outlive its usefulness and is becoming a liability so therefore will get dumped in some way. It was never about Ukraine anyway, they were just a tool of the US. Does anybody seriously believe US government leaders ever really cared about or for Ukrainians? Look for Zelensky to die as a martyr in a CIA plane crash that'll be blamed on the Russians. As in the mafia, he knows too much and has gotten too demanding.

it looks to me like that time is rapidly approaching, the helicopter crash that took out a bunch of hardcore banderites in the ministry of the interior, seems very suspicious to me. remember this is all happening after zelensky went to d.c. to attract “investors” in the new metaverse ukraine and was told we love you but clean up the “corruption” around you. in other words get rid of the banderites by feeding them into the meat grinder and we’re in.

i think this explains, this slow motion implosion we are witnessing, they’re going to send in enough weapons, so the die-hard ukranzis can light brigade their way to oblivion, because they definitely don’t want to see them in the e.u.

Indeed it never was about Ukraine. I don't lose sleep over the squandering of Ukrainian lives and limbs, but any decent person should be outraged and saddened by the sight of nationalistic Ukrainians being "attritted" in the cause of globalism, compelled by a corrupt Kiev elite, egged on by our duplicitous Western "leaders" and supported by our metropolitan bien-pensants who believe that sporting blue-and-yellow paraphernalia is brave and virtuous. The latter (last?) group can be dismissed as not having any grasp of a region with a history of political and ethnic conflict. The others know full well that "liberating" the hostile, Russian-speaking Donbass and Crimea is way beyond the capability of the Ukrainian military, and if weakening the Russians was what it was all about...well, it looks several nations are in a weakened state—and Russia is not one of them.
