Důvod, proč režim neseštelil (viz editace dole) „čínský špionážní balón“ ve vzdušném prostoru USA, je ten, že stříbřitý objekt viděný vznášející se nad Montanou je ve skutečnosti sledovací balón Deep State, který špehuje skupiny vlasteneckých milicí. zdroj z kanceláře generála Erica M. Smithe řekl Real Raw News.

Včera bylo MSM zaplaveno příběhy o vysokohorském balónu, který údajně letěl přes Aljašské Aleutské ostrovy, přes Kanadu a do Montany, hluboce republikánského státu a domova rychle se

zmenšujících milicí, které se Bidenův režim dlouho snažil vymýtit. Poté, co se zprávy o balónu dostaly do éteru, Deep Staters Lloyd Austin a generál Mark Milley oznámili, že zvažovali sestřelení čínské vzducholodě, ale rozhodli se to neudělat, protože trosky by mohly způsobit zranění osob nebo poškodit majetek.

Kancelář generála Smithe zpochybnila oficiální narativ a uvedla, že Austin a Milley neměli v úmyslu střílet na balon, protože je jejich, nikoli čínský, a oni a režim spustili zařízení, aby tajně sledovali hnutí milicí, které je v současnosti zapojeno do dokonale legálního výcviku. cvičení v centrální Montaně.

"Dráha letu balónu je jiná, než jak se říká veřejně." Do USA se nedostalo z Kanady. Byla vypuštěna z Fairchild AFB ve Washingtonu a vlastní silou se přesunula do Montany. Má elektrickou podpěru a je dálkově ovládaný jako dron," řekl náš zdroj.

Na otázku, jak White Hats vyvodili svůj závěr, řekl, že důvěrný zdroj z Deep State kontrolované Fairchild AFB byl svědkem startu, ale o misi neměl žádné znalosti. Balón se navíc zastavil jižně od Roundupu v Montaně a několik hodin se bez hnutí potuloval, což umožnily solárně poháněné turbovrtule dostatečně silné na to, aby neutralizovaly pohyb vzhledem k převládajícím větrům.

Míle níže bylo několik stovek příslušníků milicí z Montany a Wyomingu zapojeno do společného zimního výcviku, aniž by tušili, že jsou sledováni. Manévry se každoročně přesouvají na různá místa, protože zhoubní federálové obratně infiltrovali téměř všechny milice v zemi.

Náš zdroj uvedl, že milice z Montany a Wyomingu mají mnoho bývalých příslušníků ozbrojených sil stále loajálních prezidentu Trumpovi, včetně příbuzného generála Smithe.

Deep State, dodal, má technologii, která dokáže spočítat počet vlasů na kníru člověka ze stratosféry a přenášet tato data zpět operátorovi v reálném čase.

"Pokud jsme to dokázali my, mohou to udělat i oni," řekl náš zdroj.

Na otázku, proč White Hats nevyužili příležitosti zničit balón, odpověděl: „Informátor ve Fairchildu nám z jakéhokoli důvodu nesdělil informace, dokud se zprávy nedostaly na veřejnost. Také jsme v oblasti neměli majetek. A jak jsem řekl, pravděpodobně to bylo živě přenášeno přímo zpět do Fairchildu, takže si nejsem jistý, k čemu by to bylo dobré. Srazili bychom ji z nebe, kdyby přeletěla naše velitelská centra."

Dále jsme se zeptali, proč Deep State použil balón, když mohl použít satelit.

"Už k nim nemají přístup," řekl, ale svou odpověď nechtěl vysvětlovat.

Jestliže White Hats nyní ovládají národní sledovací satelity KH-11, je to nový vývoj; před několika měsíci úřad generála Smithe připustil, že špionážní satelity byly pod kontrolou Deep State.

Nakonec jsme se zeptali, zda White Hats informovali milice z Montany a Wyomingu.

"Byli informováni," bylo vše, co náš zdroj řekl.

Aktualizace: V pátek večer mluvčí Studia Tylera Perryho v Bílém domě Karine Jean-Pierre řekla, že režim obdržel zprávu z Pekingů, že balón studoval atmosférické podmínky, když vyletěl z kurzu – o 6 300 mil, což je nepravděpodobné. White Hats nadále tvrdí, že jde o Deep State a že režim vymyslel pekingské vysvětlení, aby uklidnil neklidné mysli.

Aktualizace 2: Na obloze nad Billings v pátek pozdě večer explodoval objekt. V následném hovoru zdroj z kanceláře generála Smithe řekl RRN, že režim ho mohl sestřelit, aby nepadl do rukou White Hat. Poté, co se generál Smith a jeho rada dozvěděli o zničení balónu, přemítali o možnosti, že špehování vlastenců mohlo být náhodné.

"Nebylo by nad kriminální správu, aby tu věc naplnila biologickými zbraněmi a nechala pršet na stát s kypící nenávisí k Bidenovi." Nemáme pro to žádný důkaz, ale zkoumáme všechny možnosti. Víme, že odstartoval z Fairchildu a během cvičení domobrany se potuloval v počtu 60 000," řekl náš zdroj.

White Hats nemají žádné vysvětlení, proč byl nad Latinskou Amerikou spatřen druhý balón.

I am making \$100 an hour working from home. I never imagined that it was honest to goodness yet my closest companion is earning \$16,000 a month by working on a laptop, that was truly astounding for me, she prescribed for me to attempt it simply. Everybody must try this job now by just using this website.. <http://www.Payathome7.com>

The “explosion” over Billings happened while the “balloon” was reported to be over Missouri. Did you ask about the conflict there?

It’s a weather balloon. Fuk yu stoopii Amerrycans. I wonder if it is our, ‘coast to coast’ indoor plumbing? Why the communist hates us so much. You ever been to China? The indoor plumbing stops at the city limits. After that, you’re squatting in holes dug into the earth.

Well, that depends on where you go. Even rural locations can be modern, if there is a financial justification for the modern upgrades, as there is at the countless tourist sites. However, WC plumbing seems to be the last upgrade, even after electrical.

I visited one rural tourist location where the people lived under the surface in excavated dirt rooms, but even those had a primitive form of electricity for lighting, a wire run down to the underground rooms, with a light bulb dangling off it in each of the dugout rooms.

Honestly, I would bet very few actually lived there except during tourist season.

hang onto your old dishwashers folks.. mine had a leak after 17 years working without a glitch.. looked around at HD at 10 different ones.. they are ALL the same cheap shit made in china.. with shitty designs.. institutional looking like everything else in China.. no style or aesthetic functional appeal. cheap flimsy plastic parts.. decided the fix the old one.. you'll never find any new ones that compare to the old and durable ones made 20 years ago.. they will last 30 years or more if you repair them.. they are all going "green" with less water flow and smaller motors, etc.. no heated dry, etc.. Just dumping cheap shitty Chinese made crap into our country.. they don't care if it breaks down in 2 months.. also electronic control panels are like dollar store watches.. cheap cheap cheap.. this is what we have to thank for WTO opening under Obomo and his criminal buddies before him.. check out the latest models.. even high end brands are crappy shit because they are all made in same factories in shithole Chinese child labor factories...

Well you can thank your corporate kike captains of industry for all the latest GOOK GARBAGE , on sale near you.

Yes, I've spent a year in China. The size of the "city" and distance outside a city is arguable, but if you stop in the country, there is no question about it. You will need to go to the village WC (yup, outdoors), and do your thing.

Regardless of where you go, if you enter a restaurant at ground level, you will have to place your feet in the designated spots on each side and do your thing over the oval-shaped, tile-lined hole, even if it has

water continually running through.

Be sure to bring your own toilet paper, as this is the most stolen item in China. They often sell T-paper in person, directly outside the WC (if it has a roof).

I did a photo special on “WC’s of China”, but the Chinese found this offensive, both in China and USA.

Hate communist marxist KIKES , GOOKS and YOU TOO , NOW FUCK -OFF,.....and DIE GEO DIP-SHIT!

The best news is that DS lost control of the satellites!
great job white hats; praying for y’all daily. 🙏❤️🇺🇸

There are DS in most countries, many of which have satellite connectivity, whether owned or leased.

The best news is that DS lost control of the EBS like 6 months ago!
The white hats have it...but they haven’t used it yet?

Can’t wait to hear when the DS loses control of their bowels. Then you know shits really happening.

I wouldn’t either, but if you’re visiting, they have great hospitality, and awesome (brown bag) Moutai. I’ve honestly been quite impressed with the quality of character of the upper class Chinese.

yeah, they are buying all the houses in America.. with CASH and buying all the goodies at high end auction houses in Sarasota.. like parasites picking over Dead Americans stuff. United States of China is their goal.. killing us softly with fentanyl and bioweapons as fast as they can... and then coming here in droves with E5 Visa’s to buy their way into our country... or H1BVISA’s at twttr to spy on us and censor us for their CCP bosses

We cant trust anybody anymore. Over 2 yrs since a stolen election and here we sit, with a rubber faced fake president, reading this shit that should have never happened in the US!

“Stop rolling down hill
Like a snowball headed for Hell
Stand up for the Flag
And let’s all ring the Liberty Bell

Let’s make a Ford and a Chevy
Still last ten years like they should
The best of the free life is still yet to come
The good times ain’t over for good”

Did ole Merle know something?

Thanks to all US Military White hats, Q team members and all US Military Ally’s White Hats.. You too Michael Baxter.. God Bless ya.

I guess this would explain why Biden didn’t want to shoot it down but then it did go boom. I’m confused – help me out.

Hey @Michael Baxter,

Please let the white hat militia know I would love to help in anyway. I am on OKC. I am a navy vet who is very empathic. I can sense a rat within minutes of meeting them. You are welcome to do a complete thorough background. I am married and have kids so I can only do so much...

You have my email...

>solar-powered turboprops

WEAPONS-GRADE BALONYIUM. who ever wrote this is apparently so technologically ignorant that they don’t know that “turboprop” means a propeller driven by a jet engine (turbine) instead of a piston engine. “solar-powered turboprops” is nonsensical gibberish.

Correct. The computer and optics will be powered by solar on most satellites, but the turboprop must be powered by jet fuel.

I'm guessing it's actually powered by electrical from the usual donut of solar panels normally seen atop satellite balloons, as jet fuel will run out pretty quick, but solar panels last as long as the sun keeps shining.

Oh wait! Does Montana get sun in the winter? :^)

This literary faux pas was addressed in an earlier reader post w/o the snideness.

Everyone makes mistakes now and then.

FROM: "There's Something Strange About The Chinese Spy Balloon" "...Yuka provided the first indication in United States testing that high altitude EMP could be more than 100 times as intense as a low altitude EMP so basically what this article is saying is that the United States tested a nuclear device a very small one at that on a balloon to measure the effects of the EMP and what they found was when an EMP is produced or a nuclear device is detonated in high altitude it creates a pulse that is one thousand times stronger than the low altitude EMP now what would happen if an EMP actually hit America while according to this report it doesn't look very good in fact a congressional report states that quote an EMP attack would kill 90 percent of all Americans 90 percent quote in a U.S House of Representatives hearing on Thursday members of the recently defunded EMP commission informed Congress of the devastation and electromagnetic pulse attack could inflict on the country in a commissioned report former EMP commission chairman William Graham and its former Chief of Staff Peter Vincent Perry referred to North Korea using an EMP as a doomsday scenario it could use its demonstrated satellite launcher to carry a nuclear weapon over the South polar region and detonate it over the United States to create a high altitude electromagnetic pulse the result could

be to shut down the electric U.S power grid for an indefinite period leading to the death within a year of up to 90 percent of all Americans ninety percent of Americans think about that ...”

it's definitely military if it was if it was a civilian balloon it was common sense it would have been shut down it would have been taken down it would have been stopped but no Not only was it not stopped and allowed to fly through there all this restricted airspace and all this [___] in China but it was also allowed to go and fly over Japan yeah

that was from “EMERGENCY – Chinese Spy Balloon Explained – Shot Down over USA”

Your story about the balloon is a made up story to cover bigger things the balloon was headed for and they were stopped . And they will always be stopped.

This makes you look bad RRN, now how can we believe the rest of your stories?

SATELLITES and BALLOONS: Satellites are attached under Helium balloons, with a donut of 45 degree solar panels on top for daily electrical charging.

INTERESTING FACT: NASA is the largest consumer of Helium in the USA. They are now beginning to admit it, due to multiple source evidence disclosures.

The concept of satellites in Low Earth Orbit (LEO) is bogus. They can be at the height achievable by Helium balloons, but they are not held in place by “orbiting” earth, but held in place by helium balloons.

We have known for a long time, even before the poorly faked manned moon landings, that NASA is one of the biggest liars on the Earth, almost surpassing the FAKE Newsmedia, the politicians.
