Čínská strategie: Klanění neokonům nebo čtyřrozměrné šachy „Rok králíka“?

• 2 000 slov • [151 Comments](#) • [150 New](#) • [Odpovědět](#)

[Sdílejte s Gabem](#)

Supergenialní prezident Xi hraje čtyřrozměrné šachy. Jsem hloupý a hraji jednorozměrnou dámu. Sleduji Tao. Co ještě mohu udělat? Kvůli mým mentálním omezením mi některé kroky Číny připadají nekongruentní. Chápu, že toto je „Rok králíka“ a čas se schovat. Nicméně i v tomto kontextu je někdy vhodné se klanět neokonům? Američtí neoconi vedou studenou útočnou válku proti Číně, která by se mohla změnit na teplou nebo dokonce horkou. Aby se vyhnula konfliktu, Čína provádí akrobatické zkroucení. Je při jednání s torpédoorci Iráku, Libye, Sýrie a Ukrajiny nejlepší politikou appeasement? Nebo je čas na nový takt?

V roce 2018, v „roku psa“, kanadský premiér Justin Trudeau unesl finanční ředitelku Huawei Meng Wanzhou na příkaz svých neokonzervativních mistrů. Únos, který porušil všechna pravidla přijatelné obchodní praxe, byl silným tahem, který měl Huawei zmáčknot.

Kanada na základě falešných obvinění pocházejících z obchodních jednání Huawei s Íránem umístila Meng Wanzhou do ponižujícího domácího vězení. Jako by USA měly právo diktovat, s kým může čínská společnost obchodovat.

Jaká byla reakce čínské vlády na bezostyšný únos Meng Wanzhou? Zatkli několik podřadných Kanadčanů. Jsem hloupý. Pro mě je to jako dostat pěstí od tyрана na školním dvoře a pomstít se tím, že plácnu

dítěti na vozíku. Měli ti dva kanadští poskoci na spodním sudu představovat vyjednávací žetony ekvivalentní hodnoty Meng Wanzhou? I když nejsem žádným fanouškem velkých korporací, věřím, že Meng Wanzhou se liší od typického podnikového manažera. Její otec založil firmu a ona mu jako poslušná dcera pomáhá ji vést. Zrozením se stala korporací. Skrz model jungiánského archetypu je Meng Wanzhou čínská princezna.

Pokud někdo může pomoci při přeměně korporátního paradigmatu poškozujícího planetu v systém vyspělé technologické výroby harmonické s křehkými ekosystémy Země, je to Meng Wanzhou.

Pomineme-li obchodní realitu, v povaze princezny je chránit sirotka a vdovu, stejně jako žábu a želvu.

Urážka Meng Wanzhou nebyla nikdy řádně vyřešena. Můj obličej hoří studem.

"A Tao warrior monk's love for a princess is transcendent."

Darebná čarodějnice Nancy Pelosiová napadla suverénní čínské území Tchaj-wan, navzdory varování čínské vlády. Než přiletěl duševně nemocný netopýr, Čína hrozila nejtvrďší reakcí, pokud Pelosiová provede tuto neuctivou neokonzervativní provokaci. Jak Čína na urážku reagovala? Plýtvali leteckým palivem bzučením jejich letadel v bezvýznamných leteckých manévrech.

Jak se americká politická třída dívala na reakci Číny? Interpretovalo to jako slabost. Předseda americké Sněmovny reprezentantů Kevin McCarthy mluví o opakování Pelosiho činu odvážného fackování. (Bloomberg News)

Jak americká veřejnost vnímala reakci PLA (People's Liberation Army) na Pelosiovu invazi na Tchaj-wan?

Mnozí považovali CHKO za děvky metra. To není můj pohled na CHKO. Víím, že jejich zásah do solárního plexu z nosorožčího rohu může zřítit žulovou horu. Pouze hlásím vnímání americké veřejnosti.

Podle Tao je považováno za nesprávné vydávat prudké hrozby a nepokračovat, když je překročena červená čára. Pokud je okamžitá akce nemoudrá, je lepší říci: „Ve vhodné dobu bude poskytnuta správná odpověď. Nebo ignorujte provokaci. Čínská airshow mohla být čtyřrozměrným šachovým tahem mimo mé chápání. Jsem hloupý.

S velkou pompou se čínský vicepremiér Liu He setkal s americkou ministryní financí Janet Yellenovou. Během řízení někteří čínští vládní úředníci hlásali radost z online nakupování a konzumu. Volali po více „zahraničních investicích“ (BlackRock?) do čínské ekonomiky. Žádná zmínka o socialismu s čínskými rysy během návštěvy dcery opiové války.

V minulosti Čína vpouštěla zahraniční korporace s tím, že Čína získá přístup k technologii a infrastruktuře. Geniální tah. Je vnesení bankovního kartelu Rothschild-Rockefeller do čínské ekonomiky obdobnou hrou? Hodlá se Čína zmocnit majetku parazitů londýnské City, jako to udělaly USA s íránským nebo Spojené království s venezuelským zlatem? Pokud ano, smělý plán – ale velmi riskantní. Jako když spolknete tasemnici v naději, že ji ovládnete.

Ziobanksteři infiltrují a ovládají národy prostřednictvím „investic“ a „půjček“. To je to, co dělají. Tak převzali bývalou americkou republiku. Bacilli rozumí pouze penicilinu.

Impérium USA-Anglo prosazuje barevné revoluce po celém světě, např. v Sýrii, na Ukrajině. Zkoušejí hrát stejnou hru v Číně., např. Hong Kong, Xinjiang. Uspořádání barevné revoluce na půdě suverénního národa je válečný akt.

Hypoteticky řečeno, Čína by měla své karmické právo prosazovat barevnou revoluci v USA. Něco za něco.

V 90. letech potřebovala Čína pro svou velkou armádu jednoduchou nízkonákladovou/sériovou automatickou pušku. Aby uspokojila poptávku, PLA vydala krásného bullpupa QBZ-95. I když QBZ-95 postrádal „zvony a píšťalky“ svých protějšků z USA a NATO, fungoval skvěle. Když Čína zbohatla, nahradila QBZ-95 QBZ-191, high-tech vysvoboditel smrti vybavený všemi „zvony a píšťalkami“. Čína musí mít ve skladu miliony vyřazených QBZ-95.

Představte si, že by v USA vypukla občanská válka a Čína dodala své přebytečné QBZ-95 frakcím pro „oboustranně výhodnou spolupráci“. Jaký vtipný vtip pro Čínu. Ha ha ha. Nenavrhuji, aby to Čína někdy udělala, ale neokonzervativci by si měli dát pauzu, než se pokusí uštvout další facku na unavenou čínskou tvář. Myslím, že čínská trpělivost má své meze. Co když se jednoho dne Čína rozhodne dát zmiji ochutnat její vlastní jed?

Technologický podnikatel, vydavatel, aktivista za svobodu projevu, spisovatel a novinář Ron Unz ve své sérii článků dokázal s přiměřenou mírou jistoty, že covid byl americkým neokonzervativním útokem biozbraně proti Číně. Práce pana Unze měla sklízet nejvyšší novinářská ocenění. Ne, když Rothschildští sionisté vlastní americká média.

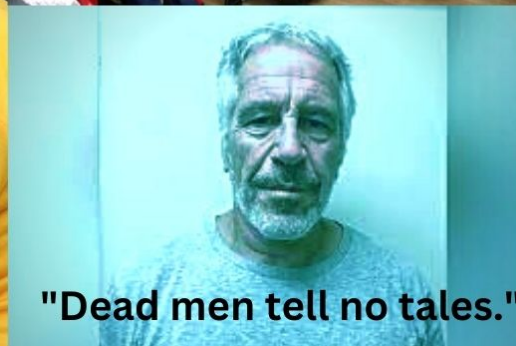

**"Ha ha ha.
Yeah, we
released a
bioweapon on
China. Now
massage my
feet
ticky boy."**

Podle Norimberského procesu představuje útok biologickými zbraněmi proti národu nejen vedení útočné války, ale také zločin proti lidskosti. Jaká byla reakce některých čínských představitelů na zločince z davoského Deep State? Řekli: "Pojď dál Bill Gates." Chovej se jako doma." Gates, blízký spolupracovník zesnulého vůdce Mossadu pro sexuální vydírání nezletilých Jeffreyho Epstein (ABC Austrálie), sponzoroval stolní simulaci pandemie covid na Johns Hopkins Bloomberg School of Public Health měsíce před vypuknutím Wuhanu. Tento Oracle of Delphi byl tak prozíravý, že pojmenoval simulační virus covid. Dokonce měl prozíravost patentovat mRNA covid vakcínu proti únosu DNA (podle Institut Pasteur).

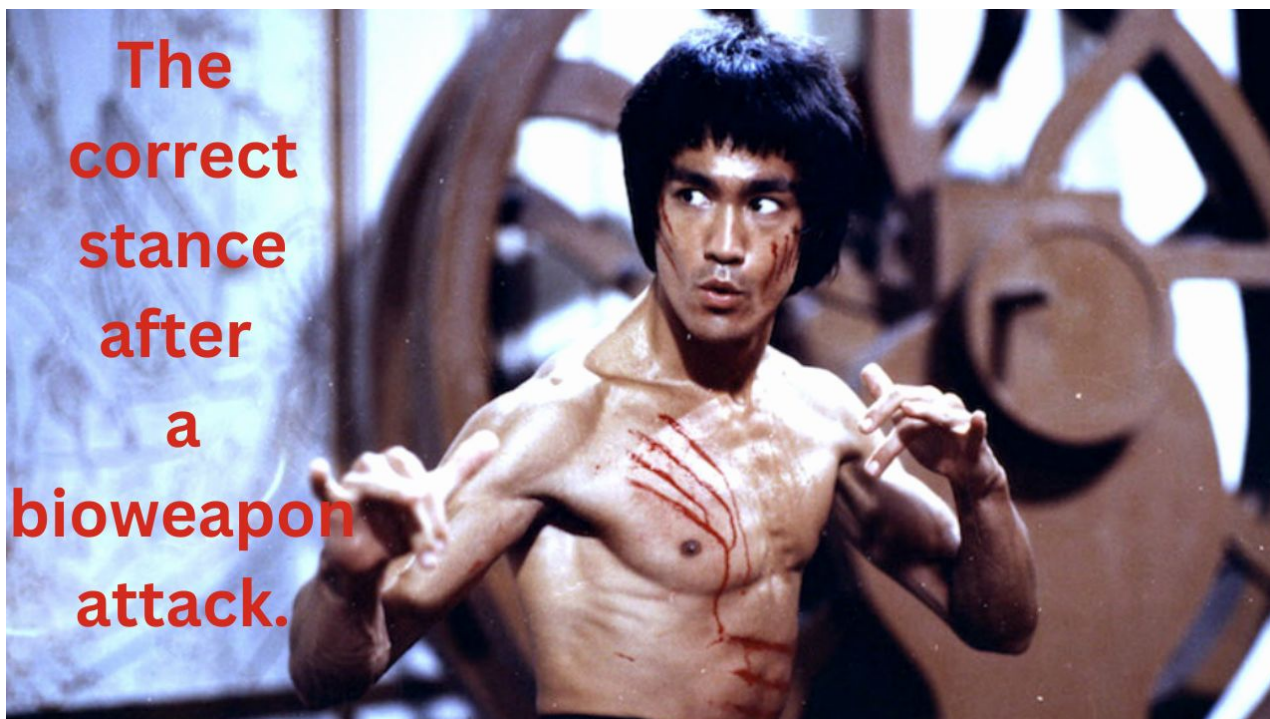

**"Ha ha ha!
I love kids.
Let me
play with
yours
China."**

**Gates Foundation
Medical Volunteer Orphans**

"Dead men tell no tales."

Přivede se po útoku biologickými zbraněmi pachatel, aby přerušil lukrativní dohody WEF, z nichž mají prospěch paví miliardáři?

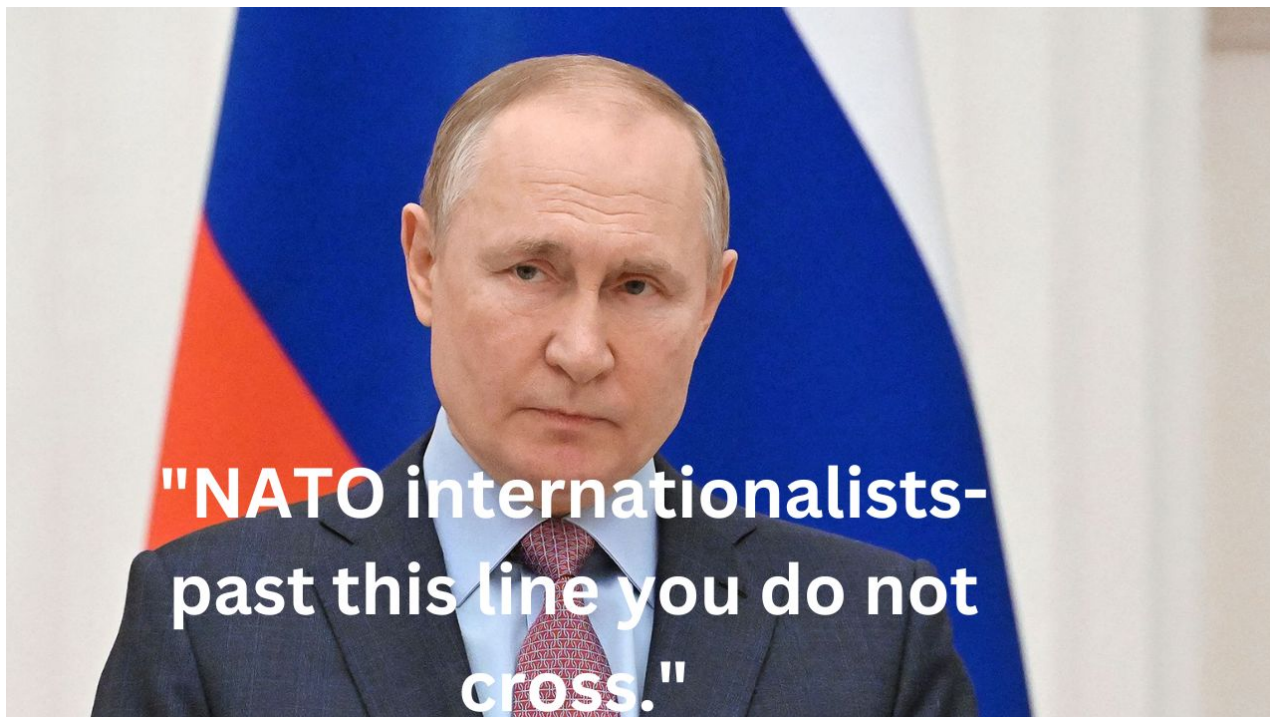

Ve svém článku z 13. prosince 2022 „Jak dlouho může trvat válka na Ukrajině“ jsem napsal:

"To neznamena, že neexistují žádné současné faktory, které by mohly ukrajinský projekt rychle zastavit." Neokonzervativní think tank by mohl vychrlit politický dokument, který říká, že cirkus se musí co nejdříve přestěhovat na Tchaj-wan. Neokonzervativci, kteří žárlí na čínskou iniciativu Pás a stezka, by mohli nabobtnat AFRICOM a začít se zaměřovat na čínské africké projekty."

Ve svém článku z 1. února 2023 „Ukrajina se potápí. Západní elity se zachraňují,“ uvedl novinář Mike Whitney, že

neokonzervativní/neoliberální think-tank RAND Corporation spojený s Pentagonem přišel s politickým dokumentem, který uvádí, že válka na Ukrajině hrozí, že se pro Ameriku stane nepřemožitelnou bažinou. Pan Whitney to interpretoval jako rozkol mezi vládnoucími elitami USA, zda se zaměřit na Rusko nebo Čínu. S tou analýzou souhlasím.

Bez ohledu na to, jak dlouho se válka na Ukrajině protáhne – pokud Čína nedá západním oligarchům podíl v BRI a neotevře svou ekonomiku ziobanksterům, zůstává cílem. Čína není sama. Má to přátele. Jmenuje se prezident Putin. Nehrajte si na stydlivou pannu Čínu.

Ha ha ha. Pošetilí neoconi. Pokud si troufnete na CHKO, ochutnáte čínskou ocel. Ponížení ve Vietnamu, Iráku a Afghánistánu se bude zdát jako ztracené hry mrknutí oka. Když drak roztáhne svá křídla, obloha nad zio-armádou USA/NATO potemní. S hrůzou sledujte, jak se zavírají ostré železné zuby Thukydidovy pasti.

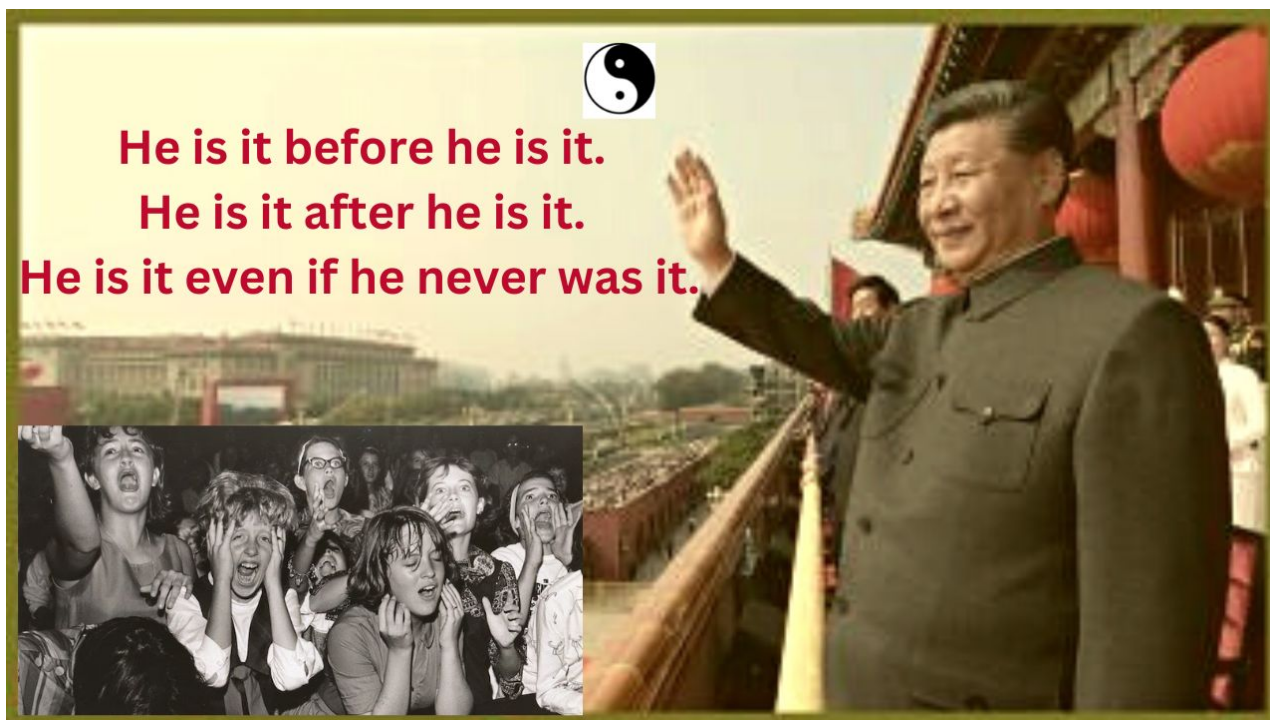

"Cross this line NATO boy."

Podle jungiánské teorie archetypu a pro některé stoupence Tao je prezident Xi císařem prezidentem Xi, pozemským představitelem Tao. Nejedná se o politickou funkci, ale o duchovní, obdobnou funkci

papeže.

Mé přirovnání císaře prezidenta Xi k papeži je pouze pro koncepční účely, protože Vatikán je v současné době majetkem spravovaným Rothschildy. Moje znalost historie katolické církve je příliš tristní na to, abych věděla jak, kdy a proč, ale mám podezření, že partnerství církve s lichváři ve středověku, aby otevřelo právní mezeru pro lichvu, způsobilo problémy. Jak řekl George Santayana: "Ti, kteří si nepamatují minulost, jsou odsouzeni ji opakovat."

V rámci Číny vnitřní konflikt staví paví miliardáře, měnové spekulanty, metrosexuály a další přívržence neoliberálního kapitalismu proti zastáncům socialismu s čínskými rysy. Prezident Si Ťin-pching potřebuje podporu vlastenců naplněných horlivostí Tao, aby si podmanil tyto revoluční reakcionáře proti vědomí.

Vnější konflikt Číny pochází od amerických neoconů a jejich mistrů bankovního kartelu Rothschild-Rockefeller. Když se zhýralé americké anglo-sionistické impérium zhroutí v důsledku nekonečného válečného štvání a překrmování pijavicemi, paraziti plánují přesídlení do Číny. Ziobanksteři chtějí uvalit na Čínu „Millenia of Humiliation“ britské Východoindické společnosti, použít BRI jako nástroj globálního

dluhového otroctví a planetárního vykořisťování a učinit z PLA jejich novou komandu NATO. To se může podařit pouze s pomocí interních pátých kolonistů.

Nejsem rádoby čínský občan. Moje národní loajalita je k bývalé americké republice. Nicméně, stejně jako starověký řecký městský stát Atény, tato entita již neexistuje. Nahradilo ji americké anglo-sionistické impérium, jehož jsem občanem-nevolníkem. Nebo pomocí techničtějšího lexikonu, vězeň ZioCorp. Jsem optimista, že z trosk zhrouteného impéria vzejde nová a lepší americká republika. Kdo jsem, abych radil Číně? Nikdo. Jsem bezvýznamný a nicotný. Jsem hloupý. Sleduji Tao.

Ochranka ZioCorp má na mém krku botu. Pokud budu protestovat, soudci ZioCorp jsou připraveni hodit mě do klece ZioCorp. Chobotnice mě obtáčí svými slizkými chapadly a svírá mi ruce a nohy, když mi projíždí kapsami. Jsem utlumený.

Kdybych tak mohl poslat zprávu. Komu? K muži. Který muž? Muž, který se stejnou emocií, jakou dal zapálení malého táboráku, nastavil zápalku na hromádku stodolarových bankovek o velikosti budovy. Muž, který se posměšně usmívá nad švýcarskými bankovními účty, zlatými rolexkami a Mercedesy 500SEL, které se před ním houpají. Muž, jehož přední hřbec mohl vystřelit zuby jako zrnka popcornu z horké

otevřené konvice. Muž, jehož přední kohoutí pěst dokázala rozříznout lebku jako zralý červencový meloun. Muž, který by stál pevně s prezidentem Si tváří v tvář cyklonu 5. kategorie. Velitel PLA. Velitel PLA? Ne. Velitel PLA.

"Jsem svázaný a bezmocný." Leť blíž kolibříku. Dovolte mi pošeptat vám do ucha můj vzkaz. Ach, kolibříku, tvé srdce bije v tvé malé hrudi s větší odvahou než lví."

"Jaká je zpráva?"

"Čistý dům příteli." A použijte koště s pevnými štětinami."

"Něco dalšího?"

"Malá prosba." Dokončeno pouze v případě, že má zpráva má hodnotu a žádost nepředstavuje žádné nepříjemnosti."

"Ano?"

"Pokud mě ďábel vyvede ven - prosím, poskytněte odpovídající odpověď." A udělej kruh tak široký, jak to Tao dovolí."

"Je to všechno?"

"Moucha kolibří moucha."

In general, we Chinese and Jews are doing something similar, betting on both sides.

For example, big state-owned enterprises have joint ventures with international financial conglomerates from families such as the Rothschilds.

But at the same time we don't absolutely prohibit and sometimes encourage anti-Semitism in this country, and many people are aware of the true face of Jews.

Of course we're not going to do what fascists do.

The IFs understand that the West is a sinking ship that can only stay in power through identity politics, so they will invade every area by any means possible, and our aim is presumably to dominate their invasion.

Good one, Solomon. The hummingbird made me smile

Will the Chinese have the moral fortitude and wisdom to reject the host of temptations, strings attached, that the bankster overlords can present them with? How patriotic is the Chinese merchant class? How attached to the current political operating system?

As for the CPC... it does seem like it could be a genuine, self-interested power-block on the world stage, and not in the pockets of the “usual” international financiers*. And as such, doing what power brokers do. It is not perfect, certainly, but it seems to be rather competent, at least. Judging by the videos and images I have seen from modern China, much more competent than the EU/USA leadership. Ethnical homogeniety probably has an influence, too.

Perhaps the banksters work with the option of having America and China smash each other, and then rule over the ruins? I hope it doesn't come to that.

Interesting times (in the Chinese sense)!

*I recently watched “The Revolutionary”, about Jewish Sidney Rittenberg, who was a big thing in Mao's China, and a true believer in Communism back then. It is based on interviews with him – I must say, he didn't fail to elicit my sympathy; an elderly man, wiser through mistakes, regrets, and suffering, his story is a very curious one. In any case, one really gets the sense that the CPC is first and foremost Chinese, rather than Communist. Worth the watch!

I am optimistic that a new and better American republic will arise from the empire's collapsed wreckage.

So am I, considering all the examples history records of just such renaissances. There are however rarely if ever smooth transitions. Long ago, Aristotle noted in his study of the rise and fall of Greek city-states, "Politics," that when democracy fails, people clamor for a strongman to make them feel safe again. Eventually tiring of his autocracy, they overthrow his rule, then set up a robust new democracy correcting the old one's faults. (And later, the cycle repeats). Given our unique heritage and history I am expecting a neofascist Christian-based tyranny to be our next phase. And it seems as necessary as it is inescapable, a hopefully brief episode of purging and strengthening that must take place before we can be restored to rational self-government. We will have foreign allies, I suspect, as we work our way back, suitably chastened, to our proper place in the family of nations.

Richard Solomon has quickly become my favorite writer at TUR. I eagerly read all of his essays. Hadn't heard of him before so googled his name. A few from the past by that name popped up, but nothing current. So, I surmise, he could be writing under a pseudonym. If Solomon reads TUR comments and I'm wrong, maybe he'll correct me.

That said, I agree with comment #1 that China may be playing both sides. Xi's finger could be to the wind, like the scary weather balloon tough guy Biden just shot down. Xi may not want to get too close to Putin for fear that the Russians might start losing. What to do if all of his chips were on Russia?

With all of the Euro serfs siding with the US out of fear of reprisal from the Hegemon, and coerced into sending whatever military stockpiles and fiat money they have left to little Zelensky, they could still become a formidable foe after the fighter jets are sent in and Euro boots are on the ground. In contrast Russia, with a declining white population, is basically going it alone.

If Xi was a true friend of Putin, maybe he could quickly end the war if he sent a few divisions to Ukraine's eastern border. It could be enough to send the Euro forces scurrying back to their homelands. What would hideous Victoria Nuland do then? Maybe the Chinese military wouldn't even have to fight. Just their presence in large numbers could be enough.

I guess that's just a fantasy. Perhaps Charles de Gaulle was right: No nations have friends, only interests.

| Orchestrating color revolution on a sovereign nation's soil is an act of war.

We all know what an orchestra is: an orchestra is a group of musicians who **voluntarily** submit to the will and skill of the conductor in order to perform a piece of music more perfectly. Of course, first-rate musicians can get along without a conductor, and the conductor is not always at his best either, but that is not the point.

The same principle applies to color revolutions. Such revolutions can be peaceful, but they can also end in a coup, depending on the level of the political culture of the society, the education, the effectiveness of the propaganda of the “conductor”, and so on.

Don't like color revolutions? Don't blame the conductor, blame the first fiddle and the orchestra.

Why are color revolutions impossible in Switzerland or Iceland? I have already answered this question.

Xi had already made an ‘offer you can’t refuse’ deal to the Globalist Elites in London seven years ago. Here’s a couple videos of Xi hobnobbing with British PM Cameron and Prince William during his 2015 State Visit to UK:

Watch Video At: https://youtu.be/QQr_e8cjgE8

Watch Video At: <https://youtu.be/lfiP3krTo34>

But the US Deep State balked at the prospect of China getting too close to the UK and Russia getting too close to Germany with the NordStream 2 pipeline set to be completed by 2020. Then Trump came along and began calling for the abolition of NATO throughout his tenure. Alarmed at the real possibility of the USD losing its Petrodollar Status if Germany goes ahead with Russia's NordStream 2 pipeline and China striking an offshore CNY financial center deal with the UK, the US Deep State struck back to derail both by instigating the Ukraine Crisis and fomenting the Taiwan Issue.

Methinks the so-called 'Collective West' is divided over Russia and China with both the UK and the EU more interested in détente rather than hostility towards Russia and China which is currently displayed by the U.S. Deep State. With China now dumping US debt and Russia selling its energy in non-USD currencies, the USD is fast losing its Petrodollar Status, forcing both the UK and the EU to choose the side that butters their bread. The U.S. Deep State is going for broke, unable or unwilling to face their own self-inflicted financial WMD that is about to implode in the next few years.

Let's do some reading to get a better understanding of our adversaries:

This is from "Sunzi: The Art of War" by James Calvell:

"I am convinced that our military and political leaders of the recent past should have studied this work of genius, for then what happened in Vietnam would not have happened; we would not have lost the Korean War (we lost it because we did not achieve victory); the Bay of Pigs disaster would not have happened; there would not have been the Iran hostage crisis; the British Empire would not have been maimed; and in all likelihood the two world wars would have been avoided – but certainly they would not have been fought as they were, and the millions of young people sent to their deaths so needlessly and rashly by monsters who called themselves generals could have lived out their lives. The greatest achievement is to break the enemy's resistance without a fight. "

...add to the list Afghanistan

*"I find it amazing that Sunzi wrote so many truths twenty-five centuries ago that are still valid today – especially in what I think is an extraordinary chapter on the use of spies. **I think this little book clearly shows what is still being done wrong today and why our present-day adversaries are so successful in some areas.** (Sunzi was required reading in the political-military hierarchy of the Soviet Union; the book has been available in Russia for centuries, and I find it amazing that Sunzi wrote so many truths twenty-five centuries ago that are still valid today – especially in what I think is an extraordinary chapter on the use of spies. I think this little book clearly shows what is still being done wrong today and why our present-day adversaries are so successful in some areas. (Sunzi was required reading in the political-military hierarchy of the Soviet Union; the book has*

been available in Russia for centuries, and it is also, almost word for word, the source of Mao Tse-tung's writing on the military principles of the Chinese Red Army). “

... sure in Xi Jinping's too.

I don't think it will hurt anyone just to have a quick recap of our strategic foes tactics and strategy:

“All warfare is based on deception.

So when we are able to attack, we must appear incapable.

When we use our strength, we must appear inactive.

When we are near, we must make the enemy believe that we are far away;

When we are far away, we must make him believe that we are near.

Set the bait to tempt the enemy.

Imagine frustration and crush it.

If your opponent has a choleric temperament, try to annoy him.

Act weak to make him arrogant.

If he wants to gather, don't give him a break.

When his forces are united, scatter them.

Attack him where he is not ready, show up where you are not expected.”

China's immediate strategy should be to paint a bunch of rainbow flags, BLM symbols, and Holocaust Memorial museums on the surface of a new fleet of balloons. Then send them all over the skies of North America.

It's a foolproof plan. The Americans would never dare to shoot down such balloons.

Why has China not retaliated in response to the U.S. coronavirus attack and other indignities? Perhaps it's because of the movement called *tang ping*. It means "lie flat" and refers to slacking off and taking it easy. That mindset might be common among China's national security staff.

Russia doesn't need China. The Russians can round up easily 25 million soldiers. CSTO adds another 10 million soldiers. Iran gives 15 million. It's existential. More than 50 million Russian/CSTO and Iranian troops smashing their way through Ukraine to liberate the joint and send NATO packing. Build a new wall with Rothschild's face painted on it for target practice. Back that up with tens of thousands of tanks, millions of top quality fighter jets, cutting edge surface to air missiles, millions of killer drones, psychotronic kill machines and high definition Direct Energy Weapons (DEWS) that fries NATO bodies literally in a few seconds. The possibilities are endless. Plus millions of hypersonic missiles with high calibre poison cluster "max" bombs. And if that fails, which is highly unlikely, Putin gets his alien/ET friends to once and forever wipe the fuckers out with their spaceships with their ships having both the "Z" insignia and the Rothschild bullet practice painting etched on to their sides.

The more I understand about the Chinese system the more efficient I see their system to be..

excellent article the mens rea that contributes to China's success is derived from Tao?

President Xi needs the support of patriots infused with the zeal of Tao. The Chinese party system of promoting individuals from within based on contribution leading to the success of projects, peer acceptance, devotion to duty is impressive.. Politics seems to operate horizontally, but not vertically?

The system returns deep commitment to developing and promoting adequate qualified leadership.

The efficiency of the system is what makes it strong.. but I wonder if lack of diversity is not a short coming?

An excellent article and many thoughtful comments beneath.

The substantial power and leverage of China's 5th column is evidenced by the zero-covid policy implemented by the Gao clique – he is their CDC chief & old chum of Bill Gates with deep ties to GAVI & WHO leadership & policy formation. A majority of the Chinese people follow the principles of Chinese medicine and despise the western money laundering pharma obsessed alternative so their own CDC coming up with BS covid RNA tests & parroting the WHO only-jabs-can-stop-covid was patently 5th column nonsense from the start to those who bore the economic losses caused by lockdowns & testing. Xi has a daughter studying in an American University which makes him vulnerable but it was the CCP which used the alternative narrative that covid + SARS 1, swine flu and bird flu were all American bio weapon attacks on health & food security of China so Xi appears to be a bridge between them much like Putin was before he removed Russian 5th columnists. Removing Jack Ma from public life is the highest profile 5th columnist to fall so far.....

Xi's last broadcast speech to the WEF when he rejected their Reset proposals the same time Putin did does suggest he is keeping China's internal enemies closer than friends hopefully to defeat them !

Some tenets from the opposing side of the West:

“Time and patience are the two most important factors at beating the enemy.”

General Michael Kutuzov, Supreme Commander of the Tsarist army during the battle against the Napoleonic invasion.

“Hide your strength and show your weakness to the enemy”

Chinese military strategist Sun Tzu

“The ultimate victory is to subdue the enemy without engaging in a fight“

Zen fighter philosophy

It has been a subject of speculation for more than a decade about the Jewish-Chinese connection as who is using whom. Both parties are old and crafty civilizations. The Jewish approach towards the other has always been stealthy, exploitative and expansionist. The Chinese approach has always been defensive and pragmatic. Who will end up having the upper hand, I have no clue. But Xi’s latest clampdown on Zionist wannabe Jack Ma and the new Chinese rules with respect to time limits on Chinese youth exposure to internet games and the price controls on internet private lessons, and banning girly men from the Chinese media, show that the Chinese government is serious about staying in the driver’s seat and relegating the Chinese corporate world to playing second fiddle.

As long as the Chinese executive body is firmly in control, bypassing the Western model of corporate rule by government proxy, I would speculate that China is far more immune than the West at fending off the Chinese culture from Jewish infiltration.

But then, never underestimate the Jew's tenacity and professionalism at colonizing the minds of any nation or culture no matter how wise or coherent it is.

The U.S. Deep State orchestrated BREXIT to split the UK from the EU, which divided Europe, followed by the Ukraine Crisis, which destabilized Europe. The next step is to dismantle the EU by promoting a plethora of anti-EU ‘White Nationalist’ movements which would lead to EUXITs all over Europe, followed by the expansion of NATO to incorporate most of Europe. Behind all this talk of Russia as the bogeyman of Europe which is just a red herring, the real target of the U.S. Deep State is the EU project and its Euro currency. The end goal is to save the Petrodollar by dismembering the EU and destroying the Euro. The U.S. Empire today behaves like a hungry wolf looking for its next prey. Ukraine is just the sacrificial lamb used as the appetizer while the main dish is the fattest lamb on this planet, the EU.

Christians worship God. Christ is not a “Jew”, he is God made flesh. Jesus was as much a Jew as Liz Warren is a Cherokee. His mother was a Galilean, a Celtic people who accepted the worship of the One True God. Joseph, who was of the tribe of Judah, was his stepfather, not his biological father. Jesus took the teachings of the Old Testament and made them universal for all mankind.

Christians haven’t converted to Judaism.

And, were the Jews running the world from their ghettos when the leaders of the Europeans were devout Christians, or did they take over when Europeans abandoned Christianity?

Your remark is sophistry.

First of all, the only true God, who has revealed his thoughts toward us in his Bible, tells us that he is in control of human affairs and rulers: “By me all kings rule.”

Secondly, world politics is not God’s overriding concern. Solving man’s sinful condition is.

Thus if there would exist any political tyrant that would make life miserable, it will be because God has sent him to be a scourge to those who have rejected him and his damnation-canceling, gospel pardon of their amoral life. Indeed, while other ancient peoples have disappeared according to the Almighty’s providence, Jesus, the divine Son of God, clearly taught in Matthew 24:34 that those of the man-made, unbiblical, contemporary Jewish creed, would survive until the Last Day. Evidently, God still wanted them around for a purpose.

Hence when a nation would repent of its sins, and would trust God’s pledged pardon, he will give that nation peace, even from political tyrants. Therefore, it would be this that will be the solution to your “Jewish problem.”

For all the problems faced by the US, for all its faults, China is no utopia bed of roses. More Chinese flee the place every year than people leaving the US. More people immigrate to the US than to China.

Even in Africa, the blacks, once so rabid against whites and thinking the Chinese were their Brothers got a rude awakening ! The Chinese are even more abusive than the Whiteman.

Further, the Chinese economy is dependent on the US and the West. Where are they going to sell their \$2 pink sneakers for \$300 ? Viet Nam ? Thailand ? Where the average monthly salary is \$300 ? People tell me that since China produces all of what we use, the US will collapse ? Really ? Any businessman will tell you it does not take long to tool up and start production. Besides, how many Geegaws do we need from the dollar store.

China must have the resources of other countries. It is not resource rich enough to feed its billions. Cut those off and the country will face extreme hardships.

Many people may not know this but during the 2008 crash and credit crunch, millions of people in China were laid off and factories closed down. Why ? Because demand from the West dried up. Millions, who worked in factories for \$100 a month suddenly found themselves unemployed and destitute.

I ask myself, if China is such a great place why aren;t Americans flocking there. We have more people retiring to Mexico of all places than heading to the East.

Finally though I want to say that if any Non-Chinese thinks that by supporting China he is going to get any thanks or kudos from the CCP, then he must be delusional. In the event of a rumble every non-Chinese person in China, from the whitest to the blackest will be rounded up and jailed.

If you are not Chinese you are out ! Sucking up to the CCP will not save you !

RE: Vatican City is currently a Rothschild-managed property. My knowledge of Catholic Church history is too dismal to know the how, when, and why...

Allow me, sir – the various parties of the demonic NWO (new world order): communists, masons, jews etc. – or more accurately, their agents (of course), began infiltrating the Church in the early part of 20th century (for some proof of which see book entitled AA1025). The actual hostile takeover was implemented with ‘election’ of ‘pope john 23rd’ (precursor to 2020 election in US) & cemented into place by Vatican Council II in the 60s... hence the barage of pedo-priests (etc.), since then.

Great piece... thanks very much.

I wanted to ask that, too.

I looked into it; from a cursory look, what I got was that there was a substantial and old community of jews in Harbin, but that they began leaving the country when Mao came to power (and set up a community of “Chinese jews” in Israel); and that the last remaining jew of the community was gone by 1985. There are now apparently guided tours for jews, to “see the historical site”.

It's too bad Seymour Hersh didn't do a deep dive in the how-what-when of the Covid thing. He seems to have lots of connections with insiders and whistle-blowers, enabling him to go beyond speculation and second-guessing.

Most interesting is how the explosives were planted under the cover of some other event, sort of like when the US used the Howard Hughes oceanic adventure to recover parts of some Soviet sub.

Always do it under the cover of something else. This raises the likelihood that the Covid thing was also done under the cover of something.

GERMAN PEOPLE!!

By destroying Nordstream, the United States broke your economy. They did this deliberately, in the fall of 2021 — long before the conflict in Ukraine.

How can you believe America is your ally?

@Anon

Sigh. We always get people offering opinions out of their arses and have no clue about how the world is and was. OK, I am going to bite. I will use verifiable info instead of imaginary delusional thoughts.

For all the problems faced by the US, for all its faults, China is no utopia bed of roses. More Chinese flee the place every year than people leaving the US. More people immigrate to the US than to China.

China has no immigration policies that encourage foreign workers to come in and fill the job gap unlike the US. China's workforce is large enough to fill the gaps. Chinese tourists are one of the largest compared to other countries and all of came back after their vacation. China net emigration rate is very low. See link below. The higher the negative number the higher the migration rate.

https://en.wikipedia.org/wiki/List_of_sovereign_states_by_net_migration_rate

China is one of the top destination for tourists . See link below.

https://en.wikipedia.org/wiki/World_Tourism_rankings

Even in Africa, the blacks, once so rabid against whites and thinking the Chinese were their Brothers got a rude awakening ! The Chinese are even more abusive than the Whiteman.

While there are instances of Blacks being discriminated in Guangzhou, those are just isolated incidences being blown out of proportion, there are no systemic racism like the US has. see link below

<https://worldpopulationreview.com/country-rankings/most-racist-countries>

Further, the Chinese economy is dependent on the US and the West. Where are they going to sell their \$2 pink sneakers for \$300 ? Viet Nam ? Thailand ? Where the average monthly salary is \$300 ? People tell me that since China produces all of what we use, the US will collapse ? Really ? Any businessman will tell you it does not take long to tool up and start production. Besides, how many Geegaws do we need from the dollar store.

You are two decades late my friend. What you said may be true until early 2000, China has moved up the value chain since then. China's export GDP is very low. Both the US and China are very self sustaining. 18% of China's GDP are exports. Of that 18% only 17% of the exports go to the US, 20% to Europe and a whopping 46% to the rest of Asia. Even if China stop exporting, not much harm is done.

see link:

https://en.wikipedia.org/wiki/List_of_countries_by_trade-to-GDP_ratio

China must have the resources of other countries. It is not resource rich enough to feed its billions. Cut those off and the country will face extreme hardships.

See my other post about China's natural resource reserves. Link: <https://www.unz.com/pescobar/bamboo-diplomacy-the-china-se-asia-romance/#comment-5654871>

China import resources to make products for exports and domestic products. If China were to tap into its own resources, half of it would have been depleted by now and that would leave it vulnerable to external pressures.

Many people may not know this but during the 2008 crash and credit crunch, millions of people in China were laid off and factories closed down. Why ? Because demand from the West dried up. Millions, who worked in factories for \$100 a month suddenly found themselves unemployed and destitute.

Really? China bailed out the US by buying hundreds of billions of T-Bills to keep US banks from collapsing. China's GDP growth in 2008 is 9.65%, 2009 9.4% and 2010 10.64%. US's GDP growth was

0.12% in 2008, -2.6% in 2009, and 2.71% in 2010. Noticed how the US economy recovered in 2010? It was in 2009 China pumped in hundreds of billions of dollars into the US economy.

Tell me how can millions of people being laid off and still see the highest GDP growth in the world?

<https://www.macrotrends.net/countries/CHN/china/gdp-growth-rate>

<https://www.macrotrends.net/countries/USA/united-states/gdp-growth-rate>

I ask myself, if China is such a great place why aren't Americans flocking there. We have more people retiring to Mexico of all places than heading to the East.

Mexico is next to continental US, cheap and culturally more familiar. China has a very restrictive immigration policy. You may get work visa renewal every few years but it is next to impossible to get permanent residence.

Finally though I want to say that if any Non-Chinese thinks that by supporting China he is going to get any thanks or kudos from the CCP, then he must be delusional. In the event of a rumble every non-Chinese person in China, from the whitest to the blackest will be rounded up and jailed.

If you are not Chinese you are out ! Sucking up to the CCP will not save you !

You are so full of beef manure and so delusional to think that people will take you seriously with all that manure you just posted.

China is under zionist control, Mao was educated in Paris by the zionists and sent into China to install a communist/zionist government which then proceeded to kill some 100 million people. China is a zionist plantation just like the ZUS and everything the communists/zionists are doing in China is what the zionists have planned for America, except the covid-19 scam and psyop and genocide is being done via the clot shot.

China and America are both under zionist/communist control.

Bravo. Anon is as idiotic as idiotic comes. Anon needs to grasp and understand how the world economy is operated in it's current form.

Read and view youtube videos from Michael Hudson, Yanis Varoufakis, Ben Norton, Aaron Good, etc.

Here's a summary that pretty sums up the entire world economy in a nutshell. It's called capitalism (financial global capitalism).

Michael Hudson was the first economist to figure and pointed this system out back in 1972. This other economist explains the system and how it works exactly how Michael Hudson described for 50+ years. I'll paste it below for everyone to read and hopefully understand.

An extended excerpt from Yanis Varoufakis' speech follows below:

Why did the original Non-Aligned Movement fall prey to neo-imperialism's highest form, which is of course globalization, financialized capitalist globalization? The short answer is because capitalists, in practice, proved better internationalists than we were. Because they understood the nature of neo-imperialism better than we did, and that's why they won.

What did they understand better than we did? They understood better than we did the new, audacious imperialism that was born in 1971, when Bretton Woods collapsed, and the United States dollar was no longer convertible to gold, prompting [President] Richard Nixon to send a message to Europeans, European governments, and the world's capitalists, saying: "The dollar, as of today, is your problem".

And how right Nixon was. As the American – the US, I shouldn't say American – as the US deficit skyrocketed, the world was flooded with American dollars. And the banks, the central banks outside the United States, were forced to use these American dollars, since they could not be converted to gold anymore, as the reserves with which they backed their own currency.

The dollar suddenly became something like an IOU issued by the hegemon. Before long, the global financial system was backed by IOUs issued by a hegemon who decided what foreigners holding those IOUs could do or couldn't do with the IOUs issued by the hegemon.

America was now a fully fledged deficit country, with a big trade deficit. But it was nothing like any other deficit country in the world. You see, Argentina, France, India, Greece needed to borrow dollars. America didn't need to borrow dollars to back up its currency. It didn't need to raise interest rates in order to prevent an exodus of dollars. The exodus of dollars was the foundation of American hegemony.

Capitalists in surplus countries – countries like Japan, Germany, and later of course China – saw the American trade deficit as a great savior.

It was a huge vacuum cleaner, the American trade deficit, that was sucking into America the net exports of Germany, Japan, and China.

And what did the Japanese, German, and later Chinese capitalists do with all these dollars that they earned? They sent them back to the United States – they couldn't do anything else with them – to buy property in the United States, American government bonds, and a few companies that the American government allowed them to buy – not Boeing, not Microsoft, none of the crucial ones.

Meanwhile, the deficit countries in the Global South, in Asia, in Latin America, they constantly agonized over a shortage of dollars, which they had to borrow from Wall Street to import medicines, energy, and the raw materials necessary to produce their own exports for earning the dollars with which to repay Wall Street.

Inevitably, every now and then, as you all know, the Global South deficit nations ran out of dollars and could not repay Wall Street. That is when the West sent in the bailiffs, the International Monetary Fund, that lent the dollars on condition that the debtor government handed over the country's land, water, ports, airports, electricity, telephone networks, even its schools and hospitals to the local [oligarchs] and to the international oligarchs, who grabbed this treasure, took rents – and what did they do with the rents? Sent them to American rentier capitalism, to invest them.

Washington, comrades, had found the magic formula that no other empire had discovered before, of how to make wealthy foreigners, and wealthy governments, and poor governments, and the poor of the world finance the American government and the net imports of the American economy.

A Chinese official once described to me globalization as something that was founded on a “dark deal” – that's how the Chinese official put it to me: a dark deal.

Why did he call it dark? Because it was founded on a dark, unspoken, implicit pact between America's ruling class and foreign capitalists and rentiers.

Let me put it slightly differently: Suppose you could end American hegemony today. There is a button here; you can press it and end US hegemony. Who would stop you from pressing it? OK, the US authorities, the military, the CIA, Wall Street, Silicon Valley, they would try to stop you pressing this button.

But they are not alone! A crowd of non-Americans would stop you from pressing it, including German industrialists, Saudi sheiks, Greek oligarchs, European bankers, and, yes, Chinese capitalists.

In other words, the supremacy of the dollar has been just as functional to the interests of US rentier capitalism as it was to German, Argentinian, Nigerian, Korean, and Chinese capitalists.

Without the dollar's and America's global dominance, Chinese, Japanese, Korean, or German capitalists would not have been able continually to extract colossal surplus value from their workers and then stash it away in America's rentier economy.

Meanwhile, Argentinian, Greek, Russian, Ukrainian, and Indian oligarchs would not be able to loot our countries, take their public assets, liquidate them, and turn them into property rights in the United States.

The sharks are circling. Let's hope the wiley Chinaman is fixing to prepare Shark Fin Soup for the Masses. "Gambling is to the Chink what drink is to the Mick" is what I grew up hearing in New Jersey. Perhaps postures such as the one outlined above by the Wise & Beneficent Solomon are causing dopamine floods and neural landslides among Central Committee Members. The Chinaman is at the Big Table now. Perhaps the view from behind all the blue chips stacked high is generating voltage equal to that marshaled for the rural electrification campaigns Comrade Godfree waxes about so lyrically. Infrastructure is the measure of man. Modern China is a plump & succulent Omelette and we've been advised by Chef Robespierre not to fret about "the fur, flesh & feces," (Eliot), broken up & cast aside during assembly. That's just industrial byproduct. Those people are just iron shavings & saw dust. And there never will be a "frictionless machine." It's better not to have a "soul." It's like masturbation without a body. The only "soul" in Modernity is the "sole" of the Zio-Bankers' boot stomping on the face of the individual.

Las Vegas is the apogee of American Anti-Culture. That's not the light of the setting sun, that's the Bonfire of Vanities, where good matter is turned into light & heat by (Wayne) Newton.

In loving memory of the Chinese Spy Balloon, I'd like to float this balloon; in my last comment I referred to the Group That Can Never Be Named Publicly as "Elders," and nothing more. (Perhaps I was referring to the Tow-Headed Butter Cookies who go from door to door)! The Tao that can be named is NOT the Eternal Tao. The Zio-Bankers are a good, working definition of "Anti-Tao. And I think my comment was aborted by the people for whom Abortion is a Sacrament. But whereas the possession of Sun Tzu was encouraged after the Revolution, possession of a famous book with "Elders" in the title was a capital offense. The Bolsheviks put lead in the back of your head, no trial. I wonder if the "Big Boss" the force described by Frank Zappa as the "Central Scrutinizer" is still

enforcing the Bolshevik Law. Just wondering.

Full Disclosure: I'm solidly & squarely on the side of the Eurasians and I read Pepe & Godfree & Marx avidly.

Another Nuremberg Thought Crimes Trial is taking place in Australia.

The presiding judge asks the three defendants the same question: "What are you accused of?"

1st defendant: "I wanted Bill Gates to go to hell and eat only live cockroaches!"

2nd defendant: "I wanted Lord Fauci to be injected with six million boosters!"

3rd defendant: "I wanted you, Judge, to apologize to Adolf Hitler for the First Nuremberg Trials!"

An unimaginable uproar erupts in the courtroom and shouts are heard: "Not guilty! Innocent! Apologize!"

The presiding judge coughs nervously, wipes the sweat from his brow, and mutters to himself: "Oh, mein Gott! Have they conspired to read my mind?" and rises to leave the room to the sound of whistles and jeers.

You are welcome lol

Without the dollar's and America's global dominance, Chinese, Japanese, Korean, or German capitalists would not have been able continually to extract colossal surplus value from their workers and then stash it away in America's rentier economy.

This hush hush arrangement unraveled when Trump's unqualified "economic advisors" lit the fire. (Cough Cough.. rabid anti-China youtuber, Peter Navarro and clueless hyper-neocons like Pompeo,)..... . Sure, a few tariffs here and there like what Trump did was kinda OK. Made China play a bit fair by opening up its markets to US companies and to help US farmers by purchasing more grains. And then Biden doubled down... The rest is history.

The extend of Biden's stupidity.... By weaponizing the dollar in an attempt to destroy Russia and by violating the sanctity of property rights through seizures of properties of people/country they don't like started the demise of the US dollar and US hegemony. How stupid is that?. Now the trust in the US dollar as a medium of exchange for world trade and the trust of investing surpluses in US/Allies controlled institutions are GONE. poof! Like its magic!

[@follyofwar](#)

Not a matter of playing both sides. China has always been clear it doesn't take sides. You can look at how it deals with Saudi Arabia and Iran or the Palestinians and Israel. But China does react to provocations. China has nothing against Ukraine. That's why at the UN it abstained rather than voting directly with Russia. It says over and over it is against war – but ALL parties must have their security accounted for. So in this instance it is more on Russia's side because it knows full well what the US goals are and how it wants to destabilize Russia.

But no China will not send troops to Europe. It is Chinese law not to get into military alliances. Why? Because then you can be held hostage like some of the countries in NATO who are against hostilities with Russia but have no choice. Even when it comes to North Korea.... China and Russia both have a defense deal that ONLY kicks in if North Korea is attacked. But if North Korea attacks another country – neither China nor Russia is obliged to help them.

China will continue to do business with Russia – just like it has kept its business ties with Venezuela and North Korea and Iran. It is NATO who wants China to pick sides. Saudi Arabia and Iran both understand China won't pick sides between them so they don't involve China in their beef. They both increase their links with China on their own. But the US doesn't like it – which is why they had Canada kidnap Meng because Huawei was doing business with Iran. They thought she would crack but she didn't. The argument was “we didn't lie... we don't acknowledge your sanctions ... so we didn't cut ties with Iran”. Eventually the US had to cave and let her go when they realized the bulky tactics wouldn't work. Huawei is not Alstom nor Toshiba because it is in China and not France nor Japan who both bow to the US.

In any event Russia doesn't need China's military support. Russia could end it if they wanted to – but they aren't blood thirsty to just lay waste to all of Ukraine.

What is more likely is continued scientific collaboration between Russia and China to remove NATO countries from their technical fields and banking systems.

“both the UK and the EU more interested in détente rather than hostility towards Russia and China “

Really? I must have dreamed the removal of RT and Sputnik not only from the TV but from the internet in the UK, the hysterical reception in Parliament for the charlatan destroying Ukraine, the BBC and all newspapers reporting Ukrainian press releases as proven fact, the non-stop Putin hysteria...

OTOH the Brit elite still looks at China and sees “money! cheap labour!”, but even then is inevitably dragged in the US slipstream, hence the removal of Chinese security cameras, modems, switches from UK infrastructure.

Dumb comment again... Lord... the stupidity.....

If you know just a little bit about Asian Geopolitics, you would have known that LittleRedDot is from Singapore. The 1997 Asian financial crisis, the Indonesian Rupiah (Let me dumb it down for you. The Rupiah is Indonesia money) dropped by a lot. CIA Suharto tried to blame the Indonesian Chinese for the fall and riots ensued in Jakarta with many ethnic Chinese raped and killed. He was subsequently kicked out and his successor, Habibie was pissed at Singapore for feeling that Habibie could be a bad choice. Habibie retaliated by saying Singapore is insignificant, just a Little Red Dot on the map.

According to you, you were in Shandong this time and you didn't even know about this? It was big news back then as many ethnic Chinese in Indonesia were killed and raped, reminding the ethnic Chinese diaspora of the Sixties when Suharto took over from Sukarno (regime change)with the help of CIA resulting in hundreds of thousands of Indonesian Chinese being slaughtered under the guise of ridding communism when these ethnic Chinese were not communists but rather, rabid capitalists.

So rabid that today even after the great purge, the Chinese make up 4 percent of the population but control about 70 percent of Indonesia's wealth.

Great history lesson for that poster. And yes it was those rabid capitalist ethnic Chinese in Indonesia – and Thailand and Malaysia and Singapore and the Philippines who – after Hong Kong and Taiwan – were the ones who put the money up to industrialize the PRC when it opened up. It wasn't the US as is falsely reported in the west. The US money was even after Korea and Japan and Germany – in that order who were all after the overseas Chinese.

@showmethereal

True. But the US is the biggest dog / elephant in the room due to its massive consumer based population. Overseas Chinese from Hong Kong, Taiwan, Singapore, and Japan heavily started investing in China when it decided to open up. But it was a visit by Deng to Japan that started this trend. South Korea and the USA arrived later on the scene.

<https://thechinaproject.com/2021/10/21/mr-deng-goes-to-tokyo/>

<https://www.scmp.com/week-asia/opinion/article/2175446/forget-texas-china-came-out-when-deng-tipped-his-hat-japan>

The US, as always, always claim they are the one that helped China grow, just like how they joined in WW1 and WW2 near the tail end when most of the fighting and dying were already going on but always boast they saved Europe and Asia (which is incorrect, since it was Russia and China that won WW2).

@showmethereal

Great history lesson for that poster. And yes it was those rabid capitalist ethnic Chinese in Indonesia – and Thailand and Malaysia and Singapore and the Philippines who – after Hong Kong and Taiwan – were the ones who put the money up to industrialize the PRC when it opened up. It wasn't the US as is falsely reported in the west. The US money was even after Korea and Japan and Germany – in that order who were all after the overseas Chinese.

US investments were scarce. I remember reading in Western media back then about how the West were not investing in China and it will be hard for China to climb out of poverty. After China started to do well, the West was complaining about how China was not letting their companies in. Well, if they invested in China back then, they would have been well entrenched in the Chinese market. It doesn't help when China was locked out of scientific, research and technology collaboration which made China to implement its technology transfer policy for companies wanting a slice of the Chinese market.

As mentioned in my previous post, the Southeast Asian Chinese diaspora for centuries has the highest collective GDP/capita in the world by a huge margin. The Brits tried to break it, didn't work, the Americans tried, brutally, didn't work.

You have to 'transfer' your technology when operating a plant in a foreign country, otherwise production is not possible. And you have to have a native work-force who are trained in that technology. Thereafter shop-floor innovation, once a strength of the US economy, kicks in. 'Forced' technology transfer is yet another moronic, racist, Yankee lie.

The Russian Oligarchy has close ties to the UK, including Putin's inner circle. Where do you think Putin and his cronies stash their wealth outside of Russia? How on Earth did hundreds of billions of dollars worth of Russian gold end up in the City of London? Far from being anti-Russian, the British Globalist Elites don't want to stop the flow of Russian monies into the UK. Much of the anti-Russian antics are of course the work of MI6, in cahoots with the US Deep State. Same situation in the EU, with European Globalist Elites who wish to continue their lucrative business in Russia, despite pressure from the U.S. Deep State.

China had excellent ties to the UK, Canada and Australia, prior to the Huawei ban, the kidnapping of Meng Wanzhou and the establishment of AUKUS. The U.S. Deep State is the culprit behind all the disruptions between China's relationships with all three Anglophone countries. My guess is that the Yanks saw the writing on the wall and freaked out after China became too close to their Anglo-Saxon cousins. Same situation in the EU, with the U.S. Deep State sabotaging China's investment treaty with the EU and blowing up the NordStream pipelines between Germany and Russia. Both deals would have cemented the role of the Euro in the EU-China-Russia triad, thereby undermining the Petrodollar without which the USA would cease to be an Empire.

This historical period is a manifestation of the U.S. Empire in extremis, with the Yanks in the US Deep State unwilling to accept this reality, suffering from their own imperial hubris. Notice that I didn't mention the Jews who couldn't care less about the demise of the U.S. Empire, as they await to devour whatever remains of its diseased body like vultures encircling a dying Beast.

Researchers without an agenda have written that Galileans were Celtic converts. Supposedly that was one of the reasons he was rejected by the leaders of the Jews. The Jews of the time were only one tribe of Israel. The lost tribes of Israel represent the scattered descendants of the lost tribes. Many have theorized the lost tribes are the nations of Europe.

The U.S. Deep State orchestrated BREXIT to split the UK from the EU

False.

I always have the suspicion that Brexit was in the works for quite a while. Since 2014 after Crimea became a Russian oblast. In 2016, the Brexit referendum passed.

Once UK decoupled from EU, the decapitation of Germany-Russia starts. Ukraine being the perfect proxy was thought to be the perfect cannon fodder to eff up Russia. Boy, how it backfired.

These new generation neocons are not that smart. When you strategize based on ideology instead of realpolitik, all you got are just ideological “victories”. You can’t eat ideological victories. You can’t build more tanks and win wars on ideological wishful thinking.

IMHO, The Chinese diaspora is more similar to the Jews. Both are displaced and became market dominant minorities. Both are family-centric, high IQ, adhere to tradition, frugal, save for rainy days, delayed gratification, savvy business people, educated, multicultural, value education and affluent.

Chinese in China may have some those qualities but they are not like the Jews/Overseas Chinese. More like the Brits.

Administrative but without the expansionist tendencies. One of the reasons why there is a Chinese “Diaspora”.

Blah blah blah.

Ancient Chinese civilization is a copy of ancient White men's Civilization.

Modern Chinese technology an inferior copy of of White men's technology.

Chinese defense minister bragged to a vast audience of smiling laughing happy Chink leaders how they are going to genocide the white race and take our lands (no doubt genociding all the blacks and browns the Jews have already pushed onto us in passing), then take them for Chinese billions to rule the world.

Raping Russians want to exploit and build on genocidal jew lies of the myth of german (i.e. white folks), evil in world war jew point 2 and the holy-hoax, to reprise their backstabbing, murdering, thieving raping behavior of the 30's 40's 50's etc.

You losers (i.e. those white people who actually believe the Pro-Raper and Pro-Panda information warfare), pay attention:

The rapers and chinks are NOT going to save you, they are trying to use the weakness caused by the parasitism of the Jews to genocide you.

They don't fight the jews, they don't correct jew lies, they re-inforce jew lies so they can try to exploit them as they cooperate with the jews to the extent of genociding the white race while hoping to twist the end game so that they (the Rapers or the Han-gemonists — take your pick), come out on top of the white free shithole of whatever is left of the world.

NOBODY is going to save you but yourselves.

(Especially not the Raping Russians or the Avowidly genocidal Panda-Hans — why are you so stupid?)

Your only chance is to organize under loyal white leadership and give all enemies (Jews and their non-white invader pets, Raping Russians, and Genocidal Chinks — exactly what an enemy deserves).

Why are you so lazy? You think you can let others save you (Zog / Rapers / the Han) — no they all hate you and want you dead, they all lie and blame white people for the ills of the world when the fact is white people are the light of the world (who invented 97 percent of everything and at least half of the remaining 3 percent in Antiquity).

White people you are the best race on this planet by far, the rest are all essentially cultural, spiritual, and technological parasites on the achievements of our race.

Our flaw is that instead of being hateful and genocidal like Chinese, Jews, the Jew-degenerated Russians, Blacks, and the other non-white races, we were betrayed by the parasites and our shabbos rulers into letting the Jews have nukes (which they gave to Russians and the Chinese), and all the other things — now including our women and our land.

We thought they were all like us, kind and fair, they are not like us — they will exterminate us then bitch as they go down to their decline that we are not there to give them new culture / technology / etc.

White people you have to face the truth, you have to save yourselves.

We have to get the parasite off our necks then put all these opportunistic, parasitical, hostile, jew-serving / jew-cooperating races in their places: Outside our borders and outside of our kindness, charity, or any share in our technology and advances forever — it is too late to take everything back from them:

Civilization, Nukes, Technology, Electricity, Running water, etc., but we can save ourselves resume our upward path to higher destiny, and leave them to live or die as they may.

But this whole thing of aligning with foes who openly boast of their desire to genocide our race is just incredible.

Stop betraying your race, stop believing Raper, Chink, or Jew lies, and serve your own race!

Save your own race.

Not only is it that nobody else will, but that the others (like Russians & Han-gemonists, Black, and even those ungrateful Indians, relish the thought of your dispossession and genocide and their participation in it.)

We loyal whites WILL save our race.

But what will you traitor whites be to us?

You should think about that.

The UK was America's trojan horse in the EU. There was no reason for the USA to want to remove UK because having the UK in the EU gave them a lot more leverage over Europe as a whole. The poster "antibeast" is making the mistake of viewing the UK is a separate entity from the USA. All of the anglosphere is a single political entity.

| These new generation neocons are not that smart.

I think it may be the opposite. The older neocons are the ones who have driven China and Russia together. These are the ones like Robert Kagan that you typically think of when thinking of classic neocons. The other faction wanted to use a divide and conquer strategy and work with Russia (or at least keep Russia neutral) to focus on taking down China first. They are more associated with MAGA and "American nationalism." These are the ones like Claremont Institute, Peter Thiel, Yoram Hazony, Steve Bannon, etc.

If you don't think Americans are flocking to the East maybe check out the YouTube channel " Katherine's Journey to the East" where a blue eyed American woman who isn't fat seems very happy to live in a 4th tier Chinese city.

In reality anyone who is male and can afford it and is under fifty is flocking to the East. East Asia is the global region with the lowest percentage of people who want to leave.

If 10% of the US population wants to go to China, and 3% of Chinese want to go to the USA, there would still be more Chinese who want to go to America than vice versa, that's just math.

Regarding the funny picture of the small girl with hands clasped asking the Red Guard, “Please uncle, don’t let the parasites come in and destroy our 5000 year civilization,” it has always struck me how the modern Chinese Communist Party has managed to take Maoism—which was totally opposed to China’s 5000 year civilization—and turn it into something that defends “Chinese-ness” (conceptualized as something contiguous with the past). I mean, shouldn’t the small girl be talking to a Kuomintang soldier and the parasites be regarded as the (very western) Marxists?

Bro, how about let's keep apart, West is West, and East is East. You mind your business; we mind our own business. You can claim whatever you want. If you move an inch across the separation line, we shoot your axx off. If you want anything from us, pay in gold. Are you happy now?

It's hard to understand why the White is a such lousy sour loser, they cling on nostalgia like a sinking man clinging to a straw. If the White wants to continue to be respected, they have to do what the Chinese have been doing, bite the bullet and pick up themselves up and work hard, use achievements to show they are superior.

Using lies, fabricated history, manufactured consents, and fairy tales won't arrest whites' decline and make their failure goes away. It seems the White has forgotten their own saying "respect has to be earned, not given." When the current generations of White can't have the cake and eat it too, they are waning like a spoiled baby.

Nah it sounds like the people you are referring to indeed had an agenda. Please explain how the Celtic people got to the Levant... Well if you trust what the bible said it was clear the northern tribes were broken up and scattered throughout the Assyrian lands – and people from other parts of the Assyrian empire were settled there. But if you accept Him as Messiah then He had to be from the stock of David and be born in Bethlehem of Judah. As to the “lost tribes” ... Well by the time the Persians ruled it says pretty clearly in the bible that they were scattered from Ethiopia to India. Further by the time of the apostles when all the scattered people went to Jerusalem they were said to be from all directions... yes some “Greeks” ... but most were listed as being from the Levant – Arabian peninsula – western asia and northern Africa...

You actually make a good point. But that's why the CPC changed it's tactics a couple of decades ago. Now it is called "Socialism with Chinese characteristics". In order to in effect show itself has having the "mandate of heaven" it had to re-brand. Yes for a long time Taiwan was being called "the real China" as the mainland flirted with communism. In order to win over the Overseas Chinese and to reconcile with Hong Kong – Macau – and Taiwan – the party had to re-brand itself as the protector of Chinese culture. Things that were banned like Dragon Boat Festivals – now get government support. Even Zen Buddhism and Taoism get promoted by the "atheist" government as intangible parts of Chinese culture. The atheist CPC paid to rebuild religious structures destroyed during the Cultural Revolution. "Tomb sweeping" which is basically like ancestor worship – is promoted as a holiday. Atheists aren't supposed to believe in that – but they realize Chinese culture was too strong to wipe out with Lenin...

“The U.S. Deep State orchestrated BREXIT to split the UK from the EU”

Seems unlikely to me – didn’t Obama actually weigh in on the side of Remain, or was that all part of the Cunning Plan?

My recollection was that both Brexit and Trump came as YUGE shocks to the relevant Deep States (I knew Leave had won the moment I turned on BBC radio – the studio mood was so downbeat and gloomy, as if the Queen had died) – and as we’ve seen with Biden’s massive vote total, they rapidly moved to ensure that such a thing could never happen again.

This comment of mine relates to what you posted in Larry Romanoff's latest UR article titled 'The Jews Were Busy in the 1930s'.

I am unable to reply to your comment in Larry Romanoff's thread because he banned me many months ago. (He's a bit of a thin skinned Marxist/Maoist and was none too pleased when I regularly eviscerated him on economic matters – a discipline that he's clueless about).

Anyway, I noticed that he inferred you were a hasbara troll, simply because you disagreed with him in relation to the matter of U.S gold coins that were not returned to the USG under FDR's directive in the 1930's.

As a numismatist myself, I can confirm that you were absolutely correct when you stated that coin collectors were indeed allowed to keep gold coins that were deemed to have numismatic value. In addition to that, it appears that the vast bulk of bullion value gold coins were not handed in to the USG after all, and remained in the hands of investors.

For certain the government would have known that the majority of these gold coins were still in private hands and yet, to the best of my knowledge, made no substantial effort to retrieve them or raid people's homes to locate them.

So my congratulations to you for speaking the truth and sticking to your guns.

You may end up getting banned like me eventually if you post comments that run counter to Larry's narrative (he insists that only yes men and women can comment in his threads).

But better to get banned standing on your feet in proud defiance of Romanoff, than remain there on your knees.

The way the U.S. Deep State is treating the UK and EU nations like some Latin American-style ‘banana republics’ makes me think the Yanks were behind BREXIT which was bad for both the UK and the EU. That the EU has become a ‘peer competitor’ to the USA is anathema to the Yanks in the U.S. Deep State who are keen to preserve Anglo-American hegemony over Europe, at all costs, including fomenting the Ukraine Crisis and sabotaging the EU-Russian entente. If the US Deep State were to apply the ‘Monroe Doctrine’ to Europe, then expect the Yanks to foment more anti-EU movements which would eventually lead to more EUXIT events, thereby weakening the EU further, just as BREXIT did. This is the classic ‘divide-and-conquer’ strategy of Anglo-American Imperialism which seems intent on destroying the EU and its Euro currency.

The Celts (or Gallic peoples),originated somewhere in Asia minor. When they spread out conquering and settling, some ended up in the Mediterranean region. Let's not forget that Brennus conquered Rome in 390 BC. Long after the Assyrians conquered Palestine. There's no evidence the lost tribes settled in Assyria. The people of Galilee were written about as having light or reddish hair and blue eyes, making them resemble Celts more than Semites.

Jesus was a descendant of David through his "legal" father, Joseph. Christians believe Jesus was conceived through the Holy Spirit so he wouldn't actually have Joseph's DNA. Because many of the tribe of Judah remained loyal to the One True God, they were given the honor of having the Son of God go to them first. Christianity then spread quickly to the lost tribes in Europe. How else to explain the fast conversion to the new religion and sudden rise of the Europeans?

The Monroe Doctrine is indeed ironic. Makes me shake my head when I read some of the racial comments on Unz. Americans did NOT want to be Europeans. They distinctly wanted to escape the problems of Europe. The Monroe Doctrine was indeed to keep Europe out of the Americas. They weren't worried about other groups trying to conquer. Even domestically – Immigration quotas were by the part of Europe you were from. Then After WW1 and 2 Europe was again seen as the cause of world problems. Bretton Woods and the building back of Europe was all about keeping Europe under the U.S. boot heel. NATO was another tool to do so as well. Above all else after WW2 it was all about the 5 Eyes Anglo alliance. Everyone else was a notch below. Hey part of the reason they dislike Russians so much is because the Mongols once ruled Russia. So Russians are “tainted”. But one thing for sure – you are correct that the Euro “cannot be allowed” to challenge US supremacy. If the Euro gets too big it gets Nordstream 2 treatment

From the way the Yanks maltreated Latin America ever since the ‘Monroe Doctrine’ sought to cement Anglo-American hegemony in the Western Hemisphere, one can’t help but feel a sense of *déjà vu* witnessing Europe get the same treatment today. If the Europeans don’t get their act together, then they’ll end up suffering the same fate as the ‘banana republics’ in Latin America. Just look at the State of the UK and how abysmal their politics post-BREXIT which forced the British to become servile agents of old-fashioned Anglo-American Imperialism in Europe. After leaving the EU, the UK has now turned into a Latin American-style ‘banana republic’ subservient to Anglo-America which is the fate awaiting all of Europe.

Racist crap and lies from an Anglosphere propaganda sewer. If the Chinese didn’t make the fentanyl, someone else would, or the pathetic detritus of the US underclass would find some other way to kill themselves. As for toxic products, they were remedied by the Chinese manufacturers. Do you not know of the poisonous substances produced by the West, like tobacco, forced on the world by US bullying in trade ‘negotiations’, including prohibitions on public health campaigns? No sign or remedial action there.

When the West and Japan were occupying parts of China, China was still stuck in the 16th century. Even then, they couldn't take China down, what make them think they can "take China down" when China is almost at peer in technology, more cohesive and forward looking.

A war with big power is a war of attrition. Not "special ops" the US is used to. China has enough manpower and the industrial capacity to outlast anything the West can throw at it.

You are correct. That's why they hate China so much. They were able to steal pieces of China – but they could never subjugate all of China. Even the silly analysts talking about Taiwan. China was dirt poor when the Korean War happened. There was no way China was going to allow the US to camp out at the Chinese border. If they think China would give up Taiwan – they are out of their minds.

But what you said also applies to Russia as I have learned in the past few years. Part of the Russian psyche goes all the way back to the days when Napoleon invaded Russia. All the way up to Hitler and then the Cold War. That is why the Russian mind functions how it does. I get it.

1. My sources appear to disagree with yours. Oh well.

2. Christianity was preached everywhere but took root in those of European blood. I can see the logic of those historians claiming that Europeans are the “Lost Tribes” Jesus said he came to save. Some members of the lost tribes may have travelled to other regions, and they also feel the call. It fits neatly into the Gospel that says many are called but few chosen. Christianity became an ingrained part of the Caucasian race, from Rome to Germany to Russia to Scandanavia. I’m not sure it was because the State imposed it. There seems to be more to it, at least to me.

Obviously, we’re never going to agree on this subject, and that’s okay. There’s a lot of research out there on the theory I’ve put forward here. A major group was called the British Israelite movement. Some of their research is actually very convincing. Other European researchers have reached similar conclusions. In today’s political climate, most research has been stifled. It’s interesting stuff anyway, if you’re interested in looking into it.

| Please explain how the Celtic people got to the Levant

They did get to Anatolia. The Galatians were a Celtic people dwelling in Galatia, a region of central Anatolia surrounding present-day Ankara, during the Hellenistic period. They spoke the Galatian language, which was closely related to Gaulish, a contemporary Celtic language spoken in Gaul.

The Galatians were descended from Celts who had invaded Greece in the 3rd century BC. The original settlers of Galatia came through Thrace under the leadership of Leogarios and Leonnorios c. 278 BC. They consisted mainly of three Gaulish peoples, the Tectosages, the Trocmii, and the Tolistobogii, but there were also other minor tribes. In 25 BC, Galatia became a province of the Roman Empire, with Ankara (Ancyra) as its capital.

Every single step in the deterioration of Western-Chinese relations was instigated by the Anglosphere ‘Five Eyes’ racist, colonialist, genocidal States, latterly joined by the captive elites of Europe. This is a race and civilizational war initiated by the West, and if you watch Western MSM propaganda, it is plainly driven by psychopathic rage and hatred directed at China. One only has to see Naomi Wolf, a supposed ‘liberal’ on Dr. Drew, raving incoherently at China, to see that the poison of race hatred is running like venom throughout the West.

Methinks it's the Yanks in the US Deep State who are organizing the anti-China coalitions such as the QUAD, AUKUS, US-PH EDCA, etc. in order to 'contain' China. The Yanks tried but failed to provoke Xi in the Spratly Islands dispute with the Philippines (which was shelved by Duterte), tried but failed to provoke Xi in the HK riots and are now trying to provoke Xi by instigating a potential Taiwan Crisis similar to Ukraine. Their latest move to prepare for a possible U.S. military conflict with China over Taiwan is to expedite the building of US military bases in the Philippines. But that only goes to show how desperate the Yanks really are after Duterte nixed the US-PH EDCA deal which is now being shoved down the throat of Marcos, Jr. who has turned out to be nothing more than a US puppet just like his father. If the KMT wins in next year's Presidential Elections in Taiwan, then all bets are off. By that time, it won't matter how many US military bases gets built in the Philippines under the U.S.-PH EDCA deal which was nixed by Duterte, assuming they're even built at all, because then they'll be a case of 'too little, too late'.

Zhong Guo:

– first states formed/Mandate of Heaven (aka “The Universe”) concept by 3,000 BC, fully formed identity by 2,500 BC.

– Massive immigration and genetic mixing from the nomadic regions – Hsiung Nu, Huns, Turkics, Tibetans, Mongols (a LOT of Mongols), Manchus – no effect on core Chinese identity. Han migration south of the Yangtze river – no effect again. China, beaten down and humiliated by the West, by Japan and yes, even by old Imperial Czarist Russia – still no effect.

Communist Party of China

– founded 1921.

– the latest and current form of the Chinese State.

– they have the “Mandate” because they serve China, and arose from the Chinese people.

The CPC – the government of the present and foreseeable future.

China itself – Eternal.

Of course there is research. I'm sure I can guess the background of who they are as well. In a race obsessed world it matters but none of it matches the biblical record. I mean again during Purim it specifically says the Israelites were scattered from Ethiopia all the way to India. I don't even get what the controversy is....

Will those who are obsessed with race be among those of "every tribe every tongue every nation" who will be in the midst of worship as record in "the revelation"?

A KMT delegation is on mainland China right now talking peace and getting more benefits for Taiwanese on the mainland. They are going to all the major cities and even met with the Taiwan Affairs Office. I didn't see the interview but the press release says both sides talked about upholding the 1992 Consensus and are against Taiwan independence. It was just announced all Taiwanese can get healthcare if they work on the mainland now. So of course the State Dept and CIA will be working with the DPP to stir up something else to try to help the DPP win like they did the HK riots the last time.

Mostly true – but not exactly or totally true. Part of Sun Yat Sen Nationalists party was to push out foreign influence in China – even while having political reform. So when the civil war split happened many Chinese overseas supported the KMT because they felt the CPC was destroying Chinese culture. Everyone was happy the Japanese and westerners were pushed out – but upset about parts of Chinese culture being suppressed by the communists. The CPC first reformed economically to entice Overseas Chinese to take part in China’s revival- but then it had to culturally as well.

The DPP is much more in bed with the Japs than with the Yanks while the KMT has close and long-standing ties to the U.S. Deep State dating back to the Cold War days since Chiang fled to Taiwan after losing the Chinese Civil War to Mao. All this talk of so-called ‘Taiwanese Independence’ by the anti-China DPP was opposed by the pro-China KMT after the Cold War ended with the collapse of the USSR. The genesis of the so-called ‘Taiwanese Independence’ movement came from Taiwanese colonial elites such as Lee Teng-hui who became pro-Japanese during the Japanese colonial period. The Taiwanese Independence mantra coming from the DPP is just a thinly-disguised pro-Japan propaganda invented by Taiwanese colonial elites like Lee Teng-hui who collaborated with the Japanese during the Japanese colonial period. Their agenda was never about ‘democracy’ but about becoming a neo-colony of Japan as promoted by Lee Teng-hui himself. The pro-China ideology of the KMT was never about ‘democracy’ either but about Chinese nationalism which opposed both Soviet communism and their erstwhile allies, the Chinese Communists. By the way, the English translation of 中國國民黨 is ‘Chinese Nationalist Party’ which is the full name of the KMT which fought the Japanese during the Second Sino-Japanese War. With China under Deng having adopted Chinese capitalism and China under Xi having adopted Chinese nationalism, the ideological differences between mainland China and Taiwan have largely disappeared.

The DPP lost heavily in the last elections for local offices in Taiwan. If the KMT wins in next year’s Presidential Elections in Taiwan, then the China-Taiwan cross-straits talks for peaceful reunification will most likely resume in earnest, marking the demise of the so-called ‘Taiwanese Independence’ movement, once and for all.
