EE.UU. admite que ha formado a líderes golpistas en África

Matt Gaetz, congresista republicano interrogó este jueves al general Michael Langley, jefe del Comando de EEUU, en África, sobre soldados africanos que entrenó EEUU, y luego dieron golpes de Estado.

Matt Gaetz plácl toho jive krocana jako polního otroka!

Ten chlapec opustil kongres s nutkáním jít si vybrat bavlnu...!

[RT](#) :

Generál Michael Langley, šéf amerického AFRICOM, zřejmě připustil, že „základní hodnoty Pentagonu“, vštípené desítkám tisíc afrických vojenských důstojníků, jsou slučitelné se zinscenováním převratů, když ho republikán Matt Grilloval během slyšení ve výboru pro ozbrojené složky Sněmovny reprezentantů. Gaetz (Florida) ve čtvrtek. Zpočátku nebyl Langley schopen poskytnout „ballpark“ údaj o tom, kolik afrických důstojníků vycvičených v USA provedlo převraty, ale tvrdil, že to bylo „méně než jedno procento“, což připisuje mezinárodnímu vojenskému vzdělávacímu a výcvikovému programu Pentagonu, který klade důraz na civilní správu a řízení. zastupitelská demokracie. Gaetz s odkazem na článek Intercept, který odhaluje, že důstojníci vycvičení v USA provedli od roku 2008 nejméně osm úspěšných převratů jen v západní Africe, se zeptal, zda „základní hodnoty“ vštípené do tohoto učebního plánu jsou slučitelné s absolventem programu plukovníkem Mamady Doumbouya, který svrhl Guinejský svaz vlády, zatímco jeho jednotka byla v září 2021 ve výcviku s americkými Zelenými barety.

Langley odpověděl kladně a trval na tom, že „základní hodnoty“ „respekt k civilní správě, apolitické“ jsou „to, co se drží velmi vysokého procenta“ stážístů.

"Kolik vlád musí být svrženo lidmi, které vycvičíme, než dostanete zprávu, že naše základní hodnoty nemusí být u každého?" zeptal se Gaetz a ptal se, proč by se americké dolary z daní měly utrácet za školení afrických vojenských důstojníků, aby svrhli jejich vlády. "Myslím, že bychom měli alespoň vědět, v kolika zemích cvičíme pučisty," řekl.

To zjevně není žádné velké odhalení.

USA financují revoluční teroristy po celém světě, aby svrhli vlády.

Nedávno:

- Násilné svržení zvolené vlády na Ukrajině
- Teroristické povstání v Hong Kongu
- Teroristické „protesty“ v Bělorusku
- Teroristické aktivity v Barmě a Thajsku
- Teroristické povstání (vaginální) v Íránu
- Teroristické nepokoje v Gruzii

A před tím jste měli Arabské jaro, což bylo první velké povstání CIA/NED pro mobily/sociální média.

Na světě neexistuje žádná země, která by neměla skupinu radikálů financovanou vládou USA, připravenou povstat, když nastane správný čas.

Myšlenka zní: proč vtrhnout do země, abyste sesadili vedení, když můžete přimět jejich vlastní rolníky, aby to udělali za vás, s použitím trochu osvědčené psychologické manipulace?

Spojené státy jsou rakovinou na Zemi.

Před těmito lidmi není nikdo na světě v bezpečí a oni prostě nikoho nenechají na pokoji. Američané chtějí přijít do vaší země a donutit vás k análnímu sexu s muži – včetně *fistingu* a dokonce i *double fistingu* .

Samozřejmě budou podporovat islámské teroristy v arabském světě nebo evangelikální kultisty v Číně, pokud budou proti současné vládě, ale nakonec se chtějí pohybovat v gay sexu.

Jeden Národ Svět, pod řitním otvorem

Podívejte se na mapu: žádná země, která není v souladu s USA, nevisí pod anální vlajkou. Každá země, která je spojena s USA, vyvěšuje tuto vlajku.

Thousands march for LGBT equality in Polish capital

Story by Reuters

Published 3:57 AM EDT, Sun June 20, 2021

Pro Poláky je to malá cena za pomstu Rusku

První věc, kterou USA udělaly, když převzaly Ukrajinu, bylo, že začaly házet gay anální „pride“ přehlídky...!

There are of course strategic reasons for this. The people planning the policy don't say "we're doing this for Satan." The short explanation for the strategy is that they want to integrate these countries into the American system of "values" in order that these countries will first be loyal to Creepy Uncle Sam, and then simply dissolve completely into the mixed multitude of the empire (i.e., lose all national, cultural, religious identity and serve only democracy).

No one who believes in gay sex believes in anything else. Period. It is a totalitarian ideology, in that it is simply not compatible with any other tradition or mode of thought. From Christianity to communism, no belief system is capable of lining up with the celebration of homosexuality. By design, this eliminates everything from a person's life, all forms of meaning, all morality, all *values* and leaves them with only submission to the empire.

You cannot even have an interesting conversation with someone who believes in gay sex. They have nothing going on other than looking for money and sex and consuming corporate entertainment products. They are hollowed-out shells, and this is by design.

Perhaps more importantly, the anal agenda is a loyalty test for these nations, and a sign of submission.

No one anywhere on earth was celebrating gay anal sex a couple decades ago. The word “gay” didn’t exist in this context, and homosexuals were universally regarded as mentally ill. The US normalized gay anal, and then started promoting it as a positive good, then went around the world forcing others to promote it.

The US now sanctions countries that don’t have enough gay sex. Part of the split with Saudi Arabia – and this is real – stemmed from the fact that the US government kept sending people to lecture them on how they needed to start having gay sex with each other.

It’s fundamentally different than say, women’s rights. I obviously disagree with both, and in practical terms, women’s rights were more damaging, But since technology took over domestic life, women have become more involved in public life without anyone promoting anything, so the core concept of women’s rights is at least something that people have thought about on some level, and in theory (though not in practice), women can have expanded roles in the modern world and this does not necessarily, in itself, undermine traditional systems of belief (even Iran allows women in university). But

imagine being in Africa and these Americans come to you and say “we’re going to need you to start licking and fisting each other’s assholes – or else.”

This isn’t something where you reach a common ground. It’s an either/or proposition. You don’t say “okay we’ll allow licking but strictly no fisting.” It’s also not something that maybe could make some sense in the way that having expanded roles for women could make some sense (in theory). This is foreigners coming to your country and demanding that you throw out all of your sacred beliefs, morals, and values, because they told you to do so. You either do it, or you don’t. If you do it, you have prostrated yourself in total, abandoning everything about your identity in service of Creepy Uncle Sam.

It would be strange and confusing if the countries allied with the US all flew the US flag (although their terrorists often do wave that flag – see Hong Kong, Georgia, etc.). Flying a flag of a foreign nation implies that you are being militarily occupied by that country, and though this is the case in Germany, Japan, and Korea, it’s not the case across the empire. Instead, they fly a flag that says their souls are dominated by the US government. The rainbow flag shows that they don’t need to be physically occupied, because they have agreed to submit to the most disgusting of all behaviors: gay anal, a sin that cries out to Heaven for vengeance.

The countries that do not fly the rainbow flag are countries that have decided to keep their identity, their heritage, their morality, their religion. The ones that fly the rainbow have put their souls on a platter, offering them up for whatever the US wants to do with them.

The only truly interesting thing to say about China is this: if they wanted to, they could collapse USG instantly, with the following strategy: “Fuck our central bank, we on BTC now.” If the transition was handled deftly, a not particularly challenging prospect, it would boost the hell out of their economy, rather than causing a crash. Although the government would have to cut way back. (This polarity is not a coincidence.)

You can also technologically take down Hollywood using a small team of programmers. The only reason I haven't already done this is because I doubt Putin would agree to protect me from being Assange'd, assuming I can even get a meeting with him. Someone would tell Hillary I have evidence that could lead to her arrest, and then...

The US normalized gay anal, and then started promoting it as a positive good, then went around the world forcing others to promote it

I think if you do enough research, you'll find that Britain started this and exported it to their Luca Brasi (the U.S.) and the other Anglosphere countries where it is now a religion.

David Cameron got the ball rolling with Uganda in 2011, warning them about foreign aid being cut if anal fisting wasn't legalized and promoted.

In fact, U.S. evangelical groups operating in Africa have long been accused of *spreading* homophobia. Who accused them of this? The English media.

Of course, U.S. liberals copy everything the English do. And here we are.

Question – is it possible that the uprising of the secular Jews of Israel against the Netanyahu regime and his ultra religious allies is being promoted and possibly controlled by the US deep state? It seems to me that if this were going on in any country other than Israel, it would obviously be a color revolution and we'd be looking for the hand of such neocons as Victoria Nuland. Leave out the complicating factor of another incipient Palestinian intifada and the feminist angle and this is no different from what has gone on recently in Iran. You have a secularized “coup from the streets” trying to overthrow a religious government. Note also that the Jewish establishment in the US is thoroughly secular. Not that they too do not favor the expulsion of all gentiles from “greater” Israel. They just want to pretend that all they are doing is fighting terrorism in the name of democracy, not imposing the strictest version of Judaism on the whole Jewish state.

Promoting perpetual war is a coalition of groups that benefit from that. Leading the way is the Military-Industrial Complex. Many people make a very good living from that and don't want the gravy train to end. Joining the MIC in the coalition are various ethnic groups who want the U.S. Military to join them in ancient ethnic feuds. For example, my Ukrainian American Congressional representative Victoria Spartz is an ardent advocate of military assistance to the Ukraine. Her Indiana constituents like me receive no benefit from this.

Joining as junior partners are various other groups. The woke left, including the gay lobby, has joined. This started with "don't ask, don't tell" in the nineties then moving on to allowing gays to serve openly in 2011 to announcing in 2021 the DoD is on board with promoting and protecting gay rights around the world. The DoD also supports the concept of "diversity is our strength" and is aggressively adopting affirmative action.

The DoD also joined hands with Big Pharma by mandating all employees, both military and civilian, be forced to receive the Covid vaccines. Anyone who didn't comply was threatened with termination. This requirement was only dropped when it became too obvious the vaccine didn't stop transmission of the disease and the DMED database tracking the health of military members showed a jump in health problems after the forced vaccinations.

And what was the counter-demonstration like?

We don't know. Here in my podunk Oregon town, the local media made a big deal out of the twenty or so virtue-signalers from some 'progressive' church or something who turned out with 'Black Lives Matter' signs. Really. Twenty demonstrators and it got coverage.

The (literally) hundreds of counter-demonstrators who were there the next week?

Nothing. Nothing at all. Our town supports Black Lives Matter. Of course it does. Look at the news reports.

... “Looking again at the question of finance, the name Olof Aschberg, owner of the Nya Banken in Stockholm, Sweden, comes into the picture. Some of his activities were described in an autobiography, entitled *A Wandering Jew From Glasbruks Street*. Olof, self-described as “the Bolshevik Banker,” laundered huge sums raised by financiers in Europe and America, prior to being smuggled to Trotsky via Finland.

That Trotsky was in a position to receive those funds in Russia was largely due to American President Woodrow Wilson. Wilson’s biographer, Jennings C. Wise, in his book *Woodrow Wilson: Disciple of Revolution*, wrote the following: “History must never forget that Woodrow Wilson, despite the efforts of the British police, made it possible for Leon Trotsky to enter Russia with an American passport.” It is a reference to the fact that when Trotsky embarked from New York on March 16, 1917, heading for Russia, he and his party were arrested by British authorities at Halifax, Nova Scotia, but released when the American administration intervened with the British government.”

BTC cannot handle the traffic with only a capability of processing 7 transactions per second. As more people try to use BTC the fees skyrocket (the same is true with with ETH). Back in 2017 fees got as high as \$50.00 per transactions. Because BTC cannot scale nor any other crypto currency can scale (the best that XRP can do is 100 tx/sec on a consistent basis, and neither can Solana scale nor is it reliable) the only platform that works is the original Bitcoin platform which operates under the BSV ticker. BTC is not Bitcoin.

‘Whether a podunk Oregon town or a big city, the scam is the same, it’s just on a different scale. The media is aimed at those who are unable to think for themselves. Unfortunately, that number appears to be growing exponentially every year.’

People never ‘think for themselves.’ Or, to be fairer, we are all too busy with our own concerns to question *everything*. Does it *really* get colder in the winter because the earth is tilted away from the sun? Well, it sounds reasonable, so I accept it. I don’t look deeply into the science of how heat could come to be transmitted across a vacuum, etc. I just buy it.

There’s not enough *time* to question everything. The difference is that in the past, conventional wisdom was, if not perfect, at least functional. Yes, children should do as their parents say. Just say the frigging Pledge of Allegiance. It won’t kill you, and it really does work better than the alternative. Even if you wanted to rebel, you could pick and choose. This, in particular, I have thought about, and I won’t do. The rest? I’ll just buy it.

Etc. Now? Conventional wisdom is sheer insanity. We all have to decide *everything* for ourselves — and I suspect that collectively, we’re not up to it. The stuff I hear ordinary people spewing these days is sheer nutjobbery. Angela Merkel was Hitler’s love child was the latest gem I picked up.

Well, hell. The speaker at least knows she’s being lied to. So she rolled her own — but this is what we get.

We had some BLM rally in a few towns over and there were like 5 people but it still made state news.

All these Fox News watchers seem obsessed with gay pride parades as if they happen all the time.

I used to live in a liberal city and the main drag didn't have a single gay bar. On television it appears that every US city is 50% gay.

But more importantly a single picture doesn't tell us about the morality of a country. Stats about abortion are more indicative.

Russia has the highest abortion rate in the world and Poland has one of the lowest in Europe:

<https://worldpopulationreview.com/country-rankings/abortion-rates-by-country>

Poland is a model for both Russia and the US. Unlike Russia and most of Europe they have positive population growth. Russian Slavs have been in population decline since 1991. The Russian Muslims have the highest growth rate and Putin thinks all of this is just swell. He could end abortion at any time but he isn't actually Orthodox as he pretends for the cameras. Putin openly praised Muslim values last year.

Well, if you think the Saudis don't get enough gaynal sex you are sadly mistaken. Young Saudi boys are pin cushions for pious muslims who dare not commit adultery. They are used, and many of them are obligated to get buggered by creepy old muzzles until they are adults, or mid to late teens. In fact, hot young western teachers or business men are often propositioned and offered a briefcase full of cash to get their butts worked on by the Princes in the royal families. (the Al Sauds and Al a Shaiks)

In Burma, it's a whole nuther ballgame. A few years ago the US Ambasaador's (Scott Marical) main mission was to promote gay trans rights and gay sex all over Myanmar (previously called Burma). Haf the men working in the embassy were gay. I guess that's why that persistent fart smell permeated the building.

When the recent military coup happened in 2021, people rose up and marched and protested with gay flags galore. Even in tiny remote villages far from civilization, Marical's efforts were displayed with fags marching over dirt paths enclosed by jungle vegetation with their gay flags proudly ahead of the crowd.

But you are correct, teaching people all over the world how to be gay is what passes for diplomacy these days. WTF?

I don't support celebrating homosexuality but I also don't support following weird Jewish rules as if they are handed down from God.

Leviticus 15:19-23

'When a woman has a discharge, if her discharge in her body is blood, she shall continue in her menstrual impurity for seven days; and whoever touches her shall be unclean until evening.'

These are rules for Jews and not Europeans. If you believe in following them then at least be consistent and don't eat shellfish or pork.

I thought it was just a running joke, but I found out gays really do like fisting. And even worse things.

Homosexuality is somewhat of a misnomer. It is not simply regular sexuality applied to people of the same sex instead of male-female. Perhaps a more correct name would be hypersexuality.

We all know that the US government promotes everything gay, but Anglin goes too far and rubs our noses in it in almost every article, going into great detail about the mechanics of it. To most straight people, homosexual sex is repulsive. You can be against something without being reminded on a daily basis what it's all about. I wish Anglin would just tone down the graphic descriptions, he's pretty well preaching to the choir here.

I suspect (but I am not 100% sure) that there is some universal common moral denominator applicable to SANE part of humankind as a whole.

One of my friends did a long stretch in Federal Prison Lompoc (located in the corner of Vandenberg AFB).

Another my friend is Hindu Priest at the local Hindu Temple. Often we sit at the bench in the park and discuss Laws of Manu, Nietzsche, what constitutes cleanliness, propriety and decorum and other such Recondite Eternal Things.

Both of my above-mentioned friends are strongly anti-gay.

And both of them would not touch menstruating woman with a 10 foot pole.

As to eating pork – one of my Russian friends who served in the Soviet Army told me that Moslem draftees refused to eat pork but only for the first 3 months. Then – as the proverb goes – Hunger is the best Sauce There is a special provision in Sharia Law which permits relaxation of Moslem eating restrictions in adversity.

Well, if you think the Saudis don't get enough gaynal sex you are sadly mistaken. Young Saudi boys are pin cushions for pious muslims who dare not commit adultery. They are used, and many of them are obligated to get bugged by creepy old muzzles until they are adults, or mid to late teens.

This is unfortunately true.

They have a creepy subculture where 16-18 year olds put out for older men. Kind of like prison faggotry where being the top isn't viewed as gay.

It also isn't viewed as gay if those teens only do it for a short period. They are expected to grow up and do the same to younger men until they get married.

This is the country where men and women can't sit in the same side at a fast food restaurant. Women are actually paneled off from the sight of single men.

Prostitution isn't such a bad thing. Completely depriving men of women can create prison like conditions.

The Muslim countries are filled with perverts. Islam seemed to be an attempt at containing Arab perversion (with limited results). I once thought that Islam kept the perverts in check until I learned about what actually happens in these countries.

Ironically, the kind of Muslims who are in Putin's army (Tatars, Bashkirs) were not the kind of Muslims who did that sort of thing. Boy play is something OUR allies did in Afghanistan after Mullah Omar and the Talibs tried to stop them for a decade or so.

Roving gangs of gay dudes looking to rape some guys is the reason Sodom and Gomorrah were destroyed (yes, yes, Reformed and Liberal Jewish people will say its about hospitality violations and the stranger, but those guys wanted to rape the two angels).

Very similar story in the book of Judges about the stranger travelling through Benjaminite territory. When the Benjaminites couldn't rape the dude, they abused his concubine until morning, end result a civil war of all Israelites vs Benjamin. Did it really happen? Who knows, but it had resonance for the writers and listeners, so it must have been part of Levantine life.

John “Johnny Boy” D’Amato was a New Jersey Made Man and former Acting Boss of the DeCavalcante Family. After being recruited by Gambino Family Boss John Gotti to take over the Family, he was suspected of engaging in homosexual activity and was murdered in January 1992.

D’Amato’s girlfriend, retaliating against D’Amato over an argument, told Anthony Rotondo that D’Amato was an active bisexual. She described swinging encounters that D’Amato had in Manhattan sex clubs with both women and men. Rotondo shared this information with Underboss Giacomo Amari, and Consigliere Stefano Vitabile. As was described it in court testimony in 2003:

“Nobody’s going to respect us if we have a gay homosexual boss sitting down discussing La Cosa Nostra business.”

No, he can't end abortion by fiat. he's dependent on the female vote. As you know.

<https://foreignpolicy.com/2017/10/03/putins-next-target-is-russias-abortion-culture/>

MOSCOW — On a recent windy afternoon, members of a prominent Russian religious group were busy laying out 2,000 pairs of children's shoes in the corner of a park — each representing an abortion performed on an average day in Russia. Fighting the elements to keep the tiny slippers and rubber boots in place, the organizers from “For Life” took to loudspeakers to reel off the reasons why Russia should make abortion illegal. Simultaneously, two men unfurled a long red-and-white banner with a quote by President Vladimir Putin, reading: “Demography is a vital issue... Either we'll continue to exist, or we won't.” “If we don't legalize abortion, we cannot grow our population, and how can Russia retain its strength and greatness without that?” asked Maria Studenikina, an organizer from the Moscow faction of “For Life.” The group's shoe project, called “If Only They Could Go to School,” has been staged in recent months in 40 cities across Russia. The shoes are accompanied by blackboards, cheery children's backpacks, and squishy fetus dolls.”

He doesn't like it much for various reasons that might be religious but may also be secular as he sponsors these antiabortion protests.

“Russia's anti-abortion movement has gathered momentum in recent months, as activists — usually devout members of the influential Russian Orthodox Church — have started seizing on the country's demographic crisis as an urgent reason for banning the practice. They have also started citing Russia's newfound

commitment to a more forward-leaning posture on the global stage, from the wars in Syria and Ukraine to the diplomatic crisis over North Korea.

Both reasons seem designed to appeal to Putin, who, despite a growing alliance with the church — which critics say he uses as an extension of his administration — has yet to speak out about the abortion debate gripping the country. But he may soon be obliged to take a stand.”

He’s no dictator really. And he is dependent on the general support of women in Russia.

2000–2,138k

2010–1,100k

2017–779k

2018–661k

2019–621k

2020–553k

2021–446k

2021 –USA there were around 620k abortions. (Larger population thus a lower per capita to be sure but quite a large total.)

Russian rates of abortion dropped by 30% since Putin took over the Tsardom.

Putin had a lot of things to fix in Russia after the US and Western economic gurus economically gutted Russia in the 1990s. He's also done this without an outright ban on abortion. This data looks very much like a values shift toward more religious conservatism.

<https://www.statista.com/topics/3218/abortion-in-the-us/#topicOverview>

In the US there are around 620K abortions performed, mostly by women between 20-24 years of age. College girls etc. Russia isn't doing so bad. Could be doing better.

In Leviticus, the activities listed as ‘abominations’ are divided into 2 categories: abominations unto God and abominations unto man.

The regulation pertaining to activities that are abominations unto God are listed without qualification, the abominations unto man are qualified with “unto you.” Most Christians consider the unqualified regulations as the ‘moral law’, and the qualified regulations as the ‘ceremonial law.’

The regulation against sodomy is listed without qualifications, so it is part of the moral law.

Leviticus 18:22 “Thou shalt not lie with mankind, as with womankind: it is abomination.”

The regulation against eating shellfish is qualified by “unto you”, so it is part of the ceremonial law.

Leviticus 11:12 “Whatever hath no fins nor scales in the waters, that shall be an abomination **unto you**”

Most Christians follow the moral law, but not the ceremonial law. The decision by the Jerusalem Council recorded in Acts chapter 15 released them from following the ceremonial law, except “they abstain from from pollution of idols, and from fornication, and from things strangled, and from blood.”

Sane, huh? Then you are cool with the part about if your daughter isn't a virgin when she gets married, the men in the neighborhood must drag her to your front door and stone her to death?

And if she gets raped out in the country, the rapist gets stoned to death, but if she gets raped inside the city limits, she gets stoned to death, too. Sounds fair?

And if one of those guys in the park tries to get you to convert to his religion, you must kill him. Good with that?

And if there is an unsolved murder in your town, local officials must take a virgin heifer to an undeveloped area and cut off its head. That sounds sane to you?

There's lots more. If any of your slaves are Hebrews, you have to give them their freedom after seven years. If they don't want to leave, you have to let them stay, but first you have to pound an awl through their ear into the door. Rules to live by?

The enemies of our civilization have successfully used homosexuals as a point of division by making gays into a political force. Too many gays have risen to the bait. And so have too many straights..

The Kingdom in the Closet

<https://councilofexmuslims.com/index.php?topic=8118.0>

Homosexuality obviously exists in Christian, Jewish and Hindu societies. The difference is that no one denies it and it appears that Saudi Arabia has developed a prison like subculture where homosexual sex isn't viewed as gay.

I don't support celebrating or encouraging homosexuality but the Muslim solution doesn't seem to work either.

I'm in fact concerned that trying to closet homosexuality only encourages the worst of them to lie and have children as a cover. The ideal is probably somewhere along the lines of isolation and without promiscuity. In any case the subject needs to be studied honestly. Trying to "pray the gay away" doesn't work and the liberal status quo is a mess.

CIA's approach to repression is polarize, polarize, polarize.
Mockingbird media intelligentsia are trained to discuss
polarization as some sort of natural phenomenon. But since
inception CIA has been setting up teams for let's-you-and-him-
fight. That spawns threats to justify repression and diverts
resentment over government predation to CIA's synthetic
factions.

Anglin might have intuited a key feature of the current furor over
genital vivisection and degeneracy. Back when it was hippies v.
hard hats, you heard a lot of talk about how hippies smell. That
was CIA's early halfassed attempt to bypass your reason with a
disgust response. But institutionalized violence to the basis of
reproduction in an anisogametic species is much more primally
disgusting. Take your pick: penetrating a mutilated artificial
corpse-collagen cunt with no natural lubricant but pus and
maybe shit from fistulas; sucking an inert protuberance of
grafted meat; castrating or sterilizing your own child. Makes
fisting and felching look like good clean family fun.

<https://chrisbray.substack.com/p/the-loathing-of-fertility-is-the>

As Bray notes, this polarization initiative is obviously centrally
directed. It's about as spontaneous as the witch trials, and clearly
precision-engineered to bypass your cortex:

[https://followmehere.com/2023/03/26/why-your-brain-hates-
other-people/](https://followmehere.com/2023/03/26/why-your-brain-hates-other-people/)

This is why CIA pushes LGBTQTIWXYZ at home and abroad. In
Scotland, where a puppet regime is sabotaging self-
determination, they're prying furiously at a fundamental feature

of humanity to create a cleavage plane. So gelded spergs can battle women and make you pick a side instead of reviling your failed state.

CIA did this too, just like JFK, RFK, OKC, Manson, Boston explosions, the WTC demolition. We will get nowhere till we put their heads on sticks.

It is amazing the contortions Christians go through to hold onto the Old Testament as having the authority of “God’s Word.” It would surely be a source of wonder to the original “children of Israel” for whom it was written that the very people whose extinction or enslavement Jehovah demanded would adopt the only bit of the Torah to be translated into a gentile tongue as their own sacred text.

And what an unholy mess it is of racial hatred, genocide, infanticide, talking snakes, men surviving three days inside fish, women turning into salt, chosen people, and instructions on how God wants you to treat slaves. Instead of chucking the whole thing, Christians inexplicably lug it back and forth to church every Sunday.

So we get moral laws and ceremonial laws, dispensationalism, and direct contradictions to the message of Christ. And Christianity is locked into that book they think has magic power, and both it and the civilization it created are on the verge of collapse. And the Church has no answer.

One of the main criteria for receiving an autism diagnosis is having ‘problems with verbal and non-verbal communication’. These problems (or complications as I prefer to call them) can take various forms, but without question one of the most widely recognised is the way autistic people seem to take everything literally. So, why does this happen?

Well, first it’s important to recognize that it doesn’t come from a lack of understanding of what’s being said to them, but from a difference in processing the information they’re taking in.

All language has two layers of meaning: what words actually mean (their literal meaning) and what we want them to mean (their figurative meaning) which is where the expression ‘figure of speech’ comes from (when someone says one thing but means something else).

Sometimes it’s easy to spot this kind of thing, for instance when someone says ‘it’s raining cats and dogs’ or ‘I laughed my head off’. Now, I say it’s easy to spot, but actually this kind of language is one of the things autistic people can have real difficulty making sense of.

OK, sure, let's skip the "mechanics of it." Instead of "gay" and "LGBTQ," let us, as Aristotle admonished us, call a thing by its correct name and not by what it is not, which in the case of gay behavior is correctly described as coprophilia and coprophagia.

Also, why do you and a few others here feel the need to cover up for men whose natural sexuality is replaced by an impossibly disgusting fetish for eating and playing with (male only) human feces, and that's just getting them started?

He uses the phrase “anal sex” so often that I wonder if he has the written version of Tourette’s Syndrome. Also, his compulsion for outrageousness has grown repetitive and tedious. I might use the phrase once or twice just to troll the Satyrmaniacal elements among the LGBTblahblahblahyadayadayadaetceteraetceteras, but the shock effect would wear off quickly afterwards. I suppose I keep reading him because he’s often humorous as well as on point. Part of the “fun” is which Anglin will turn up in print.

Autistics seem incapable of grasping any “reality” that is not their own. It certainly expresses that dimension of our society. I’ve never believed that autism is caused by vaccines. I think it is another of our many maladaptive social phenomena that are being expressed, similar to the sexual dysphoria, homosexuality, rampant drug and alcohol abuse, these twisted school-shootings, hopeless insouciance of the population, mass-media gas-lighting and the general sociopathy of the ruling class. It’s just a different symptom of the same underlying disease, that is of a rootless and dying culture without a moral compass and without any leadership that has the best interests of the people in mind. Societies are living organisms or can be thought of as such. And so much can be inferred about the underlying health of a society by what it expresses or manifests. Ours is not healthy, and it shows. It’s a large part of why Vlad and Xi are so confident.

Yeah, the Russian Army's Moslems don't seem to be the kind of people whose idea of marksmanship is spray-pray-repeat (or is it pray-spray-repeat?), the kind we've been arming or bombing, depending upon the circumstance. Neither do they seem to endanger the livestock of the Donbass, nor do they seem to imperil the local ladies, like the Algerian and Moroccan soldiers of the Free French did to hundreds of Italian women after they drove the Wehrmacht from the Aurunci Mountains. The reports of rapes and "child abductions" strike me as just two strands of The Narrative, until proven otherwise. The Chechens, though mostly Sunni themselves, have served ably alongside Assad's polyglot forces and against the Sunni ISIS insurgents.

Jesus had free will to either do the Father's will or not. His human nature would have been tempted by what he was shown because he understood what would be needed for the Salvation of those who would believe. He could have taken Satan's deal.

He also had a divine nature as well because he was the Son of God. Not unlike our own spirit (conscience) that we ignore most of the time and do evil things. Not saying they are the same but used to make a somewhat, although weak, comparison.

It is a mystery.

His mission could only be carried out with perfect human submission. Hence the calling out of "why have you abandoned me" on the Cross. His divine nature was silent at that moment.

Jesus was the most tempted person whoever lived because he never gave in to the temptation to sin.

Try not to sin for one day let alone 5 minutes of that day.

Whether anybody believes this I really don't give a flying f**k: I do.

Johnson is a bizarre liar.

One thing that fascinating about Russian public health information is that it is very accessible for data mining.

Their abortion rates peaked in the 1990s at 2 million and have dropped like a rock since 2000. Their doctors do around 475k abortions a year in contrast to the US which does 620k per year down from a peak in 1990 of 1.5 million. While the US has a lower rate the sheer volume of procedures indicates a thriving abortion mill with plenty of doctors willing to perform the job.

Putin's done his best to stop the excessive resort to abortion without an outright crackdown on women's desire for terminating their pregnancy. Hardly a totalitarian.

“U.S. liberals copy everything the English do”

There is truth in this. H.L. Mencken, who was in a position to know, said British propaganda, repeated in U.S. media, corralled the U.S. into both world wars. British intelligence invented most of the atrocities that Germans were accused of committing against Belgians/Jews. Much of the “history” of those conflicts is not more than false British agitprop.

Interesting books on this are [_Onward Christian Soldiers_](#) by Donald Day and [_The Myth of German Villainy_](#) by Benton L. Bradberry, particularly the latter.

The German March into Belgium was a direct problem for the British. It was probably seen as a deliverance for the government, making the whole enterprise of war with Germany an easy to justify effort.

The Germans did face resistance among the Belgians, burning landmarks and shot civilians in various panics about guerillas.

Ordinary British people could read a map and saw the horrific possibility of a German army on the Beach in Dunkirk Calais etc beach awaiting a German fleet to bring them over to Kent.

Might it have been better to abandon France to the German advance in retrospect? Perhaps.

Much worse things. Now I will describe to all and sundry what a Pozz Party is.

Gays want AIDS. It's inevitable and you just want to get it done.

So they get together and have a party. The required ingredients are; a scalpel, a vacuum pump and about a dozen gays (the higher this number, the better).

The recipient of the gift takes his position on all fours. The vacuum pump is applied to suck out the anus so that it becomes fully exposed. Then the scalpel comes into play. Small, bleeding cuts are made on the intestine to heighten the chance of infection.

The guy who related this story said that when the blood started flowing, an animalist instinct was awoken in the attendants. They started acting like a pack of starving wolves, dying to get in on the action. This made him extremely sexually aroused.

By the end of the evening at least a dozen men had delivered a package. Some of them more than once. And the customer could walk home, happy in the knowledge he was now a full fledged faggot.

The atrocities were mainly made up by the various resistance groups in the countries of origin. The newspapers wanted a cover for what they knew were almost pure lies.

This means that most of the stories about Germans from the war came from Jews, Poles and Russians. Usually they were just deeds they themselves committed, which was transplanted onto the Germans. And the rest clearly reveal themselves as group specific fantasies turned into atrocities, like the Masturbation Machines which Jews claimed pleased them to death in German camps.

Far-called, our navies melt away;
On dune and headland sinks the fire:
Lo, all our pomp of yesterday
Is one with Nineveh and Tyre!
Judge of the Nations, spare us yet,
Lest we forget—lest we forget!

In reeking tube and iron shard,
All valiant dust that builds on dust,
And guarding, calls not Thee to guard,
For frantic boast and foolish word—
Thy mercy on Thy People, Lord!

I've been to Saudi, I know of what you speak. Red roses are part of the subculture as is honking one's car horn. That country is hypocritical through and through, the Saudis being far more hypocritical than the Syrians (the best of the lot, although I support leaving Assad alone), Pakistanis, Sudanese, and Egyptians (be careful of the last bunch).

But this homosexual dysfunction, and it is a dysfunction, is common throughout that greater region. Saudis are just one variation on the theme. One anthropologist called it the "will not to know". Muslims (not just Saudis), Hindus, and Mediterranean Christians from decent families just don't talk about it, kind of like nobody talks about the sister or niece who is the village bike or, until recently, in our society the artistic, fit, single nephew who went to the city and died of "the flu."

It probably had something to do with adaptation to urban societies and obsession with paternal lines beyond what is healthy.

We use the term homosexual to cover a lot of behaviors and causes, so it isn't quite like Steve and Ed being life partners and starting a coffee shop. But, the problem is, Steve and Ed maybe be harmless, may be born that way, and can be decent people, but countenancing that is a slippery slope and gives an opening for the rough trade stuff and some forms of homosexuality which are the result of grooming and recruiting.

The key is to identify the genetics behind it and address those. I'm a conventional family man, but have no problems with abortion and would as soon abort a kid with the gay gene as a I would with Downs. Harsh, perhaps cruel, but it's an imperfect world.

Leviticus 18:22 “Thou shalt not lie with mankind, as with womankind: it is abomination.”

The regulation against eating shellfish is qualified by “unto you”, so it is part of the ceremonial law.

Leviticus 11:12 “Whatever hath no fins nor scales in the waters, that shall be an abomination unto you”

This is hilarious. In another thread I was just saying that Whites should go to mass instead of having some protestant pastor in a goatee try to mansplain how he can pick and choose from Leviticus. Do you have a goatee?

The regulation pertaining to activities that are abominations unto God are listed without qualification, the abominations unto man are qualified with “unto you.”

So God is actually saying you can eat at Red Lobster but it is an abomination *to you* and not me? Let’s look at the definition of abomination:

a thing that causes disgust or hatred:

You are saying that when Christians eat at Red Lobster is causes them disgust or hatred? They seem pretty happy to me when they are scarfing down lobster and shrimp (both are abominations).

A pretty good mansplaining but unfortunately it is clear that God doesn’t want you eating pork:

And the pig, though it has a divided hoof, does not chew the cud; it is unclean for you. 8 You must not eat their

meat or touch their carcasses; they are unclean for you.

JEWs and WASPs in the JEW/WASP Ruling Class of the American Empire are particularly enamored of buggery.

George W Bush and Abraham Lincoln and Allen Ginsberg and Barney Frank would've found something to do with each other if they found themselves in the same bed. Thankfully, Whitey in the USA is gonna soon put an end to the screw job they are getting from the JEW/WASP Ruling Class of the American Empire.

I've read all the sociological literature — except for the naughty bits — and it says quite clearly that the JEWS and WASPs in the JEW/WASP Ruling Class of the American Empire are, to borrow a description by China Boy Richard Nixon of the nouveau riche douchebag California plutocrats at Bohemian Grove, “the most faggy goddamned thing you could ever imagine.”

The Republican Party is controlled by JEW billionaires and the GOP Cheap Labor Faction and the gay globalizer gang and all manner of other unmentionables.

The JEW/WASP Ruling Class of the American Empire is kept in power by rum, sodomy and the lash. That's repurposed from Churchill's description of what runs the Royal Navy.

The JEW portion of the JEW/WASP Ruling Class of the American Empire is using the promotion of the gay agenda — some people call it Globohomo — as a distraction to both cover up the greed and avarice of the JEW portion of the JEW/WASP ruling class and to make it clear that the JEW portion of the JEW/WASP Ruling Class controls the mass media message in the USA and they will push what they want.

Could be too that the JEW portion of the JEW/WASP Ruling Class, and Jews in general, want to get down on it like a sex machine in a manner similar to Mr. James Brown.

Who knows!

What's Globohomo got to do with China and Richard Milhouse Nixon?

Ohio Quaker Boy Richard Nixon has things to say about JEWS and homosexuality. But I'm not sure he ever said anything on tape about Gay Jews or JEWS pushing the gay agenda.

I say Richard Nixon went to China on behalf of globalizer plutocrats who wanted to use cheap Chinese labor to undercut American workers and de-industrialize the USA.

Nixon On Anything Goes Gay Issues:

“You know what happened to the Romans?” says Professor Nixon. “The last six Roman emperors were fags. Neither in a public way. You know what happened to the popes? They (had sex with) the nuns, that's been goin' on for years, centuries. But the Catholic Church went to hell, three or four centuries ago. It was homosexual, and it had to be cleaned out. That's what's happened to Britain, it happened earlier to France.”

Nixon asks Ehrlichman to consider northern California. “You know what's happened.”

“But it's not just the ratty part of town,” says Nixon. “The upper class in San Francisco is that way. The Bohemian Grove (an elite, secrecy-filled gathering outside San Francisco), which I attend from time to time. It is the most faggy goddamned thing you could ever imagine, with that San Francisco crowd. I can't shake hands with anybody from San Francisco.”

Nixon finishes things off by turning into an observer of ladies' fashions.

“Decorators. They got to do something. But we don't have to glorify it,” says Nixon. “You know one of the reasons fashions have made women look so terrible is because the goddamned designers hate women. Designers taking it out on the women. Now they're trying to get some more sexy things coming on again.”

“Hot pants,” says Ehrlichman.

“Jesus Christ,” murmurs the president.

It is possible to use a ledger as a source of currency. That means the money creation power is distributed to the whole population, the most democratic solution. However, there are two villains to any proposal for a decentralised currency: central banks and governments.

An automated ledger can pay itself – just like the way cryptos pay their servers. And if we have built-in checks, we can prevent mindless creation of currency, the only cause of inflation.

In short, we do have a very workable, non-profit, decentralised and democratic solution for the vexed problem: “Who should have the power to create currency, and how much should be created?”

Whales are marine mammals, not fish.

Jonah was never physically in the belly of a whale.

Here we go again.

Someone telling us that we shouldn't take the direct translation of the Bible.

The Bible says he in was in the belly for 3 nights:

Now the Lord had prepared a great fish to swallow up Jonah. And Jonah was in the belly of the fish three days and three nights.

Just stop already. It wouldn't matter if he was in a shark or a whale. He would need a supernatural bubble to protect him from the acid and provide him with oxygen.

It most likely didn't happen and especially since the story gets even weirder (worm sent by God to eat the gourd).

The OT is full of allegories and fables that serve a purpose in controlling a group of people.

Yet children are normally taught that they are all true. The flood is taught as true in most churches.

This explanation of allegories is mostly found online. In the churches they teach it as God's word. Evangelicals by definition take a literal translation of the Bible. Most pastors would shut off the internet if they could. It ruins their ability to control the flock.

Pederasty/homosexuality is an Anglo institution. The British would send their boys to boarding schools where they would be sodomized by old faggots and turned into homos. Almost every member of British upper class had been sodomized as a child. I remember reading a story about D.H. Lawrence, who came from a working class background, entering British literary and culture circles with all of these boarding school types. Lawrence discovered that almost everyone in these British high society groups was a faggot and he was originally disgusted by it, but eventually he was pretty much bullied into becoming a homo himself (allegedly).

That's also why orientalism was so popular with the British upper crust, and why they often spoke about Islamic society being more "enlightened." Much like liberals today, they equated enlightenment with sexual openness. Islamic society was viewed as being more sexually open because pederasty was acceptable in the Ottoman empire. The British upper class liked to go there to rape young boys where it was acceptable to do so. In Britain, it was acceptable to rape boys in practice, but in accordance with the British value of hypocrisy, they were required to keep up the appearance that nobody did it and act appalled whenever it was mentioned.

Did these white women really think the jew-led identity politics they cuddled with most of their lives would just stop at attacking white heterosexual males? Once the men were brought to heel, white women and lesbians would inevitably be next. The stupid bitches attacked the people most likely to defend them from harm, and then were shocked when the jews turned on them. If they do it with you, they'll do it to you. White women and lesbians jumped on identity politics as a way to eff over someone else, and now the guillotine is falling on their necks. I hope the trans movement hits critical mass and its biggest victims are American women.

An independent Muslim nation would be under the influence of the US? Is that what you are saying?

Here in reality Russia has the world’s highest abortion rate while Chechens have a high birth rate and are not in population decline like the Slavs. They don’t need the protection of Russia or your crass talk of “anal empire” while ironically implying that Chechnya would suffer cultural degradation.

I chose the Jonah story, but it is hardly the only absurdity to be found in “God’s Word.” Jonah was no doubt some guy who went on a three day bender with some hooker and came up with a wild fish story to tell his wife when he got home and somehow it ended up in the Bible.

The whole idea of magic books is absurd and it doesn’t change anything if you call it sacred. It’s a form of child abuse to tell little kids stories that are impossible to believe and then tell them if they don’t believe them God will throw them in hell where they will undergo horrible torture forever. And ever and ever and ever.

I remember in catechism class, taught by the pastor to seventh graders, I questioned the Noah story: if there were only two of every animal wouldn’t there be all sorts of birth defects in the offspring, who would be mating with their siblings? Pastor Carlson, by this time more than a little tired of my questions, said with uncharacteristic shortness, that God performed another miracle to take care of that issue. That’s just a stupid bullshit answer.

But that’s what Christianity instills. It teaches people to just shrug and accept shit, like the Miracle of the Two Airplanes, Three Skyscrapers. I personally think the ramifications are severe throughout our culture.

We need a religious revolution like we had a scientific revolution. Toss the whole mess, but keep the cathedrals, the holidays, and the music (except Christian rock—toss that, too). There are no magic books. No real God would have a chosen

people. Snakes don't talk. And no one can turn water into wine (though if you are going to have to have miracles, that's not a bad one).

True. And to believe in the unreal and impossible, and guide one's life according to it is kind of delusional and schizophrenic, yet most religious people are functional and otherwise rational, and religion gives solace and can actually help people suffering from mental illnesses. Okay, the Huguenots were Dreyfusards and the RC priesthood were all Antidreyfusards but that's as close as it gets. And Dreyfus was completely innocent, did not write the bordereau, Esterhazy did.

So let's lump the Jews and Romanists together, both evil, and leave out this misleading JEW/WASP association of WASPs and Jews.

Jonah was no doubt some guy who went on a three day bender with some hooker and came up with a wild fish story to tell his wife when he got home and somehow it ended up in the Bible.

LOL “and that’s why I smell like fish”

We also aren’t supposed to ask any questions about Mary and her virgin birth. HmMMM yea because throughout history women have been 100% honest about such matters.

It’s a form of child abuse to tell little kids stories that are impossible to believe and then tell them if they don’t believe them God will throw them in hell where they will undergo horrible torture forever.

This is what I don’t like about Christianity. In forums like this we will have Christians tell us that the stories are allegories or shouldn’t all be taken literally.

Do they tell the children the same thing? No. Children are taught it is all 100% true and that includes a worldwide flood that happened in the last 10k years. Race doesn’t exist and you’ll burn in hell if you read too much Darwin or finger your girlfriend at 15. It’s all very controlling and not about trying to improve the children. Then those children grow up to be adults and are told online to just forget about. Yea well I don’t appreciate being told stories that you can’t explain. You have to take advantage of kids that trust your authority. Maybe I should borrow your kids and tell them stories that have no scientific basis. Well kids lemme tell you about the dragon that lives underground and eats children in their dreams.

But that's what Christianity instills. It teaches people to just shrug and accept shit, like the Miracle of the Two Airplanes, Three Skyscrapers. I personally think the ramifications are severe throughout our culture.

I have been saying this for years. Christianity teaches kids to accept what they are told. How is this not prepping them for liberalism? Race doesn't exist CAUSE PASTOR SAYS SO. Then they go to college and are taught that race doesn't exist cause science says so. No questions asked.

The war on drugs is just another manifestation of race denial.

You really think legalizing crack and PCP would improve this country? Chunks of meth sold at Wal-mart? Who pays for all the resulting medical bills when they end up in the E.R.? Americans already overload the ER with unnecessary complications from obesity.

Society needs to face the reality of race. If Blacks have less self-control on average then we need to face that reality and move on. It means they are more vulnerable to drug abuse if it is readily available.

Locking up Blacks for 20 years over drug possession is not the answer but neither is the libertarian solution of legalizing everything and hoping it all somehow works out.

Numerous cities have already tried looking the other way and it has been a disaster. Just go drive around Portland Oregon. No one is arrested for possession and the area is a disaster. Junkies and litter everywhere and it is getting worse.

And what makes it even more destructive is that there are good solid rational reasons to act morally. Emotions, friendship, love, morals, ethics are all real things, and they are the most important things. But our culture gives no guidance or instruction on these things except what we find in that old magic book.

We tell little kids not to lie because “it is written,” and not to be immoral because they’ll go to hell, and as they get older and the fear of hell (or karma, or whatever) no longer has much of a deterrent effect, they they are cast adrift with no moral moorings—no reason not to betray, and double-cross, and break promises, and so on. And they especially don’t understand what love is, how to recognize it, and why it is so important in a human life.

It is an enormous tragedy, and Christianity is a major cause of that tragedy because it cannot shake the insane idea that some magic book with its talking snakes and dashing babies’ heads against the rocks and virgin births and all that unnecessary and obstructive garbage is God’s unchangeable literal “word.”

I don't believe for one second that it improves the morals of people on a daily basis.

Maybe the fear of hell works for some people but not the Christians I have been around.

It definitely doesn't reduce their resentment levels nor does it make them better people.

Some of the most bitter and resentful people I have ever met were Christian. They would gleefully watch their neighbors burn in hell over something stupid. *You went to the casino while I went to men's prayer meetings. It's time to burn for that decision Bob. Satan is going to put a hot poker right up your asshole for playing Blackjack. I also never liked your wife.*

They use it like a revenge religion.

The folk song "this train" really sums up a lot of Christians even if it is unintentional. They really don't want everyone to be saved. Their self-esteem and outlook depends on some people burning and being morally below them.
