Dr. Lucy Morgan Edwards má bezvadné etablovací oprávnění (Ph.D. Mezinárodní vztahy, Exeter; bývalý politický poradce velvyslance EU v Kábulu). Je klidná, rozumná, přízemní a obdařená neobyčejně dobrým úsudkem. Kdyby ji nájezdníci a okupanti Afghánistánu poslouchali, mohlo to dopadnout jinak. ( Podrobnosti viz její kniha *The Afghan Solution* ).

Tak proč, jak se její bývalí kolegové musí divit, má Dr. Morgan-Edwards podezření, že Dr. Rashid Buttar, slavný disidentský lékař COVID, mohl být zavražděn? Opravdu bere vážně blouznění doktora Buttara o spiknutí proti depopulaci vakcíny COVID? Co ji mohlo vést k tomu, že se zatoulala tak daleko od rezervace?

Odpověď samozřejmě zní, že Lucy Morgan-Edwards na vlastní kůži zažila extrémní nedůvěryhodnost dnešních západních elit. Vzhledem k nehorázné lživosti a naprosté korupci západní oligarchie a jejích mainstreamových médií pumpujících propagandu je představa, že frakce biologických válečníků Big Pharma mohla současně vyvinout vakcíny COVID a mRNA pro hanebné účely, stěží nepravděpodobná. Opravdu, docela dost důkazů ukazuje tímto směrem. A když jeden z nejprominentnějších hlasů varujících před takovými možnostmi, Dr. Rashid Buttar, tvrdil, že byl otráven během vystoupení na CNN a poté o několik měsíců později ve věku 57 let zemřel , nemusíte být paranoidní, abyste se divili, zda ho „oni“ nemohli dostat.

Je to článek víry v mainstreamových médiích, že jen blázni se obávají politicky podezřelých úmrtí... alespoň v USA. Pokud podezřele zemře nepřítel Putina, Si Ťin-pchinga nebo Asada,

iránská vláda nebo jakýkoli jiný „nepřátelský“ režim, máme automaticky předpokládat to nejhorší. Ale jak všichni víme, k politicky motivovaným atentátům ze strany zasvěcenců by v Americe nikdy nemohlo dojít. Nebo jak to nezapomenutelně řekl Frank Zappa: „Tady se to stát nemůže“.

Watch Video At: <https://youtu.be/yEbjlnR6irl>

Jak víme, že se to tady nemůže stát? Protože nám to řekla CIA! V dokumentu CIA 1035-960, „Countering Criticism of the Warren Report“, distribuovaném v lednu 1967 agenturním krtkům nelegálně pronikajícím do médií, se dozvídáme, že pouze blázniví „konspirační teoretici“ mají podezření na takové události, jako je vražda prezidenta Johna F. Kennedy. A protože jen konspiračního teoretika by zajímalo, že CIA vymyslela celý mem „konspirační teorie“, aby zakryla svou vlastní vraždu sedícího prezidenta, můžeme všichni klidně spát s vědomím, že špatné věci se v Americe nikdy nedějí. Jeden z příznivců Dr. Rashida Buttara, Robert F. Kennedy Jr. \*,\* ví lépe než kdokoli jiný, že Amerika má problém s politickými vraždami. Jeho otec a strýc, dva nejslibnější vůdci Ameriky po druhé světové válce, byli zastřeleni při dvoudílném státním převratu, který definoval 60. léta a utvářel běh následujících amerických dějin.

Šedesátá léta byla také definována vraždami dvou nejcharismatictějších amerických černošských vůdců, Malcolma X a Martina Luthera Kinga, Jr. Oba byli zabití nejen proto, že mobilizovali Afroameričany, aby požadovali změnu, ale také proto, že začali kritizovat USA. impéria a postavte se na stranu povstalců třetího světa, kteří proti němu povstali.

Epidemie atentátů v 60. letech 20. století ilustruje skutečnost, že problém domácích atentátů amerického impéria souvisí s jeho vražednými aktivitami v zahraničí. Většina nejprominentnějších podezřelých politických atentátů v Americe souvisela spíše se zahraniční politikou než s domácími problémy, mocenskými hrami nebo zášť mezi frakcemi. Zdá se, že důvodem, proč byla většina těchto lidí zabita, je to, že byli považováni za hrozbu americkému impériu (a/nebo sionistické okupaci Palestiny).

Podívejme se na několik nejprominentnějších podezřelých atentátů a pravděpodobný motiv.

21. prosince 1945: Gen. George S. Patton, Jr. je zastřelen tupým předmětem při zmanipulované autonehodě . Pravděpodobně za to mohl William Donovan a jeho OSS, která se stala CIA. Pattonův odpor ke genocidní okupační politice v Německu a jeho záměr kandidovat na prezidenta na platformě mimo scénář byly pravděpodobnými motivy.

22. května 1949: Ministr obrany James Forrestal se řítí k smrti z okna v 16. patře. Forrestal , který byl silně proti vytvoření Izraele, byl pravděpodobně zabit sionisty .

22. listopadu 1963: Prezident John F. Kennedy je zavražděn v Dallasu, téměř jistě koalici amerických imperiálních zastánců tvrdé linie a sionistů, kteří panikaří kvůli Kennedyho snahám eliminovat izraelský jaderný program .

21. února 1965: Malcolm X je zabit v Audubon Ballroom, New York, v důsledku jeho pokusů sjednotit muslimy a černochy s protiamerickými silami Třetího světa. Jako obvykle jsou členy CIA hlavní podezřelí.

6. června 1968: Robert F. Kennedy je zastřelen zezadu pistolí přitisknutou na zadní část hlavy, krátce poté, co zhyponotizovaná palestinská patsy odvedla pozornost přihlížejících náhodnou střelbou z 10 stop vpředu. Téměř jistě byla zodpovědná stejná skupina CIA a Izrael, která zabila JFK.

10. prosince 1968: Thomas Merton je zavražděn v Bangkoku v Thajsku. Nejvlivnější katolík světa (snad s výjimkou papeže) Merton se tvrdě obrátil proti válce ve Vietnamu, než byl zabit. Znovu byly pravděpodobně zodpovědné prvky CIA .

16. října 1972: Americký poslanec Hale Boggs (D-LA), člen Warrenovy komise, který její zjištění soukromě odmítl a vysmíval se jí, je zabit při zmanipulované letecké havárii. Pravděpodobně byl na Hit List mnoha desítek, ne-li stovek, kteří byli zabiti jako součást atentátu na JFK-RFK.

20. července 1993: Vince Foster je zavražděn ve Washingtonu, DC, pravděpodobně za to, že věděl příliš mnoho o zločinecké rodině Clintonových a jejich vazbách na pašování drog CIA .

3. dubna 1996: Ministr obchodu Ron Brown umírá v zmanipulovaném letadle Chorvatsko po neúspěšném pokusu o zprostředkování korupční dohody mezi zločineckou rodinou Clintonových napojených na CIA a chorvatským diktátorem Franjo Tudjmanem. Opět se ukazuje CIA a její zkorumpované mezinárodní obchody.

25. října 2002: Senátor Paul Wellstone spolu se svou ženou, dcerou a štábem kampaně zahynuli při zmanipulované letecké havárii v Minnesotě . Wellstoneova touha vyšetřit 11. září a jeho odpor k hrozící válce v Iráku téměř jistě motivovaly jeho vrahy.

19. prosince 2008: Republikánský softwarový konzultant na vysoké úrovni Micheal Connell zemřel při zmanipulované letecké havárii krátce předtím, než má svědčit proti Karlu Roveovi . Connell údajně zmanipuloval prezidentské volby v roce 2004 hackováním hlasovacích strojů. (Tyto volby byly pravděpodobně zmanipulované,

aby se zabránilo tomu, že se voliči odmítají a kárají pachatele válek z 11. září a 11. září v Cheney-Bushově administrativě a v jejím okolí.)

10. července 2016: Seth Rich, podezřelý DNC Wikileaker, je zastřelen. Stoupenci pomazané kandidátky impéria Hillary Clintonové z Deep State jsou zjevnými podezřelými.

Výše uvedený seznam zjevně obsahuje pouze nepatrný zlomek pravděpodobných amerických vnitropolitických atentátů od druhé světové války. Pravděpodobné zprávy o tom, že tak vysoké postavy jako Franklin D. Roosevelt a J. Edgar Hoover byli otráveni, že Jack Ruby a Hugo Chavez dostali rychle působící rakovinu a že CIA má zbraň, která může vyvolat infarkty nerozeznatelné od přirozených, naznačují že americká „Murder Incorporated“ může snadno maskovat atentáty jako přirozenou smrt. Skutečný počet amerických politických atentátů je tedy dost možná o řády větší než i ten nejdelší seznam podezřelých hitů, který sestavil ten nejparanoidnější konspirační teoretik.

Kdybychom se zeptali „Bodycount Bill“ Clintona, proč má Amerika tolik oficiálně neřešitelných politických vražd, možná by odpověděl: „Je to impérium, hlupáku.“ Letmý přehled výše uvedeného seznamu je jasný: Pokud se vážně postavíte do cesty špinavým skutkům impéria obecně, a zejména válkám, může vás to udusit. Lidé se jen zřídka urazí kvůli svým názorům nebo činům v oblasti daňové politiky, sociálních otázek, návrhů reformy vzdělávání nebo jiných domácích problémů. Zápletky s místním šerifem nebo školní radou nebo státním zákonodárcem nebo dokonce guvernérem pravděpodobně neohrozí váš život. Ale pokud stojíte v cestě impériu jako „aktuální hrozba“, raději noste neprůstřelnou vestu a držte se mimo malá letadla.

Epidemie domácích atentátů představuje klasický imperiální „backback“ – to, co Malcolm X nazval „kuřata, která se vrací domů na hřadování“. K udržení mezinárodního impéria je mnoho lidí s vysokým IQ s psychopatickými sklony vycvičeno, jak nesmrtelnými slovy Mikea Pompea „lhát, podvádět, krást“...a v neposlední řadě

zabíjet. Od doby, kdy americké impérium od druhé světové války zabilo na celém světě zhruba 60 milionů lidí, podle dobře zdokumentovaného odhadu Chomsky-Vltchek Zdá se, že říše vycvičila značný počet vysoce zdatných vrahů. Je nepravděpodobné, že by tito dobře placení lháři, podvodníci, zloději a zabijáci magicky změnilí své skunk pruhy pokaždé, když se vrátí přes hranici USA. Vycvičení k páchání atentátů v zahraničí nevyhnutelně najdou způsoby, jak využít své černé ops dovednosti doma.

Stále se zhoršující epidemie zahraničních politických atentátů, která doprovázela vzestup amerického impéria po druhé světové válce, je obratně shrnuta v nedávném článku Rona Unze „Atentát na Vladimira Putina?“ Unz poznamenává, že „tato americká politika představovala radikální změnu oproti praxi minulých staletí, kdy hlavní západní země v 17. století po skončení krvavých náboženských válek opustily používání atentátů“. Výstižně poznamenává, že vzestup neokonzervativců na Izrael, nejhorší atentát mimo zákon v dějinách, je pravděpodobným faktorem, který řídí stále se zrychlující atentáty americké vlády – z nichž velká většina míří na muslimské nepřátele Izraele. Vzhledem k hmatatelné strategické idiocii amerického programu atentátů na drony Člověk si klade otázku, zda Izraelci záměrně nenutí USA k nesmyslným činům, které rozzuří muslimský svět proti Americe, aby odvrátili pozornost od izraelských zločinů proti Palestincům.

I když má Unz pravdu, že Západ z velké části upustil od atentátů po Náboženských válkách, stojí za zmínku, že znovuobjevení se atentátu se časově shodovalo s poklesem náboženské víry a zachovávání mezi elitami pověřenými činěním takových rozhodnutí. Neokonzervativci, nejhorší pachatelé, jsou zapřísáhlí ateisté, kteří věří, že neexistence Boha osvobozuje člověka od toho, aby byl tak zlý, jak chce. O návratu politického atentátu jako příznaku morálního a duchovního úpadku by se daly napsat celé články, dokonce i knihy.

Ale tohle není místo pro ty články a knihy. Místo toho ukončím tuto esej s příslovečným extrémním předsudkem stručnou poznámkou, že ano, je to *impérium*, hloupé, a že pokud chceme vyřešit problém atentátu, nebo jej alespoň zmírnit, musíme se vrátit – nebo lépe. přesto konec — říše.

\*Tvrdím, že RFK Jr. podporoval právo Dr. Rashida Buttara vyjádřit svůj názor a alespoň některá jeho tvrzení, ne že by souhlasil se všemi postoji Dr. Buttara. Některá Buttarova prohlášení, včetně argumentů, že všichni příjemci COVID vaxu budou během několika let mrtví, byla zjevně mylná.

I would like to see clear evidence for once. Kevin Barrett's 'track record' of being right about things isn't impressive either and often seems motivated by what amounts to weird subconscious psychological mechanisms where you want things to be true because you derive enormous pleasure from it. For example, people dying of the Covid vaccine.

Thought-provoking piece.

Blowback is not imperial, the term is CIA argot. And it's very true that CIA's the psycho's dream job, due to all the getting-away-with-it, but homicidal maniacs in CIA is not unforeseen consequences, as the metaphor implies. It's exactly what CIA designed, first in the Phoenix Program, then in Operation Condor, then in client states worldwide, and of course at home. Frank Snepp's term for it was jerry-rigged. Langley takes pains not to weed the psychos out, they need them. They hire them like Aaron McFarlane, or hypno-program them like Sirhan Sirhan.

And assassination is just one symptom of the CIA disease. Torture is another symptom of CIA rule. Homan Square was CIA's proving ground for torture, they deployed it overseas to extract war propaganda from random Muslims and to scare dissidents like Manning and Assange. Sabotage, whether of the WTC, \*nix, or Nord Stream; banned biological and chemical weapons, extermination, denial of the rights of trial, arbitrary detention, every grave crime in Rome Statute Articles 7 and 8. Also mobster shit, fraud, theft, bustouts, blackmail, extortion, bribery, drug and human trafficking.

So really the problem's not empire, it's crime. Empire is an atavistic form of social organization and the compatible left has been taught to whine about it as a phenomenon that happens due to exogenous historical factors, like some force of [human] nature. No. Crime is a thing that criminals do, and you punish it. It's a nuisance, not a problem, unless some assholes wind up with impunity.

That is what we have here. CIA got themselves chartered with impunity. That put them in charge, and that made the US government a criminal enterprise, an enemy of all mankind.

So the corrective is in the offing. All mankind goes to war with sneaky coward CIA timmies and we hang them or nuke them. And we here do what we can to help root the fuckers out.

To discover the essential nature, the true history, and the imminent fate of “America,” see Line 4 of Hexagram 30, Fire, in the I Ching. A straw fire burns hot and bright, but very briefly. It leaves nothing behind but a heap of ashes soon dispersed by The Four Winds.

The murderous proclivities of the wannabe owner/operators of “America” recounted here by Kevin Barrett, is just one of many accelerants poured on the dying blaze in a vain attempt to sacrifice the carbon-based Whole LivingLoving Arrangement of Earth and Sky to the insatiable demands of the insane demigod worshipped by the captives of this death-cult. They are all doomed to miserable failure....and much sooner than later.

So don't be afraid, tame Sisters and Brothers. Simply care for your Kind and all Kinds right where you are living and breathing every Day. This intended-to-be terrifying and paralyzing conflagration is about to be snuffed suddenly out.

As for the invasive arsonists and their co-opted erstwhile Human accomplices, what becomes of them is not within our given area-of-responsibility....a Natural Fact to be counted among our many Blessings. We have much better things to give our precious attention to, anyhow. So let's All be about that.

We do need a national discussion of our assassination problem. It's a foundation tactic of our criminal overlords, and its secrecy helps it flourish.

A lot of actual data about the Covid virus and mRNA shots is being collected and analyzed here. And it's a lot. Far beyond mere negligence.

<https://dailycloud.io/category/communities/pfizer-documents-analysis/>

The Israelis are possibly the world's chief perpetrators of deceptive, underhanded, predatory practices, including assassinations. Just recently,

*On anniversary of Shireen Abu Akleh's death, new report details Israel's history of killing reporters with impunity*

<https://mondoweiss.net/2023/05/on-anniversary-of-shireen-abu-aklehs-death-new-report-details-israels-history-of-killing-reporters-with-impunity/>

A strong case can be made that we are living under a Talmud Mafia, a gang of ruthless criminals who hold the Talmud's belief that most of humanity are disposable subhumans. In that sense, our assassination problem is rooted in a Talmud problem. The case is sketched in the comment here.

Given the outrageous mendaciousness and utter corruption of the Western oligarchy and its propaganda-pumping mainstream media, the notion that a faction of Big Pharma biowarriors may have simultaneously developed COVID and mRNA vaccines for nefarious purposes is hardly implausible. Indeed, a fair bit of evidence points in that direction.

Consider the case of titanium dioxide, which is “generally recognized as safe” by the U.S. FDA, and which is found in many food, nutritional and pharmaceutical products accordingly.

According to the state of New Jersey:

“Titanium Dioxide should be handled as a CARCINOGEN–  
WITH EXTREME CAUTION.

...

Titanium Dioxide may be a CARCINOGEN in humans.  
There may be no safe level of exposure to a carcinogen, so  
all contact should be reduced to the lowest possible level.”

<https://nj.gov/health/eoh/rtkweb/documents/fs/1861.pdf>

And a quick search of the literature reveals vast support for these statements:

<https://pubmed.ncbi.nlm.nih.gov/28106049/>

“Food-grade TiO<sub>2</sub> impairs intestinal and systemic immune homeostasis, initiates preneoplastic lesions and promotes aberrant crypt development in the rat colon”

<https://pubmed.ncbi.nlm.nih.gov/31165072/>

“These findings collectively show that TiO<sub>2</sub> is not inert, but rather impairs gut homeostasis which may in turn prime the host for disease development.”

<https://pubmed.ncbi.nlm.nih.gov/32373295/>

“Our findings indicated that TiO<sub>2</sub>, depending on dose, can cause the destruction of dopaminergic neurons and consequently increase the risk of Parkinson’s disease.”

The evidence is simply overwhelming that TiO<sub>2</sub> (used merely as a colorant/opacifier) has no place in food, nutritional and pharmaceutical products whatsoever, yet the U.S. “government” says it’s okay to put it in anything and everything to be ingested by humans (especially in products targeted at children).”

For example:

<https://www.skittles.com/products/skittles-original-fruity-candy-single-pack-217-oz-skittles-chewy>

“INGREDIENTS:

SUGAR, CORN SYRUP, HYDROGENATED PALM KERNEL OIL; LESS THAN 2% OF: CITRIC ACID, TAPIOCA DEXTRIN, MODIFIED CORN STARCH, NATURAL AND ARTIFICIAL FLAVORS, COLORS (RED 40 LAKE, YELLOW 5 LAKE, BLUE 2 LAKE, YELLOW 6 LAKE, **TITANIUM DIOXIDE**, BLUE 1 LAKE, YELLOW 6, RED 40, YELLOW 5, BLUE 1), SODIUM CITRATE, CARNAUBA WAX.

<https://www.heb.com/product-detail/tastykake-powdered-sugar-mini-donuts/1646854>

“Ingredients

Unbleached and Bleached Enriched Flour (Wheat Flour, Niacin, Reduced Iron, Thiamin Mononitrate, Riboflavin, Folic Acid), Sugar Coating (Dextrose, Modified Cornstarch, Palm Oil, **Titanium Dioxide [Color]**, Hydrogenated Cottonseed Oil, Calcium Propionate [Preservative]...

<https://www.innit.com/nutrition/hormel-homestyle-mashed-potatoes/p/00037600166287>

“Ingredients

Cooked Potatoes (Potatoes, Water), Milk with Vitamin D3, Butter (Cream and Salt), Contains 2% or Less of Cream, Salt, Antimicrobial Blend (Maltodextrin, Cultured Dextrose, Sodium Diacetate, Nisin Preparation [Salt, Nisin], Egg White Lysozyme), Potassium Sorbate (Preservative), Water, **Titanium Dioxide (Color)**, Sodium Acid Pyrophosphate, Spice, Flavoring.”

If the Satanic U.S. “government” would openly injure and mass murder people with TiO2 no doubt they’d do it with biological agents as well. (And the skyrocketing rates of ADHD, colon cancer, diabetes, Parkinson’s disease, etc. – diseases where TiO2 may be the primary etiological factor – are adding to the burden of unaffordable health care costs in the U.S.

BTW another notable political assassination to add to the list is that of JFK’s mistress, Mary Pinchot Meyer.

| Whole articles, even books, could be written on the return of political assassination as a symptom of moral and spiritual decline.

Yes.

It is possible for me to see it less as irreligion than unawareness that a new religion is being installed. And the neocons are the prophets, priests and High Inquisitors.

Religions have quite often reserved for themselves the right to butcher threats to their rule from outside. Or untrustworthy types inside. “Heresy” come from the Greek word for choice as in you get dead if you make the wrong one.

Neocons do constitute a religion: Borders don’t matter. Globalism and all the trappings including Tranny Story Hour. And the United World will be ruled from Jerusalem — which is why those borders \* **DO** \* matter.

The new war of religion has been going on for quite awhile and only one side seems to know it.

The list of prominent persons ruthlessly assassinated/murdered by Nazi ideologists across time is important for people the world over to become aware, yet the number of victims murdered by Nazi ideologists across the last three-plus crime spree nightmare years makes obvious the absolute urgency of arresting, prosecuting and punishing the Nazi ideologist mass murderers...

As of May 19, 2023 in America (America alone, not accounting for the rest of the world, and based on an estimated 1% of U.S. adverse events actually becoming reported) Vaccine Adverse Event Reporting System (VAERS) statistics show:

- 2,478,931 Reports of vaccine adverse events in VAERS
- 35,302 COVID Vaccine Reported Deaths
- 45,237 Total Reported Deaths
- 201,115 Total COVID Vaccine Reported Hospitalizations
- 287,088 Total Reported Hospitalizations

Multiplying by 100 to account for 1% under-reporting, those (already-shocking) American numbers SKYROCKET to:

- 247,893,100 (actual) vaccine adverse events
- 3,530,200 (actual) COVID Vaccine Deaths
- 4,523,700 (actual) Total Deaths
- 20,111,500 (actual) Total COVID Vaccine Hospitalizations
- 28,708,800 (actual) Total Hospitalizations

Conclusion: Nazi ideologist mRNA injection mass murderers are (still) freely walking this Earth.

Evidence to support the thesis of intentional depopulation via COVID and COVID vaccines was published over a year ago.

Researchers discovered the reverse complement of a gene patented by Moderna in the SARS2 spike protein. It is the reverse complement of a sequence of 19 amino acids with an infinitesimal chance of evolving naturally. Furthermore, this reverse complement contains the furin cleavage site which is also a red flag for the bioengineering of the SARS2 virus.

Moderna's patented gene sequence is related to DNA repair and cancer. Considering that they patented it, they must have also modified it. In other words, they patented a designer mutation of a DNA repair gene.

So what, you think, SARS2 doesn't carry the gene itself, it carries its reverse complement. But this is actually the most damning fact of all. Because if this sequence is reverse transcribed and integrated into DNA, the DNA will then carry the original patented gene.

This potential pathogenetic mechanism is distinct from the HIV proteins also found in the SARS2 spike protein, which may cause immunodeficiency and would explain the surge in all types of infectious diseases also associated with the virus and vaccines.

We have red flags. We have smoking guns. We have corroborating evidence. SARS2 was made in a lab and incorporates genes from HIV and a Moderna cancer patent. The vaccine delivers all the same weaponized features to your cells. Why these were made and distributed is a question you must answer for yourself.

Neocons do constitute a religion: Borders don't matter. Globalism and all the trappings including Tranny Story Hour. And the United World will be ruled from Jerusalem — which is why those borders \* **DO** \* matter.

((Marxist))-Zionism is the neocon religion. And we know Zionists don't worship Jesus Christ, but they **DO** worship the Synagogue of Satan and the Golden Calf.

Barret writes:

Though Unz is right that the West largely abandoned assassination after the Wars of Religion, it's worth noting that the re-emergence of assassination has coincided with a decline in religious belief and observance among the elites charged with making such decisions. The neocons, the worst offenders, are avowed atheists who believe that the nonexistence of God frees man to be as evil as he wants to be. Whole articles, even books, could be written on the return of political assassination as a symptom of moral and spiritual decline.

Hey Barret, why won't you acknowledge that Satanists worship Satan, and that (Synagogue) Satanism *is* their religion. As an avowed Muslim, is that too Christian for you? What does Islam say about what Jesus correctly called "the Synagogue of Satan"? The Islamic Republic of Iran calls Israel the "little Satan."

You list off their evil conspiracies, but don't acknowledge that theological Satanic evil animates and energizes these ((Marxist))-Zionist Satanists, and instead claim they're "atheists"? If only they were atheists, they could live and die like vegetables. But they're not. They're Satanists. Contra Christianity.

The above list obviously comprises only a minuscule fraction of likely US domestic political assassinations since World War II.

One that occurred between President JFK and Senator RFK was Dorothy Kilgallen, a journalist and TV game show personality (“What’s My Line”). See:

Because Buttar was a flake who only made the anti-vaxx movement look bad it's doubtful he was assassinated.

Another point. Buttar was not elderly and I gather that until his final illness he was fairly healthy. Such people contracting Covid, especially the milder kind extant these days, are easily treated. Supposedly he knew what the good treatments were (Ivermectin etc.) and what to avoid (Remdesivir etc.). So if he was assassinated it's doubtful it was by a Covid infection, or at any rate by that alone.

Strange as it may seem, apparently there is some evidence that that particular combination for that particular application might not be a bad thing.

First some background: I'm generally wary of any exposure to any metal, metal oxide, metalloid or metalloid oxide (e.g. silicon dioxide) powder/particles. That said, the toxicity of these compounds generally depends on details such as the route of exposure, the particle size distribution, the presence of other chemicals which may enhance or mitigate the effects, the dose, and any relevant aspects of the health of the subject (e.g. someone with preexisting gut problems may absorb more orally ingested TiO<sub>2</sub> than someone else), etc.

But according to the literature, the evidence seems to show that TiO<sub>2</sub> nanopowder isn't problematic when applied externally to the skin, but more than that, it seems to actually mitigate the apparent toxicity of externally applied ZnO nanopowder when the two are used in combination.

<https://pubmed.ncbi.nlm.nih.gov/28464994/>

<https://pubmed.ncbi.nlm.nih.gov/36014634/>

So in this particular case, it is probably okay.

In my case, to protect from too much solar UV mediated skin damage, I rely on diet and a few nutritional supplements such as astaxanthin, grape seed extract, green tea, etc.

<https://pubmed.ncbi.nlm.nih.gov/29941810/>

<https://pubmed.ncbi.nlm.nih.gov/31141292/>

<https://pubmed.ncbi.nlm.nih.gov/26114360/>

<https://pubmed.ncbi.nlm.nih.gov/17363493/>

(Also one of the compounds generally found in grape seed extract, procyanidin C1 has been shown to have a general anti-aging effect).

In any case, based on all the papers on the subject of TiO<sub>2</sub> toxicity that I've seen – which are quite a few – I have to conclude that titanium dioxide should be avoided in any food, nutritional or pharmaceutical product whenever possible. (And the same goes for silicon dioxide which seems to be almost as bad).

And BTW the evidence suggests that it should be avoided in toothpaste as well:

According to the internet, very high levels of troponin are a sign that a heart attack has occurred. In addition, troponin elevation and electrocardiographic abnormalities after a recent influenza-like illness are red flags for myocarditis.

Dr. Buttar said that he suffered a stroke. He said that the normal troponin T level is 21 or 22, but his was elevated to 342, indicating myocarditis or pericarditis. He said that his D-dimer levels that measure coagulation were 16 times higher than normal.

Maybe the Powers That Be have something which accelerates the destruction of a body, but it's easier for me to believe this fellow died of some condition he already had.

The interview took an interesting turn when Mr. Barrett said the "Dancing Israelis" at 9/11/2001 had admitted they were present in New York to "document the event". Basically a confession the Apartheid state engineered the events on that day.

I doubt that assassination had anything to do with Buttar's death.

The choice of a hospital ICU is ALL IMPORTANT. All (**\*\*AS IN EVERY\*\***) COVID death is SEPSIS – which is a bacterial infection not a virus that comes from intubation and ventilation. Sepsis infection is a superbug for which there is no antibiotic.

Hospital sepsis death rates in Japan are 18%; in the US 50% to 80% depending on hospital. One of the big differences is in Japan they do a kidney dialysis if possible, as sepsis is a blood infection that results in a domino effect of organ failure. Once one organ fails, most likely kidney, the others will also fail.

Lesson to be learned about the COVID bugaboo – do not let the Fire Department select the hospital to go to based on which has an empty bed. And the most prestigious hospitals do not have lower sepsis death rates. Do research on hospital beforehand. Do not approve intubation or ventilation; a breathing helmet is better. Do not allow Remdesivir or generic equivalents that harm the kidney.

Half of the article consists of rambling that has nothing to do with the article but is only meant to “info-dump” on the reader. This is incidentally also a fairly common tactic used by cults to recruit new people.

Kevin Barrett has turned into an embarrassment for Unz, just like Andrew Anglin with whom he shares the same pathological fixation on jews. It’s time to retire both.

He was presumably on the Hit List of many dozens, if not hundreds, who were killed as part of the JFK-RFK assassination coverup.

Admitting that it is all conjecture?

We have red flags. We have smoking guns. We have corroborating evidence. SARS2 was made in a lab and incorporates genes from HIV and a Moderna cancer patent. The vaccine delivers all the same weaponized features to your cells. Why these were made and distributed is a question you must answer for yourself.

You bring up an interesting variation on a standard point:

The cost/person of killing people *en mass* drops as human knowledge increases. This first became obvious in military applications, the “WMD” so called. Now it’s showing up in gene splicing and pharmaceuticals. Considered as a biological warfare project, the (cost imposed)/(development cost) ratio is extremely small.

Granted that it took the US Federal Government to fund the effort, the fact is that the whole effort was apparently “off the books” after Fauci was told not to try “gain of function” investigations *in US facilities* and in reaction moved the gain of function lab work overseas[1]. Fauci *might* have thought that gain of function research coupled with immunization research coupled with an “all of society” response to biological attacks would be a net gain for human security — Fauci isn’t very bright of necessity in that he is a successful bureaucrat. However, his project can be described as a comparatively small group of rogue bureaucrats and income seeking vendors who killed/crippled very many people through sheer ineptness.

One wonders what the future holds as the above ratio continues to drop. Could the AI warnings eventually have validity? The dangers of genetic engineering were thoroughly discussed decades before Fauci.

\*\*\*\*\*

1] Fauci moved them to a French built facility in China and to

various old Soviet facilities in Ukraine. From a containment perspective, he might as well have moved them to his kitchen sink.

I don't know if I want to watch more than five hours to see if I will discover something I don't already know.

So it starts off with Holocaust survivor stories, like so many others we've heard before, and then it goes into all these globalist control schemes, that we also know about from numerous videos.

But does it tell us that Jews are the major players in all this? Apparently there is a Jew-Nazi alliance and, according to Ron Unz, the Nazis are now the minor players controlled and directed by Jews.

*The Fall of the Cabal* was only 3 hours long and it exposed much of what was going on up to a couple of years ago. How much more will it benefit me to now spend more than 5 hours on this new video series?

This is what the ADL had to say about *The Fall of the Cabal*

Fall of the Cabal is an antisemitic 2019 documentary created by Dutch conspiracy theorist Janet Ossebaard about the downfall of the cabal, the global elite who control the world. The video is a popular recruitment tool for QAnon followers.

<https://www.adl.org/glossary/fall-cabal>

I don't remember that it singled out the Jews as the main culprits, although the main culprits do appear to be Jews. And the "popular recruitment tool for QAnon followers" statement seems ridiculous, as QAnon is not an organisation.

Has the ADL passed judgement on *Never Again is Now Global?*

America has a full-of-Americans problem.

E.g. the Dutch decided it wasn't cool to legalize running over toddlers and forced their government to make it illegal again, and that's why their cities are navigable without a car. What's the difference? The Dutch aren't American.

You can't fix America's banana-republic tier politician death rate without making it not-America. In the meantime, don't go near politics, which shouldn't exist to go near in the first place.

Lords aren't peasants and don't respond to training. Instead, it's a matter of pragmatic effectiveness. America is a usurper regime and it's impossible for the psycho lords to secure their property. Any attempt would have the opposite effect of letting their usurping rivals know the location of the valuable property. By process of elimination they have to kill anyone who threatens to learn the wrong things.

That's what you get for trying to have a Democracy. Plato didn't notice that Democracy and Tyranny are the same picture. It's simple justice.

| with the major Western countries having abandoned the use of assassination in the 17th century after the end of the bloody Wars of Religion.”

Haha! No.

Instead, public leaders and real leaders diverged, so assassinations became less obvious. Why bother assassinating a puppet? Meanwhile, if you manage a hit on the real power, the “public” (lel) doesn't notice.

The Wars of Religion were caused by punctuated-equilibrium shift in the decay of responsibility. Dishonourable leaders rose to power, and were, predictably, irresponsibly violent. Wisely, they put mindless cutouts in between themselves and the blowback of their own actions.

it's worth noting that the re-emergence of assassination has coincided with a decline in religious belief

Ah yes, the way the Wars of Religion coincided with a decline of religious belief?

National leaders who contested the COVID-19 narrative, such as Haitian President Jovenel Moise, Tanzanian President John Magufuli, and Burundi President Pierre Nkurunziza, have also been dying at relatively young ages. These leaders have been replaced by people who support the official COVID-19 narrative.

The 'autobiography' isn't one.

It was written by Haley, not 'completed' by him. Partly based on interviews with Malcolm Little.

Haley's more famous work is, of course, *Roots*, pure invention presented as having some basis in reality.

The Malcolm X 'autobiography' is entertaining, worth reading once, but reflects very badly on Malcolm Little, probably accurate on that, and much, particularly early life, is just Haley's invention.

In particular, there is zero evidence for the murder of his father, likely he was simply an early example of African behaviour in U.S. of now.

@Kevin Barrett

Kevin, you were right to state that:

The above list obviously comprises only a minuscule fraction of likely US domestic political assassinations since World War II.

But if you stand in the way of empire as an “actionable threat,” you’d better wear body armor and stay out of small planes.

Many in the commentariat have made mention of some of the others that met an early demise in the U.S, and the most prominent of all (in my opinion), was JFK Jr in a light plane crash.

JFK Jr would very likely (assuming no vote tampering/rigging in the primaries), have become the 44th President in 2008 instead of Obama, had he not been snuffed out.

Someone high profile that hasn’t been mentioned in the comments that was taken out by ZOG in a light aircraft ‘mishap’ , was America’s most decorated WWII combat soldier – none other than Audie Murphy.

What many may not be aware, other than for some hardcore JFK researchers, is that Murphy’s patriotism didn’t end when WWII ended.

Murphy was determined to find out who was behind JFK’s murder.

Together with LAPD officer Gary Wean\* whom he befriended, Audie Murphy was making serious inroads into revealing what entity orchestrated the JFK coup d’etat when, in 1971, the small aircraft that he was flying in crashed.

Murphy also was close to and had countless interactions with Dallas County Sheriff Bill Decker, so no doubt received some

inside info from that source as well.

Readers may also be interested to know the following piece of trivia:

Audie Murphy and Officer J.D. Tippit both did basic training at Camp Wolters, TX

Michael Collins Piper, in his benchmark analysis of the JFK assassination via his book 'Final Judgement', mentions the Gary Wean/Audie Murphy team effort to solve the mystery.

Michael Collins Piper knew Gary Wean very well indeed and some claim that Wean may have inspired Piper to write the book.

(\*UR readers may get something out of the following article titled 'GARY WEAN AND THE JFK ASSASSINATION':

[http://www.fourwinds10.com/siterun\\_data/history/american/news.php?q=1247262866](http://www.fourwinds10.com/siterun_data/history/american/news.php?q=1247262866)

Just think about who Audie Murphy was and how well respected he was among the American citizenry.

Much more so than if somebody of the calibre of Dorothy Kilgallen were to come out with info on the JFK hit, if Audie Murphy were to say that ZOG was behind it, ALL OF AMERICA would listen and take heed.

That's why it was imperative that Audie Murphy had to die. Because, let's face it, this was not the type of bloke that lacked courage or feared death. The usual threats and intimidation to STFU that is the standard fare of ZOG, was not going work on him:

Meanwhile Kevin, you ended your article with this:

Some of Buttar's statements, including arguments that all COVID vax recipients will be dead within a few years, were obviously fallacious.

I guess it all depends on what you deem to be 'a few years'. I would say ten years is still a relatively few number of years. Kevin, if you're familiar with the videos of Dr John Campbell ( he's still up on You Tube and they're yet to ban him – because

he is using OFFICIAL GOVERNMENT DATA), and he shows that Excess Death All Cause Mortality is way, way up in various heavily vaxxed countries.

Meanwhile, someone sent me the following exchange from a high profile physician that didn't want to jeopardise his career and thus said this in an interview on the condition of anonymity:

Question– Does the Covid-19 vaccine damage the immune system?

Answer– It does. It impairs the body's ability to fight infection, viruses and disease.

Question– If that's true, then why haven't more people died after getting vaccinated?

Answer– And all I'm saying is that if the vaccine is lab-generated pathogen– and I think it is– then it certainly was not designed to kill people on the spot. It was engineered to produce a delayed reaction that gradually but relentlessly erodes the health of the vaccinee.

In other words, the full impact of the blood clots, bleeding, autoimmune issues and other vaccine-generated injuries will only be fully felt at a later date via increasing incidents of heart attacks, strokes, vascular illness and even cancer.

The [Covid] vaccine is a man-made, lab-generated bioweapon that disables the body's critical defence system which increases one's susceptibility to disease by many orders of magnitude.

With each additional injection, one is less capable of mounting a sufficient response to routine infections, flus or viruses. That's going to lead to a tsunami of sickness that will likely overwhelm our public health system and plunge the country deeper into crisis.

SUMMARY: The culling of humanity from the Covid clot shots is not over by a long shot.

Dr Peter McCullough, last time I heard him put a figure on it, said that 450,000 had died from the clot shots in the USA alone, with countless millions having suffered severe adverse effects.

The internationally respected Dr Roger Hodkinson was not nearly as optimistic (11 min video):

It remains to be seen whether or not all DARPA death jab recipients will be dead in a few years, and there is nothing obvious about how that will work itself out in any one way or another. What is 100% certain is that the empire will continue the ongoing assault on humanity, justice and truth in order to preserve the exorbitant privileges it enjoys today.

Operation Mind Control by Walter Bowart. CIA has been able to induce heart attacks since the 50's. Also, Howard Hughes Medical Institute documents from 70's show work being done targeting disease towards blonde vs dark hair, blue eyes vs brown, probably an extension of Mengele and Ishii. With the tech advances like Crispr and psychotronic weapons, it is all so so much worse than we can imagine. If anyone can "get got" with their OWN CAR, like the Rolling Stone guy that pissed off Gen McChrystal, then it doesn't take much insight to guess what can be done in the shadows. The only way forward is to not want what they're selling, like Merton, and even then it's futile. Pandoras box has been opened, and where it will lead is oblivion.

That was quite an illuminating post. I knew quite a bit about Audie Murphy, but I had no idea about a likely assassination. I suspected as much about JFK, Jr. It's disheartening, to say the least.

My daughter took the jab against my wishes. She had to have it for graduate school. I'm hysterical about it all the time. Males seem to be most affected by it, but I believe what the "revisionist" doctors are saying.

This is a short video of a doctor speaking on it that gives me a bit of hope. I would be interested to know what people with a bit of knowledge think of what he says.

Another Covid article ? The topic is creeping back into the daily news. Is there a reason? Is there no world shaking fear mongering drama to report ?

If the purpose of the vaccine was to trim the population, the perpetrators were as dumb as fuck. The recovery rate was 99.85%. Idiots though who got jabbed, got sick several times

Maybe, the trimming will increase when these bozos, weakened by the dope, drop dead. Maybe it was a test run for another shut down with a more lethal drug cocktail. Maybe it was just a grift.

Whatever it was, people lined up to get their dope, Numba 1 and Booster 2, 3, 4 etc. Alpha, Beta, Delta, Omricon, Babbalala ! If you are dumb enough to trust the rulers to be injected then too bad for you.

My feeling is that it was a rip off and there is another one coming. The public, as dumb as ever, will once again line up to get the needle. Covid's 99.85% recovery rate matches the stupidity rate and the grifters know it !

Since the US empire has killed roughly 60 million people worldwide since World War II, according to the well-documented Chomsky-Vltchek estimate, the empire seems to have trained a considerable number of highly proficient murderers. These well-paid liars, cheaters, stealers, and killers are unlikely to magically change their skunk-stripes every time they return across the US border. Trained to commit assassinations abroad, they inevitably find ways to use their black ops skills at home.

Amurka must be dismantled, partitioned into smaller republics based primarily on racial primacy-White, Brown, and Black. This should be done by concordat and negotiation. See Brother Nathaniel on Real Jew News and do a Search on Secession.

*Indeed, a fair bit of evidence points in that direction. And when one of the most prominent voices warning of such possibilities, Dr. Rashid Buttar, claimed he was poisoned during an appearance on CNN, and then dropped dead a few months later at age 57, you don't have to be paranoid to wonder whether "they" might have been out to get him.*

It doesn't make any sense given the timeline.

His CNN interview was in May of 2023. Booster uptake massively dropped last year.

<https://www.msn.com/en-us/money/other/covid-boosters-sour-for-pfizer-moderna-with-uptake-rate-at-16/ar-AA18sTw9>

COVID is over. The government doesn't even provide weekly reports anymore.

So why would "they" risk a massive conspiracy and murder charge when vaccine uptake was already in massive decline? What were they afraid of him doing? Discouraging booster uptake? That was already happening.

It's what you die of that matters, not whether it's "immediate" or "within a few years".

The general population, who for decades now have been receiving dozens (yes, dozens) of doses of you-name-it since babyhood, is not healthy. For heaven's sake, you must know that. Sure, they aren't getting the usual acute syndromes that us older nonvaccinated folk were prone to – and better off for having experienced. Now, it's neurological issues, autoimmune problems, weird syndromes right from birth, and overall degeneration.

Re Dr. Buttar, maybe he just died from poor health, including "stress" (a good catch all term). That is my thinking anyway. But the bad folks who run everything mix some obvious truth in together with silly lies and the populace just laps it all up. That is how you gain power and ultimately get the hoi polloi believing everything put under their noses.

My daughter took the jab against my wishes. She had to have it for graduate school. I'm hysterical about it all the time.

There are some seriously knowledgeable people here in the UR commentary.

(Then there is the opposing camp that slavishly follow the edicts of their 'wise overlords' in gubmint and do precisely as Big Brother instructs them to do. ie: those that got vaxxed and boosted to the nth degree – the same ones that engaged in Socialist Distancing, wore a face mask religiously throughout the Covid Psyop etc).

So, for those UR readers that are infinitely wiser than I am, please feel free to correct me where I get the following info wrong (seeing as I'm going from memory).

My understanding is that something close to 100% of the severe adverse reactions/deaths from the clot shots, came from just 5% of the batches.

In other words, 95% of the Covid vaxxes were benign and may well have been saline solutions or some such.

So, the good news is that if your daughter is OK so far, then she almost certainly took one of the placebo batches.

As long as she doesn't take any future boosters, then she very likely will be fine.

Anyway Mr 'Tiny-Tim aficionado', thanks for your comment and I wish you and your daughter all the best.

One last thing I'd like to add before I finish up here, is that the link I provided titled 'Gary Wean and the JFK assassination' in comment # 54, was the first article I found after a brief search

using Yandex.

It was not the most informative article that I recollect ever reading over the years about Gary Wean and his relationship to Audie Murphy in attempting to resolve the JFK crime.

I recall a time in the past when I'd enter their names in a search, and there would be a ton of material that showed up, revealing the nitty gritty on what they had uncovered about the JFK coup d'etat.

These days, it just seems to have disappeared – as in been purged by ZOG.

Either that or ZOG algorithms were employed by the likes of Google that might place the juicy articles well down in the search – as in having to scroll through to page 73 before you find it.

Much as I detest using Google, I just tried searching for Gary Wean and Audie Murphy and came up with this article (which I have yet to peruse):

<https://www.ahealedplanet.net/cover-up.htm>

Perhaps UR readers will get something useful out of it.

Yeah, and on the other hand, people have an overweening need to find a complete explanation, a conscious agent behind everything. They used to believe in God: earthquakes didn't just happen, we did this and that, and it pissed God off. God did it.

Now it's conspiracy theories. If you can't have God, you can at least have the CIA, or the Trilateral commission, or whatever.

Thinking that many previous conceptions of the USian self were rather lacking and therefore “assasination” of the critically thinking mind is present. The Cartesian Self, after all, is largely a bloodless abstraction. The Kantian Self (“The Transcendental Unity of Apperception”) is slightly more fleshed out, but still essentially insubstantial and lifeless. One could argue that the Platonic Self was a mixed bag too.

Most selves, in Plato’s mind, were selves of “inferior metals,” which needed intensive modeling by the superior “Guardian Selves,” etc. etc. But even granting that your reservations have merit, and are good food for thought, we do think that people like Fichte, the Schlegels, Novalis, and others, elaborated and gave life and vigor, weight and heft, to the more “ghost in the machine” conception of the self, which was in floating around in the atmosphere of the time.

At any rate, for a nice, interesting introduction to the thought of Fichte, and his more “robust” conception of the self, this is a good series, which nicely complements Wulf’s book:

Or the death in a “fire” of Apollo 1 astronaut Gus Grissom, who was locked inside the command module with two colleagues, and was burnt alive, allegedly after the oxygen-enriched atmosphere inside the cockpit got accidentally ignited by an electric spark.

Gus Grissom, a bona fide war hero, had earlier publicly expressed his doubts and distrust about the quality of the Apollo spacecraft, by hanging lemons to the cockpit.

His family also believed he was deliberately killed.

Virgil I. “Gus” Grissom, the astronaut slated to be the first man to walk on the moon, was murdered, his son has charged in the Feb. 16 edition of Star magazine.

“My father’s death was no accident. He was murdered,” Scott Grissom, a commercial pilot, told Star.

Clark Mac Donald, a McDonnell-Douglas engineer hired by NASA to investigate the fire, offered corroborating evidence. Breaking more than three decades of silence, Mac Donald says he determined that an electrical short caused by the changeover to battery power had sparked the fire.

He says that NASA destroyed his report and interview tapes in an effort to stem public criticism of the space program.

My comment is response on comment twenty five and similar mouthy bs. It's obvious the individual knows nothing about him. Buttar was one of the relatively few people that could be called a doctor, or more accurately, healer. One of the most under-discussed poisons shoved at people are metals in foods and water and 'vaxs' etc. His primary focus in practice, was treating autism, children, somewhat linked to vaxs, using chelation type treatment, also some cancer treatment. The cons have been very pressurized about keeping people from focus on this, and as restrictive as they can get away with on substances that chelate well, because it interferes with their schemes.

Will diverge here a moment with perspective which is mine not necessarily his, the con schemes including weakening us, and metalicizing us, as part of their surviellance and 'control grid', which is grossly further along that people assume. Notice 'cereals, shove 'vitamins and minerals' – which isn't to benefit it's to slide iron into people, also 'enriched flour' bread bs. Beside accelerating aging, iron is magnetic. Control grid. It is difficult to chelate iron. The bit of iron in beef etc or other food would be irrelevant if not for the constant jamming of 'iron' by the cons.

Back to point, Buttar was having good results treating autism using chelation, and before long, and after being attacked because he spoke out about autism and chelation he was further attacked by the cons. There have been others also, natural type healers have been savaged a long time. I know of many but not mentioning them.

What is notable is the number of people he helped, yet when the cons were hammering him, how many of the breeders whose kids he helped, turned around and fought for him. None or not enough. Though chelation should be used by each of us and

vastly more used by 'doctors' than it is, doctors who use it are wary because of the cons. And remember at least half of supposed doctors – are cons, so they attack others who are actual healers, same on 'college' or supposed 'pharma'.

This is why good people are sidelined. Because the selfish people take and don't put into the fight against the cons, before being affected, or even after. The cons continue destruction because ignorants refuse to fight.

In addition to his practice, he also had a product he made that was very useful. Not going into what it was but was how I came across him, over a decade and half ago. Natural, mostly focused on aminos, on the expensive side but worth it. Many people used the product. Who of them were there to fight for him when he was being attacked. None or not enough.

After a while of being attacked, and after between 'fox' newz had interviewed him, talking about autism and vaxs and treatment, I noticed the half-cons or masons or whatever you want to call them sort of sidled next to him, and in my opinion were handling him, or maybe more accurately, helping him handle the cons, or maybe both. Just some signaling I picked up on. It gets murky when you're attacked.

Because I've been focused on own efforts to oppose schemes the last decade and more, had not looked at what he was doing on covid, though between having exposure per fox, or as mentioned more recent, jfk, the pressure of position when focus is on you, and over years seeing people sit and sit, on the claim of him dying, its possible after all he did years and years and being attacked, it could be instead of dying, he agreed to disappear.

I don't want to get into an argument whether he died or disappeared, which if he died would be common on what the cons do, and should make people mad, not scared, or if the latter I would wish him nothing but well. He did his time and then some trying to forward energy and wellness to others. And he said though, at this point on world situation, unfortunately for any of us there is no well, only temporary, until the cons hit everyone and it's permanent, -because too many selfish people refuse to stop going along with fake 'normal' and be serious make effort against destruction and threats in our face. There is No 'deep state'.

I talked with him just once long ago. Good man. If I'm slightly off on something, whatever, am writing from topical memory, and have my own pressures. If there were something slightly off he said at some time, it's because he was pressured. No one is in position to deride him/his memory until you have seriously put into the fight –yourself. It's not about tv or media, but sharing info, local focus, doing something, not nothing. He made good effort in the world and standing against the cons long before he became more 'known'.

—

I wrote the above before doing search using terms I knew would or should pull the fraudulent attack on him– Note the cons pick dates to 'publish' their bs using five or eight or eleven, because they have 'positive' affect when see them, this bs 'published 'April 8 2008'.

[https:// sciencebasedmedicine.org/the-north-carolina-board-of-medical-examiners-dr-rashid-buttar-and-protecting-the-public-from-practitioners-of-non-science-based-medicine](https://sciencebasedmedicine.org/the-north-carolina-board-of-medical-examiners-dr-rashid-buttar-and-protecting-the-public-from-practitioners-of-non-science-based-medicine)

close gap after https// and copy/paste to browser, separated because not going to have whole bs blue link, blue links another situation, bs blue is 'calming' dumb down. Unz doesn't make

links blue for that purpose, he probably doesn't know the blue con and just that way because most others are blue.

The bs spew is word for word example of vile lying scum by cons. Chelation is simple and old and those who bothered to know of it or use it know effects are measurable and positive. Buttar and others use/d as treatment for autism – and also cancer – were probably not unaware of the cons control grid schemes, only using for wellnes. The schemes I explained above are central to their terrsm and assault on us. They have invaded our bodies and continue many ways, beside chemicals or iron in food/'enriched bread', also nano chips which they in part conructed as 'sythetic life' – so even harder to remove if not impossible. Remember over a half milion in the kabal. Back to link, the vile and fraudulent spew is example of what dupes claim as 'govt state' or most 'medicul' bs. – Again using a bogus 'victim' or 'helpin' duh public' bs cover – to spew so they continue poisoning and dupes don't fight back.

Not putting on other info on chelation. It was on people to know instead of ignoring. There is probably some info left on web but most of best buried. Whether poison food or fluoride water or false 'wars' or gmo bs or other destruction, ignorance has consequence.

Ef the scum vile scum cons and every selifish ignorant who sits on a-s.

My post is long and apologize length, just happen to have personal experience. Assume the moderators may anyway but ask to put the 'more' tab/flap over most of my post so doesn't take up too much space.

The cons have an assasination problem, though problem is against each of us, the more visible resisters made 'example' by being attacked, couldn't be if people shoved back. The fraud

'wars other example of murder inc, for people doing –nothing.

Remember that.

Appreciate the article and video from Kevin, another mind of venture and spirit and grit.

Marilyn Monroe RIP; John Lennon RIP; Keith Moon RIP; Janis Joplin RIP; Jimi Hendrix RIP; Sam Cooke RIP; Victor Jara RIP; Tupac Shakur RIP; Bob Marley; and perhaps many, many more. Some are obviously spontaneous murders, however many others are suspicious — especially when they died under the same circumstances.

Artists enjoy wide spread popularity and frequently allude to powerful interests as responsible for illegal and illegitimate behaviour. Or they are against certain wars which serve money and power. In conjunction — not collusion — these artists, as often as not are persuasive. Obviously the Vietnam War was an instance where millions of young Americans were rallying against the war. Popular musicians were threatening to establishment figures and their policies.

These murders and untimely deaths certainly had a chilling effect. The turn to more anodyne entertainment themes and rhythms, especially disco, soon replaced the protest song. In fact certain musicians were unable to get contracts with the record companies.

It truly amazes me how naïve North Americans are. Of course brainwashing large populations and the methods advanced by Edward Bernays answer somewhat for American passivity. ... And the view that America can do no wrong.

For those unfamiliar with Bernays' observations vis a vis engineering consent.

“The conscious and intelligent manipulation of the organized habits and opinions of the masses is an important element in democratic society. Those who manipulate this unseen

mechanism of society constitute an invisible government which is the true ruling power of our country. We are governed, our minds are molded, our tastes formed, and our ideas suggested, largely by men we have never heard of... It is they who pull the wires that control the public mind.”

Edward Bernays

Bernays again. The standardized marketing approach in the modern age is to appeal to the target markets' deepest desires,, and make them feel like they want, or even need the service or product on offer.

Wait! There's more.

“Tolerance and apathy are the last virtues of a dying society.”

Agreed, Satanists they are and not atheists. You can't rule for centuries in this satanic form and not have the assistance of satan and his minions. Satan and his minions have been assisting their human variants for centuries. But black magic is not real and all that ...oh well how else do you explain it then!

@the Man Behind the Curtain

If SARS2 is a genotypically targeted bioweapon, the people least vulnerable to it appear to be Ashkenazis and East Asians (a genotype that extends across Russia). If Mr. Unz still thinks that SARS2 was a biological warfare attack against China (South Asians), perhaps he better also include people of European descent amongst the targets. Then he can abandon his preposterous “boomerang” theory. South Asians and Europeans have also been the populations most targeted for vaccination. Is this because the vaccine actually protects against the virus? Or is the vaccine the actual bioweapon?

Unz is an Ashkenazi, no?

As for the vaccines, I find the issue again confusing. Yes, Israel has been exposed to more COVID vaccines than anyone else and the Jewish overall seem to be diehard vaccine pushers (although the vaccine deniers are also teeming with Jewish). But the vaccine doesn't even need ACE2 receptors to get in your cells, because it uses a nanolipid interface. Right?

However, if the vaccine causes your cells to make spike proteins, and if these spike proteins circulates in the body, they could bind with ACE2. But the spike protein by itself doesn't deliver genetic information to the inside of a cell. Although it does cause disease in other ways.

It is a multifaceted weapon.

The chances of a virus like this occurring naturally are comparable to WTC7 collapsing the way it did. Next to nil. When you add in the fact that the collapse of WTC7 was reported before it happened (precognition?), just like SARS 2 was

proposed to DARPA under Project DEFUSE, it becomes readily apparent that the virus, like the collapse, was deliberately engineered.

Gotta crack some eggs to make an omelet.

The most ironic token of [the first human moon landing] is the plaque signed by President Richard M. Nixon that Apollo 11 took to the moon. It reads: "We came in peace for all Mankind." As the United States was dropping 7 ½ megatons of conventional explosives on small nations in Southeast Asia, we congratulated ourselves on our humanity. We would harm no one on a lifeless rock.

Of course Sagan was still a big Moon landing pimp.

Bernays – father of us empire propaganda fits well with the passive moronic us populace who are so easily duped just like their Pilipino breathen.

Harvard did a study about the effect good relationships have on ppl's well-being. Here's a Q&A w/ director of the Harvard Study of Adult Development, Robert Waldinger

<https://news.harvard.edu/gazette/story/2023/02/work-out-daily-ok-but-how-socially-fit-are-you/>

The study spanned several generations thru the course of their lives. Robert Waldinger co-wrote a book called “The Good Life”. One of his findings was that good relationships are key to one's well-being. My own observation is that most Amerikkans don't have that many close relationships not want them. This has been further eroded by the obsession w/ techno gadgets, as any longtime thinkers already know. It's no wonder most of 'em are big-time us psych pill poppers. It's a sick and dying fake society.

The huge problem for USAians is that the dominant narrative, the propaganda/ marketing term: “American Dream,” is based on competition, hyper-consumerism, greed, stepping on others, fraud, rivalry, huckstering, hustling, mental-physical abuse, and one-upmanship.

Fundamentally, USAians are narcissistic; they don't give a shit about the other person, and don't know **\*how\*** to be social, let alone authentically loving. Their lives are total crap, and they are basically miserable and empty ontologically and intellectually. They live in buffoonery w/o even knowing it. Mr. Wright, anent 86, no need for theories, just stick to incontrovertible facts: documentation in black and white permitting CIA to kill you and torture you and get away with it, whoever you are.

The National Security Act, the Central Intelligence Agency Act, The Intelligence Identities Protection Act, the operational files exemption, the political questions doctrine, the state secrets privilege, the utmost deference doctrine, the deference upon deference doctrine, FASAB Standard 56, NSC 10/2, the National Security Directive of December 19, 1947, the Rogers-Huston memo et seq.

Read them and see.

The corollaries, again not theories but deductions from CIA's get-out-of-jail-free cards:

1. CIA is the state. Everything else is subordinate because CIA impunity confers arbitrary power over poor chumps constrained by law.

2. The US government is a criminal enterprise. And when you have impunity for crime, it pays. If you're CIA, you can have Richard Blee sabotage the WTC as war propaganda, a pretextual casus belli, and then you can clue in AFIO old boy AB Krongard to make a mint with insider trading in options. With the state monopoly on violence you can grant organized crime concessions for drug-dealing, gun-running, child trafficking, blackmail, extortion, fraud, and theft. All of this is documented in forensic-grade open source evidence by civil society transparency activists including Whitney Webb, James Douglass, Gary Webb, Graeme MacQueen, and Jim Di Eugenio.

3. State responsibility doctrine, also documented fact in black and white, makes ultra vires acts the responsibility of the state. When persons under state control commit serious crimes, the buck stops with CIA. When these acts are “denied” or “covert,” or not in conformity with the UN Charter, supreme law of the land (UNTOC) makes them transnational organized crime.

4. There are no theories here. There are facts and law, an open-and-shut case judiciable in universal – any – jurisdiction. CIA will see that when the SCO wins this world war and slams the Langley scumbags in the glass booth at Khabarovsk II. If it’s that or get nuked, the officer corps will throw some SIS virgins into the volcano no problem. Or maybe let us at em for some drumhead courts.

Yes, Forrestal was involuntarily confined for mental illness (disagreeing with the neocons), and they claimed that he jumped from a 16th floor window...As if mental wards have windows that open so patients can jump....Some claim he was killed for wanting to disclose the alien craft crashes that the US was trying to reverse engineer...

Malcolm X is killed in the Audubon Ballroom, New York, in the wake of his attempts to unite Muslims and blacks with Third World anti-US-empire forces.

This patently false. He was murdered because he came back from Mecca preaching the brotherhood of man. The Nation of Islam was defined by hating whitey, and the new Malcolm could not be tolerated.

*It remains to be seen whether or not all DARPA death jab recipients will be dead in a few years*

Actually we know it is BS.

He said anyone that got the vaccine would be dead in 2025.

Well it was tested 2 years before general release on college students.

That is an isolated and contained group.

If you think that someone flew under the radar then you have to consider that medical professionals were given early access. 95% of doctors will die next year according to the late doctor.

I'm guessing.....not.
